Eligibility and Allocation

Eligibility

Eligibility for 2020-21 TSSSA will be based on 2019 school grades and meeting one of the following criteria: a school implementing a turnaround plan or a turnaround school that has improved to a C or higher and has exited turnaround status within the last two years.

The preliminary allocation is based on a per-FTE funding amount of \$500 or as provided by the General Appropriations Act. Districts are required to complete a district-level plan. In addition, school-level plans are also required. The district and school level plans must be submitted to your school board for approval by August 1. The school board approved plan is due to the Bureau of School Improvement no later than September 1.

Allocation

School ID	School Name	Implementing ExitedExited Pr Year 1Year 2 A		Preliminary Allocation	Updated Allocation
1231 Griff	fin Elementary School	Υ		\$171,015.00	

Plan Assurances

Family and Community Partnerships

Assure that the school will implement strategies to establish comprehensive support services that develop family and community partnerships.

YES

Academic and Character Standards

Assure that the school will implement strategies to establish clearly defined and measurable high academic and character standards.

YES

Parental Involvement

Assure that the school will implement strategies to increase parental involvement and engagement in the child's education.

YES

Incentives for Instructional Personnel

Assure that the school will implement strategies to identify, recruit, retain, and reward instructional personnel.

YES

Professional Development

Assure that the school will implement strategies to provide professional development that focuses on academic rigor, direct instruction, and creating high academic and character standards.

YES

Focused Instruction

Assure that the school will implement strategies to provide focused instruction to improve student academic proficiency, which may include additional instruction time beyond the normal school day or school year.

YES

Plan Items

Family and Community Partnerships

Explain how the school will establish comprehensive support services that develop family and community partnerships.

We will continue to grow our mentoring program by strengthening our community partnership with Dr. Lake at Bethel AME Church. Our plan is to mentor a targeted group of students in attendance, social skills, academics, etc.

We will establish a Girls and Boys of Integrity program targeting students that have 2 or more indicators on the Early Warning System. The girls and boys of integrity program allows teachers to mentor struggling male and female students in grades 3-5 into highly effective, whole people within our school, community and homes. This program will enable students to be strong academically, socially, and behaviorally within the classroom, while increasing their student engagement, motivation, and leadership skills.

We will establish a PTO program collaborating with various members of our community.

Academic and Character Standards

Explain the strategies the school will implement to establish clearly defined and measurable high academic and character standards.

We will continue to implement and grow PBIS, Champs, and Sanford Harmony in order to develop SEL skills with our students.

Data Chats will be conducted quarterly with students in grades 3-5 to set goals for achievement.

Mentoring will be provided for struggling students with attendance, behavior, social skills, etc. using Scholastic R.E.A.L 7 month Mentoring. Program will have a literacy focus and each student will receive a total of 7 books.

After school tutoring will be provided for students in grades 3-5 to remediate skills. We will use Boys and Girls of Integrity to develop leadership and social emotional learning qualities with our students.

Parental Involvement

Explain the strategies the school will implement to increase parental involvement and engagement in the child's education.

We will create a school-wide Remind App in order to keep families aware of events at school. We will establish PTO in order to provide parents a platform in which they can contribute positively to the school.

We will continue to host Family Nights (Math Night, HallowRead, Science Night) which will offer capacity building strategies that parents can use at home to help with student achievement,

Polk - 1231 - Griffin Elementary School - FDOE TSSSA 2020-21

Griffin Elementary School

as well as increasing the partnership between school and home.

Google classrooms will be set up for every teacher on the school website. This interactive platform will allow parents to support core area subjects (Math, ELA, Science, and social emotional learning)

We will continue to work to increase our parent volunteers.

We will aggressively recruit parents to become involved in our SAC in order to provide parents a voice within the school.

We will host a separate Kindergarten Open House where we will convey the importance of attendance and ways they can support their student at home. Families that attend the Kindergarten Open House will receive professional development in the form of a workshop using Rise and Read Family Resources which provides parent tools and books for each student to help promote literacy and family involvement.

We will host Scholastic Literacy Events which promotes family engagement, an important component in early education that builds capacity, creates a shared responsibility for educational success, provides tools and confidence and gives educational leaders the capabilities to develop strong home, school and community partnerships. Each student also receives 3 books to take home at the end of each event. Events are grade level specific and will each be hosted on a different night.

In order to keep families apprised of school happenings and their child's attendance and academic performance, regular communications from the school will be sent home.

Incentives for Instructional Personnel

Explain the strategies the school will implement to identify, recruit, retain, and reward instructional personnel.

As referenced in the **K-12 ESEA Common Program Guidance**, Recruitment, retention and reward incentives must be based on a three-year aggregate state value-added model (VAM) score. If state VAM is not available, another student growth model may be proposed. The student growth model must be fair and reliable. The LEA must submit the model demonstrating the classification and distribution of non-state VAM teacher scores for approval. Incentives can be part of a structured pay system or a Memorandum of Understanding (MOU); however, the above criteria shall apply. Incentives for attendance and non-instructional personnel are not allowable. Recruitment incentives for teachers with less than one year of experience or for hard to staff positions will be considered on a case by case basis.

Teacher Ambassador will welcome new teachers to the school shortly after they are hired, including teachers are hired throughout the year as an ongoing source of support. Encourage new teachers to engage in support programs such as new teacher seminars, affinity groups, and other teacher engagement programs in the district.

New Teachers will receive a copy of the book "Great Habits, Great Readers"

We will creatively find ways to boost school culture and morale as a positive, solutions focused initiative.

Instructional staff will be compensated when they participate in family engagement activities.

Professional Development

Explain the strategies the school will implement to provide professional development that focuses on academic rigor, direct instruction, and creating high academic and character standards.

Leadership team will use the coaching cycle to provide teachers with differentiated feedback that will allow them to increase their skills in teaching. Leadership team will work with teachers to establish an area of focus for each teacher that will immediately improve the

Polk - 1231 - Griffin Elementary School - FDOE TSSSA 2020-21

Griffin Elementary School

quality of teaching and learning in their classrooms.

We will establish model classrooms which will be used to demonstrate highly effective teaching for other teachers.

Collaborative planning will occur weekly with our content area coaches to ensure that teachers understand the true intent of the standard and are aligning their teaching, tasks, and assessments.

Focused Instruction

Explain the strategies the school will implement to provide focused instruction to improve student academic proficiency, which may include additional instruction time beyond the normal school day or school year.

Data chats and goal setting will occur each quarter with students in grades 3-5 so they know where they are academically and what they need to improve on in order to grow.

After school tutoring will be offered to students in the tested grade levels to help boost and

After school tutoring will be offered to students in the tested grade levels to help boost and remediate academics.

The addition of additional Paraeducators for the tested grade levels will be used to provide small group instruction to improve academic proficiency.

The addition of a Math Interventionist will be used to target students in 5th grade for remediation through small groups.

The addition of a Reading Interventionist will be used to target the 30 students who scored below the 50% on the Winter STAR, as well as provide small group instruction to 4th and 5th grade students in reading through small group instruction.

Curriculum Associates Ready materials will be used to support small group instruction for the purpose of remediation.

Part V: Budget

This section will assist in generating a school TSSSA budget for submission based upon each budget item tied to a Plan Item identified in the Part III: Plan Items.

Access the budget by clicking the blue Manage Budget button. This will direct you to the Budget page. This page includes the breakdown of funds by Plan Item.
