

Polk County Public Schools

Jere L. Stambaugh Middle

2015-16 School Improvement Plan

Jere L. Stambaugh Middle

226 MAIN ST N, Auburndale, FL 33823

<http://www.stambaughmiddle.com/>

School Demographics

School Type	2014-15 Title I School	2015-16 Economically Disadvantaged (FRL) Rate (As Reported on Survey 2)
Middle	Yes	65%

Alternative/ESE Center	Charter School	2015-16 Minority Rate (Reported as Non-white on Survey 2)
No	No	46%

School Grades History

Year	2014-15	2013-14	2012-13	2011-12
Grade	C*	D	D	C

**Preliminary Informational Baseline School Grade*

Note: The school grades calculation was revised substantially for the 2014-15 school year to implement statutory changes made by the 2014 Legislature and incorporate the new Florida Standards Assessments. The 2014-15 school grades serve as informational baseline data that schools can use to improve in future years.

School Board Approval

This plan is pending approval by the Polk County School Board.

SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or with a grade of F within the prior two years. For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the Florida Department of Education's school improvement planning web application located at <https://www.floridacims.org>.

Table of Contents

Purpose and Outline of the SIP	4
Differentiated Accountability	5
Current School Status	8
8-Step Planning and Problem Solving Implementation	22
Goals Summary	22
Goals Detail	22
Action Plan for Improvement	25
Appendix 1: Implementation Timeline	35
Appendix 2: Professional Development and Technical Assistance Outlines	37
Professional Development Opportunities	38
Technical Assistance Items	40
Appendix 3: Budget to Support Goals	0

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify resources available to support the goals and barriers that could hinder achieving those goals (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida’s Differentiated Accountability (DA) system is a statewide network of strategic support, differentiated by need according to performance data, and provided to schools and districts in order to improve leadership capacity, teacher efficacy and student outcomes. DA field teams collaborate with district and school leadership to design, implement and refine improvement plans, as well as provide instructional coaching, as needed.

DA Regions

Florida’s DA network is divided into five geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

Traditional public schools are classified at the start of each school year, based upon the most recently released school grades (A-F), into one of the following categories:

- Not in DA – currently A or B with no F in prior three years; charter schools; ungraded schools
- Monitoring Only – currently A, B or C with at least one F in the prior three years
- Focus – currently D
 - Planning – two consecutive grades of D (i.e., DD), or a grade of F immediately followed by a grade of D in the most recent grades release (i.e., FD)
 - Implementing – two consecutive grades of D in the most recent grades release preceded by a grade below C (i.e., FDD or DDD)
- Priority – currently F
 - Planning – declined to a grade of F in the most recent grades release and have not received a planning year or implemented a turnaround option during the previous school year
 - Implementing – two consecutive grades of F (i.e., FF), or three consecutive grades below C with an F in the most recent grades release (i.e., FDF or DDF)

DA Turnaround and Monitoring Statuses

Additionally, schools in DA are subject to one or more of the following Turnaround and Monitoring Statuses:

- Former F – currently A-C with at least one F in the prior three years; SIP is monitored by FDOE
- Planning – Focus Planning and Priority Planning; district is planning for possible turnaround
- Implementing – Focus Implementing and Priority Implementing; district is implementing the Turnaround Option Plan (TOP)

2015-16 DA Category and Statuses

DA Category	Region	RED
Focus	3	Ella Thompson
Former F	Turnaround Status

Part I: Current School Status

Supportive Environment

School Mission and Vision

Provide the school's mission statement

The Stambaugh Middle School family to include staff, students, parents, and community is dedicated to creating an environment where everyone maximizes their academic potential and love of learning by thinking independently, working cooperatively, and transitioning learners of today into the leaders of tomorrow.

Provide the school's vision statement

Creating learners today to be leaders of tomorrow.

School Environment

Describe the process by which the school learns about students' cultures and builds relationships between teachers and students

The teachers and staff at Stambaugh Middle School develop personal relationships with their students on a daily basis. They do this by interacting positively with students through groups, clubs, sports, and team building activities. Stambaugh has developed a master schedule that helps supports the teaming of students in each grade level. By doing so teachers are able to know their students on a more personal level and intervene with them on an appropriate level. Parents are then more aware of their child's teachers and can easily contact them and communicate with them.

Describe how the school creates an environment where students feel safe and respected before, during and after school

Stambaugh is a secured campus and the leadership team is available prior to the school bell, building relationships and ensuring the safety of all students. All leadership team members to include the Principal, Assistant Principal's, guidance counselors, coaches, and deans have open door policies. As students move about campus throughout the day, teachers are stationed at their doors to monitor hallways but also to welcome them in and out of class. The school's SRO is visible throughout the school day and interacts with student's during their lunch time.

Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced

Stambaugh Middle School is a Positive Behavior school. Our school wide discipline plan includes school-wide expectations and team/grade level rules. We implement progressive discipline and have a written discipline procedure manual that all teachers follow to ensure discipline is fair and consistent. Our manual includes definitions of teacher-managed and office-managed behaviors as well as the steps to follow for those various behaviors. During the week teachers return, all staff members are trained annually on the overall behavior plan for our school and each receive an updated manual as well. Throughout the year, teachers receive booster sessions quarterly, either through team meetings or faculty meetings, regarding the school-wide behavior plan. The behavior manual is available upon request or can be uploaded as an attachment.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services

Our students social-emotional needs are met in various ways. We have a school counselor for each grade level who keeps the same students throughout their time at middle school. By doing so, counselors get to know the students and their parents on a more personal level and can address students' needs more appropriately. The school psychologist, in conjunction with the counselors, host small groups for different mental health/personal needs for students in need, such as social skills, study skills, and anger management. Furthermore, bullying lessons are taught school-wide at the beginning of each school year to all students. Students are informed to meet with deans, counselors or any other member of the leadership team to report possible bullying. Once reported an investigation is immediately opened. Proper forms and timelines are met and all parties involved receive proper notification.

Early Warning Systems

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(B)(ii)(III), (b)(1)(B)(iii)(I), and (b)(1)(I).

Describe the school's early warning system and provide a list of the early warning indicators used in the system

- Attendance below 90 percent, regardless of whether absence is excused or a result of out-of-school suspension
- One or more suspensions, whether in school or out of school
- Course failure in English Language Arts or mathematics (to include social studies and science)
- A Level 1 score on the statewide, standardized assessments in English Language Arts or mathematics
- The PBS/MTSS team meets monthly to discuss the students indicated

Provide the following data related to the school's early warning system

The number of students by grade level that exhibit each early warning indicator:

Indicator	Grade Level			Total
	6	7	8	
Attendance below 90 percent	10	21	17	48
One or more suspensions	85	127	83	295
Course failure in ELA or Math	5	12	20	37
Level 1 on statewide assessment	65	67	84	216
	0	0	0	

The number of students identified by the system as exhibiting two or more early warning indicators:

Indicator	Grade Level	Total
Students exhibiting two or more indicators		

Describe all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system

The Academic Leadership Team alongside the guidance department monitors this data monthly. The school guidance counselors along with the school psychologist and social worker target at risk students. The selected students will receive one or more of the following interventions:
 -small groups

- referral to Academic Leadership team
- parent contact/conference
- elective pullout by academic coaches
- referral to school counselors
- administrative conferencing with students
- tutoring/Grade Recovery
- updated school wide behavior plan

Family and Community Involvement

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(B)(iii)(I)(aa).

Describe how the school works at building positive relationships with families to increase involvement, including efforts to communicate the school's mission and vision, and keep parents informed of their child's progress

Title I schools use the Parent Involvement Plan (PIP) to meet the requirements of 20 U.S.C. § 6314(b)(1)(F).

Will the school use its PIP to satisfy this question?

Yes

PIP Link

The school completes a Parental Involvement Plan (PIP), which is accessible through the Continuous Improvement Management System (CIMS) at <https://www.floridacims.org/documents/193642>.

Description

A PIP has been uploaded for this school or district - see the link above.

Describe the process by which the school builds and sustains partnerships with the local community for the purpose of securing and utilizing resources to support the school and student achievement

The Principal is a member of the community Rotary club and attends the weekly meeting. The local Lions club contributes monetarily as well as providing students with glasses and hearing aids. The Civics teachers reach out to local politicians to speak to our students. The school PTSO is actively seeking donations from local businesses. APC works closely with Chamber of Commerce for uniform donations/ sponsors to assist with families in need.

Effective Leadership

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(H).

School Leadership Team

Membership:

Name	Title
BUTLER, TRISH	Principal
Morgan, Heidi	Assistant Principal
Vincent, Angela	Assistant Principal
Barnes, Sonya	Instructional Coach
Davis, Jennifer	Guidance Counselor
Buss, Sharon	Administrative Support
Westberry, Gary	Dean
McLucky, Alex	Dean

Duties

Describe the roles and responsibilities of the members, including how they serve as instructional leaders and practice shared decision making

Principal - Analysis of all data and systems

APA - Data collection and analysis - Behavior and attendance

APC - Data collection and analysis - Progress monitoring, FCAT, Curricular alignment, Teaching/Learning Strategies, and grade monitoring

Guidance Councilors - Data Collection and analysis - student placement, class grades, attendance

Curriculum Coaches - Data collection and analysis - Collaborative planning, high yield teaching standards, teacher support, and curricular alignment/pacing

Deans - teacher support, behavior support, discipline monitoring

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact

Academic Intervention Plan Program Description

I. Rationale

- The middle grades represent a developmental stage notorious for low levels of student engagement, low motivation, frustration, and defiance.
- Successful schools have “behavior” rules or expectations. These expectations let students know what is considered appropriate and professional behavior; they teach students that inappropriate behaviors have real life consequences both at school and in their future workplace. These expectations safeguard student safety, promote an orderly environment, and ensure an atmosphere and culture of learning.
- Successful schools should also have “academic behavior” expectations and intervention procedures. While these “academic” expectations are compatible with the aforementioned “behavior” expectations, they are unique in that their focus is on teaching students skills and promoting behaviors that will affect their academic performance, levels of motivation, and their sense of responsibility.
- Low levels of engagement and a lack of a sense of responsibility will lead to low student achievement and low test scores.
- Some teachers have adopted and implemented systems of academic interventions that identify disengaged students and take these students through a series of steps that require the student to make up work that he/she has missed or redo poor quality work.
- However, while some teachers have been successful with their academic intervention procedures, we need a school wide approach. This approach should be clear, simple, effectively communicated, and frequently evaluated.
- These expectations and interventions are essential to the development of a school culture that values education, sets high standards for our students, and espouses a belief that most students will rise to the level we set for them.

II. Defining the Academic Expectations

- Before we can talk about interventions, our school must define what the academic expectations are. What do we expect of our students? In class? Individually and in groups? What do we expect in the way of preparation and readiness to learn?
- These expectations should be part of our culture and they should be ubiquitous and inescapable.
- The acronym G.R.A.D.E.S. reflects the academic expectations that we as a school consider essential. These expectations should be communicated to our students, referred to by our teachers, and supported by our administrators:

G: Great Effort

R: Read directions thoroughly

A: Ask for Help

D: Don't give up

E: Evaluate your work

S: Submit the assignment

- The goals of this plan are to identify struggling students and to teach and reinforce our academic expectations through a series of interventions that demand responsibility, engagement, participation, and a willingness to work.

III. Target Students

- These interventions are designed for students who don't want to perform in class:

- o Student that fails to turn in an assignment (homework)

- o Student fails to complete an in class assignment

- o Student submits poor quality and/or incomplete work

- o Student has a D or F average in academic class

- Many underperforming students will improve after a simple warning or just one parent phone call.

Fewer students will need a second phone call, fewer still will need the pull out interventions, and just a handful will need tier II or tier III interventions.

- These interventions are not designed for students who have legitimate learning difficulties: ESE, ESOL, Low level students. These students should receive a different set of interventions and accommodations.

- Remember these interventions are for student who won't do the work, not for those who can't do the work.

IV. Tiers

Tier I:

- Teacher managed interventions

- Tier I consist of:

1. One (1) form of parental contact (phone calls, emails, notes in planner, etc.). The teacher should also arrange a pull out intervention to make the student complete the work (S)he missed. The goal of communication is to alert parents of student's academic underperformance and notify the parents of the expectations and possible consequences.

2. Three (3) 'student pull" out interventions.

- A student pull out interventions can include:

1. Pulling a student out of elective classes.

2. Pulling a student out of another academic class.

3. Holding a student.

4. Before or after school.

3. Parent Conference: Attended by teachers and resource teachers.

- The main purpose of the pull out interventions is to give students another chance to complete the work they missed, refused to do, or was of poor quality.

- A secondary purpose of these interventions is to disrupt the student's social aspect of their school day. This sends a message that academic work is the most important aspect of their school responsibilities, and it establishes a school culture that refuses to allow students to bail out of their work.

Tier I goals are:

- o Teacher managed interventions

- o Reinforce academic expectations

- o Dissuade students from underperforming in class

- Student cannot be moved to tier II interventions if teacher did not implement tier I interventions

Keys to Tier I success:

- Flexibility: Teacher uses discretion in using more than the required 4 pull out interventions

- Team Work: Document steps; notifying teachers in advance of pull out schedule

- Determining if it is a behavior or academic issue: issues should focus on academic performance behaviors; share experiences with with team members

Tier II:

- If student continues to underperform he/she should be referred to the resource teacher (All steps and interventions must be documented in the shared Folder)
- Tier II consists of:
 - o Student will have an opportunity to their work in the resource teacher's office
 - o Receive academic counseling
 - o Possibly receive an alternative assignment
 - o Conference with administrators

Tier III:

- If a student continues to underperform, resource teachers will refer the students to the guidance department (All steps and interventions must be documented in the shared Folder)
- Tier III consists of:
 1. Guidance Interventions:
 - o After receiving referral from resource teacher guidance counselors will set up weekly student conferences. These weekly conferences will be held for a minimum of two weeks and a maximum of four weeks.
 - o If after two weeks the student shows no progress, he/she can be referred to the administrators
 - o Guidance counselors will inform students of their grades, remind them of the interventions, alert them of the consequences, and offer any other form of assistance.
 - o If there is no progress or improvement, student will be referred to the Assistant Principal of Curriculum (Must be documented in the shared Folder)
 2. Administrator Interventions:
 - o APC Morgan:
 1. Student Conference
 2. Strip advanced student of advanced classes
 3. Possible self contained placement
 4. If there is no progress or improvement, student will be referred to the Principal (Must be documented in the shared Folder)
 - o Principal Butler:
 1. Student conference and monitoring
 2. If there is no progress or improvement, student could be considered for alternative placement.

V. Program Description, Documentation, and Referral Process

1. Electronic Folders and Documents:
 - o Similar to the discipline folders and documents
 - o Record phone calls, emails and all other contact attempts
 - o Record Pull out interventions
 - o One form will contain the entire trajectory of interventions (all Tiers)
2. Documentation/referral forms:
 - o NRC forms will have three layers: White, yellow, and pink.
 - o Two primary uses:
 1. Official paper request to pull a student out of another class. Teacher will place the yellow copy in an elective teacher's mailbox if the intervention will take place on another day. If teacher is holding a student, (S)he should send the yellow copy to the other teacher at the beginning of the class period.
 2. As pass for the student to leave one class and go to the other. Student will keep and use the pink copy as a pass.
 - o Teachers will keep the white copy in a folder for documentation.

VI. Punitive or Remedial

- We must recognize that these interventions complement traditional behavior interventions but in other ways are very different.
- The outcomes for academic interventions are not work detail, suspensions, or expulsions. Thus these interventions are not punitive in the same sense that regular behavior interventions and consequences are.
- A school culture that allows students to become disengaged with no interventions or corrective

measures is being truly punitive.

- The goal of these interventions is to correct behavior and communicate a culture of high expectations.

VII. Monitoring

1. Accountability

? The success of the program depends on consistent and school wide implementation.

? Resource teachers and administrators will check the steps before allowing a student to move to Tier II or Tier III (Much like discipline).

? Teachers will be expected to show interventions for D and F students who have missing assignments.

2. Teacher support

? With every new initiative there will be hurdles and problems.

? Communicating your observations with team leaders and with members of the AIP committee by email or by talking to them is the most important way to solve problems and improve this program.

? Early problems are not reasons to quit or to consider the program a failure. Early problems offer a unique opportunity to change and improve.

? Team meetings should be assessment, data gathering, and problem solving sessions.

3. Data Collecting:

? Teacher Surveys. Let us know what is going on. The good and the bad.

? Grade reports printed by guidance at the end of each 2-3 weeks

VIII. Evaluation

1. Data Analysis

? Academic Intervention Plan (AIP) Leadership Team and Team Leaders meetings

? At the end of each 9 weeks

? End of year analysis

2. Communicating the data with teachers

? Team leaders in team meetings

? Make changes and improvements based on data

Describe how the school will coordinate and integrate parental involvement programs and activities that teach parents how to help their children at home, to the extent feasible and appropriate, including but not limited to, other federal programs such as: Head Start, Early Reading First, Even Start, Home Instruction Programs for Preschool Youngsters, the Parents as Teachers Program, public preschool, Title I, Part C, Title II, Title III, Title IV, and Title VI [Section 1118(e)(4)].

count Program Coordination

1 Title III, ESOL Stambaugh Middle School provides quarterly meetings for parents and students who are Non or Limited-English speakers. School resource personnel and coaches provide supplemental resources for English Language Learners and their teachers in Title I schools, as well as professional learning opportunities for school staff.

2 ESE Stambaugh Middle School provides IEP meetings for our students and parents to discuss the Individual Educational Plans (IEP) for students. The goal of the meeting is to strengthen home-school relationships and keep parents informed about issues related to special education and the progress of their child.

3 Title I, part A Stambaugh Middle School will provide parents an opportunity to attend at least two parent workshop nights, one per semester. The parent involvement team will coordinate and distribute Title I and academic resource materials to parents. In addition, parents will have full access to their child's teachers to discuss academic progress/needs.

4 Title I, part C Migrant students enrolled in Stambaugh Middle School will be assisted by the school and by the District Migrant Education Program (MEP). Students will be prioritized by the MEP for supplemental services based on need and migrant status. MEP Teacher Advocates, assigned to schools with high percentages of migrant students monitor the progress of these high need students and provide and coordinate supplemental academic support.

5 Title II District receives supplemental funds for improving basic education programs through the purchase of small equipment to supplement education programs. Professional development resources

are available to Title 1 schools through Title II funds. In addition, School Technology Services provide technical support, technology training, and licenses for software programs and web-based access via Title II-D funds. New technologies in the classrooms will increase the instructional strategies provided to students.

6 Title X - homeless The Hearth program, funded through Title X, provides support for identified homeless students. Title 1 provides support for this program and may activities implemented by the Hearth program are carried out in cooperation with the Migrant Education Program funded through Title 1, part C.

School Advisory Council (SAC)

Membership:

Name	Stakeholder Group
Trish Butler	Principal
Heidi Morgan	Principal
Angela Vincent	Principal
Sharon Hood	Education Support Employee
Henry Prada	Teacher
Patricia Kilpatrick	Teacher
Elizabeth Vergara	Education Support Employee
Ann Jenkins	Business/Community
Officer John Cruz	Business/Community
Scott Bennett	Parent
Corine Smtih	Parent
Deborah Price	Parent
Leona Blackmon	Parent
Tristan Gonzalez	Student
Mike Townsend	Parent
Ruth Vega	Parent
Jennifer Atkinson	Parent
	Student

Duties

Provide a description of the SAC's involvement with the following activities, as required by section 1001.452(2), Florida Statutes

Evaluation of last year's school improvement plan

The SAC reviews the school's previous SIP and provides input related to student/family community involvement. SAC members relay questions and concerns brought by the public for the administration to answer.

Development of this school improvement plan

The SAC committee plays an important part of the school improvement process. The committee discusses the data from FCAT/EOC tests and makes objective remarks as to what the possible barriers are and strategies to overcome these barriers. As a committee they question everything and

every process described in the SIP so that they have a better understanding of the process and procedures of the interventions that the school gives to each student. The SAC committee also approves and amends the SIP throughout the year as they see improvements or additions need to be made.

Preparation of the school's annual budget and plan

The budget is presented to the SAC at the first meeting of the school year. Following that, representatives from each area of specialty discusses possible monies that may need to be spent in order for academic success or school need. The SAC committee then either approves request or denies.

Describe the use of school improvement funds allocated last year, including the amount budgeted for each project

The SAC committee appropriates 2000.00 for teacher substitutes so that we can offer additional teacher planning and collaboration. The planning is accomplished in half day sessions during the school day.

Verify that the school is in compliance with section 1001.452, Florida Statutes, regarding the establishment requirements and duties of the SAC

Yes

If the school is not in compliance, describe the measures being implemented to meet SAC requirements

Literacy Leadership Team (LLT)

Membership:

Name	Title
Morgan, Heidi	Assistant Principal
Hood, Sharon	Instructional Media
Barnes, Sonya	Instructional Coach

Duties

Describe how the LLT promotes literacy within the school

The major initiatives for the Literacy team will be as follows:
 CISM (comprehensive instructional sequence model)
 DBQ (document based question)
 ERP (extended reading passages)
 Book Club
 Collaborative Planning

Public and Collaborative Teaching

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(D).

Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction

Stambaugh Middle uses collaborative planning in order to build relationships and ensure effective instructional strategies are being used across all grade levels and subject areas. Twice a week same subject area teachers plan collaboratively with their peers. One day a week teachers plan with their subject area coach and assigned grade level administrator. The second meeting is teachers only, using

the pre-planning document that was given to them by their coach. The teacher whom led the planning session turns that days document in as evidence. Teachers and coaches discuss student concerns, strategies, grade level events and student incentives. Administrators conduct a walk-through of the planning session they were involved in to ensure accountability and standards based instruction is taking place with Rigor.

Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school

To recruit new highly qualified teachers, we partner with neighboring universities and conduct mock-interviews as well as mentoring opportunities to upcoming teacher candidates. We also market our positions on professional websites as well.

To retain teachers we offer a myriad of supports for our new and seasoned teachers. Our teachers collaboratively plan which allows them to have support in their subject area as well as support with behavioral issues. Teachers are also placed into TEAM that share the same students. We also have after school activities such as an adult tennis league and gatherings outside the school day to create a community environment.

Describe the school's teacher mentoring program, including the rationale for pairings and planned mentoring activities

Stambaugh Middle School is located in Auburndale, Florida. Stambaugh has approximately 880 students enrolled in grades 6-8. Stambaugh Middle School reported that 76.2% of the students were economically disadvantaged in the 2013-2013 school year. Ethnic breakdown for the 2012-2013 school year was as follows: 63.6% white, 16.7% Hispanic, 13.8% Black, 4.5% mixed races, .9% American Indian, and .5% Asian. On staff, there is one principal, two assistant principals, two deans, one academic intervention facilitator, three counselors and 43 teachers. Stambaugh is rated a "C" school by the Florida Department of Education. For the 2012-2013 school year, 48% of the students were reading at grade level or above and 43% of the students were proficient at mathematics in their grade level. Currently Stambaugh does not have a program to initiate new teachers or provide them with support throughout the school year.

Research and Rational

With so many teachers leaving the profession within the first three years on the job, it almost seems as if teaching is a revolving door. As fast as universities and preparation programs are producing teachers, there are still many areas with teacher shortages. The first three years are critical for a new teacher, and 30 percent of new teachers leave the profession by the end of their third year (Perry & Hayes, 2011). Almost half of the teachers that begin teaching leave the profession before the end of their fifth year. Graziano (2005) stated that 37 percent of teachers in the work force will also be retiring soon. This leaves us in a difficult position where new teachers are leaving too fast and veteran teachers aren't able to stay.

There are many reasons why a teacher may leave a school. The top two areas reasons why teachers leave a school is they feel there is a lack of support from administration and the workplace conditions are not good (Graziano, 2005). Therefore, an effective new teacher program must focus on creating a welcoming environment that is heavily supported by lead teachers and administration. Many things can make an induction program successful. However, Wong (2004) stated that a successful program "caters to the individual culture and specific needs of its unique school or district" (p.48). A strong component of Stambaugh is it's collaboration among department and teams. Another component of a successful program is it allows the new teachers to feel like they are part of a learning community where they can contribute and take ownership of their teaching (Wong, 2004).

The final aspect of a successful new teacher program is offering a mentor to each new teacher. Rutherford (2005) points out that, "mentors must be knowledgeable, have a positive attitude, and be a good role model" (p.11). Not every teacher is cut out to be a mentor. However, the experience and knowledge a new teacher gains from having a mentor is irreplaceable. If the mentor program is instituted correctly, teachers have the opportunity for substantial growth. Mentors should focus on instructional and classroom management strategies when working with new teachers (Kardos, & Johnson, 2008).

There is a need for a new teacher program at Stambaugh Middle School. Currently the leadership team is working on monthly meetings that will focus on specific skills. An agenda has been put in place to assist the two brand new teachers hired for the current school year.

Change Plan

At the start of the new school year, brand new teachers will attend a half-day school orientation with a set agenda (Appendix A). Teachers will start the day with a team building activity, hear from the assistant principal, and then they will receive a tour of the school. People from different departments will be there to introduce themselves and offer a brief overview of their role. New teachers will also be given their binder with resources and be asked to complete a need assessment to guide the monthly meetings (Appendix B). The half day meeting is not to overload the teachers, but to give them an overview of the school and a feeling of the school culture by meeting the administrative team. The new teachers are welcomed back to the school the next two days (Friday and Saturday), to work in their classrooms and to meet with the coaches and team leaders.

The new teacher program will consist of three distinctive tiers. Not all teachers will need to receive the same amount of support, therefore the tiers enable differentiation. It goes as follows:

Tier 1

This level is for first year educators to get support in making the transition into education. They will complete a Needs Survey to find out what they see as a need to focus on and be provided with support in those areas, as well as other areas recognized via observations, which may include a book study as a means of support. These educators will meet biweekly with the Assistant Principal of Curriculum.

Tier 2

This level is for educators with one to four years of experience in education to continue their growth in the education field. They will complete a Needs Survey to find out what they see as a need to focus on and be provided with support in those areas, as well as other areas recognized via observations, which may include a book study as a means of support. These educators will meet monthly with the Literacy Coach.

Tier 3

This level is for veteran educators with five or more years of experience in education, as well as those that are new to our school, to continue offering ongoing support in their growth in the education field. They will complete a Needs Survey to find out what they see as a need to focus on and be provided with support in those areas, as well as other areas recognized via observations, which may include a book study as a means of support. These educators will meet monthly with the Assistant Principal of Curriculum.

Ambitious Instruction and Learning

Instructional Programs and Strategies

Instructional Programs

Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards

Stambaugh Middle School follows the county provided learning maps that are aligned with the Florida Standards to plan instruction. Teachers meet with the instructional coaches to ensure best practices are used when teaching the standards. Materials are provided by the county and are aligned with the Florida Standards. The Leadership team completes weekly walk-throughs of the instructional staff to ensure they are implementing lesson plans with fidelity.

Instructional Strategies

Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments

Students are placed in Reading and Math classes based on their previous FSA and FAIR scores. Polk Progress monitoring will be used throughout the year to determine small group instruction. Intensive curriculum materials will be used for remediation of Reading and Math. Scaffolding the instruction will be used to increase the rigor in order to propel the advanced students.

Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:

Strategy: Before School Program

Minutes added to school year: 4,500

Before school Math and Reading Tutoring

Strategy Rationale

To help students with Math and Reading skills

Strategy Purpose(s)

- Core Academic Instruction

Person(s) responsible for monitoring implementation of the strategy

Morgan, Heidi, heidi.morgan@polk-fl.net

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

Data is pulled using classroom grades, FAIR and progress monitoring through IBTP.

Strategy: Weekend Program

Minutes added to school year: 1,800

Using SAI funds Stambaugh provides 6 classes; students are only in 4 (45 minutes each); depends on grade student is in as well as what is tested as to which 4 he/she will do. All students take typing.

Strategy Rationale

to increase test taking/typing skills and provide the extra tutoring necessary for students to be successful in their core academic subjects. Students rotate each Saturday they are on campus.

Classes provided:

Math, Reading, Writing, Science, Civics, and Typing.

Strategy Purpose(s)

- Core Academic Instruction
- Enrichment

Person(s) responsible for monitoring implementation of the strategy

Morgan, Heidi, heidi.morgan@polk-fl.net

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

Will collect data once we receive State scores.

Student Transition and Readiness

PreK-12 Transition

The school's response to this question may be used to satisfy the requirements of 20 U.S.C. § 6314(b)(1)(G).

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another

Stambaugh Middle School hosts each feeder school for incoming 5th graders. The guidance counselors visit each feeder school and provide information. Students also preregister when the guidance counselors visit the schools. The high school counselors also visit Stambaugh to provide our 8th graders with vital information. Our students are also teamed and have the same set of teachers to ensure their needs are being met with fidelity.

College and Career Readiness

Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations

At the end of each school year, grade level counselors go to the students and allow them to select the elective courses of their choosing. Before choosing their courses, each course is explained as well as where the course will lead. CTE instructors are provided opportunities throughout the year to "recruit" and advertise their courses through our television production program and through classroom visits. Academic courses are selected for the students based on their academic performance the current year, state testing outcomes, teacher and parent recommendations and student conferences as needed.

Identify the career and technical education programs available to students and industry certifications that may be earned through those respective programs

Through our CTE courses, including agriculture, business, culinary, and television production, and our eighth grade history course, students are exposed to varying degrees of future college & career pathways. The history course is an integrated course that features a unit taught by the history teacher on career awareness in which salaries, education requirements, and work forecasts are explored. In addition to the history teacher, the school counselor conducts a career/personality discovery lesson with the 8th grade students. CHOICES planner is used with the students to match them with possible careers that fit their interests and Florida Virtual Campus is used to help them map their high school courses to lead them toward a career or college for which they are passionate. The CTE courses are applied courses through which students are exposed to real-world applications of their chosen field and how their coursework, beginning in middle school, can lead to careers after high school or major areas in college. Several of our courses offer industry certification during their 8th grade year prior to entering high school.

Describe efforts the school has taken to integrate career and technical education with academic courses (e.g., industrial biotechnology) to support student achievement

N/A

Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the [High School Feedback Report](#), as required by section 1008.37(4), Florida Statutes

Needs Assessment

Problem Identification

Data to Support Problem Identification**Portfolio Selection**

Portfolio selection is not required by the Florida Department of Education but is offered as a tool for needs assessment.

Data Uploads

Data uploads are not required by the Florida Department of Education but are offered as a tool for the needs assessment. In this section, the school may upload files of locally available data charts and graphs being used as evidence of need.

The following documents were submitted as evidence for this section:

.

Problem Identification Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the points of strength and areas of need that have been identified in the data.

Problem Analysis Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the underlying “why” or root causes for the areas of need identified in the data, as determined by situational awareness of, and research conducted by, the stakeholders involved in the needs assessment.

School Improvement Goals

The following key is intended to help readers understand how the sections of this document correspond to the steps of the 8-step planning and problem-solving framework used in the School Improvement Plan. The Quick Key numbers can help registered users go directly to the point of entry for any given goal, barrier and strategy within the online survey.

Problem Solving Key

G = Goal

B =
Barrier

S = Strategy

1 = Problem Solving Step  S123456 = Quick Key

Strategic Goals Summary

- G1.** Through collaborative planning teachers will deliver standards-based instruction incorporating research-based strategies with ongoing monitoring and feedback which will focus on improving instructional delivery, thus improving student achievement.

Strategic Goals Detail

For each strategic goal, this section lists the associated targets (i.e., "SMART goals"), resources available to support movement toward the goal, barriers to achieving the goal, and the plan for monitoring progress toward the goal

G1. Through collaborative planning teachers will deliver standards-based instruction incorporating research-based strategies with ongoing monitoring and feedback which will focus on improving instructional delivery, thus improving student achievement. 1a

G074056

Targets Supported 1b

Indicator	Annual Target
FSA Mathematics - Achievement	45.0
FCAT 2.0 Science Proficiency	31.0
ELA/Reading Lowest 25% Gains	50.0
FSA English Language Arts - Achievement	46.0

Resources Available to Support the Goal 2

- 1. Reading and Math Coaches
- 2. Collaborative Planning-District provided maps
- 3. Research-Based Instructional Materials
- 4. Modeling of Effective Instruction
- 5. Common Assessments
- 6. Development of Instructional Leadership Team

Targeted Barriers to Achieving the Goal 3

- 1. Thorough Knowledge State Curriculum
- 3. Scheduling effective collaborative planning

Plan to Monitor Progress Toward G1. 8

on-going Polk progress monitoring across content areas using IBTP (computer and paper)

Person Responsible

Heidi Morgan

Schedule

Monthly, from 8/24/2015 to 6/6/2016

Evidence of Completion

Progress monitoring test scores

Plan to Monitor Progress Toward G1. 8

Ongoing classroom monitoring of assessments used to ensure standards based instruction is taking place and students are on track for success

Person Responsible

Heidi Morgan

Schedule

Biweekly, from 8/24/2015 to 6/6/2016

Evidence of Completion

Lesson plans and documentation in gradebook

Action Plan for Improvement

For each strategy selected in the plan to reduce a targeted barrier to a strategic goal, this section lists the rationale for that strategy (i.e., why the school believes it will reduce the barrier) and the action steps that have been identified as necessary to implementing the strategy, including details such as the point person, timing and duration, and evidence of completion. At the end of each set of action steps is the plan for monitoring the implementation and effectiveness of the respective strategy.

Problem Solving Key

Schedule

Biweekly, from 8/31/2015 to 6/6/2016

Evidence of Completion

Lesson Plans; planning logs

G1.B3.S3 Use District provided resources and learning schedules to ensure standards based instruction and assessment is aligned 4

 S204881

Strategy Rationale

District resources and learning schedules meet the rigor of the new Florida Standards

Action Step 1 5

Provide Feedback on Lesson Plans

Person Responsible

Heidi Morgan

Schedule

Weekly, from 9/8/2015 to 6/6/2016

Evidence of Completion

Written feedback provided on lesson plan; admin grade level assignment

Action Step 2 5

Conduct weekly walk-throughs to observe look fors: Standards based instruction; Accountable Talk; Checking for Understanding

Person Responsible

Heidi Morgan

Schedule

Weekly, from 8/31/2015 to 6/6/2016

Evidence of Completion

Documentation of walk-throughs/follow up to planning doc

Action Step 3 5

Provide professional Development in the areas of Student accountable talk and Collaborative Structures

Person Responsible

Heidi Morgan

Schedule

Monthly, from 11/4/2015 to 11/25/2015

Evidence of Completion

Monthly PD for strategy of the month power point, agenda and end of month follow up-observe classrooms

Action Step 4 5

Identify Model classrooms using the 5E instructional method in Math and Science

Person Responsible

Heidi Morgan

Schedule

Quarterly, from 9/15/2015 to 6/1/2016

Evidence of Completion

On-going District coach and School based coach modeling of the 5E instructional method

Plan to Monitor Fidelity of Implementation of G1.B3.S3 6

Agenda for weekly planning sessions

Person Responsible

Heidi Morgan

Schedule

Biweekly, from 8/31/2015 to 6/6/2016

Evidence of Completion

Sign-in sheets for sessions; lessons posted in shared drive weekly

Plan to Monitor Fidelity of Implementation of G1.B3.S3 6

Monthly Strategy of the Month incorporated into standards based instruction

Person Responsible

Heidi Morgan

Schedule

Monthly, from 11/4/2015 to 6/1/2016

Evidence of Completion

New strategy of the month (Student Accountable talk) is used throughout school year; noted on lesson plans and observed during classroom walk-throughs

Plan to Monitor Fidelity of Implementation of G1.B3.S3 6

Classroom walk-throughs and collaborative discussion during planning as follow-up

Person Responsible

Heidi Morgan

Schedule

Quarterly, from 9/21/2015 to 6/1/2016

Evidence of Completion

Lesson plan checks, coaching notes, district coach follow-up

Plan to Monitor Effectiveness of Implementation of G1.B3.S3 7

Teachers will gain ownership of their plans by having a clear understanding of standards based instruction and what it looks like

Person Responsible

Heidi Morgan

Schedule

Monthly, from 8/31/2015 to 6/6/2016

Evidence of Completion

Teacher talks monthly; Coach talks monthly regarding planning sessions; teacher to teacher classroom modeling and observations

Plan to Monitor Effectiveness of Implementation of G1.B3.S3 7

During collaborative planning discussions; Classroom Walk-through's and observing model teachers

Person Responsible

Heidi Morgan

Schedule

On 6/1/2016

Evidence of Completion

Planning notes, lesson plans and classroom walk-through documentation

Plan to Monitor Effectiveness of Implementation of G1.B3.S3 7

Review of data and reflection on instruction model; revise to ensure fidelity

Person Responsible

Heidi Morgan

Schedule

Every 3 Weeks, from 9/15/2015 to 6/1/2016

Evidence of Completion

Progress monitoring/Module assessments will indicate the effectiveness of the 5E instructional model

Appendix 1: Implementation Timeline

Action steps and monitoring activities identified in the SIP as necessary to achieve the school's goals.
