## Introduction

The purpose of the combined mental health application is to streamline and merge two programs into one application. The Youth Mental Health Awareness Training (YMHAT) Plan and the Mental Health Assistance Allocation (MHAA) Plan are to provide supplemental funding to districts so schools can establish, expand and/or improve mental health care, awareness and training and offer a continuum of services. These allocations are appropriated annually to serve students and families through resources designed to foster quality mental health. This application is separated into two primary sections: Part II includes the YMHAT Plan and Part III includes the MHAA Plan.

### Part I. Mental Health Assistance Allocation Plan

In accordance with s. 1011.62, F.S., the MHAA Plan allocation is to assist districts with establishing or expanding school-based mental health care; training educators and other school staff in detecting and responding to mental health issues; and connecting children, youth and families who may experience behavioral health issues with appropriate services.

### Submission Process and Deadline

The application must be submitted to the Florida Department of Education (FDOE) by August 1, 2022.

There are two submission options for charter schools (MHAA Plan Only):

- Option 1: District submission includes charter schools in their application.
- Option 2: Charter school(s) submit a separate application from the district.

## Part I: Mental Health Assistance Allocation Plan

s. 1011.62, F.S.

### MHAA Plan Assurances

### **Direct employment policy, roles and responsibilities**

**Explain how direct employment of school-based mental health services providers (school psychologists, school social workers, school counselors and other licensed mental health professionals) will reduce staff-to-student ratios.**

Mental health service providers will facilitate small groups targeting self-regulation and social skills; Push-in to classrooms to deliver SEL lessons; and for students requiring higher levels of support, provide one on one services or additional outside counseling services. The increase in services reduces staff to student ratios providing students with greater access to mental health services and providers.

**Describe your school's established policies and procedures to increase the amount of time student services personnel spend providing direct mental health services (e.g., review and revision of staffing allocations based on school or student mental health assistance needs).**

If during the MTSS meetings an increased need is established, then MTSS will reach out to the school based psychologist to get more input on providers or community support to increase the number of licensed mental health clinicians.

**Describe the role of school based mental health providers and community-based partners in the implementation of your evidence-based mental health program.**

School based mental health providers will collaborate with community based partners to meet the mental health needs of students. School based and community support allows for wrap around support.

### **Community Contracts/Interagency Agreements**

**List the contracts or interagency agreements with local behavioral health providers or Community Action Team (CAT) services and specify the type of behavioral health services being provided on or off the school campus.**

School Psychologists/Counseling-Desiree Mahiquez, Children's Psychological Services Provided: Safety Planning, Threat assessment, group/ individual therapy as needed.

Community Resource Officer Off Duty-Manatee Sheriffs: Community and School Safety

Centerstone Counseling Centerstone: Individual Therapy and Counseling
