## Purpose and Outline of the UniSIG Proposal

Under section 1003 of Title I of the Every Student Succeeds Act, Public Law No. 114-95, each state educational agency (SEAs) shall reserve funds for school improvement, no less than 95 percent of which shall be used to make grants to local educational agencies (LEAs) on a formula or competitive basis, to serve schools implementing comprehensive support and improvement activities or targeted support and improvement activities under section 1111(d).

For 2017-18, Unified School Improvement Grants (UniSIG) will be awarded on a formula basis. Eligible applicants are local educational agencies (LEAs) with funded Title I schools identified for comprehensive or targeted support and improvement, as well as LEAs with high schools, Title I or non-Title I, that have a four-year adjusted cohort graduation rate of 67 percent of less, regardless of the school grade earned.

## Part I: Eligibility and Program Requirements

The district reviews the list of eligible schools and allocations and ensures the requirements of UniSIG are met by providing assurances and summaries as applicable.

#### **Part II: Needs Assessment**

For each eligible school, the district demonstrates it has completed a thorough analysis of state-, district-, and school-level data (qualitative and quantitative) in order to identify points of strength and opportunities for growth to inform strategic goal formulation.

#### **Part III: District Problem Solving**

The district documents one or more strategic goals for improving the identified schools, anticipates barriers to the goals, identifies strategies to reduce or eliminate the barriers, and creates an implementation plan for each strategy to include both action steps and monitoring activities.

#### Part IV: Budget

The district incorporates a budget that indicates the amount of UniSIG funds the district will use in each eligible school. Each budget line item, except indirect costs, is directly tied to an action step identified in Part III.

## **Eligibility and Program Requirements**

#### **Eligible Schools**

Eligible applicants are local educational agencies (LEAs) with funded Title I schools identified for comprehensive or targeted support and improvement, as well as LEAs with high schools, Title I or non-Title I, that have a four-year adjusted cohort graduation rate of 67 percent or less, regardless of the school grade earned.

Funding amounts were calculated based on the most recently released school grades and 2016-17 Survey 3 preliminary data containing student enrollment. The per-pupil allocation also takes into account the percent of economically disadvantaged students.

School ID	School Name	Per-Pupil Allocation	Graduation Rate Allocation	Total Allocation
0171	Oak Ridge Elementary School	\$201,780.00	\$0.00	\$201,780.00
0231	John G Riley Elementary School	\$230,660.00	\$0.00	\$230,660.00
1421	Imagine School At Evening Rose	\$62,496.00	\$0.00	\$62,496.00
	-	Tota	Total LEA Allocation	

#### Assurances

#### **Request for Applications**

We have read the Request for Applications (RFA) in its entirety and understand the intent and requirements of the Unified School Improvement Grant (UniSIG) program.

YES

#### **General Terms, Assurances, and Conditions**

We understand the LEA must have a signed statement by the agency head certifying applicant adherence to FDOE's General Terms, Assurances, and Conditions for Participation in Federal and State Programs.

YES

#### Risk Analysis

We have read the Request for Applications (RFA) in its entirety and understand the intent and requirements of the Unified School Improvement Grant (UniSIG) program.

YES

#### Supplement, not Supplant

We understand that each school the LEA will serve must receive all of the state and local funds it would have received in the absence of UniSIG funds.

YES

#### **Allocation to Schools**

We understand the LEA must allocate 100 percent of funds (less indirect costs) generated under UniSIG to the eligible schools.

YES

#### **Alignment of Strategies**

We understand strategies to be implemented under this program must be aligned with Florida's State Board of Education Strategic Plan.

YES

#### **Alignment of Improvement Plans**

We understand all strategies outlined in District Problem Solving to be funded under this program must also be identified as strategies, with associate budget lines, in the school improvement plan (SIP), as applicable, for each school to be served.

YES

#### **Greatest Need**

We understand programs, activities, or strategies to be implemented must specifically address the academic achievement of schools and students that demonstrate the greatest need.

YES

#### **Instructional Programs**

We understand evidence-based instructional programs must be implemented.

YES

#### **Extended Learning Time**

We understand that extended learning time activities required of an elementary school designated as one of Florida's lowest performing must not be funded through UniSIG.

YES

#### **Deilverables**

We understand deliverables will be monitored quarterly and the LEA must complete deliverables directly within CIMS using the Project Management module.

YES

## Supports for School Improvement

#### Improvement Planning

Describe how the LEA will support each school identified as comprehensive support and improvement (CS&I) and/or targeted support and improvement (TS&I) in developing and implementing a school improvement plan (SIP).

The LEA will support the CS&I school (Oak Ridge) and the TS&I school (Riley) in the following ways: \*a Leadership Coach with previous turn-around experience will be on each school campus weekly in order to collaborate with school administrators regarding school improvement efforts.

\*a professional learning consultant will provide feedback on appropriate school improvement goals and strategies during the development and implementation of the school improvement plans

\*the LEA's Director of School Improvement and Accountability will conduct a thorough review of state science data to assist schools in identifying areas for improvement

\*the district's tiered model of support will allow school administrators to participate in monthly cadre meetings which will include data chats, collaboration with other priority schools and a continuous review of evidence –based instructional strategies that impact student achievement

\*these schools will have first access to the district's Curriculum Services staff to support teachers in their instructional practice

#### **Alignment of Resources**

Describe the process through which the LEA identifies and aligns all district resources (e.g., personnel, instructional, curricular, policy) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs to align to interventions in comprehensive support and improvement (CS&I) and targeted support and improvement (TS&I) schools. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained, and any problem-solving activities used to determine how to apply resources for the highest impact.

Just as schools use data to provide multi-tiered support to their students, the district uses a data-driven approach to identify the support each school receives. To determine what educational activities should be implemented to meet students' needs, the District Improvement Support Team (DIST) members review and analyze assessment data by subgroups and content areas. Schools implementing a turnaround option receive more frequent reviews. Data provided by curricular programs is monitored throughout the year to determine whether or not students and schools are making adequate progress. Schools failing to make adequate progress are assessed by the DIST members for existing resources, current needs and additional resources that may be made available. Changes in services (personnel, curriculum) are assessed weekly for impact and DIST recommendations may include tutors and supplemental services and curriculum through Title III and Title X.

#### **District Policies and Practices**

Identify specific policies and practices the LEA shall seek to add, modify, or remove in order to establish or strengthen systems that support school-based leadership teams to implement interventions. Provide the rationale for the proposed changes and the steps required to make the modifications, including person(s) responsible for implementation and follow-up.

During the 2017-18 school year, four elementary schools will continue to provide extended academic learning time for students in order to improve their academic performance. The practice may be further modified in order to continue providing needed interventions. Existing union contracts will need to be modified through an MOU for the interventions and benefits to be implemented in the extended day sites. Human Resources will be responsible for negotiating the MOU with the union leadership. Transportation for students at schools with extended day will need to be modified to ensure smooth logistics in transporting youth. Each principal will work with the Transportation Department to schedule needed transportation. In addition, the four schools will collaborate with the district's DIST in order to provide appropriate interventions for their students. To strengthen systems that support school-based leadership teams, LCS has established a school improvement process that will function under the leadership of the District School Improvement Team. There will be a School Improvement Plan Writing Team at each building under the leadership of the principal that may consist of school administrators, teachers and support staff members, parents, students, members of the community, and business partners. The purpose of the School Improvement Plan Writing Teams is to focus on programs and procedures that can help the school and School Board achieve their educational mission and which meet one (1) or more of the following criteria: A. will result in improved student achievement B. will result in a more effective use of existing resources C. will strengthen students' and/or staff members' willingness to participate productively in the academic and other activities of the school D. will articulate effectively with programs and/or activities which students will need to participate in at the next learning level in order to successfully accomplish their educational goals E. are sustainable using existing resources or those that the school or District can obtain for long-term use F. will identify professional learning needs for faculty and staff

#### **Operational Flexibility**

Provide the LEA's definition of "operational flexibility" provided to comprehensive support and improvement (CS&I) and targets support and improvement (TS&I) schools to enable full and effective implementation of the school improvement plan (SIP).

Operational flexibility is defined as the school community's restructuring of their institutional environment in order to allow school personnel to focus on core competencies, increase academic performance and

maximize available resources. Each school will develop their individual school improvement plan which will focus on areas of need and describe specific strategies for meeting student performance goals. The DIST will review the School Improvement Plan initiatives and instructional changes made. The DIST will monitor through walk-throughs, data chats using real-time data, providing feedback, and necessary resources for interventions.

#### **External Partners**

Describe the LEA's rigorous review process to recruit, screen, select, and evaluate any external partners with whom the LEA will partner.

LCS will recruit, screen, select and evaluate all external partners in which it will partner with. The SIG Department will collaborate with the LCS office of Volunteers, Mentors, and Partners; Title I Part A; 21st Century; Finger Printing and Background Check; and Title II Offices in recruiting and selecting external partners that are effective; have a record of meeting LCS requirements and have made impacts on student and staff achievement.

#### Dissemination

Provide the methods of dissemination of this application to stakeholders (i.e., students, families, school staff and leadership, and local businesses and organizations) and describe the methods and timelines for reporting student progress, including how communication is provided in a parent-friendly, understandable format, and in multiple languages, if necessary.

The information in this application will be disseminated through the LCS Homepage, School webpage, and maintained in each school's front office. Parents will be notified of the award of this grant through School List-serve, School Newsletter, and School SPAR Letter which is sent home by student backpack. In addition each school has a School Advisory Council (SAC) based on the schools population. Information is discussed and reviewed, and the stakeholders are give input and ask questions at SAC Meetings. The grant application can also be found online through the school districts board documents website. The grant will be submitted to the Leon County School Board for approval and review. Stakeholders will also have the opportunity to hear more information about the grant during the District Advisory Council Meetings. All documents will be provided in parent-friendly and understandable format. When requested and based on the parents needs, this information will be provided in multiple languages.

#### **Needs Assessment**

#### **Problem Identification**

### **Data to Support Problem Identification**

#### **Data Uploads**

The following documents were submitted in the district's DIAP section II.A.1.a as evidence for this section:

#### Final\_School\_Grades\_2016-2017.xlsx

Final school grades and data for all schools, includes data from current year as well as 2 additional years prior.

#### **Problem Identification Summary**

Provide a summary of the points of strength and areas of need that have been identified in the data. Leon County Schools continues to be a high performing district that is an engaging, safe and respectful learning environment that embraces change and produces successful learners who value diversity and are conscientious contributors to our society. When reviewing the Tiered Model of Support, it allows us to visualize our schools are maintaining success or improving in specific areas that were previous weak.

The majority of our teachers have produced the rating of effective or highly effective. In an effort to continue down track of innovation we offer our students opportunities to connect globally through effective collaborative learning environments. We continue to prioritize supplemental and intervention opportunities to aide in student success. As we continue to focus on core academics as well as intervention and supplemental materials for our Priority Schools, those locations are historically in need of continuous professional development in core areas including science. Science imbedded in the content area as well as tools and resources to promoted highly level thinking would benefit our Priority Schools. The leadership in our Priority Schools benefit from the coaching and support provided by successful veteran leaders who work specifically with these school leaders.

#### **Problem Analysis Summary**

Provide a summary of the underlying "why" or root causes for the areas of need identified in the data, as determined by situational awareness of, and research conducted by, the stakeholders involved in the needs assessment.

Administrators and teachers need effective implementation of curriculum and interventions. The district supports academic coaches who facilitate teacher growth as well as ELA and Math learning walks. Lack of deep understanding of highly effective instructional practices also contributes to outcome of the needs assessment data.

#### **Strategic Goals**

This section will populate with any district strategic goals and SMART goals, and the plan for monitoring progress toward them, that are "tagged" to UniSIG in the **District Problem Solving** module.

## **District Problem Solving**

The following key is intended to help readers understand how the sections of this document correspond to the steps of the 8-step planning and problem-solving framework used in the School Improvement Plan. The Quick Key numbers can help registered users go directly to the point of entry for any given goal, barrier and strategy within the online survey.

## **Problem Solving Key**

**G** = Goal

B = Barrier

S = Strategy

1 = Problem Solving Step S123456 = Quick Key

## Strategic Goals Summary

- Increase student performance in science by providing high quality initial and ongoing instruction in every classroom.
- Increase student performance in Math by providing high quality initial and ongoing instruction in every classroom.
- **G3.** Increase student performance in English/Language Arts by providing high quality initial and ongoing instruction in every classroom.

## **Strategic Goals Detail**

For each strategic goal, this section lists the associated targets (i.e., "SMART goals"), targeted barriers to achieving the goal, resources available to help reduce or eliminate the barriers, and the plan for monitoring progress toward the goal.

# **G1.** Increase student performance in science by providing high quality initial and ongoing instruction in every classroom. 12

District-Wide	FSA Mathematics Achievement	65.0		

## Targeted Barriers to Achieving the Goal

 Administrators and teachers continue to need support in effective implementation of the curriculum and interventions.

## Resources Available to Help Reduce or Eliminate the Barriers 2

- The district has a revised K-5 math curriculum based on the Florida Standards. In addition, all secondary schools have a revised math curriculum (which includes online resources) and revised assessments that support the teaching of the Florida Standards.
- Supplemental instructional resources (Success Maker, GIZMO, Brain Pop, Algebra Nation, and the STEM curriculum) are provided district wide.
- The district supports academic coaches who assist teachers in targeted job-embedded professional development to improve math instruction.
- Each school has a cadre of instructional leaders who have been trained in the implementation of the math curriculum and are expected to act as facilitators for their colleagues.
- The district has identified a turnaround contact who works directly with Priority schools. These
  schools also receive the services of two instructional coaches funded with SIG dollars. In
  addition, Focus schools receive additional support through the Department of Teaching and
  Learning.
- The Leon LEADS Teacher Evaluation Model (which is based on Marzano research and the FEAPS and identifies effective instructional practices) is used districtwide. Training is provided in order to ensure consistent implementation throughout the district.

## Plan to Monitor Progress Toward G2.

Real-time data provided by Success Maker, Achieve 3000, Data Director and curriculum assessments will be reviewed to determine if schools are making adequate progress toward the district goal.

## Targeted Barriers to Achieving the Goal 3

- Administrators and teachers continue to need support in effective implementation of the curriculum and specific interventions.
- Many teachers and administrators lack a deep understanding of highly effective instructional practices.

## Resources Available to Help Reduce or Eliminate the Barriers 2

- The district has a revised K-12 ELA curriculum that is aligned with the Florida standards.
- The district supports academic coaches who assist teachers in targeted job-embedded professional development to improve instruction.
- Supplemental instructional resources (Accelerated Reader, Achieve 3000, Springboard, Success Maker, etc) are provided district wide.
- The district provides intervention programs and materials in the area of English/Language Arts.
  At the secondary level Jr. Great Books and REWARDS Reading intervention are used. At the
  elementary level Reading Mastery, Corrective Reading, Accelerated Reader, and Jr. Great
  Books are used.
- The district provides acceleration through Leon County Virtual School, AP, IB, CTE and dual enrollment programs.
- Each school has a cadre of instructional leaders who have been trained in the implementation of the curriculum. These educators are expected to facilitate effective implementation with their colleagues.
- The district has identified a turnaround contact who works directly with Priority schools. These
  schools also receive the services of two instructional coaches funded with SIG dollars. In
  addition, Focus schools receive additional support through the Department of Teaching and
  Learning.
- The Leon LEADS Teacher Evaluation Model (which identifies effective instructional practices) is used districtwide.

## Plan to Monitor Progress Toward G3. 8

## **Professional Development**

**G1.** Increase student performance in science by providing high quality initial and ongoing instruction in every classroom.

G1.B1 Teachers continue to need support in effective implementation of the provided curriculum

G1.B1.S1 Additional materials and supplies for STEM initiatives at specific school sites

#### PD Opportunity 1

Data review for all schools and discussion regarding strategies implemented to improve state assessment science scores.

#### **Facilitator**

Superintendent Rocky Hanna

#### **Participants**

Administrators and Teachers

#### **Schedule**

On 11/17/2017

**G2.** Increase student performance in Math by providing high quality initial and ongoing instruction in every classroom.

**G2.B1** Administrators and teachers continue to need support in effective implementation of the curriculum and interventions.

**G2.B1.S2** Instructional leaders and coaches at each school will assist teachers in continuing to learn the most effective ways to implement the revised curricula.

### PD Opportunity 1

Instructional leaders and coaches will receive continued training in effective ways of implementing the math curricula.

#### **Facilitator**

Andrea Goddard, Shane Syfrett, Denise Williams

#### **Participants**

Elementary and secondary math instructional leaders from each school

## **Schedule**

Monthly, from 9/6/2017 to 5/31/2018

**G3.** Increase student performance in English/Language Arts by providing high quality initial and ongoing instruction in every classroom.

**G3.B1** Administrators and teachers continue to need support in effective implementation of the curriculum and specific interventions.

**G3.B1.S2** Instructional leaders and reading coaches at each school will assist teachers in continuing to learn the most effective ways to implement the curricula.

#### **PD Opportunity 1**

Instructional leaders and reading coaches will receive continued training in effective ways of implementing the new ELA curricula.

#### **Facilitator**

Kathy Corder, Jessica Titze, Cara Zatoris, Brooks Sperling, Pam Hightower

## **Participants**

Instructional leaders and reading coaches from each school

#### **Schedule**

Monthly, from 9/6/2017 to 5/31/2018

## **Technical Assistance**

**G1.** Increase student performance in science by providing high quality initial and ongoing instruction in every classroom.

**G1.B1** Teachers continue to need support in effective implementation of the provided curriculum

G1.B1.S1 Additional materials and supplies for STEM initiatives at specific school sites

## **TA Opportunity 1**

Increased time with core and supplemental science material to continue to implement science strategies beyond the allotted school minutes.

#### **Facilitator**

Superintendent Rocky Hanna

#### **Participants**

Administrators and Teachers

#### **Schedule**

Weekly, from 11/1/2017 to 9/30/2018

## **Budget**

#### **One-Year Budget**
