Introduction

The purpose of the combined mental health application is to streamline and merge two programs into one application. The Youth Mental Health Awareness Training (YMHAT) Plan and the Mental Health Assistance Allocation (MHAA) Plan are to provide supplemental funding to districts so schools can establish, expand and/ or improve mental health care, awareness and training and offer a continuum of services. These allocations are appropriated annually to serve students and families through resources designed to foster quality mentalhealth. This application is separated into two primary sections: Part II includes the YMHAT Plan and Part III includes the MHAA Plan.

Part I. Mental Health Assistance Allocation Plan

In accordance with s. 1011.62, F.S., the MHAA Plan allocation is to assist districts with establishing or expanding school-based mental health care; training educators and other school staff in detecting and responding to mental health issues; and connecting children, youth and families who may experience behavioral health issues with appropriate services.

Submission Process and Deadline

The application must be submitted to the Florida Department of Education (FDOE) by August 1, 2022.

There are two submission options for charter schools (MHAA Plan Only):

- Option 1: District submission includes charter schools in their application.
- Option 2: Charter school(s) submit a separate application from the district.

Part I: Mental Health Assistance Allocation Plan

s. 1011.62, F.S.

MHAA Plan Assurances

The Charter School Assurances

One hundred percent of the state funded proportionate share is used to expand school-based mental health care; train educators and other school staff in detecting and responding to mental health issues; and connect children, youth and families with appropriate behavioral health services.

Yes

Mental health assistance allocation funds do not supplant other funding sources or increase salaries or provide staff bonuses or incentives.

Yes

Maximizing the use of other sources of funding to provide school-based mental health services (e.g., Medicaid reimbursement, third-party payments and grants).

Yes

Collaboration with FDOE to disseminate mental health information and resources to students and families.

Yes

Includes a system for tracking the number of students at high risk for mental health or co-occurring substance use disorders who received mental health screenings or assessments; the number of students referred to school-based mental health services providers; the number of students referred to community-based mental health services providers; the number of students who received school-based interventions, services or assistance; and the number of students who received community-based interventions, services or assistance.

Yes

A Charter school board policy or procedures has been established for

Students referred to a school-based or community-based mental health services provider, for mental health screening for the identification of mental health concerns and students at risk for mental health disorders are assessed within 15 calendar days of referral.

Yes

School-based mental health services are initiated within 15 calendar days of identification and assessment.

Yes

Community-based mental health services are initiated within 30 calendar days of referral.

Yes

Individuals living in a household with a student receiving services are provided information about behavioral health services through other delivery systems or payors for which such individuals may qualify if such services appear to be needed or enhancements in those individuals' behavioral health would contribute to the improved well-being of the student.

Yes

District schools and local mobile response teams use the same suicide screening instrument approved by FDOE pursuant to s. 1012.583, F.S., and Rule 6A-40010, Florida Administrative Code.

Yes

Assisting a mental health services provider or a behavioral health provider as described in s. 1011.62, F.S., respectively, or a school resource officer or school safety officer who has completed mental health crisis intervention training in attempting to verbally de-escalate a student's crisis situation before initiating an involuntary examination pursuant to s. 394.463, F.S. Such procedures must include strategies to de-escalate a crisis situation for a student with a developmental disability as that term is defined in s. 393.063, F.S.

Yes

The requirement that in a student crisis situation, the school or law enforcement personnel must make a reasonable attempt to contact a mental health professional who may initiate an involuntary examination pursuant to s. 394.463, F.S., unless the child poses an imminent danger to self or others before initiating an involuntary examination pursuant to s. 394.463, F.S. Such contact may be in person or using telehealth, as defined in s. 456.47, F.S. The mental health professional may be available to the school district either by contracts or interagency agreements with the managing entity, one or more local community behavioral health providers, or the local mobile response team, or be a direct or contracted school district employee. Note: All initiated involuntary examinations located on school grounds, on school transportation or at a school sponsored activity must be documented in the Involuntary Examinations and Restraint and Seclusion (IERS) platform.

Yes

Parents of students receiving services are provided information about other behavioral health services available through the student's school or local community-based behavioral health service providers. Schools may meet this requirement by providing information about and internet addresses for web-based directories or guides for local behavioral health services.

Yes

Planned Outcomes

Identify two specific and measurable goals that will be accomplished within the 2022-23 school year, and specify which component of Charter Assurance 1.a. directs that goal (refer to the Guidance Tab if needed).

During the 2022-2023 school year, continued expansion for meeting student mental health needs will be the primary focus. Two specific goals are: 1. Students and staff will be educated on how to protect children and teens from bullying, abuse, and victimization using an evidence based program. 100% of instructional staff and students will receive training. 2. Suicide prevention & mental wellness will remain part of the school culture. Staff and students will be educated on signs and symptoms of at-risk students. Those presenting signs of possible suicide or mental illness. There will be improvement in staff and students response to persons in crisis.

Direct employment policy, roles and responsibilities

Explain how direct employment of school-based mental health services providers (school psychologists, school social workers, school counselors and other licensed mental health professionals) will reduce staff-to-student ratios.

The goal of Royal Palm Charter is to expand accessibility of mental health services. Employment of school-based service providers will reduce staff-to-student ratio. This reduction would promote an increase in student access to mental health services. It would improve school safety by having greater access to mental health supports.

Describe your school's established policies and procedures to increase the amount of time student services personnel spend providing direct mental health services (e.g., review and revision of staffing allocations based on school or student mental health assistance needs).

The School Counselor will prioritize job duties allocating 80% of time spent providing direct mental health services. Time spent allocated to instruction learning (classroom) to include behavioral, mental health and mental health services. Small group, social skills, instruction will address social personal deficits. Direct services to students will include but not be limited to risk and threat assessing, individual counseling, and referrals to community mental health resources. Services provided to staff and students will include mental wellness and substance use/abuse training.

Describe the role of school based mental health providers and community-based partners in the implementation of your evidence-based mental health program.

Royal Palm has developed community partnerships to improve access to school-based mental health supports. These school and community based partners promotes ongoing school safety efforts with crisis prevention, preparedness, response and recovery through crisis training and plans. School based mental health providers: School Counselor provides mental health training to staff and students and address behavior issues that impact the school climate. The school psychologist consults with teachers, parents, school counselor to provide supports to address mental and behavioral health. The Behavior Analyst provides supports to address social/emotional behavioral problems. Typically, behavior assessments and plans are developed by the analyst.

Community Contracts/Interagency Agreements

List the contracts or interagency agreements with local behavioral health providers or Community Action Team (CAT) services and specify the type of behavioral health services being provided on or off the school campus.

Community contracts/interagency agreements are mostly established through Brevard School District. Kinder Konsulting is the assigned school-based mental health provider. Services includes school and home based counseling. Individual, family counseling and case management is provided. A Behavior Analyst through Brevard County Schools, provides behavioral health (social emotional) assessments and intervention planning.

Royal Palm has an interagency agreement with Tiki Services. Tiki Services is a behavioral agency specializing in Autism Spectrum Disorder. The agency provides one-on-one school-based behavioral

services to students targeting social emotional needs. Community action teams consist of District based psychologist, and mobile assist teams for at-risk assessments for potential harm. Royal Palm is serviced through Brevard Sheriff Department for crisis prevention, preparedness and response. The Department also, offers services for potential Baker Act.

MHAA Planned Funds and Expenditures

Allocation Funding Summary

MHAA funds provided in the 2022-2023 Florida Education Finance Program (FEFP) \$ 15,079.00

Unexpended MHAA funds from previous fiscal years as stated in your 2021-2022 MHAA Plan \$ 0.00

Grand Total MHAA Funds

\$ 15,079.00

MHAA planned Funds and Expenditures Form

Please complete the MHAA planned Funds and Expenditures Form to verify the use of funds in accordance with (s.) 1011.62 Florida Statues.

The allocated funds may not supplant funds that are provided for this purpose from other operating funds and may not be used to increase salaries or provide bonuses. School districts are encouraged to maximize third-party health insurance benefits and Medicaid claiming for services, where appropriate.
