School Board Approval

This plan is pending approval by the Dade County School Board.

SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or with a grade of F within the prior two years. For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the Florida Department of Education's school improvement planning web application located at <https://www.floridaCIMS.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify resources available to support the goals and barriers that could hinder achieving those goals (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida’s Differentiated Accountability (DA) system is a statewide network of strategic support, differentiated by need according to performance data, and provided to schools and districts in order to improve leadership capacity, teacher efficacy and student outcomes. DA field teams collaborate with district and school leadership to design, implement and refine improvement plans, as well as provide instructional coaching, as needed.

DA Regions

Florida’s DA network is divided into five geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

Traditional public schools are classified at the start of each school year, based upon the most recently released school grades (A-F), into one of the following categories:

- Not in DA – currently A or B with no F in prior three years; charter schools; ungraded schools
- Monitoring Only – currently A, B or C with at least one F in the prior three years
- Focus – currently D
 - Planning – two consecutive grades of D (i.e., DD), or a grade of F immediately followed by a grade of D in the most recent grades release (i.e., FD)
 - Implementing – two consecutive grades of D in the most recent grades release preceded by a grade below C (i.e., FDD or DDD)
- Priority – currently F
 - Planning – declined to a grade of F in the most recent grades release and have not received a planning year or implemented a turnaround option during the previous school year
 - Implementing – two consecutive grades of F (i.e., FF), or three consecutive grades below C with an F in the most recent grades release (i.e., FDF or DDF)

DA Turnaround and Monitoring Statuses

Additionally, schools in DA are subject to one or more of the following Turnaround and Monitoring Statuses:

- Former F – currently A-C with at least one F in the prior three years; SIP is monitored by FDOE
- Planning – Focus Planning and Priority Planning; district is planning for possible turnaround
- Implementing – Focus Implementing and Priority Implementing; district is implementing the Turnaround Option Plan (TOP)

Supportive Environment

School Mission and Vision

Provide the school's mission statement

North Beach Elementary will develop internationally minded, independent, healthy, active, life-long learners by creating a global community. The teachers, students, staff and families will actively engage in implementing a curriculum that promotes and supports inquiry as a basis for an international education, developing knowledgeable, open minded, and caring individuals. Our students will be encouraged to positively impact the world as tolerant individuals who understand, accept, and respect inter-cultural differences.

Provide the school's vision statement

North Beach Elementary will educate the whole child. We are committed to fostering responsible citizens of the world who will enjoy being life-long learners. We are also committed to preparing our students to meet the challenges of tomorrow.

School Environment

Describe the process by which the school learns about students' cultures and builds relationships between teachers and students

North Beach Elementary strives to keep all stakeholders informed and involved in their child's education. This community embraces the idea that "it takes a village to raise a child". Relationships are forged among teachers, students and parents that are on-going and lead to optimal student achievement. Upon registration a home language survey is given to parents so that we can support families through translators and multi-language support should they need it. Then as the year progresses there are many opportunities for parents to become involved with the school and share their expertise, background and culture, should they so desire. Additionally, students engage in cross curricular instruction within six International Baccalaureate (IB) interdisciplinary units of inquiry, which empowers students to research and share their individual cultures and heritage with the school community.

Describe how the school creates an environment where students feel safe and respected before, during and after school

North Beach Elementary is an IB school where we create an environment based upon respect, cooperation and integrity. Beginning in PreKindergarten, students learn core values through IB Attitudes and Learner Profile. These attributes help to develop well-rounded internationally minded individuals. Emphasis is placed on respecting oneself, others and the school environment. Positive student actions are identified and recognized through our Student of the Month Ceremony and Jennifer Beth Turken Kindness Award. Teachers provide cooperative learning opportunities which encourage collaboration and respect towards others and their ideas. Teachers and students collaborate to develop essential agreements in order to maintain a safe learning environment throughout the school. Additionally, the school community has the presence of a school police liaison, full-time security and student safety patrol to further promote a safe school environment.

Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced

At North Beach Elementary teachers and students develop classroom essential agreements which are aligned with IB Learner Profile and Attitudes, as well as the Miami-Dade Student Code of Conduct, which will serve as a guide for behavioral expectations. Collaborative planning, the sharing of best practices and mentoring of new teachers ensure the implementation of positive classroom management techniques. Teachers participate in the Student Code of Conduct assemblies, opening of school meetings, in which the staff site handbook as well as the MDCPS employee handbook are reviewed in order to establish clear guidelines regarding student code of conduct and maintaining a safe learning environment. Through differentiated instruction, teachers provide a productive and engaging instructional environment.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services

North Beach Elementary ensures the social-emotional needs of student are being met by utilizing the IB curriculum which promotes a well balanced lifestyle and positive self-concept. Children are given daily mini-lessons focusing on core values during morning announcements from the school counselor. Individual and group counseling are provided by our two school counselors, as well as, the school social worker as needed. North Beach promotes a culture of kindness as evident by the Jennifer Beth Turken Award which recognizes students monthly for random acts of kindness. The Student of the Month Award recognizes students who demonstrate actions which exemplify the IB Learner Profile. The friendship bench was donated as a result of North Beach's friendly environment, which is a physical place for children to sit, when they feel they need a friend to talk to.

Will the school use its PIP to satisfy this question?

No

PIP Link

The school completes a Parental Involvement Plan (PIP), which is available at the school site.

Description

North Beach Elementary ventures to build positive relationships with families and the community through it's parental involvement organizations, North Beach PTA and Friends of North Beach. These two groups support the school through monthly meetings and community based events to foster a relationship amongst all stakeholders inclusive of the Miami Beach Community. Additionally, North Beach involves new parents with the school by inviting them to attend a meeting the day before school begins to orient them with the layout, the expectaions, the IB Programme and what to expect. Returning parents along with new parents are all welcome on campus from the first day and are encouraged to participate in Friends and PTA as well as school and community based events. North Beach Elementary School ventures to communicate with the school community through a variety of mechanisms both technological and traditional. Letters, newsletters, and flyers are used to communicate with the community as well as Connect-Ed which records messages and then follows up with telephone calls to each stakeholder's home, Constant Contact which e-mails important school announcements to the school community, and the school web site.

Describe the process by which the school builds and sustains partnerships with the local community for the purpose of securing and utilizing resources to support the school and student achievement

North Beach Elementary has developed strong ties with community partners. Local businesses support and reward student achievement through activities such as our Student of the Month breakfast sponsored by Roasters and Toasters, guest speakers during Health and Career Week, and scholarships awarded to outstanding fifth graders by local banks. This community embraces the idea that "it takes a village to raise a child". Evidence of this is apparent in the two parental organizations: Friends of North Beach and Parent/Teacher Association (PTA) who assist in forging these relationships.

Ambitious Instruction and Learning

Instructional Programs and Strategies

Instructional Programs

Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards

North Beach utilizes the core instructional programs, materials and texts adopted by Miami-Dade County Public Schools. The Reading/Language Arts, Math, and Science Departments of the district have developed pacing guides that enable teachers to assure that the curricula is aligned with the Florida Standards. Supplemental work is gathered and correlated to the Item Specs as a method of confirming that all students receive sufficient instruction in order to succeed on State wide

tests. Collaborative planning, assessment of student data, and differentiated instruction along with IB units of study support alignment of Florida Standards.

Instructional Strategies

Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments

North Beach Elementary uses data from interim assessments from to ascertain student performance. Analysis of this data will determine the student need for intervention or acceleration. Teachers will use collaborative planning, to develop lesson plans for interventions and accelerations based on student performance. Students will then be grouped based on need and lessons will be implemented for their differentiated instruction. Examples of differentiated instruction are: small group instruction such as guided reading and book studies, reading plus, reflex math, IXL, Gizmo's, iReady, as well as more in depth inquiries into content areas.

Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:

Strategy: Extended School Day

Minutes added to school year: 10,800

North Beach engages students in both tutorial and enrichment activities beyond the school day each day depending on student interest, need, and availability. Students can be found on campus on any given day for approximately an hour of instruction that is intended to meet their area of interest or concern. Additionally, teachers can often be found collaborating and planning and receiving professional development beyond the school day.

Strategy Rationale

These activities will allow students to reach their highest proficiency level.

Strategy Purpose(s)

- Core Academic Instruction
- Enrichment
- Teacher collaboration, planning and professional development

Person(s) responsible for monitoring implementation of the strategy

Quarles, Alice, pr3741@dadeschools.net

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

Data is collected on an on-going basis by homeroom teachers as well as facilitators of the program. It is analyzed by the classroom teacher, tutor, if applicable, and leadership team to assure that the child's needs are being met. If the student is not responding to intervention, modifications of material or instructional facilitator may be altered to better meet the needs of the child.

Student Transition and Readiness

PreK-12 Transition

The school's response to this question may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(G).

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another

Interested parents can elect to attend North Beach for the State of Florida funded Voluntary Pre-Kindergarten Program (VPK). Parents supplement this state funded program to assist the school in providing a full day VPK IB Programme to our students. Funds are used to provide extended support through a full time highly qualified teacher and paraprofessional. This assists in transitioning students to the North Beach Family and provides young children with a variety of meaningful learning experiences, in environments that give them opportunities to create knowledge through initiatives shared with supportive adults.

For those students not enrolled in our in-house VPK Program, prior to transitioning into kindergarten, many parents visit North Beach Elementary School to orient themselves and their students with the lay-out of the building and become familiar with the school. Furthermore, an orientation meeting is held for incoming kindergarten parents and students where kindergarten standards and expectations are reviewed and distributed. It is at this time that parents are introduced to and invited to become members of the North Beach PTA and Friends of North Beach. As students register for kindergarten the office provides the parents with a calendar of activities to promote student learning during the summer as well as information about the school and its programs. This aids in transitioning students from pre-school to elementary school.
