Section E: MHAA Planned Funds and Expenditures	9
Section F: Charter Governing Board Approval	10

Introduction

The purpose of the combined mental health application is to streamline and merge two programs into one application. The Youth Mental Health Awareness Training (YMHAT) Plan and the Mental Health Assistance Allocation (MHAA) Plan are to provide supplemental funding to districts so schools can establish, expand and/or improve mental health care, awareness and training and offer a continuum of services. These allocations are appropriated annually to serve students and families through resources designed to foster quality mentalhealth. This application is separated into two primary sections: Part II includes the YMHAT Plan and Part III includes the MHAA Plan.

Part I. Mental Health Assistance Allocation Plan

In accordance with s. 1011.62, F.S., the MHAA Plan allocation is to assist districts with establishing or expanding school-based mental health care; training educators and other school staff in detecting and responding to mental health issues; and connecting children, youth and families who may experience behavioral health issues with appropriate services.

Submission Process and Deadline

The application must be submitted to the Florida Department of Education (FDOE) by August 1, 2022.

There are two submission options for charter schools (MHAA Plan Only):

- Option 1: District submission includes charter schools in their application.
- Option 2: Charter school(s) submit a separate application from the district.

Part I: Mental Health Assistance Allocation Plan

s. 1011.62, F.S.

MHAA Plan Assurances

The Charter School Assurances

One hundred percent of the state funded proportionate share is used to expand school-based mental health care; train educators and other school staff in detecting and responding to mental health issues; and connect children, youth and families with appropriate behavioral health services.

Yes

Mental health assistance allocation funds do not supplant other funding sources or increase salaries or provide staff bonuses or incentives.

Yes

Maximizing the use of other sources of funding to provide school-based mental health services (e.g., Medicaid reimbursement, third-party payments and grants).

Yes

Collaboration with FDOE to disseminate mental health information and resources to students and families.

Yes

Includes a system for tracking the number of students at high risk for mental health or co-occurring substance use disorders who received mental health screenings or assessments; the number of students referred to school-based mental health services providers; the number of students referred to community-based mental health services providers; the number of students who received school-based interventions, services or assistance; and the number of students who received community-based interventions, services or assistance.

Yes

A Charter school board policy or procedures has been established for

Students referred to a school-based or community-based mental health services provider, for mental health screening for the identification of mental health concerns and students at risk for mental health disorders are assessed within 15 calendar days of referral.

Yes

School-based mental health services are initiated within 15 calendar days of identification and assessment.

Yes

Community-based mental health services are initiated within 30 calendar days of referral.

Yes

Individuals living in a household with a student receiving services are provided information about behavioral health services through other delivery systems or payors for which such individuals may qualify if such services appear to be needed or enhancements in those individuals' behavioral health would contribute to the improved well-being of the student.

Yes

District schools and local mobile response teams use the same suicide screening instrument approved by FDOE pursuant to s. 1012.583, F.S., and Rule 6A-40010, Florida Administrative Code.

Yes

Assisting a mental health services provider or a behavioral health provider as described in s. 1011.62, F.S., respectively, or a school resource officer or school safety officer who has completed mental health crisis intervention training in attempting to verbally de-escalate a student's crisis situation before initiating an involuntary examination pursuant to s. 394.463, F.S. Such procedures must include strategies to de-escalate a crisis situation for a student with a developmental disability as that term is defined in s. 393.063, F.S.

Yes

The requirement that in a student crisis situation, the school or law enforcement personnel must make a reasonable attempt to contact a mental health professional who may initiate an involuntary examination pursuant to s. 394.463, F.S., unless the child poses an imminent danger to self or others before initiating an involuntary examination pursuant to s. 394.463, F.S. Such contact may be in person or using telehealth, as defined in s. 456.47, F.S. The mental health professional may be available to the school district either by contracts or interagency agreements with the managing entity, one or more local community behavioral health providers, or the local mobile response team, or be a direct or contracted school district employee. Note: All initiated involuntary examinations located on school grounds, on school transportation or at a school sponsored activity must be documented in the Involuntary Examinations and Restraint and Seclusion (IERS) platform.

Yes

Parents of students receiving services are provided information about other behavioral health services available through the student's school or local community-based behavioral health service providers. Schools may meet this requirement by providing information about and internet addresses for web-based directories or guides for local behavioral health services.

Yes

Planned Outcomes

Identify two specific and measurable goals that will be accomplished within the 2022-23 school year, and specify which component of Charter Assurance 1.a. directs that goal (refer to the Guidance Tab if needed).

1. A minimum of 85% of students referred, screened, and identified for mental health services will engage in the specific evidence-based practices/services indicated in the MHAAP, as measured by pre- and post-administrations of the Pediatric Checklist and/or Strengths and Difficulties Questionnaire.
2. Utilizing Lee County School District training opportunities 100% of school staff will be trained and certified in First Aid Mental Health by the end of school year 2022-2023.

Charter Program Implementation

Evidence-Based Program	Cognitive Behavioral Therapy (CBT)
Tiers of Implementation	Tier 1, Tier 2
Describe the key EBP components that will be implemented as well as any related activities, curricula, programs, services, policies and strategies.	
The Behavior Institute encourages schools to use CBT in schools because CBT, can help students control their own behavior, rather than attempting to control student behavior with external reinforcement alone (e.g., tokens for staying on task, praise for raising hand). CBT teaches students to use self-talk to affect or to modify their underlying thinking, which in turn affects the way they behave.	
Explain how your district will implement evidence-based mental health services for students to improve the early identification of social, emotional, behavioral problems or substance use disorders, as well as the likelihood of at-risk students developing social, emotional, behavioral problems, depression, anxiety disorders, suicidal tendencies, and how these will assist students dealing with trauma and violence.	
We will have a licensed mental health provider to work with students at least twice a month. School counselor will develop a plan with the licensed mental health provider and follow through.	
Explain how the supports will deliver evidence-based mental health care assessment, diagnosis, intervention, treatment, and recovery services to students with one or more mental health or co-occurring substance abuse diagnoses and to students at high risk of such diagnoses.	
To control negative behaviors that will help students become successful in the classroom. (child, parent, and school staff reported)	

Evidence-Based Program	Journal Therapy
Tiers of Implementation	Tier 1, Tier 2
Describe the key EBP components that will be implemented as well as any related activities, curricula, programs, services, policies and strategies.	
Journal Therapy involves the therapeutic use of journaling exercises and prompts to bring about awareness and improve mental health conditions as a result of inner and outer conflicts.	
Explain how your district will implement evidence-based mental health services for students to improve the early identification of social, emotional, behavioral problems or substance use disorders, as well as the likelihood of at-risk students developing social, emotional, behavioral problems, depression, anxiety disorders, suicidal tendencies, and how these will assist students dealing with trauma and violence.	
Journaling can be implemented in one-on-one sessions, small group sessions, or as an integral part of classroom guidance. Students benefit from journaling as a therapeutic tool, as an avenue for storytelling, as tool to assist in recovery from trauma, and as cross-grade writing interaction tool.	
Explain how the supports will deliver evidence-based mental health care assessment, diagnosis, intervention, treatment, and recovery services to students with one or more mental health or co-occurring substance abuse diagnoses and to students at high risk of such diagnoses.	
To improve school culture and provide an environment that will be conducive to learning. Also, it will help to improve group dynamics in the classroom. It can be used as a tool for problem solving and encourage emotional healing. (child reported)	

Evidence-Based Program	Self-help and Peer Support Groups
Tiers of Implementation	Tier 1, Tier 2
Describe the key EBP components that will be implemented as well as any related activities, curricula, programs, services, policies and strategies.	
Self-help and Peer Support groups will be offered with the guidance of the licensed mental health provider. This type of therapy can help address feelings of isolation and help people gain insight to their own mental health.	
Explain how your district will implement evidence-based mental health services for students to improve the early identification of social, emotional, behavioral problems or substance use disorders, as well as the likelihood of at-risk students developing social, emotional, behavioral problems, depression, anxiety disorders, suicidal tendencies, and how these will assist students dealing with trauma and violence.	
Group sessions will be led by the licensed health provider and/or school counselor.	
Explain how the supports will deliver evidence-based mental health care assessment, diagnosis, intervention, treatment, and recovery services to students with one or more mental health or co-occurring substance abuse diagnoses and to students at high risk of such diagnoses.	
Students will improve socially and will learn tools to interact with one another. (child reported)	

Direct Employment

Direct employment policy, roles and responsibilities

Explain how direct employment of school-based mental health services providers (school psychologists, school social workers, school counselors and other licensed mental health professionals) will reduce staff-to-student ratios.

Donna J Beasley is small enough that our school counselor will be able to effectively address, work, and develop a mental health plan for any student needing mental health services.

Describe your school's established policies and procedures to increase the amount of time student services personnel spend providing direct mental health services (e.g., review and revision of staffing allocations based on school or student mental health assistance needs).

The needs of all of individual students are assessed regularly. We have a mental health room that is currently being used by the school counselor and licensed mental health provider. The allotted time is managed by the school counselor to be able to provide all students the mental health help they need.

Describe the role of school based mental health providers and community-based partners in the implementation of your evidence-based mental health program.

The role of the school counselor is to ensure that statutory requirements and protocols are implemented with fidelity. Should a student need additional mental health assistance it will be provided by the adjunct licensed mental health professional, Dr. Woulas, PHD.

Community Contracts/Interagency Agreements

List the contracts or interagency agreements with local behavioral health providers or Community Action Team (CAT) services and specify the type of behavioral health services being provided on or off the school campus.

1. Dr. Woulas, PHD. - Psychologist - Direct Services - Counseling
2. Catholic Charities - Direct Services - Counseling
3. Center for Progress and Excellence - Direct Services - Mobile Crisis Team - Counseling
4. HEADS - Direct Services - Counseling

MHAA Planned Funds and Expenditures

Allocation Funding Summary

MHAA funds provided in the 2022-2023 Florida Education Finance Program (FEFP)

\$ 8,182.00

Unexpended MHAA funds from previous fiscal years as stated in your 2021-2022 MHAA Plan

\$ 0.00

Grand Total MHAA Funds

\$ 8,182.00

MHAA planned Funds and Expenditures Form

Please complete the MHAA planned Funds and Expenditures Form to verify the use of funds in accordance with (s.) 1011.62 Florida Statutes.

The allocated funds may not supplant funds that are provided for this purpose from other operating funds and may not be used to increase salaries or provide bonuses. School districts are encouraged to maximize third-party health insurance benefits and Medicaid claiming for services, where appropriate.
