Instructional Coaches

List your school's instructional coaches and briefly describe their certification(s), number of years at the current school, number of years as an instructional coach, and their prior performance record with increasing student achievement at each school. Include history of School Grades, FCAT/statewide assessment performance (percentage data for achievement levels, learning gains, Lowest 25%), and ambitious but achievable annual measurable objective (AMO) progress. Instructional coaches described in this section are only those who are fully released or part-time teachers in reading, mathematics, or science and work only at the school site.

Non-Highly Effective Instructors

Provide the number of instructional staff and paraprofessionals that are teaching out-of-field and/or who are NOT highly effective.

*When using percentages, include the number of teachers the percentage represents (e.g., 70% [35]).

Number of staff and paraprofessional that are teaching out-of-field/ and who are not highly effective.	Provide the strategies that are being implemented to support the staff in becoming highly effective
5 teachers are teaching out-of-field (need to complete ESOL endorsement courses)	100% of the staff is HQ – Teachers who are teaching out-of field will continue to participate in ESOL courses to pursue highly qualified status in this area.
*Data determining teacher effectiveness will be available in October of 2012.	

Staff Demographics

Please complete the following demographic information about the instructional staff in the school.

*When using percentages, include the number of teachers the percentage represents (e.g., 70% [35]).

Multi-Tiered System of Supports (MTSS) /Response to Instruction/Intervention (RtI)

School-Based MTSS/RtI Team

Identify the school-based MTSS leadership team.

Vicki Garner, Beth Strickland, Angel Golliner, Shannon Grove, Rhoda Shaw, Michelle Gant, Colaina Griffin, Melissa Bidgood

Describe how the school-based MTSS leadership team functions (e.g., meeting processes and roles/functions). How does it work with other school teams to organize/coordinate MTSS efforts?

Our school-based RtI team meets regularly. During the meeting, the team reviews universal screening data, progress monitoring data, and plans for interventions. The team also considers the fidelity of the RtI implementation and any additional training needs of the staff. RtI supports are discussed to meet the academic and behavioral needs of the students

Describe the role of the school-based MTSS leadership team in the development and implementation of the school improvement plan (SIP). Describe how the RtI problem-solving process is used in developing and implementing the SIP?

- Analysis of relevant demographic/school-based profile data for the purpose of problem analysis and hypothesis generation
- Identification of critical RtI infrastructure already established and/or in need of development and provide plan for building capacity
- Analysis of school-wide and grade level specific data in order to identify student achievement trends
- Analysis of disaggregated data in order to identify student achievement trends
- Development of assessment strategies and calendars (i.e., Universal Screening, Progress Monitoring, Diagnostic Assessment)
- Development of data review plans, supports, and calendars
- Review of Progress Monitoring data
- Planning for interventions
- Assessment of RtI implementation progress (Self-Assessment of Problem Solving Implementation (SAPSI))
- Assessment of school staff's skill development (RtI Skills Survey)
- Development of professional development/technical assistance plan to support RtI implementation

MTSS Implementation

Describe the data source(s) and the data management system(s) used to summarize data at each tier for reading, mathematics, science, writing, and behavior.

During the 2012-2013 school year, Seven Springs Elementary will be using the FAIR and the MMH Unit assessments as the primary data sources and management systems for TIER 1 students. In addition, TIER 2 students will be assessed using the MMH Triumphs weekly assessment for progress monitoring purposes. CORE K-12 will be used for managing data in Math and Science. Pre and Post-test data in Math will also be utilized for Tiered instructional planning. Writing data will be gathered based on assessed writing prompts from the MMH series. Behavior data will be collected by the Assistant Principal and is managed through the Pasco Star database.

Describe the plan to train staff on MTSS.

The Pasco County School District developed a long-term action plan for the training and coaching of school based teams. These teams would then provide the support necessary for implementation at the school level. Last year, the MTSS team continued to receive training at the District level. Data from the 2011-2012 school year indicated that teachers were in need of additional support during weekly TBIT meeting. TBIT meeting have been structured to promote grade level opportunities for problem solving. The SSES Discipline Committee also attended a 2-day MTSS training that focused on behavior. A plan of action was developed and is being implemented to strengthen school wide discipline.

Describe the plan to support MTSS.

Administration has developed a school wide infrastructure that supports MTSS. SBIT meeting, SBLT meetings will take place regularly. Teachers will be provided with opportunities to review student data, discuss student outcomes and plan strategic interventions. Staff trainings will be developed, as needed.

Literacy Leadership Team (LLT)

School-Based Literacy Leadership Team

Identify the school-based Literacy Leadership Team (LLT).

Describe how the school-based LLT functions (e.g., meeting processes and roles/functions).

The Seven Springs Elementary LLT functions as a problem-solving committee of teacher-leaders. They are charged with disaggregating data, researching best practices, and supporting the implementation of school initiatives through walkthroughs.

What will be the major initiatives of the LLT this year?

The major initiative of the LLT will be supporting the implementation of the Common Core Standards.

School Advisory Council (SAC)

SAC Membership Compliance

The majority of the SAC members are not employed by the school district. The SAC is composed of the principal and an appropriately balanced number of teachers, education support employees, students (for middle and high school only), parents, and other business and community members who are representative of the ethnic, racial, and economic community served by the school. Please verify the statement above by selecting *Yes* or *No* below.

□ Yes □	No

If No, describe the measures being taken to comply with SAC requirements.	
Describe the activities of the SAC for the upcoming school year.	
Our SAC will continue to prioritize the academic goals of SSES based on data. The SAC will determine how SAC funds will be spent based on school priorities.	

Describe the projected use of SAC funds.
