Purpose and Outline of the UniSIG Proposal

Under section 1003 of Title I of the Every Student Succeeds Act, Public Law No. 114-95, each state educational agency (SEAs) shall reserve funds for school improvement, no less than 95 percent of which shall be used to make grants to local educational agencies (LEAs) on a formula or competitive basis, to serve schools implementing comprehensive support and improvement activities or targeted support and improvement activities under section 1111(d).

For 2017-18, Unified School Improvement Grants (UniSIG) will be awarded on a formula basis. Eligible applicants are local educational agencies (LEAs) with funded Title I schools identified for comprehensive or targeted support and improvement, as well as LEAs with high schools, Title I or non-Title I, that have a four-year adjusted cohort graduation rate of 67 percent or less, regardless of the school grade earned.

Part I: Eligibility and Program Requirements

The district reviews the list of eligible schools and allocations and ensures the requirements of UniSIG are met by providing assurances and summaries as applicable.

Part II: Needs Assessment

For each eligible school, the district demonstrates it has completed a thorough analysis of state-, district-, and school-level data (qualitative and quantitative) in order to identify points of strength and opportunities for growth to inform strategic goal formulation.

Part III: District Problem Solving

The district documents one or more strategic goals for improving the identified schools, anticipates barriers to the goals, identifies strategies to reduce or eliminate the barriers, and creates an implementation plan for each strategy to include both action steps and monitoring activities.

Part IV: Budget

The district incorporates a budget that indicates the amount of UniSIG funds the district will use in each eligible school. Each budget line item, except indirect costs, is directly tied to an action step identified in Part III.

Eligibility and Program Requirements

Eligible Schools

Eligible applicants are local educational agencies (LEAs) with funded Title I schools identified for comprehensive or targeted support and improvement, as well as LEAs with high schools, Title I or non-Title I, that have a four-year adjusted cohort graduation rate of 67 percent or less, regardless of the school grade earned.

Funding amounts were calculated based on the most recently released school grades and 2016-17 Survey 3 preliminary data containing student enrollment. The per-pupil allocation also takes into account the percent of economically disadvantaged students.

School ID	School Name	Per-Pupil Allocation	Graduation Rate Allocation	Total Allocation
0071	Liberty Learning Center	\$0.00	\$15,000.00	\$15,000.00
		Total LEA Allocation		\$15,000.00

Assurances

Request for Applications

We have read the Request for Applications (RFA) in its entirety and understand the intent and requirements of the Unified School Improvement Grant (UniSIG) program.

YES

General Terms, Assurances, and Conditions

We understand the LEA must have a signed statement by the agency head certifying applicant adherence to FDOE's General Terms, Assurances, and Conditions for Participation in Federal and State Programs.

YES

Risk Analysis

We have read the Request for Applications (RFA) in its entirety and understand the intent and requirements of the Unified School Improvement Grant (UniSIG) program.

YES

Supplement, not Supplant

We understand that each school the LEA will serve must receive all of the state and local funds it would have received in the absence of UniSIG funds.

YES

Allocation to Schools

We understand the LEA must allocate 100 percent of funds (less indirect costs) generated under UniSIG to the eligible schools.

YES

Alignment of Strategies

We understand strategies to be implemented under this program must be aligned with Florida's State Board of Education Strategic Plan.

YES

Alignment of Improvement Plans

We understand all strategies outlined in District Problem Solving to be funded under this program must also be identified as strategies, with associate budget lines, in the school improvement plan (SIP), as applicable, for each school to be served.

YES

Greatest Need

We understand programs, activities, or strategies to be implemented must specifically address the academic achievement of schools and students that demonstrate the greatest need.

YES

Instructional Programs

We understand evidence-based instructional programs must be implemented.

YES

Extended Learning Time

We understand that extended learning time activities required of an elementary school designated as one of Florida's lowest performing must not be funded through UniSIG.

YES

Deilverables

We understand deliverables will be monitored quarterly and the LEA must complete deliverables directly within CIMS using the Project Management module.

YES

Supports for School Improvement**Improvement Planning**

Describe how the LEA will support each school identified as comprehensive support and improvement (CS&I) and/or targeted support and improvement (TS&I) in developing and implementing a school improvement plan (SIP).

The district provided support for the development and implementation of the SIP. This was accomplished by data review, identification of barriers, development of strategies and goals for improvement. Ongoing during the school year quarterly data reviews will be held with the District Leadership Team to determine progress toward stated goals. In the event that goals are not being met the team will problem solve to determine solutions to improve performance. A system of regular walk throughs and feedback is in place to provide ongoing feedback and monitoring.

Alignment of Resources

Describe the process through which the LEA identifies and aligns all district resources (e.g., personnel, instructional, curricular, policy) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs to align to interventions in comprehensive support and improvement (CS&I) and targeted support and improvement (TS&I) schools. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained, and any problem-solving activities used to determine how to apply resources for the highest impact.

Alignment of resources: The district allocates instructional personnel based on a district wide staffing plan that allocates staff based on the number of students at each school. In addition the individual needs of the student population is considered to ensure that specialized personnel are assigned accordingly. Instructional materials are allocated based on a per pupil allocation formula. Methodology for

coordinating and supplementing federal, state and local funds: Funds are allocated to support needed instructional staff, instructional materials, technology and software based on the FTE generated by each school. The allocation from federal programs such as Title I and Title I, N&D are used to supplement schools based on a rank and serve method used to ensure that schools with the highest percentage of students in poverty are served first. Schools that do not receive Title I funding meet comparability guidelines and receive a comparable amount of funding as schools receiving funding. The District Leadership teams meets annually to determine how to apply resources to each school to ensure that resources have the highest impact on student achievement.

District Policies and Practices

Identify specific policies and practices the LEA shall seek to add, modify, or remove in order to establish or strengthen systems that support school-based leadership teams to implement interventions. Provide the rationale for the proposed changes and the steps required to make the modifications, including person(s) responsible for implementation and follow-up.

Policies and Practices: School improvement practices are in place where schools review student achievement data, attendance, and other factors to develop strategies for improvement. The district seeks to improve this practice by providing schools increased flexibility in how they allocate personnel and resources to meet the unique needs of the school. The district seeks to strengthen school based decisions in an effort to increase school buy in and accountability for student outcomes. Schools will develop measurable goals that will be reviewed no less than three times per year.

Operational Flexibility

Provide the LEA's definition of "operational flexibility" provided to comprehensive support and improvement (CS&I) and targets support and improvement (TS&I) schools to enable full and effective implementation of the school improvement plan (SIP).

Operational Flexibility: Schools will be provided the opportunity to participate in the development of the Turnaround plan to ensure that there is staff buy in. The school principal will have the flexibility to determine how staff are allocated and resources are utilized to increase student performance.

External Partners

Describe the LEA's rigorous review process to recruit, screen, select, and evaluate any external partners with whom the LEA will partner.

The LEA will partner with the the following entities to implement school improvement efforts.

SRO

DISC Village

County Extension Office

Counselors

SEDNET

These groups were recruited based on services that fit the specific needs of the population of the school. These applicants are long standing partners with the district with proven results.

Dissemination

Provide the methods of dissemination of this application to stakeholders (i.e., students, families, school staff and leadership, and local businesses and organizations) and describe the methods and timelines for reporting student progress, including how communication is provided in a parent-friendly, understandable format, and in multiple languages, if necessary.

The application will be reviewed with stakeholders at the District Advisory Council Meeting. Stakeholders will be given the opportunity to provide input on a quarterly basis. In addition the District Leadership review team will review the plan and provide oversight and direction. Parents will be made aware of the goals of the SIP and updated quarterly as progress is reviewed. The updated will be sent home with student report cards. At this time English is the primary language of all students being served. If this status changes we will provide information in the students native language.

Needs Assessment

Problem Identification

Data to Support Problem Identification

Data Uploads

The following documents were submitted in the district's DIAP section II.A.1.a as evidence for this section:

No files were uploaded

Problem Identification Summary

Provide a summary of the points of strength and areas of need that have been identified in the data.

NA

Problem Analysis Summary

Provide a summary of the underlying "why" or root causes for the areas of need identified in the data, as determined by situational awareness of, and research conducted by, the stakeholders involved in the needs assessment.

NA

Strategic Goals

This section will populate with any district strategic goals and SMART goals, and the plan for monitoring progress toward them, that are "tagged" to UniSIG in the **District Problem Solving** module.

District Problem Solving

The following key is intended to help readers understand how the sections of this document correspond to the steps of the 8-step planning and problem-solving framework used in the School Improvement Plan. The Quick Key numbers can help registered users go directly to the point of entry for any given goal, barrier and strategy within the online survey.

Problem Solving Key

G = Goal **B** =
Barrier **S** = Strategy

1 = Problem Solving Step  **S123456** = Quick Key

Strategic Goals Summary

- G1.** Student proficiency will increase by 5% as evidenced by US History EOC results.
- G2.** Increase proficiency on the Science EOC by 7%.
- G3.** There will be a 5% increase in students scoring proficient on the Algebra I and Geometry EOC.
- G4.** 90% of enrolled students will maintain an average daily attendance of 80%.
- G5.** 70% of targeted students will meet graduation standards.
- G6.** There will be a 5% increase in students scoring proficient on the ELA state assessment.

Strategic Goals Detail

For each strategic goal, this section lists the associated targets (i.e., "SMART goals"), targeted barriers to achieving the goal, resources available to help reduce or eliminate the barriers, and the plan for monitoring progress toward the goal.

G1. Student proficiency will increase by 5% as evidenced by US History EOC results. 1a

G093828

Targets Supported 1b

Focus	Indicator	Annual Targets		
		2017-18	2018-19	2019-20
All High Schools	U.S. History EOC Pass	5.0		

Targeted Barriers to Achieving the Goal 3

- Time for indepth review of US History standards.

Resources Available to Help Reduce or Eliminate the Barriers 2

- Extended time for learning, three times weekly for three weeks prior to the US History EOC.

Plan to Monitor Progress Toward G1. 8

Formative assessment data and EOC data.
