Section D: Direct Employment	9
Section E: MHAA Planned Funds and Expenditures	10
Section F: Charter Governing Board Approval	11

Introduction

The purpose of the combined mental health application is to streamline and merge two programs into one application. The Youth Mental Health Awareness Training (YMHAT) Plan and the Mental Health Assistance Allocation (MHAA) Plan are to provide supplemental funding to districts so schools can establish, expand and/ or improve mental health care, awareness and training and offer a continuum of services. These allocations are appropriated annually to serve students and families through resources designed to foster quality mentalhealth. This application is separated into two primary sections: Part II includes the YMHAT Plan and Part III includes the MHAA Plan.

Part I. Mental Health Assistance Allocation Plan

In accordance with s. 1011.62, F.S., the MHAA Plan allocation is to assist districts with establishing or expanding school-based mental health care; training educators and other school staff in detecting and responding to mental health issues; and connecting children, youth and families who may experience behavioral health issues with appropriate services.

Submission Process and Deadline

The application must be submitted to the Florida Department of Education (FDOE) by August 1, 2022.

There are two submission options for charter schools (MHAA Plan Only):

- Option 1: District submission includes charter schools in their application.
- Option 2: Charter school(s) submit a separate application from the district.

Part I: Mental Health Assistance Allocation Plan

s. 1011.62, F.S.

MHAA Plan Assurances

The Charter School Assurances

One hundred percent of the state funded proportionate share is used to expand school-based mental health care; train educators and other school staff in detecting and responding to mental health issues; and connect children, youth and families with appropriate behavioral health services.

Yes

Mental health assistance allocation funds do not supplant other funding sources or increase salaries or provide staff bonuses or incentives.

Yes

Maximizing the use of other sources of funding to provide school-based mental health services (e.g., Medicaid reimbursement, third-party payments and grants).

Yes

Collaboration with FDOE to disseminate mental health information and resources to students and families.

Yes

Includes a system for tracking the number of students at high risk for mental health or co-occurring substance use disorders who received mental health screenings or assessments; the number of students referred to school-based mental health services providers; the number of students referred to community-based mental health services providers; the number of students who received school-based interventions, services or assistance; and the number of students who received community-based interventions, services or assistance.

Yes

A Charter school board policy or procedures has been established for

Students referred to a school-based or community-based mental health services provider, for mental health screening for the identification of mental health concerns and students at risk for mental health disorders are assessed within 15 calendar days of referral.

Yes

School-based mental health services are initiated within 15 calendar days of identification and assessment.

Yes

Community-based mental health services are initiated within 30 calendar days of referral.

Yes

Individuals living in a household with a student receiving services are provided information about behavioral health services through other delivery systems or payors for which such individuals may qualify if such services appear to be needed or enhancements in those individuals' behavioral health would contribute to the improved well-being of the student.

Yes

District schools and local mobile response teams use the same suicide screening instrument approved by FDOE pursuant to s. 1012.583, F.S., and Rule 6A-40010, Florida Administrative Code.

Yes

Assisting a mental health services provider or a behavioral health provider as described in s. 1011.62, F.S., respectively, or a school resource officer or school safety officer who has completed mental health crisis intervention training in attempting to verbally de-escalate a student's crisis situation before initiating an involuntary examination pursuant to s. 394.463, F.S. Such procedures must include strategies to de-escalate a crisis situation for a student with a developmental disability as that term is defined in s. 393.063, F.S.

Yes

The requirement that in a student crisis situation, the school or law enforcement personnel must make a reasonable attempt to contact a mental health professional who may initiate an involuntary examination pursuant to s. 394.463, F.S., unless the child poses an imminent danger to self or others before initiating an involuntary examination pursuant to s. 394.463, F.S. Such contact may be in person or using telehealth, as defined in s. 456.47, F.S. The mental health professional may be available to the school district either by contracts or interagency agreements with the managing entity, one or more local community behavioral health providers, or the local mobile response team, or be a direct or contracted school district employee. Note: All initiated involuntary examinations located on school grounds, on school transportation or at a school sponsored activity must be documented in the Involuntary Examinations and Restraint and Seclusion (IERS) platform.

Yes

Parents of students receiving services are provided information about other behavioral health services available through the student's school or local community-based behavioral health service providers. Schools may meet this requirement by providing information about and internet addresses for web-based directories or guides for local behavioral health services.

Yes

Planned Outcomes

Identify two specific and measurable goals that will be accomplished within the 2022-23 school year, and specify which component of Charter Assurance 1.a. directs that goal (refer to the Guidance Tab if needed).

FSUS plans to increase self-regulation in K-12 students by 10% by the end of the 2022-2023 school year. FSUS will give students a mental health survey provided by Seminole Aspires to collect baseline data. Additionally, FSUS plans to decrease anxiety induced behaviors by 10% by the end of the 2021-2022 school year. FSUS students in grades K-5 will receive weekly counseling groups with a certified mental health specialist to increase self-regulation and decrease anxiety.

The goal for the 2022-2023 school year is to ensure that all new and existing personnel are trained in YMHFA by the end of the first semester.

All of our current 2021-2022 instructional and non-instructional staff have been trained and certified. We plan to begin the process re-certifying all staff whose YMHFA certification will be expiring using the webinar training. We will schedule to train all new hires for the 2022-2023 school year. The goal is to fully train new personnel and re-certify personnel through District and School evidence-based, professional development training programs.

All new hires will be notified of the requirement to get YMHFA certification upon their employment. Personnel will then begin YMHFA training through the National Council for Wellbeing. The training will inform personnel about common mental health concerns and provides adults with a 5-step action plan to help a youth who may be facing a mental health problem or crisis, such as suicide.

FSUS will ensure that YMHFA training is provided to 100% of Instructional and Non-Instructional employees upon hire to obtain their YMHFA certification. All faculty and staff will be trained by a certified YMHFA trainer.

Charter Program Implementation

Evidence-Based Program	Seminoles ASPIRE
Tiers of Implementation	Tier 1, Tier 2
D " " T EDD	

Describe the key EBP components that will be implemented as well as any related activities, curricula, programs, services, policies and strategies.

Alliance for Supporting Positive-growth & Inspiring Resilience in Education.

Services FSUS students in grades 6th-12th.

There are three primary goals associated with the Seminoles ASPIRE partnership:

- 1) Increase the mental health of students attending FSUS.
- 2) Create practicum experiences for the graduate students in Counseling and School Psychology
- 3) Conduct research on mental health and bullying prevention

Explain how your district will implement evidence-based mental health services for students to improve the early identification of social, emotional, behavioral problems or substance use disorders, as well as the likelihood of at-risk students developing social, emotional, behavioral problems, depression, anxiety disorders, suicidal tendencies, and how these will assist students dealing with trauma and violence.

The mental health partnership is built on a multi-tiered service delivery model framework. The three-tiered triangle will be used to represent this framework.

*Tier 1 consists of universal screening and preventative programming for ALL students attending FSUS. This will improve the early identification of social, emotional, behavioral problems or substance use disorders, as well as the likelihood of at-risk students developing social, emotional, behavioral problems, depression, anxiety disorders, and suicidal tendencies.

*Tier 2 consists of assessments and interventions that are specific to students with elevated risk for mental health difficulties.

*Tier 3 will consist of individuals with a significant risk of or known mental health difficulties.

Explain how the supports will deliver evidence-based mental health care assessment, diagnosis, intervention, treatment, and recovery services to students with one or more mental health or co-occurring substance abuse diagnoses and to students at high risk of such diagnoses.

Student Surveys

Decrease of referrals by 10% by the end of the 2022 school year.

Increase coping and self-regulation strategies 10% more frequently by the end of the 2022 school year.

Evidence-Based Program	ASCA Mindsets & Behaviors Program
Tiers of Implementation	Tier 1, Tier 2

Describe the key EBP components that will be implemented as well as any related activities, curricula, programs, services, policies and strategies.

Counselor will use CASEL (Social-Emotional Learning) Standards to reach the district's goals.

Dojo information from teacher input, parent request and Nole Notes.

Hot Potato group for students with anger, low emotional regulation. 8 weeks

Healing Hearts for students who have lost a loved one, grief. 8 weeks

Banana Split for students who experience the grieving process of divorce, and family issues. 6 weeks

Will implement Jitterbug for kids with undiagnosed and diagnosed anxiety. 8 weeks

Explain how your district will implement evidence-based mental health services for students to improve the early identification of social, emotional, behavioral problems or substance use disorders, as well as the likelihood of at-risk students developing social, emotional, behavioral problems, depression, anxiety disorders, suicidal tendencies, and how these will assist students dealing with trauma and violence.

Counselor will conduct small group sessions with 5-6 students per group per grade level.

The groups will meet once a week for 20 minutes on Tues, Wed, and Thurs.

Students served will be in grades K-6.

Students will work through activities in the curriculum that will cover a wide range of topics. All the topics will be connected to the district's goals of increasing self-regulation and decreasing anxiety. Some of the topics include but are not limited to:

- *Self-management
- *Social-Awareness
- *Relationship Skills
- *Responsible decision-making
- *Self-awareness

Explain how the supports will deliver evidence-based mental health care assessment, diagnosis, intervention, treatment, and recovery services to students with one or more mental health or co-occurring substance abuse diagnoses and to students at high risk of such diagnoses.

Dojo Progress monitoring biweekly to see if their behaviors have improved.

Direct employment policy, roles and responsibilities

Explain how direct employment of school-based mental health services providers (school psychologists, school social workers, school counselors and other licensed mental health professionals) will reduce staff-to-student ratios.

Direct employment service providers including but not limited to 1 school counselors, 1 certified mental-health professionals, 10 additional mental health professionals to provide services to increase self-regulation in K-12 students by 10% and decrease anxiety induced behaviors by 10% by the end of the 2021-2022 school year

Describe your school's established policies and procedures to increase the amount of time student services personnel spend providing direct mental health services (e.g., review and revision of staffing allocations based on school or student mental health assistance needs).

To increase the amount of time student services personnel spend providing direct mental health services to students, FSUS has an academic dean at the elementary school, middle school, and high school to support students' academic needs and to give our school counselors more time to engage students in direct mental health services. Every 2 weeks 6-12th grade students will receive lessons to help them with various skills such as the recognition of signs and symptoms of mental health disorders, the impacts of substance abuse, strategies to support a peer, friend, or family member with a mental health disorder, and prevention of the abuse of and addiction to alcohol, nicotine, and drugs. To assure continuity in services and delivery of curriculum, the FSUS Mental Health Support Team

will meet quarterly to review data and progress towards the goals. Counselors and Deans will meet with students weekly to offer services, strategies and guidance in coping with mental health issues.

Describe the role of school based mental health providers and community-based partners in the implementation of your evidence-based mental health program.

The FSUS Mental Health Services Team will coordinate mental health services and seek to establish partnerships with community based agencies and mental health providers. These partnerships will include:

- Florida State University Multidisciplinary Evaluation and Consulting Center (MDC) provide a range of services including diagnostic evaluation and consultation services for children and youth identified as having complex medical, educational, emotional, and/or behavioral problems, as well as consultation, pre-service and in-service training for parents, teachers, other school and district personnel, and related providers and professionals.
- FSU Human Services Center The Human Services Center offers mental health counseling to children, adolescents, adults, couples, and families in the Big Bend area. The counselors are graduate students supervised by faculty with clinical licensure. The center operates Fall and Spring semesters; it is closed during the summer.
- Tallahassee Memorial Healthcare The Psychiatric Emergency Response Program (PERP) provides emergency psychiatric evaluations for persons experiencing a serious mental health crisis.

The focus of these partnerships will be to support education, early intervention, evaluation, peer support, counseling, crisis intervention, treatment, rehabilitation, and follow-up services.

Community Contracts/Interagency Agreements

List the contracts or interagency agreements with local behavioral health providers or Community Action Team (CAT) services and specify the type of behavioral health services being provided on or off the school campus.

Certified, Licensed School Psychologist-SEMINOLES ASPIRE, Indirect services through MHAA/ESSER.

Licensed Counselor, ESE K-12-FSUS, Direct services-FSU Payroll

MHAA Planned Funds and Expenditures

Allocation Funding Summary

MHAA funds provided in the 2022-2023 Florida Education Finance Program (FEFP) \$ 179,547.00

Unexpended MHAA funds from previous fiscal years as stated in your 2021-2022 MHAA Plan \$ 40,954.00

Grand Total MHAA Funds

\$ 220,501.00

MHAA planned Funds and Expenditures Form

Please complete the MHAA planned Funds and Expenditures Form to verify the use of funds in accordance with (s.) 1011.62 Florida Statues.

The allocated funds may not supplant funds that are provided for this purpose from other operating funds and may not be used to increase salaries or provide bonuses. School districts are encouraged to maximize third-party health insurance benefits and Medicaid claiming for services, where appropriate.
