Introduction

Mental Health Assistance Allocation Plan

s. 1006.041, F.S.

MHAA Plan Assurances

The Charter School Assures

One hundred percent of state funds are used to establish or expand school-based mental health care; train educators and other school staff in detecting and responding to mental health issues; and connect children, youth and families with appropriate behavioral health services.

Yes

Mental health assistance allocation funds do not supplant other funding sources or increase salaries or provide staff bonuses or incentives

Yes

Other sources of funding will be maximized to provide school-based mental health services (e.g., Medicaid reimbursement, third-party payments and grants).

Yes

Collaboration with FDOE to disseminate mental health information and resources to students and families.

Yes

A system is included for tracking the number of students at high risk for mental health or co-occurring substance use disorders who received mental health screenings or assessments; the number of students referred to school-based mental health services

Yes

Curriculum and materials purchased using MHAA funds have received a thorough review and all content is in compliance with State Board of Education Rules and Florida Statutes.

Yes

A charter governing board policy or procedure has been established for

Students referred to a school-based or community-based mental health services provider, for mental health screening for the identification of mental health concerns and students at risk for mental health disorders are assessed within 15 calendar days of referral.

Yes

School-based mental health services are initiated within 15 calendar days of identification and assessment.

Yes

Community-based mental health services are initiated within 30 calendar days of referral.

Yes

Individuals living in a household with a student receiving services are provided information about behavioral health services through other delivery systems or payors for which such individuals may qualify if such services appear to be needed or enhancements in those individuals' behavioral health would contribute to the improved well-being of the student.

Yes

District schools and local mobile response teams use the same suicide screening instrument approved by FDOE pursuant to s. 1012.583, F.S., and Rule 6A-4.0010, F.A.C.

Yes

Assisting a mental health services provider or a behavioral health provider as described ins. 1006.041, F.S., respectively, or a school resource officer or school safety officer who has completed mental health crisis intervention training in attempting to verbally de-escalate a student's crisis situation before initiating an involuntary examination pursuant to s. 394.463, F.S. Such procedures must include strategies to de-escalate a crisis situation for a student with a developmental disability as that term is defined ins. 393.063, F.S.

Yes

The requirement that in a student crisis situation, the school or law enforcement personnel must make a reasonable attempt to contact a mental health professional who may initiate an involuntary examination pursuant to s. 394.463, F.S., unless the child poses an imminent danger to self or others before initiating an involuntary examination pursuant to s. 394.463, F.S. Such contact may be in person or using telehealth, as defined ins. 456.47, F.S. The mental health professional may be available to the school district either by contracts or interagency agreements with the managing entity, one or more local community behavioral health providers, the local mobile response team, or be a direct or contracted school district employee. Note: All initiated involuntary examinations located on school grounds, on school transportation or at a school sponsored activity must be documented in the Involuntary Examinations and Restraint and Seclusion (IERS) platform.

Yes

Parents of students receiving services are provided information about other behavioral health services available through the student's school or local community-based behavioral health service providers. Schools may meet this requirement by providing information about and internet addresses for web-based directories or guides for local behavioral health services.

Yes

The Mental Health Assistance Allocation Plan must be focused on a multitiered system of supports to deliver evidence-based mental health care assessment, diagnosis, intervention, treatment and recovery services to students with one or more mental health or co-occurring substance abuse diagnoses and to students at high risk of such diagnoses. s. 1006.041, F.S.

Yes

District Program Implementation

Evidence-Based Program	Youth Mental Health First Aid (YMHFA)
Tier(s) of Implementation	Tier 1
Describe the key EBP components that will be implemented.	
Youth Mental Health First Aid (YMHFA): Provided by Orange County Public Schools, this training is designed to teach adults how to help children/adolescents who may be experiencing a mental health crisis. Increased awareness at the tier one level will help to support identification of students who may need additional services or interventions.	
Explain how your district will implement evidence-based mental health services for students to improve the early identification of social, emotional, or behavioral problems or substance use disorders, as well as the likelihood of at risk students developing social emotional or behavioral problems, depression, anxiety disorders or suicidal tendencies, and how these will assist students dealing with trauma and violence.	
In 23-24, OSES will send staff members to participate in the training. These trainings will take place at middle schools and high schools throughout the district so that all staff members will have multiple sessions available in their communities.	
Explain how the supports will deliver evidence-based mental health care assessment, diagnosis, intervention, treatment and recovery services to students with one or more mental health or co-occurring substance abuse diagnoses and to students at high risk of such diagnoses.	
The outcomes of this EBP will be measured by attendance, as well as demonstrated competencies in mental health literacy through successful completion of the end of course exam. Our goals are to have 100% of school staff trained by July 1, 2023, and to have 100% of staff members pass their end of course exams.	

Direct Employment

Direct employment policy, roles and responsibilities

Explain how direct employment of school-based mental health services providers (school psychologists, school social workers, school counselors and other licensed mental health professionals) will reduce staff-to-student ratios.

Orlando Science Elementary employees one full time licensed School Mental Health Counselor. We feel the one counselor is sufficient for our school population, however the additional funding allows us to maintain the position and remain competitive with other professional salaries.

Describe your district's established policies and procedures to increase the amount of time student services personnel spend providing direct mental health services (e.g., review and revision of staffing allocations based on school or student mental health assistance needs).

The administration members meet to review school-wide data and determine the needs of schools and students. They then collaborate with the principal supervisors who meet with principals and school student services team members. Using the Multi-Tiered System of Supports (MTSS) process, student needs are matched to appropriate interventions. Documentation of direct services is collected and reviewed monthly in order to monitor the amount of time spent on direct services.

Describe the role of school based mental health providers and community-based partners in the implementation of your evidence-based mental health program.

Community based partners provide supports at Tier 3 with individualized mental health interventions. They also support by providing referrals for students who may need wraparound services in the community.

Community Contracts/Interagency Agreements

List the contracts or interagency agreements with local behavioral health providers or Community Action Team (CAT) services and specify the type of behavioral health services being provided on or off the school campus.

Agency: Aspire Heath Partners Services: Individual Counseling/Direct service
Agency: Deveraux Services: Individual Counseling/Direct service
Agency: Kinder Konsulting Services: Individual Counseling/Direct service
Agency: Hispanic Family Counseling Services: Individual Counseling/Direct service
Agency: A Better Therapy Services: Individual Counseling/Direct service
Agency: Impower Services: Individual Counseling/Direct service
Agency: Psychamerica Behavioral Services: Individual Counseling/Direct service
Agency: North Star Counseling Services: Individual Counseling/Direct service

Agency: Advanced Psychiatric Solutions Services: Individual Counseling/Direct service

Agency: A Children's Place Services: Individual Counseling/Direct service
 Agency: Positive Behavior Solutions Services: Individual Counseling/Direct service
 Agency: Phoenix Counseling Services Services: Individual Counseling/Direct service

MHAA Planned Funds and Expenditures

Allocation Funding Summary

MHAA funds provided in the 2023-2024 Florida Education Finance Program (FEFP)

\$ 34,418.00

Unexpended MHAA funds from previous fiscal years

\$ 0.00

Grand Total MHAA Funds

\$ 34,418.00

MHAA planned Funds and Expenditures Form

Please complete the MHAA planned Funds and Expenditures Form to verify the use of funds in accordance with (s.) 1006.041 Florida Statutes.

The allocated funds may not supplant funds that are provided for this purpose from other operating funds and may not be used to increase salaries or provide bonuses. School districts are encouraged to maximize third-party health insurance benefits and Medicaid claiming for services, where appropriate.
