Introduction

The purpose of the combined mental health application is to streamline and merge two programs into one application. The Youth Mental Health Awareness Training (YMHAT) Plan and the Mental Health Assistance Allocation (MHAA) Plan are to provide supplemental funding to districts so schools can establish, expand and/or improve mental health care, awareness and training and offer a continuum of services. These allocations are appropriated annually to serve students and families through resources designed to foster quality mentalhealth. This application is separated into two primary sections: Part II includes the YMHAT Plan and Part III includes the MHAA Plan.

Part I. Mental Health Assistance Allocation Plan

In accordance with s. 1011.62, F.S., the MHAA Plan allocation is to assist districts with establishing or expanding school-based mental health care; training educators and other school staff in detecting and responding to mental health issues; and connecting children, youth and families who may experience behavioral health issues with appropriate services.

Submission Process and Deadline

The application must be submitted to the Florida Department of Education (FDOE) by August 1, 2022.

There are two submission options for charter schools (MHAA Plan Only):

- Option 1: District submission includes charter schools in their application.
- Option 2: Charter school(s) submit a separate application from the district.

Planned Outcomes

Identify two specific and measurable goals that will be accomplished within the 2022-23 school year, and specify which component of Charter Assurance 1.a. directs that goal (refer to the Guidance Tab if needed).

By the end of the 2023 school year, 100% of teachers and support staff will receive YMHFA training by our on-site counselor/LCSW who is a certified YMHFA facilitator.

At least 80% of teachers will provide evidence that they implement community building time and use the resources provided to them from Character Strong.

Charter Program Implementation

Evidence-Based Program	YMHFA
Tiers of Implementation	Tier 1, Tier 2
Describe the key EBP components that will be implemented as well as any related activities, curricula, programs, services, policies and strategies.	
YMHFA training	
Explain how your district will implement evidence-based mental health services for students to improve the early identification of social, emotional, behavioral problems or substance use disorders, as well as the likelihood of at-risk students developing social, emotional, behavioral problems, depression, anxiety disorders, suicidal tendencies, and how these will assist students dealing with trauma and violence.	
Through YMHFA training, teachers will be equipped with evidence-based practices to identify, understand, and respond to signs of mental illness and substance disorders.	
Explain how the supports will deliver evidence-based mental health care assessment, diagnosis, intervention, treatment, and recovery services to students with one or more mental health or co-occurring substance abuse diagnoses and to students at high risk of such diagnoses.	
A YMHFA trainer will train all teachers and staff who haven't complete the training on January 30, 2023.	

Evidence-Based Program	Restorative Classroom
Tiers of Implementation	Tier 1, Tier 2
Describe the key EBP components that will be implemented as well as any related activities, curricula, programs, services, policies and strategies.	
In addition to the evidence-based practices outlined in the YMHFA training, awareness and prevention efforts to address mental health issues will include community circle time, cooperative learning strategies, mentoring programs, restorative practices, and positive character development through Character Strong.	
Explain how your district will implement evidence-based mental health services for students to improve the early identification of social, emotional, behavioral problems or substance use disorders, as well as the likelihood of at-risk students developing social, emotional, behavioral problems, depression, anxiety disorders, suicidal tendencies, and how these will assist students dealing with trauma and violence.	
Awareness programs at Tier I include responsive classroom, Kagan cooperative learning structures, social skills (morning meeting/community circles), restorative practices.	
Explain how the supports will deliver evidence-based mental health care assessment, diagnosis, intervention, treatment, and recovery services to students with one or more mental health or co-occurring substance abuse diagnoses and to students at high risk of such diagnoses.	
80% or more of teachers will document and affirm use of social and emotional resources.	

Direct Employment

Explain how direct employment of school-based mental health services providers (school psychologists, school social workers, school counselors and other licensed mental health professionals) will reduce staff-to-student ratios.

The school currently contracts with one on-site counselor/LCSW and one school psychologist who work with our school based mental health team (Principal, Dean, SRD, Restorative Coach, Data & Intervention Coach) to provide interventions and services for mental health and behavioral needs.

Describe your school's established policies and procedures to increase the amount of time student services personnel spend providing direct mental health services (e.g., review and revision of staffing allocations based on school or student mental health assistance needs).

The on-site counselor/LCSW and school based mental health team meet monthly to review staffing, students, and current needs. The increase of YMHFA certified teachers and staff will strengthen tier 1 support and allow the on-site counselor/LCSW to spend more time providing interventions and supports to identified students in need.

Describe the role of school based mental health providers and community-based partners in the implementation of your evidence-based mental health program.

Our on-site counselor/LCSW in coordination with the school based mental health team provides targeted tier 2 and tier 3 interventions, mental health assessments, and other implementation efforts.

When appropriate, collaboration with a students community-based provider will inform mental health interventions on campus.

Community Contracts/Interagency Agreements

List the contracts or interagency agreements with local behavioral health providers or Community Action Team (CAT) services and specify the type of behavioral health services being provided on or off the school campus.
