Section F: Charter Governing Board Approval	10

Introduction

The purpose of the combined mental health application is to streamline and merge two programs into one application. The Youth Mental Health Awareness Training (YMHAT) Plan and the Mental Health Assistance Allocation (MHAA) Plan are to provide supplemental funding to districts so schools can establish, expand and/or improve mental health care, awareness and training and offer a continuum of services. These allocations are appropriated annually to serve students and families through resources designed to foster quality mental health. This application is separated into two primary sections: Part II includes the YMHAT Plan and Part III includes the MHAA Plan.

Part I. Mental Health Assistance Allocation Plan

In accordance with s. 1011.62, F.S., the MHAA Plan allocation is to assist districts with establishing or expanding school-based mental health care; training educators and other school staff in detecting and responding to mental health issues; and connecting children, youth and families who may experience behavioral health issues with appropriate services.

Submission Process and Deadline

The application must be submitted to the Florida Department of Education (FDOE) by August 1, 2022.

There are two submission options for charter schools (MHAA Plan Only):

- Option 1: District submission includes charter schools in their application.
- Option 2: Charter school(s) submit a separate application from the district.

Part I: Mental Health Assistance Allocation Plan

s. 1011.62, F.S.

MHAA Plan Assurances

The Charter School Assurances

One hundred percent of the state funded proportionate share is used to expand school-based mental health care; train educators and other school staff in detecting and responding to mental health issues; and connect children, youth and families with appropriate behavioral health services.

Yes

Mental health assistance allocation funds do not supplant other funding sources or increase salaries or provide staff bonuses or incentives.

Yes

Maximizing the use of other sources of funding to provide school-based mental health services (e.g., Medicaid reimbursement, third-party payments and grants).

Yes

Collaboration with FDOE to disseminate mental health information and resources to students and families.

Yes

Includes a system for tracking the number of students at high risk for mental health or co-occurring substance use disorders who received mental health screenings or assessments; the number of students referred to school-based mental health services providers; the number of students referred to community-based mental health services providers; the number of students who received school-based interventions, services or assistance; and the number of students who received community-based interventions, services or assistance.

Yes

A Charter school board policy or procedures has been established for

Students referred to a school-based or community-based mental health services provider, for mental health screening for the identification of mental health concerns and students at risk for mental health disorders are assessed within 15 calendar days of referral.

Yes

School-based mental health services are initiated within 15 calendar days of identification and assessment.

Yes

Community-based mental health services are initiated within 30 calendar days of referral.

Yes

Individuals living in a household with a student receiving services are provided information about behavioral health services through other delivery systems or payors for which such individuals may qualify if such services appear to be needed or enhancements in those individuals' behavioral health would contribute to the improved well-being of the student.

Yes

District schools and local mobile response teams use the same suicide screening instrument approved by FDOE pursuant to s. 1012.583, F.S., and Rule 6A-40010, Florida Administrative Code.

Yes

Assisting a mental health services provider or a behavioral health provider as described in s. 1011.62, F.S., respectively, or a school resource officer or school safety officer who has completed mental health crisis intervention training in attempting to verbally de-escalate a student's crisis situation before initiating an involuntary examination pursuant to s. 394.463, F.S. Such procedures must include strategies to de-escalate a crisis situation for a student with a developmental disability as that term is defined in s. 393.063, F.S.

Yes

The requirement that in a student crisis situation, the school or law enforcement personnel must make a reasonable attempt to contact a mental health professional who may initiate an involuntary examination pursuant to s. 394.463, F.S., unless the child poses an imminent danger to self or others before initiating an involuntary examination pursuant to s. 394.463, F.S. Such contact may be in person or using telehealth, as defined in s. 456.47, F.S. The mental health professional may be available to the school district either by contracts or interagency agreements with the managing entity, one or more local community behavioral health providers, or the local mobile response team, or be a direct or contracted school district employee. Note: All initiated involuntary examinations located on school grounds, on school transportation or at a school sponsored activity must be documented in the Involuntary Examinations and Restraint and Seclusion (IERS) platform.

Yes

Parents of students receiving services are provided information about other behavioral health services available through the student's school or local community-based behavioral health service providers. Schools may meet this requirement by providing information about and internet addresses for web-based directories or guides for local behavioral health services.

Yes

Planned Outcomes

Identify two specific and measurable goals that will be accomplished within the 2022-23 school year, and specify which component of Charter Assurance 1.a. directs that goal (refer to the Guidance Tab if needed).

1. One hundred percent of Seaside North's staff will be trained in Youth Mental Health First Aid. Charter Assurance 1. a. (train educators).
2. One hundred percent of students identified with mental health issues and their families will be referred to appropriate behavior health services. Charter Assurance 1. a. (connect children, youth and families with appropriate behavioral health services).

Charter Program Implementation

Evidence-Based Program	Conscious Discipline
Tiers of Implementation	Tier 1
Describe the key EBP components that will be implemented as well as any related activities, curricula, programs, services, policies and strategies.	
Teachers will use Conscious Discipline as a proactive method of conducting whole class discussions concerning social and academic situations to help students develop strategies for dealing with issues when they occur.	
Explain how your district will implement evidence-based mental health services for students to improve the early identification of social, emotional, behavioral problems or substance use disorders, as well as the likelihood of at-risk students developing social, emotional, behavioral problems, depression, anxiety disorders, suicidal tendencies, and how these will assist students dealing with trauma and violence.	
Conscious Discipline creates a safe and supportive environment in the classroom which encourages students to talk about their issues before they come to a breaking point. This environment allows for the student to develop a relationship with their peers and teachers enabling them to discuss social and emotional issues. Therefore, allowing the teacher to detect issues with students much earlier.	
Explain how the supports will deliver evidence-based mental health care assessment, diagnosis, intervention, treatment, and recovery services to students with one or more mental health or co-occurring substance abuse diagnoses and to students at high risk of such diagnoses.	
As teachers identify high risk students earlier, students can be referred to the school counselor in a timely manner for further assessment, diagnosis, and intervention.	

Evidence-Based Program	Second Step
Tiers of Implementation	Tier 2
Describe the key EBP components that will be implemented as well as any related activities, curricula, programs, services, policies and strategies.	
School counselors will work with small groups of students who have been identified with possible mental health issues. The counselors will meet with these groups on a regular basis using the Second Step program. The program provides situations for students to role play common issues that may affect their mental health. By role playing situations before they occur, students are able to use their executive function to process how to deal with challenging items. Practicing these situations enables the student to have more control during real events.	
Explain how your district will implement evidence-based mental health services for students to improve the early identification of social, emotional, behavioral problems or substance use disorders, as well as the likelihood of at-risk students developing social, emotional, behavioral problems, depression, anxiety disorders, suicidal tendencies, and how these will assist students dealing with trauma and violence.	
The school counselor will spend more time with identified students which allow them to use their expertise to determine which students may need additional support.	
Explain how the supports will deliver evidence-based mental health care assessment, diagnosis, intervention, treatment, and recovery services to students with one or more mental health or co-occurring substance abuse diagnoses and to students at high risk of such diagnoses.	
The school counselor can assess if the student needs further diagnosis and intervention treatment.	

Evidence-Based Program	Professional Counseling
Tiers of Implementation	Tier 3
Describe the key EBP components that will be implemented as well as any related activities, curricula, programs, services, policies and strategies.	
If it is determined that a student needs individualized support, one on one counseling will be provided by the school counselor or outside health care provider.	
Explain how your district will implement evidence-based mental health services for students to improve the early identification of social, emotional, behavioral problems or substance use disorders, as well as the likelihood of at-risk students developing social, emotional, behavioral problems, depression, anxiety disorders, suicidal tendencies, and how these will assist students dealing with trauma and violence.	
With one on one counseling, the school counselor will be able to identify the needs of the student and recommend any additional support services that may be needed.	
Explain how the supports will deliver evidence-based mental health care assessment, diagnosis, intervention, treatment, and recovery services to students with one or more mental health or co-occurring substance abuse diagnoses and to students at high risk of such diagnoses.	
The school counselor will refer the student and their family to appropriate health care providers for additional assessment, diagnosis and intervention treatment as needed.	

Direct Employment

Direct employment policy, roles and responsibilities

Explain how direct employment of school-based mental health services providers (school psychologists, school social workers, school counselors and other licensed mental health professionals) will reduce staff-to-student ratios.

A full time school counselor at the school provided administration and teachers with tier 2 and 3 student support as needed. This is an increase from having a part time counselor.

Describe your school's established policies and procedures to increase the amount of time student services personnel spend providing direct mental health services (e.g., review and revision of staffing allocations based on school or student mental health assistance needs).

By providing a full time counselor, our students have access to a counselor when needed. This ensures a counselor will be at the school for 100% of the operating hours.

Describe the role of school based mental health providers and community-based partners in the implementation of your evidence-based mental health program.

Seaside will use its relationships with our community based partners to support our student's mental health. We will refer students to these agencies when their needs can not be met internally.

Community Contracts/Interagency Agreements

List the contracts or interagency agreements with local behavioral health providers or Community Action Team (CAT) services and specify the type of behavioral health services being provided on or off the school campus.

Gateway Community Services Inc. Beaches Resource Center, yourfirststep.org, 904 270 8200 - family referral off school student mental health diagnosis and support
Youth Crisis Center, youthcrisiscenter.org, 904 725 6662 - family referral off school student mental health diagnosis and support
Child Guidance Center, cgjax.org, 904 448 4700 - rapid response team

MHAA Planned Funds and Expenditures

Allocation Funding Summary

MHAA funds provided in the 2022-2023 Florida Education Finance Program (FEFP)

\$ 14,895.00

Unexpended MHAA funds from previous fiscal years as stated in your 2021-2022 MHAA Plan

\$ 0.00

Grand Total MHAA Funds

\$ 14,895.00

MHAA planned Funds and Expenditures Form

Please complete the MHAA planned Funds and Expenditures Form to verify the use of funds in accordance with (s.) 1011.62 Florida Statutes.

The allocated funds may not supplant funds that are provided for this purpose from other operating funds and may not be used to increase salaries or provide bonuses. School districts are encouraged to maximize third-party health insurance benefits and Medicaid claiming for services, where appropriate.
