### School Board Approval

This plan is pending approval by the Pinellas County School Board.

### SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or with a grade of F within the prior two years. For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the Florida Department of Education's school improvement planning web application located at <https://www.floridaCIMS.org>.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

### Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

### Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

### Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify resources available to support the goals and barriers that could hinder achieving those goals (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

### Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

## Differentiated Accountability

Florida's Differentiated Accountability (DA) system is a statewide network of strategic support, differentiated by need according to performance data, and provided to schools and districts in order to improve leadership capacity, teacher efficacy and student outcomes. DA field teams collaborate with district and school leadership to design, implement and refine improvement plans, as well as provide instructional coaching, as needed.

### DA Regions

Florida's DA network is divided into five geographical regions, each served by a field team led by a regional executive director (RED).

### DA Categories

Traditional public schools are classified at the start of each school year, based upon the most recently released school grades (A-F), into one of the following categories:

- Not in DA – currently A or B with no F in prior three years; charter schools; ungraded schools
- Monitoring Only – currently A, B or C with at least one F in the prior three years
- Focus – currently D
  - Planning – two consecutive grades of D (i.e., DD), or a grade of F immediately followed by a grade of D in the most recent grades release (i.e., FD)
  - Implementing – two consecutive grades of D in the most recent grades release preceded by a grade below C (i.e., FDD or DDD)
- Priority – currently F
  - Planning – declined to a grade of F in the most recent grades release and have not received a planning year or implemented a turnaround option during the previous school year
  - Implementing – two consecutive grades of F (i.e., FF), or three consecutive grades below C with an F in the most recent grades release (i.e., FDF or DDF)

### DA Turnaround and Monitoring Statuses

Additionally, schools in DA are subject to one or more of the following Turnaround and Monitoring Statuses:

- Former F – currently A-C with at least one F in the prior three years; SIP is monitored by FDOE
- Planning – Focus Planning and Priority Planning; district is planning for possible turnaround
- Implementing – Focus Implementing and Priority Implementing; district is implementing the Turnaround Option Plan (TOP)

##### **Provide the school's vision statement**

100% Student Success

#### School Environment

##### **Describe the process by which the school learns about students' cultures and builds relationships between teachers and students**

The Social Services team will discuss targeted students' information in order to assist teachers with establishing positive relationships with their students and families. Faculty and staff will conduct home visits to enhance the home to school connection, providing teachers with a better understanding of their students. Faculty and staff will receive professional development and assistance from the district in conjunction with the Juvenile Welfare Board (JWB). These professional development opportunities will focus on strengthening family engagement as well as provide resources. The effectiveness will be measured by the number of faculty members who participate. Faculty and staff will continue implementing the school-wide mentoring program. The first week of school has a focus on establishing classroom and school-wide culture.

##### **Describe how the school creates an environment where students feel safe and respected before, during and after school**

The administrative team along with Social Services and the Behavior Coach will conduct grade level assemblies quarterly to review school-wide expectations and student responsibilities (i.e. safety patrol, no bullying zone, risk-free learning environments, campus wide safety). The team will focus on the expected positive behaviors as well as incentives for adhering to guidelines for success. The New Teacher Project (TNTP) will provide professional development to ensure clear expectations are set in the classroom as well as all common areas. This year, Maximo will implement a school-wide classroom management plan based on a unified set of clear expectations. Our Conflict Resolution/Peer Mediation program will assist students with developing social skills and solving conflicts properly.

##### **Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced**

Maximo Elementary School will implement a School-wide Behavior Plan. Our plan contains a leveled behavior infraction system that identifies actions that both teachers and administration will be responsible for rectifying in regard to student conduct and clear expectations for all common areas. Our guidelines for success (GFS): Respect, Responsibility, Cooperation. Instructional staff will receive ongoing coaching strategies from the Behavior Specialist. This year, Maximo will implement a unified classroom management plan that allows students to take ownership of their behavior by

setting goals and tracking their progress. In addition, this year we will continue the MES way: Maximizing our Educational opportunities by Striving for success each day.

**Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services**

Maximo Elementary has a full-time Health Tech, Social Worker, and School Psychologist to ensure the needs of our student population are being met. In addition, Maximo Elementary is one of five schools that has been selected to participate in the JWB Child Initiative; a program that provides various wrap-around services to students that will result in them increasing their academic achievement. Student Services will provide informational sessions regarding processes and procedures for teachers with specific student concerns.
