Section D: Direct Employment	7
Section E: MHAA Planned Funds and Expenditures	9
Section F: Charter Governing Board Approval	9

Introduction

The purpose of the combined mental health application is to streamline and merge two programs into one application. The Youth Mental Health Awareness Training (YMHAT) Plan and the Mental Health Assistance Allocation (MHAA) Plan are to provide supplemental funding to districts so schools can establish, expand and/or improve mental health care, awareness and training and offer a continuum of services. These allocations are appropriated annually to serve students and families through resources designed to foster quality mentalhealth. This application is separated into two primary sections: Part II includes the YMHAT Plan and Part III includes the MHAA Plan.

Part I. Mental Health Assistance Allocation Plan

In accordance with s. 1011.62, F.S., the MHAA Plan allocation is to assist districts with establishing or expanding school-based mental health care; training educators and other school staff in detecting and responding to mental health issues; and connecting children, youth and families who may experience behavioral health issues with appropriate services.

Submission Process and Deadline

The application must be submitted to the Florida Department of Education (FDOE) by August 1, 2022.

There are two submission options for charter schools (MHAA Plan Only):

- Option 1: District submission includes charter schools in their application.
- Option 2: Charter school(s) submit a separate application from the district.

Part I: Mental Health Assistance Allocation Plan

s. 1011.62, F.S.

MHAA Plan Assurances

The Charter School Assurances

One hundred percent of the state funded proportionate share is used to expand school-based mental health care; train educators and other school staff in detecting and responding to mental health issues; and connect children, youth and families with appropriate behavioral health services.

Yes

Mental health assistance allocation funds do not supplant other funding sources or increase salaries or provide staff bonuses or incentives.

Yes

Maximizing the use of other sources of funding to provide school-based mental health services (e.g., Medicaid reimbursement, third-party payments and grants).

Yes

Collaboration with FDOE to disseminate mental health information and resources to students and families.

Yes

Includes a system for tracking the number of students at high risk for mental health or co-occurring substance use disorders who received mental health screenings or assessments; the number of students referred to school-based mental health services providers; the number of students referred to community-based mental health services providers; the number of students who received school-based interventions, services or assistance; and the number of students who received community-based interventions, services or assistance.

Yes

A Charter school board policy or procedures has been established for

Students referred to a school-based or community-based mental health services provider, for mental health screening for the identification of mental health concerns and students at risk for mental health disorders are assessed within 15 calendar days of referral.

Yes

School-based mental health services are initiated within 15 calendar days of identification and assessment.

Yes

Community-based mental health services are initiated within 30 calendar days of referral.

Yes

Individuals living in a household with a student receiving services are provided information about behavioral health services through other delivery systems or payors for which such individuals may qualify if such services appear to be needed or enhancements in those individuals' behavioral health would contribute to the improved well-being of the student.

Yes

District schools and local mobile response teams use the same suicide screening instrument approved by FDOE pursuant to s. 1012.583, F.S., and Rule 6A-40010, Florida Administrative Code.

Yes

Assisting a mental health services provider or a behavioral health provider as described in s. 1011.62, F.S., respectively, or a school resource officer or school safety officer who has completed mental health crisis intervention training in attempting to verbally de-escalate a student's crisis situation before initiating an involuntary examination pursuant to s. 394.463, F.S. Such procedures must include strategies to de-escalate a crisis situation for a student with a developmental disability as that term is defined in s. 393.063, F.S.

Yes

The requirement that in a student crisis situation, the school or law enforcement personnel must make a reasonable attempt to contact a mental health professional who may initiate an involuntary examination pursuant to s. 394.463, F.S., unless the child poses an imminent danger to self or others before initiating an involuntary examination pursuant to s. 394.463, F.S. Such contact may be in person or using telehealth, as defined in s. 456.47, F.S. The mental health professional may be available to the school district either by contracts or interagency agreements with the managing entity, one or more local community behavioral health providers, or the local mobile response team, or be a direct or contracted school district employee. Note: All initiated involuntary examinations located on school grounds, on school transportation or at a school sponsored activity must be documented in the Involuntary Examinations and Restraint and Seclusion (IERS) platform.

Yes

Parents of students receiving services are provided information about other behavioral health services available through the student's school or local community-based behavioral health service providers. Schools may meet this requirement by providing information about and internet addresses for web-based directories or guides for local behavioral health services.

Yes

Planned Outcomes

Identify two specific and measurable goals that will be accomplished within the 2022-23 school year, and specify which component of Charter Assurance 1.a. directs that goal (refer to the Guidance Tab if needed).

By the end of the 22-23SY, June 2023, students receiving Mental Health Services will increase their attendance rates by 20%.

By the end of the 22-23SY, June 2023, students receiving Mental Health Services will increase their academic progress toward completion rates by 10%.

Charter Program Implementation

Evidence-Based Program	Project ALERT
Tiers of Implementation	Tier 1
Describe the key EBP components that will be implemented as well as any related activities, curricula, programs, services, policies and strategies.	
Project ALERT consists of 12 modules specifically targeting two difficult areas in teen development. The areas are prevention of the use of alcohol, tobacco, and the use of other drugs by teenagers in high school as well as life skills training to promote general social skills, self-management, drug resistance, and violence prevention. The program is also designed to help teens develop self confidence and strategies to use when handling difficult life situations.	
Explain how your district will implement evidence-based mental health services for students to improve the early identification of social, emotional, behavioral problems or substance use disorders, as well as the likelihood of at-risk students developing social, emotional, behavioral problems, depression, anxiety disorders, suicidal tendencies, and how these will assist students dealing with trauma and violence.	
Teachers will work in conjunction with the LMHC to deliver modules to students biweekly in the classrooms. The modules will be delivered at a scheduled time in each classroom for approximately 30 minutes. The scheduled time is indicated as Homeroom on the master schedule. Modules will consist of 15 minutes of topic discussion, sharing and relating meaning with the students for approximately 10 minutes and a five minute wrap up activity. During the delivery of these modules, Teachers will monitor possible needs of students for further discussion with the Mental Health Therapist for intervention purposes.	
Explain how the supports will deliver evidence-based mental health care assessment, diagnosis, intervention, treatment, and recovery services to students with one or more mental health or co-occurring substance abuse diagnoses and to students at high risk of such diagnoses.	
Students with identified mental health or substance abuse related diagnoses will receive regularly scheduled Mental Health Therapy sessions with the LMHC. Students with more severe cases will be referred to outside partnering agencies who work in conjunction with the family atmosphere.	

Evidence-Based Program	Cognitive Behavioral Intervention in Schools - 10 Session Program
Tiers of Implementation	Tier 2
Describe the key EBP components that will be implemented as well as any related activities, curricula, programs, services, policies and strategies.	
Evidenced Based Cognitive Behavioral Intervention in Schools is comprised of 10 one hour group sessions, two or three individual sessions and one to three parent education sessions assigned to specific students identified in need. These sessions will be held during school hours and cover a range of topics such as relaxation training, cognitive restructuring, social problem solving, trauma focused intervention strategies, and coping skills.	
Explain how your district will implement evidence-based mental health services for students to improve the early identification of social, emotional, behavioral problems or substance use disorders, as well as the likelihood of at-risk students developing social, emotional, behavioral problems, depression, anxiety disorders, suicidal tendencies, and how these will assist students dealing with trauma and violence.	
The LMHC will deliver these sessions to all students in need. Students will practice self-identification, understanding their feelings and expressing their needs, improved self image and motivational self-talk. The activities will include games on self-awareness, positive reinforcement techniques, strategies for dealing with emotional stress, strategies for self-healing in traumatic situations and look fors, and related concepts. Group sessions will be two to three students at a time and depend on the comfort level of the students in question. Adjustments will be made for those experiencing difficulty in front of others. Sessions will be structured and purposeful and include activities to complete for the next session.	
Explain how the supports will deliver evidence-based mental health care assessment, diagnosis, intervention, treatment, and recovery services to students with one or more mental health or co-occurring substance abuse diagnoses and to students at high risk of such diagnoses.	
Students with identified mental health or substance abuse related diagnoses will receive regularly scheduled Mental Health Therapy sessions with the LMHC. Students with more several cases will be referred to outside partnering agencies who work in conjunction with the family atmosphere.	

Direct Employment

Direct employment policy, roles and responsibilities

Explain how direct employment of school-based mental health services providers (school psychologists, school social workers, school counselors and other licensed mental health professionals) will reduce staff-to-student ratios.

The school counselor is a Direct Employment staff member. The school counselor and be the first response to speak to referred students. The school counselor will then refer any students who need the LMHC reducing the amount of unnecessary referrals.

Describe your school's established policies and procedures to increase the amount of time student services personnel spend providing direct mental health services (e.g., review and revision of staffing allocations based on school or student mental health assistance needs).

SunEd High incorporates a mentoring program as it's foundation which gives students a direct person who follows their progress, engages them frequently and monitors their progress. Mentoring sessions include discussions on social emotional and mental health which allows teachers to identify areas of concern that may warrant a referral and reduces the amount of time the counselors spend on making this determination.

The school currently uses all LMHC funds for the contracted services of a full time LMHC. The school counselor is funded from the base FEPF calculations. The school works diligently to ensure that all students have the LMHC's services available to them when needed or consistently as needed.

Describe the role of school based mental health providers and community-based partners in the implementation of your evidence-based mental health program.

Currently, the school contracts with an LMHC to be at the school 100% of the school day. The contracted LMHC works with all students. When the services needed are more severe, the LMHC works with administration to refer the student and family to an outside community mental health partner.

Community Contracts/Interagency Agreements

List the contracts or interagency agreements with local behavioral health providers or Community Action Team (CAT) services and specify the type of behavioral health services being provided on or off the school campus.

Michelle Martin, LMHC

Provides all mental health counseling and implements all evidenced based programs on mental health.

MHAA Planned Funds and Expenditures

Allocation Funding Summary

MHAA funds provided in the 2022-2023 Florida Education Finance Program (FEFP)

\$ 9,000.00

Unexpended MHAA funds from previous fiscal years as stated in your 2021-2022 MHAA Plan

\$ 0.00

Grand Total MHAA Funds

\$ 9,000.00

MHAA planned Funds and Expenditures Form

Please complete the MHAA planned Funds and Expenditures Form to verify the use of funds in accordance with (s.) 1011.62 Florida Statues.

The allocated funds may not supplant funds that are provided for this purpose from other operating funds and may not be used to increase salaries or provide bonuses. School districts are encouraged to maximize third-party health insurance benefits and Medicaid claiming for services, where appropriate.
