Title I Parent and Family Engagement Policy

Parents, educators, administrators, and the community share responsibility for family engagement. Three consistent elements of successful family engagement efforts that emerge from the research are that: 1. All parties work together to build a foundation of trust and respect; 2. Family engagement efforts and strategies are firmly connected to learning objectives; and 3. Efforts to reach out and engage parents go beyond the schoolhouse doors and do so consistently throughout the year. (Henderson and Mapp, 2002).
