Introduction

The purpose of the combined mental health application is to streamline and merge two programs into one application. The Youth Mental Health Awareness Training (YMHAT) Plan and the Mental Health Assistance Allocation (MHAA) Plan are to provide supplemental funding to districts so schools can establish, expand and/or improve mental health care, awareness and training and offer a continuum of services. These allocations are appropriated annually to serve students and families through resources designed to foster quality mentalhealth. This application is separated into two primary sections: Part II includes the YMHAT Plan and Part III includes the MHAA Plan.

Part I. Mental Health Assistance Allocation Plan

In accordance with s. 1011.62, F.S., the MHAA Plan allocation is to assist districts with establishing or expanding school-based mental health care; training educators and other school staff in detecting and responding to mental health issues; and connecting children, youth and families who may experience behavioral health issues with appropriate services.

Submission Process and Deadline

The application must be submitted to the Florida Department of Education (FDOE) by August 1, 2022.

There are two submission options for charter schools (MHAA Plan Only):

- Option 1: District submission includes charter schools in their application.
- Option 2: Charter school(s) submit a separate application from the district.

Part I: Mental Health Assistance Allocation Plan

s. 1011.62, F.S.

MHAA Plan Assurances

The Charter School Assurances

One hundred percent of the state funded proportionate share is used to expand school-based mental health care; train educators and other school staff in detecting and responding to mental health issues; and connect children, youth and families with appropriate behavioral health services.

Yes

Mental health assistance allocation funds do not supplant other funding sources or increase salaries or provide staff bonuses or incentives.

Yes

Maximizing the use of other sources of funding to provide school-based mental health services (e.g., Medicaid reimbursement, third-party payments and grants).

Yes

Collaboration with FDOE to disseminate mental health information and resources to students and families.

Yes

Includes a system for tracking the number of students at high risk for mental health or co-occurring substance use disorders who received mental health screenings or assessments; the number of students referred to school-based mental health services providers; the number of students referred to community-based mental health services providers; the number of students who received school-based interventions, services or assistance; and the number of students who received community-based interventions, services or assistance.

Yes

A Charter school board policy or procedures has been established for

Students referred to a school-based or community-based mental health services provider, for mental health screening for the identification of mental health concerns and students at risk for mental health disorders are assessed within 15 calendar days of referral.

Yes

School-based mental health services are initiated within 15 calendar days of identification and assessment.

Yes

Community-based mental health services are initiated within 30 calendar days of referral.

Yes

Individuals living in a household with a student receiving services are provided information about behavioral health services through other delivery systems or payors for which such individuals may qualify if such services appear to be needed or enhancements in those individuals' behavioral health would contribute to the improved well-being of the student.

Yes

District schools and local mobile response teams use the same suicide screening instrument approved by FDOE pursuant to s. 1012.583, F.S., and Rule 6A-40010, Florida Administrative Code.

Yes

Assisting a mental health services provider or a behavioral health provider as described in s. 1011.62, F.S., respectively, or a school resource officer or school safety officer who has completed mental health crisis intervention training in attempting to verbally de-escalate a student's crisis situation before initiating an involuntary examination pursuant to s. 394.463, F.S. Such procedures must include strategies to de-escalate a crisis situation for a student with a developmental disability as that term is defined in s. 393.063, F.S.

Yes

The requirement that in a student crisis situation, the school or law enforcement personnel must make a reasonable attempt to contact a mental health professional who may initiate an involuntary examination pursuant to s. 394.463, F.S., unless the child poses an imminent danger to self or others before initiating an involuntary examination pursuant to s. 394.463, F.S. Such contact may be in person or using telehealth, as defined in s. 456.47, F.S. The mental health professional may be available to the school district either by contracts or interagency agreements with the managing entity, one or more local community behavioral health providers, or the local mobile response team, or be a direct or contracted school district employee. Note: All initiated involuntary examinations located on school grounds, on school transportation or at a school sponsored activity must be documented in the Involuntary Examinations and Restraint and Seclusion (IERS) platform.

Yes

Parents of students receiving services are provided information about other behavioral health services available through the student's school or local community-based behavioral health service providers. Schools may meet this requirement by providing information about and internet addresses for web-based directories or guides for local behavioral health services.

Yes

Planned Outcomes

Identify two specific and measurable goals that will be accomplished within the 2022-23 school year, and specify which component of Charter Assurance 1.a. directs that goal (refer to the Guidance Tab if needed).

Students will be able to express verbally without getting emotionally abusive his/her academic needs/weaknesses using social skills techniques 85% of the time during 3/4 tries.

Students will take part in the 2022 PBIS Survey for initial and annual assessment of effective behavior support systems in the school with 85 % participation to develop an action plan for implementation and to sustain an effective behavior support system at the school

Charter Program Implementation

Evidence-Based Program	Tier 1
Tiers of Implementation	Tier 1
Describe the key EBP components that will be implemented as well as any related activities, curricula, programs, services, policies and strategies.	
On the first day of attending school all students will answer questions in the intake packet and take part in the 2022 PBIS Survey	
Explain how your district will implement evidence-based mental health services for students to improve the early identification of social, emotional, behavioral problems or substance use disorders, as well as the likelihood of at-risk students developing social, emotional, behavioral problems, depression, anxiety disorders, suicidal tendencies, and how these will assist students dealing with trauma and violence.	
Basic social skills programs will be used based on needs of all students	
Explain how the supports will deliver evidence-based mental health care assessment, diagnosis, intervention, treatment, and recovery services to students with one or more mental health or co-occurring substance abuse diagnoses and to students at high risk of such diagnoses.	
There will be quarterly progress reports given to instructional staff to give a written account on the progress of their students in their advisory group	

Evidence-Based Program	Tier 2
Tiers of Implementation	Tier 2
Describe the key EBP components that will be implemented as well as any related activities, curricula, programs, services, policies and strategies.	
After reviewing the packets, students will be placed in groups based on answers provided in the survey and intake packet	
Explain how your district will implement evidence-based mental health services for students to improve the early identification of social, emotional, behavioral problems or substance use disorders, as well as the likelihood of at-risk students developing social, emotional, behavioral problems, depression, anxiety disorders, suicidal tendencies, and how these will assist students dealing with trauma and violence.	
Groups will be developed based on need	
Explain how the supports will deliver evidence-based mental health care assessment, diagnosis, intervention, treatment, and recovery services to students with one or more mental health or co-occurring substance abuse diagnoses and to students at high risk of such diagnoses.	
Advisory teacher will report on progress or lack of on the student's part quarterly	

Evidence-Based Program	Tier 3
Tiers of Implementation	Tier 3
Describe the key EBP components that will be implemented as well as any related activities, curricula, programs, services, policies and strategies.	
Individual sessions will be held with students with specific needs	
Explain how your district will implement evidence-based mental health services for students to improve the early identification of social, emotional, behavioral problems or substance use disorders, as well as the likelihood of at-risk students developing social, emotional, behavioral problems, depression, anxiety disorders, suicidal tendencies, and how these will assist students dealing with trauma and violence.	
Individual sessions will have notes will be taken and treatment plans developed based on topics discussed with students and activities to ensure that information presented is understood and implemented	
Explain how the supports will deliver evidence-based mental health care assessment, diagnosis, intervention, treatment, and recovery services to students with one or more mental health or co-occurring substance abuse diagnoses and to students at high risk of such diagnoses.	
When the student reports back to the classroom there is a behavior change based on strategies taught.	

Direct Employment

Direct employment policy, roles and responsibilities

Explain how direct employment of school-based mental health services providers (school psychologists, school social workers, school counselors and other licensed mental health professionals) will reduce staff-to-student ratios.

Mental Health services will be implemented with the assistance of a school psychologist, mentor and a social worker

Describe your school's established policies and procedures to increase the amount of time student services personnel spend providing direct mental health services (e.g., review and revision of staffing allocations based on school or student mental health assistance needs).

Staff will hold group meetings weekly and will be able to follow with services via teletherapy

Describe the role of school based mental health providers and community-based partners in the implementation of your evidence-based mental health program.

The school has a great relationship with Urban League, Multi-Lingual and Mental Health of America

Community Contracts/Interagency Agreements

List the contracts or interagency agreements with local behavioral health providers or Community Action Team (CAT) services and specify the type of behavioral health services being provided on or off the school campus.
