### SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or with a grade of F within the prior two years. For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the Florida Department of Education's school improvement planning web application located at <https://www.floridaCIMS.org>.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

### Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

### Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

### Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify resources available to support the goals and barriers that could hinder achieving those goals (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

### Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

## Differentiated Accountability

Florida's Differentiated Accountability (DA) system is a statewide network of strategic support, differentiated by need according to performance data, and provided to schools and districts in order to improve leadership capacity, teacher efficacy and student outcomes. DA field teams collaborate with district and school leadership to design, implement and refine improvement plans, as well as provide instructional coaching, as needed.

### DA Regions

Florida's DA network is divided into five geographical regions, each served by a field team led by a regional executive director (RED).

### DA Categories

Traditional public schools are classified at the start of each school year, based upon the most recently released school grades (A-F), into one of the following categories:

- Not in DA – currently A or B with no F in prior three years; charter schools; ungraded schools
- Monitoring Only – currently A, B or C with at least one F in the prior three years
- Focus – currently D
  - Planning – two consecutive grades of D (i.e., DD), or a grade of F immediately followed by a grade of D in the most recent grades release (i.e., FD)
  - Implementing – two consecutive grades of D in the most recent grades release preceded by a grade below C (i.e., FDD or DDD)
- Priority – currently F
  - Planning – declined to a grade of F in the most recent grades release and have not received a planning year or implemented a turnaround option during the previous school year
  - Implementing – two consecutive grades of F (i.e., FF), or three consecutive grades below C with an F in the most recent grades release (i.e., FDF or DDF)

### DA Turnaround and Monitoring Statuses

Additionally, schools in DA are subject to one or more of the following Turnaround and Monitoring Statuses:

- Former F – currently A-C with at least one F in the prior three years; SIP is monitored by FDOE
- Planning – Focus Planning and Priority Planning; district is planning for possible turnaround
- Implementing – Focus Implementing and Priority Implementing; district is implementing the Turnaround Option Plan (TOP)

#### **Instructional Programs**

#### ***Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards***

The core instructional program at North Miami Beach Sr. High (NMB) consists of Math, Reading & Writing, Social Studies, Social Science and Science. Through Professional Learning Communities (PLCs) teachers' instructional routines/materials are aligned to develop a culture of collaboration through a systemic curriculum pacing guide that targets the Florida Standards. In addition, department heads, instructional coaches, teachers and curriculum specialists will use data to sustain and assess student achievement on the Florida standards. Teacher lessons across core instruction programs introduce standards, learning that addresses open routine with whole group instruction and higher order thinking. PLCs provide the opportunity for teachers to unpack the Florida Standards and plan through effective dialogue. This supports an innate level of knowledge. Discussions of thematic standards within department meetings also clarify misunderstandings and promote opportunities for professional growth for teachers' instructional practice.

NMB's core instructional program target state standards through focus calendars. The breadth and scope of NMB's focus calendar adopts the core curriculum with emphasis on state goals. Teachers examine and infuse state standards into their professional learning communities by integrating differentiated Instructional (DI) and research-based practices. Integrating PLCs have created a culture of accountability amongst teachers.

Through an informed process, staff and counselors participate in a parent student night orientation for incoming and outgoing cohorts. Students and parents are informed about their child's graduation requirements and new Florida Standards. In addition, a checklist and guidelines of the student progression plan for high school students is used to track students that need additional support in order to meet graduation requirement. This process allows incoming and outgoing students to enroll in double doses of catch-

up courses that can boost struggling students' skills in reading and mathematics.

A systemic collaboration appears across grade levels, content areas, community involvement specialists, graduation coaches, scholar designation diploma, mentor teachers and feeder pattern schools to track student's progress. Staff members implement a formal process that promotes productive discussion about student readiness indicators. School personnel also center targeted strategies that collaborate to improve results in instructional practice and student performance that supports incoming and outgoing cohorts of students transitioning from one school level to another. The following steps are implemented:

- Identify readiness indicators for high-school-level coursework
- Communicate to families what ninth graders are expected to know and be able to do to succeed in high school
- Require one-on-one planning sessions for all students and their parents for the purpose of planning a rigorous high school program
- Inform middle-grades feeder schools of the percentage of students who completed two years of college-prep English, math and science by the end of 10th grade
- Offer double-doses of catch-up courses—courses that are designed to help students meet the demands of more rigorous high school work
- Guidance Counselor working to inform and support students and parents in graduation and college readiness goals
- Senior Parent Night to inform parents and students of graduation requirements prior to graduation

### College and Career Readiness

***Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations***

Programs have been established to foster a college-going culture and assist administrators, teachers, students and families as they work toward achieving college readiness for all students. Guidance counselors, Academy Leaders, and College Advisement Placement Counselor provide academic and career planning. Business partners at Microsoft and Target have allowed students and teachers to participate in ongoing field trips that connect career learning opportunities. Internship relationships have been established with Miami Dade Community College in-order to create a bridge of effective dialogue amongst teachers, college professors and students.

NMB's school initiative includes:

- Increased student participation and performance in Advanced Placement® (AP) coursework
- Dual enrollment courses offered to eligible students
- Guidance Services working with schools to inform and support students and parents in graduation and college readiness goals
- Guidance Counselor working to inform and support students and parents in graduation and college readiness goals
- Senior Parent Night (Graduation Requirement)
- ACT & SAT Support through CAP Advisor and Community Resources

***Describe efforts the school has taken to integrate career and technical education with academic courses (e.g., industrial biotechnology) to support student achievement***

NMB has created a culture of industry certification within the career and technical educational (CTE) programs. North Miami Beach Sr. High CTE program supports culinary arts, digital design, Early Childcare, Nursing, Business (Information and Finance Academy) and Information and Technology. Supporting Secondary School reform, Articulation, Transition, and Orientation are in place to increase the percentage of graduating students whom pursue and are successful in post-secondary areas of enrichment. School site Student Services professionals implement lessons which focus on improving personal effectiveness planning life after high school, surviving after high school and succeeding in post-secondary academic institutions and career workforce.

Tools for Success: Preparing Students for Senior High School and Beyond:

A Freshman Experience course for all ninth graders is required as an orientation course consisting of lesson plans and activities developed to address issues and competencies that impact student transitions. These strategies focus on educational achievement, person/social development, career, and health/community awareness, which support student success. Small group counseling will be established to assist students in proper course selection. Students are provided information on guidelines for steps to college, through hosted college visitations.

***Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the [High School Feedback Report](#), as required by section 1008.37(4), Florida Statutes***
