Note: The school grades calculation was revised substantially for the 2014-15 school year to implement statutory changes made by the 2014 Legislature and incorporate the new Florida Standards Assessments. The 2014-15 school grades serve as informational baseline data that schools can use to improve in future years.

School Board Approval

This plan is pending approval by the Polk County School Board.

SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or with a grade of F within the prior two years. For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the Florida Department of Education's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify resources available to support the goals and barriers that could hinder achieving those goals (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida's Differentiated Accountability (DA) system is a statewide network of strategic support, differentiated by need according to performance data, and provided to schools and districts in order to improve leadership capacity, teacher efficacy and student outcomes. DA field teams collaborate with district and school leadership to design, implement and refine improvement plans, as well as provide instructional coaching, as needed.

DA Regions

Florida's DA network is divided into five geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

Traditional public schools are classified at the start of each school year, based upon the most recently released school grades (A-F), into one of the following categories:

- Not in DA – currently A or B with no F in prior three years; charter schools; ungraded schools
- Monitoring Only – currently A, B or C with at least one F in the prior three years
- Focus – currently D
 - Planning – two consecutive grades of D (i.e., DD), or a grade of F immediately followed by a grade of D in the most recent grades release (i.e., FD)
 - Implementing – two consecutive grades of D in the most recent grades release preceded by a grade below C (i.e., FDD or DDD)
- Priority – currently F
 - Planning – declined to a grade of F in the most recent grades release and have not received a planning year or implemented a turnaround option during the previous school year
 - Implementing – two consecutive grades of F (i.e., FF), or three consecutive grades below C with an F in the most recent grades release (i.e., FDF or DDF)

DA Turnaround and Monitoring Statuses

Additionally, schools in DA are subject to one or more of the following Turnaround and Monitoring Statuses:

- Former F – currently A-C with at least one F in the prior three years; SIP is monitored by FDOE
- Planning – Focus Planning and Priority Planning; district is planning for possible turnaround
- Implementing – Focus Implementing and Priority Implementing; district is implementing the Turnaround Option Plan (TOP)

Supportive Environment

School Mission and Vision

Provide the school's mission statement

At Churchwell Elementary School, we the students, parents, staff, and community will work as a team in a positive environment and experience success each day through meaningful activities using all available resources.

Provide the school's vision statement

Churchwell Elementary, our school and community, envisions a curriculum delivered through effective teaching practices to prepare our students for the twenty-first century and its work force. Teachers here are committed to professional development. The curriculum will be integrated and will provide the students the opportunity to work with real world experiences which will enhance learning. Emphasis will be placed on concepts and applications of mathematics to help our students communicate mathematically, and apply mathematical skills to real life. We will assess kindergarten through fifth grade students through skill grouping. We will utilize our social skills instruction, peer mediation and conflict resolution to encourage the acceptance of self and others. Through the integration of technology into the curriculum, teacher and student will access information and apply it to their learning experience.

School Environment

Describe the process by which the school learns about students' cultures and builds relationships between teachers and students

There is a focus on building relationships and partnerships between the school and families. The school learns about the students' cultures by inviting families to family nights each nine weeks. During these family nights, students share individual data and standards based assessments/projects with their families. In addition, parents are continuously involved in ongoing parent conferences. Teachers use positive behavior plans to make positive daily connections with students.

Describe how the school creates an environment where students feel safe and respected before, during and after school

Churchwell Elementary has established expectations and rules for all areas on campus through PBS. Each student has a school-wide PBS STAR card. Students have the opportunity earn STARS based on their positive choices through the school day. Churchwell Elementary has schedules in place and adults in charge of all areas on campus before, during, and after school.

Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced

Churchwell Elementary has established expectations and rules for all areas on campus through PBS. Each student has a school-wide PBS STAR card. Students have the opportunity earn STARS based on their positive choices through the school day. Teachers teach the PBS expectations and rules consistently throughout the school year. The PBS tracking form is utilized by staff members to track behaviors and observations of students misbehaviors. Teachers determine what interventions and behavior plans should be put in place.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services

Teachers implement PBS strategies throughout the school day to ensure all social-emotional needs are met. In addition, students social-emotional needs are met through the guidance department. Based on student need, students are provided counseling from the guidance counselor. Throughout the school year, the guidance counselor forms skill groups based on student needs. Based on student need, students are paired with a staff member for mentoring. Mentors check in with student before, during, and after school.

Early Warning Systems

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(B)(ii)(III), (b)(1)(B)(iii)(I), and (b)(1)(I).

Describe the school's early warning system and provide a list of the early warning indicators used in the system

The elementary school's early warning system provides the school with a list of students that meet the following criteria:

- absent 10% or more of the days enrolled
- over-age two or more years for the grade level
- total number of OSS/ISS days is greater then 3

In addition, we can use our data to determine the students that scored a level 1 on the statewide Reading and Math standardized assessments.

Provide the following data related to the school's early warning system

The number of students by grade level that exhibit each early warning indicator:

Indicator	Grade Level			Total
	1	2	5	
Attendance below 90 percent	0	2	1	3
One or more suspensions	1	0	2	3
Course failure in ELA or Math	0	0	0	
Level 1 on statewide assessment	0	0	0	

The number of students identified by the system as exhibiting two or more early warning indicators:

Indicator	Grade Level		Total
	4	5	
Students exhibiting two or more indicators	5	17	22

Describe all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system

Intervention strategies:

- Implementation of the school-wide PBS (Positive Behavior Support) system
- Individualized behavior plans
- Character education lessons built into the student's schedules
- Acceleration and intervention small group instruction built into the master schedule
- Monthly MTSS meetings to discuss behavioral and academic goals and tier support for students
- Teachers discussing ongoing assessment data in PLCs weekly to form differentiated groups
- Ongoing differentiated instruction professional development for teachers

Family and Community Involvement

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(B)(iii)(I)(aa).

Describe how the school works at building positive relationships with families to increase involvement, including efforts to communicate the school's mission and vision, and keep parents informed of their child's progress

Title I schools use the Parent Involvement Plan (PIP) to meet the requirements of 20 U.S.C. § 6314(b)(1)(F).

Will the school use its PIP to satisfy this question?

Yes

PIP Link

The school completes a Parental Involvement Plan (PIP), which is available at the school site.

Description

Describe the process by which the school builds and sustains partnerships with the local community for the purpose of securing and utilizing resources to support the school and student achievement

The school builds and sustains partnerships with the local community through the SAC (School Advisory Committee). Partnerships are made to make decisions about securing and utilizing resources. The SAC committee makes decisions about funding and resources. The SAC committee analyzes school data to make decisions to place resources in the school to support student achievement. Various businesses throughout the community donate funds and resources to promote student learning.

Effective Leadership

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(H).

Hall, Anna	Teacher, K-12
Hine, Molly	Teacher, K-12
Towles, Jennifer	Teacher, K-12

Duties

Describe the roles and responsibilities of the members, including how they serve as instructional leaders and practice shared decision making

The leadership team and academic leadership team meets weekly to collaborate and make instructional decisions for the the school. The roles and responsibilities of the leadership team are to share and implement the vision of the school, discuss student data, implement a plan for professional development, problem solve ideas in the areas of facilities, instruction, and organization, discuss ways to involve families and communities, and implement coaching and instructional practices for all new teachers.

The instructional coaches plan with teachers, model lessons for teachers, and provide feedback for implementation of the standards.

Our Guidance Counselor works closely with our teachers to provide Tier 2 and Tier 3 intervention assistance for student with behavior problems that affect student achievement.

Our Media Specialist assists all teachers with the selection of media materials to support the new Florida Standards along with supporting students with research topics and projects.

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact

The leadership team identifies and aligns all available resources in order to meet the needs of all students and maximize desired student outcomes using the following data:

- Baseline Data: FAIR (3rd-5th), Florida Standards Assessment (FSA), Classroom Assessments, Lowest 25% data
- Progress Monitoring: FAIR, Reading Wonders Assessments, Go Math Assessments
- Mid-Year: FAIR, Classroom Assessments
- End of Year: FAIR, FSA, Classroom Assessments
- Frequency of Data Assessments: FAIR- 3 times a year; FSA-yearly; Classroom Assessments- End of chapter and end of unit tests
- Lowest 25%-Quarterly
- Tier 2 & 3 behavior interventions

The data is used to problem solve and allocate resources for the highest impact. ESE and ESOL students are clustered in order to maximize the time the ESE Inclusion teacher and the ESOL paraprofessionals spend with students.

We also use our instructional coaches to plan, model, and support teachers based on the needs identified from the data, observations, or individual request.

Duties

Provide a description of the SAC's involvement with the following activities, as required by section 1001.452(2), Florida Statutes

Evaluation of last year's school improvement plan

Each year the principal presents the School Improvement Plan to the SAC. The school advisory council met quarterly to discuss the progress of the School Improvement Plan goals, data from various assessments used in the school, and barriers. Each SAC member was encouraged to ask questions about the data and strategies implemented to improve student achievement. Then the plan is voted on for approval.

Development of this school improvement plan

SAC members were given an opportunity to offer input about the school improvement plan for the next year in the following ways:

- Assist in developing and reviewing school vision statement, goals, and objectives

- Analyze various data sources
- Vote on the expenditure of SAC Allocation Funds, School Recognition Funds, and Lottery Funds
- Review all funds reported in School Improvement Plan.
- Support and review school improvement implementation.

Preparation of the school's annual budget and plan

The SAC offers suggestions as to how they would like to see the available funds used. The priorities are in the areas of student learning and how it impacts the learning and instruction of students.

Describe the use of school improvement funds allocated last year, including the amount budgeted for each project

We did not use the school improvement funds last year because they were received so late in the year.

Verify that the school is in compliance with section 1001.452, Florida Statutes, regarding the establishment requirements and duties of the SAC

Yes

If the school is not in compliance, describe the measures being implemented to meet SAC requirements

Literacy Leadership Team (LLT)

Membership:

Name	Title
Selph, Wallace	Principal
Weingarh, Amy	Assistant Principal
Kalch, Laura	Guidance Counselor
Hardee, Taryn	Instructional Coach
McClellan, Kathy	Instructional Coach
Friedt, Maria	Teacher, K-12
Carleton, Elyshia	Teacher, K-12
Gilmore, Milton	Teacher, K-12

Duties

Describe how the LLT promotes literacy within the school

The School-Based Literacy Leadership Team meets weekly to examine data in the areas of FAIR and ongoing reading and math assessments. The team looks for trends in data and brainstorms interventions and discusses resources for teachers. They will focus on curriculum needs as we fully implement the new Florida Standards. In addition, the instructional coaches and administration meet to ensure the coaching cycle is being implemented on campus with fidelity.

Public and Collaborative Teaching

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(D).

Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction

The master schedule is designed so that teachers have common planning time. Teachers meet with grade level teams to collaboratively plan Language Arts, Math, Social Studies, and Science lessons. The master schedule is also designed so that teachers meet in PLCs to discuss ongoing assessment data based on the Florida Standards. Teachers discuss students needs based on data and create differentiated small group and center plans. In addition, teachers meet as needed in PLCs for professional development based on the needs of the staff and students.

Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school

The administrative team attends Recruitment and Hiring Fairs to collaborate with area colleges to interview candidates for teaching positions. In addition, Churchwell Elementary meets with new teachers on a weekly basis to discuss instructional strategies, curriculum, student engagement, and questions about daily classroom practices.

Describe the school's teacher mentoring program, including the rationale for pairings and planned mentoring activities

New teachers to Churchwell Elementary and teachers that are new to the profession are mentored throughout the year. Teachers are paired with experienced teachers on their grade level. This pairing helps the new teacher have a close resource to ask questions about school information, planning, curriculum, and instruction. All new teachers will have a new teacher orientation session with the school's instructional coaches. This orientation helps the new teachers adjust to the school environment, gather all their supplies and curriculum needs, and gather information about orientation and the first week of school. The new teachers will meet once a month to ask questions and share ideas. In addition, they will have weekly sessions with their mentor teacher to discuss progress, ask questions, and express concerns.

Ambitious Instruction and Learning

Instructional Programs and Strategies

Instructional Programs

Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards

Teachers use the district learning schedules and create lesson plans that are standards based. The core instructional programs and materials are district issued. Teachers use all programs and materials to match the Florida standards they are teaching. Grade levels collaboratively plan together and submit lesson plans for administration to review.

Instructional Strategies

Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments

Churchwell Elementary teachers use ongoing assessments to track student data in ELA and Math. Teachers graph student results and discuss their student performance on the common assessment with their grade level teams. From the analysis of this data, teachers then create differentiated groups and centers based on the level of mastery of the FL standards.

Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:

Strategy: Extended School Day

Minutes added to school year: 5,400

An additional 30 minutes of instruction was added to the school day in 2014-2015 by adjusting the bell schedule. This has allowed for increased instructional time. A school-wide focus is on bell-to-bell instruction and making sure we are using all time wisely.

Strategy Rationale

The addition of the 30 minutes of instructional time will allow the teachers and students extra time the new more rigorous Florida Standards will need.

Strategy Purpose(s)

- Core Academic Instruction

Person(s) responsible for monitoring implementation of the strategy

Selph, Wallace, wallace.selph@polk-fl.net

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

We will use FAIR and district ongoing progress monitoring assessments in reading and math to determine the effectiveness of this strategy.

Student Transition and Readiness

PreK-12 Transition

The school's response to this question may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(G).

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another

Our PreK readiness rate is 100%. Students in PreK have the opportunity to visit a Kindergarten classroom prior to attending Kindergarten. The students meet the Kindergarten teachers and learn the daily transitions and routines of a kindergartner.

5th grade students at Churchwell Elementary are given the opportunity to meet guidance counselors and/or administration from the school they will be attending. They have the opportunity to attend a family night at their middle school and have the opportunity to register for classes prior to starting their 6th grade year.

College and Career Readiness

Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations

Churchwell provides exposure to various careers through participation in a Career Day, The Great American Teach-In, and Take Your Child to Work Day. This includes reading and writing follow-up activities that encourage the students to analyze and synthesize the information gained from these experiences.

Identify the career and technical education programs available to students and industry certifications that may be earned through those respective programs

Describe efforts the school has taken to integrate career and technical education with academic courses (e.g., industrial biotechnology) to support student achievement

Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the [High School Feedback Report](#), as required by section 1008.37(4), Florida Statutes

Data to Support Problem Identification

Portfolio Selection

Portfolio selection is not required by the Florida Department of Education but is offered as a tool for needs assessment.

Data Uploads

Data uploads are not required by the Florida Department of Education but are offered as a tool for the needs assessment. In this section, the school may upload files of locally available data charts and graphs being used as evidence of need.

The following documents were submitted as evidence for this section:

.

Problem Identification Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the points of strength and areas of need that have been identified in the data.

Problem Analysis Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the underlying “why” or root causes for the areas of need identified in the data, as determined by situational awareness of, and research conducted by, the stakeholders involved in the needs assessment.

School Improvement Goals

The following key is intended to help readers understand how the sections of this document correspond to the steps of the 8-step planning and problem-solving framework used in the School Improvement Plan. The Quick Key numbers can help registered users go directly to the point of entry for any given goal, barrier and strategy within the online survey.

Schedule

Weekly, from 8/24/2015 to 6/3/2016

Evidence of Completion

Beginning, Mid-year and end of year district assessments and monthly ongoing assessments in reading, writing, math and science.

Action Plan for Improvement

For each strategy selected in the plan to reduce a targeted barrier to a strategic goal, this section lists the rationale for that strategy (i.e., why the school believes it will reduce the barrier) and the action steps that have been identified as necessary to implementing the strategy, including details such as the point person, timing and duration, and evidence of completion. At the end of each set of action steps is the plan for monitoring the implementation and effectiveness of the respective strategy.
