I. Current District Status

A. Supportive Environment

1. Mission and Vision

a. District Mission Statement

Educating today's students to succeed in tomorrow's world.

b. District Vision Statement

Broward County Public Schools (BCPS) is committed to educating all students to reach their highest potential.

c. Link to the district's strategic plan (optional).

2. Supports for School Improvement

a. Alignment of Resources

Describe the process through which the district identifies and aligns all district resources (e.g., personnel, instructional, curricular, policy) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs to align to interventions in Priority and Focus schools. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

School Improvement Grant (SIG) and Focus and Priority schools will receive District support from various District departments. Personnel will visit schools regularly to provide support that includes modeling and collaboration in alignment with the school's SIP. Site visitations are being documented on a District database (Service Ticket). Other District schools can voluntarily request support, appropriate personnel is dispatched as needed. All schools use the same monitoring plan document.

Title IIA provides instructional coaches for Priority schools. Title III provides funding for highly qualified teacher and teacher assistant positions to support and enhance instruction at schools with a significant ELL population. These teaching positions are beyond the earned FTE allocation at each site. Title I and Title III also provide supplemental instructional supplies and/or materials to facilitate the teaching of ELLs (Title III) and low socio-economic schools (Title I).

The District has created a process called the Student Success Opportunity Schools (SOSS) that includes all schools that go through substantial reform/restructuring. Priority and Focus schools are automatically included, as well as any other schools that are performing below the required threshold on the District's 34 School Performance Framework (SPF) indicators (thus, school grades are not the only indicator for becoming an SSOS school). The Office of School Performance and Accountability in collaboration with District departments provide oversight of the SSOS process. Monthly meetings have been scheduled to include community stakeholders in the decision making process for designing instructional models to transform schools. District data resources are available for all schools to assist them with monitoring the effectiveness of academic and behavioral supports in reading, mathematics, science, writing, and engagement (e.g. behavior, attendance). Schools are required to complete an inventory of resources that are available at their school site. The SSOS Steering Committees engage in problem-solving activities to efficiently and strategically re-allocate resources appropriately in order to achieve the highest impact for curriculum programming and funding.

b. School Allocation Process

Describe the way in which the district allocates resources to schools. Include the person(s) responsible for this process, frequency of data review and decision making, and processes used to differentiate and monitor resource supports.

The District provides adequate funding for appropriate resources to ensure that every PreK-12 student has access to the technology, innovative programs, high quality teachers and support staff. This distribution of resources enables schools to meet the state mandated requirements for high school graduation. The educational programs and services are delivered in a safe and secure environment for all students to experience success. The District reviews the allocation of resources according to weighted FTE cost factors each year. Funding is differentiated for particular educational programs to meet the needs of all subgroups. Resources are monitored at the end of each school year to when principals meet with the District Budget Office to review current expenditures and determine budget guidelines for the upcoming school year.

c. Modifications to System Policies and Practices

Identify specific policies and practices the district shall seek to add, modify or remove in order to establish or strengthen systems that support school-based leadership teams to implement interventions. Provide the rationale for the proposed changes and the steps required to make the modifications, including person(s) responsible for implementation and follow-up.

Beginning in the 2013-2014 school year, the District restructured schools into Sub-Cadre groups that have proven to be successful, and thus will continue during the SIG program period. Principals from approximately ten schools with both like and unlike characteristics meet on a monthly basis to discuss special curriculum topics which include intervention implementations. The Principals share best practices that are supported by data, for consideration at their own schools.

The Sub-Cadre sessions are held at a host school and include classroom walkthroughs for first-hand, eye witnessing of intervention implementation in action. The Principals of the Sub-Cadre schools can arrange for additional dialogue, as well as continued communication between members of leadership teams to collaborate. The structure of these Sub-Cadre groups include activities for principals and other members of the leadership team as follow-up.

In addition, the Director of the Office of Strategic Achievement (OSA, the District's Turnaround Office), will facilitate quarterly sessions of SIG school-based leadership teams to share intervention implementation successes and challenges for collaboration with each other. Given that SIG schools are not within the same Sub-Cadre groups, this permits information to be shared across Sub-Cadre groups.

The OSA and the Cadre Directors are within the same division, the Office of School Performance & Accountability (OSPA). This alignment streamlines the approval and implementation of this new initiative for sharing information across Sub-Cadres for SIG schools. The Cadre Directors will also participate in the facilitation of SIG sessions to support schools and learn information from schools in other Sub-Cadres supervised by other Directors.

The OSPA will work closely with the Division of Academics on the implementation of interventions as well as supporting teaching and learning in schools. Specialists from the Division of Academics will actively participate at the SIG sessions offering information on the theory behind why the selected interventions used at one or more SIG schools are best practices and the most effective forms of implementation.

Professional development for school leaders and staff is essential in sustaining continuous school improvement efforts. There are a plethora of District-based leadership professional learning opportunities available for new and veteran administrators to support and advance leadership skills.

Some examples are: The Disciplined Leader-Prioritizing for Effective Leadership, iObservation Deliberate Practice, The Reflective Leader, The Change Leader, to name a few. These opportunities are essential in the growth of educational leaders.

The growth of staff is also critical in sustaining and growing school success. In addition to the myriad of learning opportunities available, identified staff from SIG Cohort 3 schools will also attend the Differentiated Accountability Summer Academy each year of the grant and beyond to increase knowledge and professional practices. By attending state-led professional development, participants will engage in collaborative conversations with other schools to share best practices and learn about innovative strategies.

d. Operational Flexibility

Provide the district's definition of "operational flexibility" as provided to schools implementing a District-Managed Turnaround option under section 1008.33, Florida Statutes, or a Turnaround, Transformation or Restart with EMO model under the SIG 1003(g) program as it applies to school-level autonomy over staffing, scheduling and budgeting.

Within the District, operational flexibility is implemented through strategies that support schools through effective leadership. Appropriate resources are provided to schools to design the master schedules, provide common planning time for data-based decision making within the problem-solving process, and to participate in job-embedded professional development and Professional Learning Communities (PLCs) with Lesson Study Groups.

For instructional placements, principals at schools implementing a District-managed turnaround model have the option to advertise and hire new teachers to the District or transfer teachers if no other vacancies exist. The District annually works with the Broward Teachers Union to exempt these schools from reduction in force or receiving surplus teachers through a Memorandum of Understanding.

The School Board of Broward County provides opportunities to waive District policy or contract items that may impede progress of the School Improvement Plan activities. Each year, several schools apply for waivers, such as Professional Study Days, changes in instructional schedule, and exam exemption, to name a few. The Office of Strategic Achievement monitors the waiver process through a database and the implementation of waivers for a period of up to five years.

3. Sustainability of Improvement

a. Describe how the district will sustain improvements that are a result of the interventions described in Part III of this plan after the schools' Differentiated Accountability designation of Focus or Priority is removed. Include any plans to reorganize personnel, redistribute resources or reach out to community organizations, unions and other partners to build capacity for and sustainability of improvements.

Broward County Public Schools has implemented a district-wide, fully functioning initiative called Student Success Opportunity Schools (SSOS). The initiative includes all schools that require substantial reform/restructuring due to barriers that may impede success. Priority and Focus Schools are automatically included in the process, as well as any other schools that are performing below the required threshold based on the District's 34 School Performance Framework indicators (thus, school grades are not the only indicator for becoming an SSOS school). The input of all stakeholders is critical to the success of schools and the district. Cultivating collaboration between schools and community through effective and transparent communication, engagement, and accountability is one of the main goals within the District's Strategic Plan for schools and is the cornerstone of the SSOS process.

SSOS schools are supported by the District with internal and external resources that are financial and non-financial. During the School Improvement Grant (SIG) period, the accompanying funds are part of what will be used to reform/restructure the school. Additional funding will be provided by the District's general fund, other District grants (entitlement and competitive), and continued partnerships with internal and external stakeholders. This supports the ability for all SSOS schools to develop unique design concepts unique to the learning needs and growth of their school populations. As an example, the SSOS program at Westwood Heights Elementary School (candidate for SIG Cohort 3) includes a partnership with local community colleges and universities to provide pre-service student teachers and pre-service community health resources. This kind of partnership exemplifies a fundamental shift into 21st century thinking and learning. It also gives students a head start in preparing for college and future careers.

The SSOS process provides an opportunity for the District to analyze the efficiency of the use of resources (including financial) and re-allocate more appropriately. Past history, for example, shows that the District's reform/restructuring efforts of curriculum programming at 5 schools incurred a cost savings of approximately \$5.5 million in a one-year period. This amount was dedicated back to the same schools. This exemplifies that the average amount of funding to the schools is at a comparable amount to the SIG program funds and thus a current plan exists in order to sustain reform/restructuring in schools inclusive of SIG schools.

The District will continuously partner with the Broward Teachers Union (BTU) in order to closely monitor that effective educators are teaching in SIG schools. The BTU and the District have a long history of negotiating and compromising through Memorandum of Understandings (MOUs) to agree on such types of issues that are independent of the collective bargaining contract. As part of the reform/restructuring of identified schools, these partnerships would continue beyond the SIG program period. Upon the expiration of the SIG program, the District will continue to support the reform/restructure through the general fund and/or other grants.

To consistently support the sustainability of improvements, operational flexibility is essential. As stated in Assurance 18, operational flexibility is implemented through strategies that support schools through effective leadership. Appropriate resources are provided to schools to design the master schedules, provide common planning time for data-based decision making within the problem-solving process, and to participate in job-embedded professional development and Professional Learning Communities (PLCs) with Lesson Study Groups.

For instructional placements, principals at schools implementing a District-managed turnaround model have the option to advertise and hire new teachers to the District or transfer teachers if no other vacancies exist. The District annually works with the Broward Teachers Union to exempt these schools from reduction in force or receiving surplus teachers through a Memorandum of Understanding.

The School Board of Broward County provides opportunities to waive District policy or contract items that may impede progress of the School Improvement Plan activities. Each year, several schools apply for waivers, such as Professional Study Days, changes in instructional schedule, and exam exemption, to name a few. The Office of Strategic Achievement monitors the waiver process through a database and the implementation of waivers for a period of up to five years.

The facets of the SSOS initiative and pertinent District policies, processes and procedures support the efforts of the Office of School Performance and Accountability (District Turnaround Office) to effectively impact SIG schools. Through the continuous improvement process, the District regularly reviews data and procedural guidelines to address any barriers that may hinder implementation and the schools' ability to make progress. For example, identified schools participate in the

Superintendent's Roundtable Discussion for High Quality Instruction with district leaders to address sustainability of reform measures.

B. Stakeholder Involvement

1. Parental Involvement Plan (PIP) Link

<https://www.floridacims.org/documents/361902>

2. Family and Community Engagement

Describe the district's *ongoing* mechanisms for engaging families and the community in school improvement efforts.

Student Success Opportunity Schools (SSOS) is a strategic initiative by Broward County Public Schools (BCPS) to review the performance of schools utilizing a variety of criteria, such as student academic performance, school enrollment, climate, facilities and other local factors. SSOS provides an opportunity for the District to work with parents, students, staff and community members to discuss the potential educational options available for students that are sustainable and promote increased student achievement. The District's SSOS model provides for interactive dialogue involving the generation of problem solving ideas gathering input from all community stakeholders. This process requires all schools identified Progress through substantial reform/restructuring. The 30 identified Priority and Focus schools are automatically included, as well as any other schools that are performing below the required threshold on the District's 34 School Performance Framework (SPF) indicators (thus, school grades are not the only indicator for becoming an SSOS school). The Office of School Performance and Accountability in collaboration with District departments provide oversight of the SSOS process. Unique school demographics, including enrollment and capacity needs, as well as any changes in student assignment data is analyzed for review and proposal recommendation.

BCPS Chief Portfolio Services Officer, through Chief of Staff meetings, serves as the body of facilitation for the SSOS process in specific identified regions of the district. This is to provide individualized tailored attention to the schools' unique needs. After the community proposals are generated and submitted to the district a series of Community Forum meetings are scheduled and communicated to the public. These Community Forums are designed in a segmented format: 1) Portfolio Review General Session detailing the process, individual community proposals and next steps; 2) Breakout Sessions facilitated by the Office of School Performance and Accountability (OSPA) staff gathering and recording additional (+/-) comments from stakeholders; 3) General Session Recap to present individual school/community questions and concerns generated from the breakout sessions; and 4) FAQs are then researched, developed and posted on the District's SSOS and Demographics & Student Assignments web pages.

3. Engagement of School Leadership

Describe how the district involves school leadership in the development and implementation of turnaround plans and other school-level interventions.

At the conclusion of the Breakout Sessions facilitated by the Office of School Performance and Accountability (OSPA) staff solicits community volunteers to serve on school SSOS Steering Committees. Monthly meetings are scheduled to include these community stakeholders in the decision making process for designing instructional models to transform schools. District data resources are available for all schools to assist them with monitoring the effectiveness of academic and behavioral supports in reading, mathematics, science, writing, and engagement (e.g. behavior, attendance). Schools are required to complete an inventory of resources that are available at their school site. The SSOS Steering Committees engage in problem-solving activities to efficiently and strategically re-allocate resources appropriately in order to achieve the highest impact for curriculum programming and funding.

The District's process of the development and implementation of turnaround plans and other school-level

interventions includes the Principal involvement with each component. As community meetings are held the Principal makes the public announcement and orchestrates the on-site logistics. The Principal is a required part of the Steering Committee to develop recommendations to the District for Turnaround Option Plans. The Principal then is responsible for implementing the Turnaround Option Plan to include the appropriate hiring of staff and the implementation to fidelity of the interventions. Support direction, both internally and that include the Florida Department of Education Region Team, are developed by the Principal to include Instructional Review sessions.

Supervisor's Name	Dr. Valerie Wanza
Supervisor's Title	Assistant Superintendent
Role and Responsibilities	Supervisor of School Improvement Grant, Accreditation, School Improvement Plans. Differentiated Accountability, School Advisory Councils, Common Core Support and District Waivers

3. Educator Quality

a. School Leadership Teams

Describe the process and criteria by which the district determines and ensures each Focus and Priority school has a school leadership team of high quality, including a principal and assistant principal with a record of increasing student achievement in a setting with similar challenges. Include how the district determines whether to retain or replace members of the leadership team.

The district analyzes a number of components regarding school administration in determining the school-based assignment. Training for Principals and Assistant Principals requires assignments in multiple schools with targeted school characteristics. Candidates are placed in schools for which they have experiences through their training programs. Academic achievement of schools from which the candidate was a part of the leadership team is analyzed, again targeting the achievement of sub-groups that are prominent in the school for assignment. There is an annual review of leadership, in alignment with the evaluation process, for administrators that is used to retain or replace administration. The review includes academic data as well as, for example, climate and school culture data.

b. Instructional Staff

Describe the process by which the district determines whether to retain or replace members of the teaching staff in Focus and Priority schools whose data shows they have not contributed to improved student outcomes.

The District first considers the type of intervention programs to be implemented at Focus and Priority schools, and then decides on the skill set required for such implementation with fidelity. If the intervention is one that requires general educator expertise staff can be retained, but also offered the opportunity to voluntarily transfer as outlined in Memorandum of Understandings with the teachers union. If the intervention is one that requires a specialized expertise, working with the teachers union, the educators can be offered an interview to remain but are not guaranteed a position at the same school. In alignment with the collective bargaining agreement, teachers not retained by their current school will be placed at another school in the District if they do not secure a placement themselves.

D. Professional Capacity**1. Common Planning Time**

Describe how the district ensures appropriate resources are allocated to ensure the master schedule at Focus and Priority schools allows for common planning time, as defined in Rule 6A-1.099811(2)(e), F.A.C.

Common Planning occurs by grade level at the elementary level and among subject areas at the secondary level. Due to budget constraints of the low 300 elementary reading and the class size initiatives common planning occurs among several educators of the same grade level and subject areas but not all. Common planning technical assistance is offered by the District, with the support of the Florida Department of Education Region Team. School-Based leadership are charged with implementing common planning to fidelity. Monitoring of school-based leadership, to include common planning, occurs at the District level.

2. Instructional Coaches

Describe how the district provides Focus and Priority schools with a reading coach, mathematics coach and science coach to model effective lessons, lead lesson study, analyze data and provide professional development on Florida's standards. Include how the district monitors the daily activities of the coaches and their impact on instruction.

The District provides a Literacy Coach for all schools. These positions are funded by the State Reading allocation and the District's general fund. The assignment of a math and reading coach is tiered based on schools with the lowest student achievement. These positions are funding by the District's Title IIA

grant. Once the available funds are exhausted, as with the Florida Department of Education Region Team, support for Math and Science occurs through the District and/or the FL DOE Region Team.

Grades K - 5: HMH Go-Math Series Florida Standards Edition**Program Type** Core**School Type** Elementary School

Description GO Math! is a comprehensive K–5 mathematics program developed to support the Common Core State Standards for Mathematics. The program emphasizes the critical areas and depth of understanding through interactive lessons, research-based instructional approaches, best practices from around the world, and differentiated instructional resources to ensure success for all students.

Grade 6 - 8 (including advanced courses): HMH Go-Math Series Florida Standards Edition Grades 6-8**Program Type** Core**School Type** Middle School

Description GO Math is a comprehensive K–8 mathematics program developed to support the Florida Standards for Mathematics. The program emphasizes the critical areas and depth of understanding through interactive lessons, research-based instructional approaches, best practices from around the world, and differentiated instructional resources to ensure success for all students.

Algebra 1: HMH Analyze, Connect, and Explore (ACE)**Program Type** Core**School Type** Middle School, High School

Description Algebra 1: Analyze, Connect, Explore was written to support the Common Core State Standards for Mathematics with a focus on depth of instruction and the integration of the Standards for Mathematical Practice in every lesson. The program promotes 21st-century skills through comprehensive digital resources like interactive, device-agnostic digital Student Editions.

Algebra 1H, Geometry, Algebra 2: Florida Explorations in Core Math**Program Type** Core**School Type** Middle School, High School

Description Houghton Mifflin Harcourt Florida Algebra 1, Geometry, and Algebra 2 © 2015 is a comprehensive online high school mathematics program supported with by consumable Explorations in Core Math worktext. The worktext leads with conceptual investigations and tasks and is paired with online lessons and resources that continue to support conceptual understanding while also developing important procedural skills.

Algebra 2H, Geometry H: HMH Larson Series**Program Type** Core**School Type** Middle School, High School

Description Holt McDougal Larson Geometry and Algebra 2 develops a deeper understanding of mathematical concepts to help students extend their math knowledge beyond the classroom. The program delivers a rigorous middle and high school math curriculum that includes the Common Core Standards and prepares students for STEM careers. Integration of the Standards for Mathematical Practice takes students beyond “doing” the math to “understanding and explaining” it. - See more at: <http://www.hmhco.com/shop/education-curriculum/math/secondary-mathematics/holt-mcdougal-larson-algebra-1-geometry-algebra-2-with-pre-algebra#sthash.CyPiPTgM.dpuf>

2. Instructional Alignment and Pacing**a. Program Monitoring**

Describe the process through which the district monitors whether core instructional and intervention programs are implemented as intended, how alignment with Florida's standards is maintained and whether they are effective. Include the data used to determine fidelity and effectiveness. Provide exemplars of how the district has responded to evidence of poor implementation and evidence that a given strategy is failing to reduce barriers to goals.

There are systems in place to monitor the implementation of the District's core instructional and intervention programs. These include the following:

1. The leadership team monitors the implementation of the four-step, data based problem-solving process. The district has developed tools on an electronic data system that can be utilized to monitor the schools' use of the critical elements of the problem-solving process. The CPS Team Benchmark Checklist can also be considered for use.

This 4-step process includes the following steps:

- 1) Problem Identification
- 2) Problem Analysis
- 3) Intervention Design/Implementation
- 4) Progress Monitoring

2. The essential elements of the MTSS process are monitored. These include program evaluation leadership support and the provision of professional development. One tool to measure MTSS

elements

is the Self-Assessment of Problem-Solving Implementation (SAPSI). The Collaborative Problem Solving

(CPS) Team Benchmark Checklist can also be used to determine the extent to which a school is implementing a CPS team approach.

3. The leadership team needs to monitor the delivery of instruction and intervention across the three tiers. The interventions can be monitored and tracked through BASIS. Also, at Tier 2 and Tier 3, the Intervention Records contain the data that can be used to examine the effectiveness of Tier 2 and Tier 3

supports

Data is collected regularly and includes student data from classroom assessments, classroom “look-fors” using a self-reflection tool or rubric aligned with the literacy needs or discipline specific literacy practices to be implemented, and data collected using the Marzano Model of Causal Teacher evaluation and iObservation. In addition, school and district leadership make observation visits, and district assessments such as the Benchmark Assessment Test (BAT) and the Florida Assessments for Instruction in Reading (FAIR) and other assessments provide progress-monitoring data.

b. Supports for Student Transitions

Describe the structures the district has in place to support students in Focus and Priority schools as they transition from one school to another.

1. Will the district use its Student Progression Plan to satisfy this question?

No

a. Link to Student Progression Plan

b. Provide the page numbers of the plan that address this question.

The Student Success Opportunity Schools (SSOS) process in Broward County Public Schools tracks academic, behavior and other student centered data as students move from one school to another. The data is compiled by the District's Student Assessment & Research Department and shared with District leaders in regularly monitoring the comprehensive SSOS process. The District has a committee that is scheduled to meet weekly to discuss all facets of the SSOS process to include priority and focus schools, as well as schools undergoing district initiated reform not otherwise mandated by their Differentiated Accountability status.

c. Alignment of Pacing Guides to Florida Standards

Verify that the district's instructional pacing guides are aligned to Florida's standards for reading, writing, mathematics and science.

Yes

II. Needs Assessment

A. Problem Identification

1. Data to Support Problem Identification

b. Data uploads are not required by the Florida Department of Education, but are offered as a tool for needs assessment.

The following documents were submitted as evidence for this section:

No files were uploaded

2. Problem Identification Summary

This section is not required by the Florida Department of Education, but is provided as an opportunity for the district to summarize the points of strength and areas of need that have been identified in the data.

B. Problem Analysis Summary

This section is not required by the Florida Department of Education, but is provided as an opportunity for the district to summarize the underlying root causes for the areas of need identified in the data, as determined by situational awareness of, and research conducted by, the stakeholders involved in the needs assessment.

District Improvement Goals

The following key is intended to help readers understand how the sections of this document correspond to the steps of the 8-step planning and problem-solving framework used in the School Improvement Plan. The Quick Key numbers can help registered users go directly to the point of entry for any given goal, barrier and strategy within the online survey.

Strategic Goals Summary

- G1.** If we assign highly-skilled teachers, deliver a balanced literacy curriculum, use high-quality instructional materials, effectively engage families, and monitor progress with a common, unified assessment system, then on-grade level literacy will increase and FSA ELA/Reading scores will increase for all students (including: race/ethnicity, gender, English Language Learner, students from disadvantaged backgrounds, students with disabilities, and gifted students).

Strategic Goals Detail

For each strategic goal, this section lists the associated targets (i.e., “SMART goals”), targeted barriers to achieving the goal, resources available to help reduce or eliminate the barriers, and the plan for monitoring progress toward the goal.

- Targeted or comprehensive support for schools that demonstrate the highest needs

Resources Available to Help Reduce or Eliminate the Barriers **2**

- District Support: the Office of School Performance and Accountability, Student Support Initiatives, Teacher Professional Learning and Growth, Office of Academics/Curriculum, Professional Development Standards and Support, Talent Acquisition & Operations, Coaching and Induction
- Broward Literacy Field Field Guide
- BCPS Instructional Facilitators through the Office of School Performance and Accountability
- Instructional Coaches through the Office of Academics/Curriculum
- Specialized Professionals Advancing Resources, Knowledge and Skills (SPARKS)
- Family and Community Engagement (FACE) Plans for each school in the district
- MTSS/Rti Plans for each school in the district
- Attendance Plans for each school in the district
- Behavior Plan for each school in the district
- Naviance - Family Connection for all district students in grades 6-12 to help with college and career planning
- BCPS Launch Pad provides single-sign-on access to Instructional and Digital Resources
- BASIS - Behavioral Academic Support Information System
- Pinnacle - real time with information on students academic performance, lunch account balances, bus pick-up and drop-off times and so much more

Plan to Monitor Progress Toward G1. 8

The Office of School Performance and Accountability (OSPA) Chief regularly reviews current portfolios of turnaround schools to analyze the effectiveness of curriculum delivery, use of instructional materials, family engagement, and monitor progress through data reports . These portfolios of schools are fluid to provide the most conducive and effective type of support and guidance to maximize school success and meet goals.
