Note: The school grades calculation was revised substantially for the 2014-15 school year to implement statutory changes made by the 2014 Legislature and incorporate the new Florida Standards Assessments. The 2014-15 school grades serve as informational baseline data that schools can use to improve in future years.

School Board Approval

This plan is pending approval by the Lee County School Board.

SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F or a monitoring status of "Former F" (see page 4). For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the Florida Department of Education's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

At the start of each academic year, traditional schools are classified for DA support in three categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- Not in DA – currently A, B, or C and not Monitoring Only; charter schools; ungraded schools
- Monitoring Only – currently A, B, or C that improved from a previous grade of F
- Focus – currently D
- Priority – currently F

DA Turnaround and Monitoring Statuses

Additionally, schools in DA may be subject to a turnaround status of "Planning" or "Implementing" or a monitoring status of "Former F." These statuses are based on a school's grades history, including the current school grade:

- Former F - A school with a status of "Former F" requires the department to monitor the implementation of strategies and progress toward the goals outlined in the school improvement plan for three years following the school's improvement from a grade of F to a C or higher.
- Planning - A school with a status of "Planning" requires the district to engage stakeholders in the development of a turnaround option plan to be implemented in the following year should the school grade not improve to a C or higher.
- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

2016-17 DA Category and Statuses for Diplomat Elementary School

I. Part I: Current School Status

A. Supportive Environment

1. School Mission and Vision

a. Provide the school's mission statement.

Diplomat Elementary students will become dedicated and responsible learners, and respectful and compassionate individuals.

b. Provide the school's vision statement.

To be a Quality School with high expectations of learning for all.

2. School Environment

a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

Diplomat Elementary has been a part of the NEAF Quality Schools Grant. As a Quality School we implement a program of core beliefs, survival, fun, power, freedom and belonging, to build relationships between teachers and students. Before the school year begins, class lists are checked to ensure diversity within each classroom, which allows students and teachers to build relationships from a variety of cultural backgrounds. During the school year, classrooms engage in a variety of activities that create a feeling of belonging, the freedom of choice, and self-empowerment.

At Diplomat Elementary we also build relationships through special events held annually such as: Parent Conference Nights in October, Student-Led Conferences in March, Family Movie Nights (Flick on the Field), Community Education Nights (PTO), and other events that bring parents and families together with the staff.

b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

Diplomat creates a safe environment for students by establishing school and classroom rules. Rules are taught and enforced through praise and reward, and through consistent consequences when rules are broken.

School Rules include:

- * Be respectful
- * Be Courteous
- * Keep hands and feet to yourself
- * When moving about the campus – walk, keep voices down, be safe

These rules are reviewed on the news show and enforced by all.

Diplomat Elementary has a safety team which reviews school and district processes and outlines procedures for a safe school.

Teachers use consistent classroom management procedures to ensure that students feel safe and respected. These procedures are established the first week of school and the creation of a class mission statement develops a feeling of accountability in each student.

There are also several ways students' positive behaviors are recognized, both within the classroom and school-wide. Students are identified for outstanding behavior by any staff member throughout the year and are recognized for that behavior with a principal party at the end of each quarter. Diplomat recognizes academic and classroom achievements with an awards ceremony at the end of the year.

Parents are invited to attend and all students in primary grades are recognized. When behaviors do require interventions, a hierarchy of consequences is followed.

c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.

Diplomat Elementary has a behavior plan which is shared with teachers in preschool, is in the teacher handbook, and is presented to students in the classroom. The behavior plan recognizes and rewards positive behavior and establishes clear and consistent consequences for negative or unsafe behaviors. Clear behavioral expectations are also reinforced by administrators on the School News Show and are reflected in classroom rules.

School wide rules are based on the need for safety and respect for others.

d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

Each year the school implements a program that supports character education and developmental growth. This program reinforces and rewards acts of kindness. Additionally, any student who exhibits a radical change in behavior or who tells a teacher that they are struggling with their emotions is referred to the school counselor.

The school counselor has a "lunch bunch" counseling group for children whose emotional difficulties are affecting work in the classroom or threatening their well being. Once a week the group has lunch with the school counselor, as they build connections with one another, and work to build emotional competence.

In addition, the counselor teaches the importance of character education through class instruction by focusing on personal, emotional and developmental growth.

The school counselor also works closely with other local agencies coordinating services and making referrals as needed.

B. Family and Community Engagement

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(B)(iii)(I)(aa).

1. Describe how the school works at building positive relationships with families to increase involvement, including efforts to communicate the school's mission and vision, and keep parents informed of their child's progress.

Title I schools use the Parent Involvement Plan (PIP) to meet the requirements of 20 U.S.C. Â§ 6314(b)(1)(F).

a. Will the school use its PIP to satisfy this question?

No

1. PIP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

2. Description

Diplomat builds positive relationships with families in several ways. Open house, curriculum night, Flick on the Field, family fun night, and student- led conferences are all events to help parents get involved in the school culture.

All stakeholders are involved in creating the school's mission and vision statements, which are communicated by posting on the school website and shown every morning on the school news. SAC

meetings are open for all parents and community members to attend, and are advertised to all families. The school also has a Parent/Teacher Organization, (PTO) that meets to plan school events and provide a forum for parent concerns.

Parents and families are informed of their child's progress using Parentlink, interim reports, report cards and conferences in person or by phone at least two times a year. Student-led conferences enable students to communicate their learning and successes to parents.

2. Describe the process by which the school builds and sustains partnerships with the local community for the purpose of securing and utilizing resources to support the school and student achievement.

Diplomat partners with local businesses and community organizations to secure and utilize resources to support the school and student's achievement. Diplomat participates in family nights at local restaurants and receives a part of the proceeds from the businesses. Diplomat works with local businesses and community organizations to supply families with support when they are in need. These partnerships enable students to focus on achievement rather than their basic needs.

C. Effective Leadership

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(H).

1. School Leadership Team

a. Membership

Identify the name, email address and position title for each member of the school leadership team.:

Name	Title
Vertrees, Mara	Principal
Wilcken, Jennifer	Assistant Principal
Marody, Rosalie	Instructional Coach
Nero, Matthew	Other
Durst, Heidi	School Counselor
Walworth, Debbie	Instructional Coach
Chilson, Nica	Teacher, ESE
Edwards, Jenny	Teacher, K-12
Pace, Joseph	Teacher, ESE

b. Duties

1. Describe the roles and responsibilities of the members, including how they serve as instructional leaders and practice shared decision making.

Principal/Assistant Principal

- Interact with parent/community groups sharing concerns with leadership
- Provide or coordinate continuous professional development
- Monitor Student Achievement Data
- Share recent research, and District and State initiatives
- Plan for implementation of curricular, and extra curricular activities to support the needs of students

Instructional Coach

- Plan for student interventions
- Train teachers in interventions, progress monitoring, differentiated instruction

- Implement Tier 3 supplemental and intensive interventions
- Keep progress monitoring notes & anecdotes of interventions implemented
- Collect school-wide data for team to use in determining at-risk student

School Counselor

- Leads initiatives to prevent bullying and in Character Education
- Shares information on interventions for students, and mandated reporter rules and requirements
- Works with diverse student needs including 504, Gifted Assessment Team Chair, and student with emotional needs.

ESE Teacher/Staffing Specialist

- Share student progress data with group.
- Lead training on interventions.

Specialist (Intervention, Behavior, OT, PT, ASD)

- Provide intervention for struggling students including MTSS
- Share information on individual student needs and concerns
- Provide staff trainings

ESOL/ELL Representative

- Share with leadership status of ELL students and needs for student success
 - Training for staff on monitoring, grading, communication and other requirements for ELL students
- Monitor and share new research, initiatives and regulations.

2. Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

School Leadership begins with a review of State Standards and the District Academic plan, using both to secure resources and training for teachers and staff to ensure consistent and aligned learning opportunities for all students. A review of student numbers and achievement level of students guides administration in the allocation of DRA to staff the school. The Leadership of the school also works with grade levels to determine supplemental materials to meet the needs of students for educational support or enrichment.

The school uses progress monitoring data to identify struggling students who are consistently scoring below grade level or below peers in the core academics. Students deemed at risk are monitored and provided Tier 1 classroom interventions. If students continue to struggle, the teacher completes the Comprehensive Review Form and brings the student forward to the MTSS team. The team includes classroom teachers and curriculum specialists all who have been trained in MTSS and in strategic interventions. Team decisions and suggestions are data based and support the student in Tier 2 with research-based strategies and interventions, screenings, and request for parental involvement. School funds provide for resource teachers to work with classroom teachers to provide Tier 3 interventions and student progress monitoring.

At Diplomat Elementary, federal, state and local funds will be used to support the SIP goals for student learning. These funds will support professional development which impacts literacy and math in the common core state standards and on specific interventions for students. SAI funds support the presence of a Intervention Specialist who facilitates MTSS and provides specific interventions for students struggling academically. Title II funds will be used to support professional development in

the areas outlined in the SIP. Funds from SIP and the Fee-Based after school program will be used to support after school tutoring for students who are struggling in Mathematics and Reading.

2. School Advisory Council (SAC)

a. Membership

Identify the name and stakeholder group for each member of the SAC.:

Name	Stakeholder Group
Rody Guzman	Education Support Employee
Dawn Wernsing	Parent
Martha Talcovitz	Education Support Employee
Michael Boddy	Teacher
Cindy Gallagher	Parent
Anabelle Elliott	Business/Community
Tiffany Lamance	Parent
Ashley Henderson	Parent
Jessica Bazan	Teacher
Jessica Doan	Parent
Kerri Sears	Business/Community
Alecia Roy	Parent
Mara Vertrees	Principal

b. Duties

1. Provide a description of the SAC's involvement with the following activities, as required by section 1001.452(2), Florida Statutes

a. Evaluation of last year's school improvement plan

The principal presented the data from last year's school improvement plan at the initial SAC meeting. SAC members discussed successes and challenges as well as methods to increase student achievement.

b. Development of this school improvement plan

The SIP was developed by the School Leadership Team with input from parents with regard to interventions for struggling students, academic plans to promote learning gains for all students, and school safety. The school safety committee was also consulted on their perceived needs for the school and student safety. The Plan and the supporting data was then presented to the full SAC for discussion and input and approval before submitting.

c. Preparation of the school's annual budget and plan

The principal presented a budget plan that was reviewed and approved at the spring SAC meeting.

2. Describe the use of school improvement funds allocated last year, including the amount budgeted for each project.

School Improvement funds will primarily be used for classroom instructional materials and substitutes for the classroom. The District Academic Plan which is aligned to the Florida Standards requires complex texts and the integration of Social Studies and Science in all grades and instruction in

cursive. Supplies funds will be used on materials to support this work. Additionally, money will be used for substitutes to allow for professional development through model classrooms in Quality processes, classroom interventions and for training in implementing the Multi-tiered Systems of Support (RTI) processes.

3. Verify that the school is in compliance with section 1001.452, Florida Statutes, regarding the establishment requirements and duties of the SAC.

Yes

a. If the school is not in compliance, describe the measures being implemented to meet SAC requirements.

3. Literacy Leadership Team (LLT)

a. Membership

Identify the name and position title for each member of the school-based LLT or similar group, if applicable.:

Name	Title
Edwards, Jenny	Teacher, K-12
Hurrell, Julie	Teacher, K-12
Walworth, Debbie	Instructional Coach
Welling, Kali	Teacher, K-12
Turner, Kristen	Teacher, K-12
Miller, Norah	Teacher, K-12
Rogaliner, Bailey	Teacher, K-12
Tejeda, Amy	Teacher, K-12
Vertrees, Mara	Principal
Wilcken, Jennifer	Assistant Principal
Ziruolo, Debbie	Teacher, K-12

b. Duties

1. Describe how the LLT or similar group promotes literacy within the school, if applicable.

The LLT meets monthly to review student data, discuss literacy updates from the district . This group is facilitated by administration and will address the implementation of Florida Standards. Members will determine school development needs. The team will bring information back to their grade level through the PLC. Teachers will work in collaborative teams to build their skills and develop lessons that will positively impact student learning. The LLT will focus on professional development that will lead to teacher efficacy in instruction and assessment of student writing based on literary content or on non-fiction sources.

D. Public and Collaborative Teaching

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(D).

1. Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction.

Professional Learning Communities (PLC) allow teachers to work together to analyze data and plan for intervention techniques. In addition, teachers have common planning time to collaborate for lesson

planning and instruction. Grade level teachers are also physically grouped in close proximity to promote collaborative, positive planning.

2. Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school.

Diplomat Elementary will use the following strategies to recruit highly qualified personnel: work with local universities to place interns in our school; use the district human resources process to advertise, screen and hire personnel; participate in district job fairs and other recruitment activities.

The school orientation program pairs all teachers new to the school with mentor teachers, sponsors training events for new teachers, and supports the district induction and orientation program A.P.P.L.E.S. These teachers meet monthly or more as needed to support and encourage teacher retention. Persons responsible for the recruitment and retention activities are the Principal and Assistant Principal.

3. Describe the school's teacher mentoring program, including the rationale for pairings and planned mentoring activities.

Pairings of new teacher and mentors are based on proximity and grade level. New teacher orientation includes meetings with peer, mentor teacher, and administrator. Administrator meets with peer and mentor teacher bi-monthly. Peer teachers and A.P.P.L.E.S. teachers meet weekly. Any teacher new to Diplomat is assigned a peer teacher, regardless of years of experience. This gives the new-to-Diplomat teacher one person to go to for questions. We also offer new to Diplomat teacher the opportunity to observe other teachers in action, regardless of the years of experience, so that they can see how classrooms operate.

E. Ambitious Instruction and Learning

1. Instructional Programs and Strategies

a. Instructional Programs

1. Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards.

At Diplomat, each grade level selected representatives to create an instructional plan to ensure the core instructional programs and materials are aligned to the Florida Standards. These representatives used the Lee County School District Academic Plan, The Florida Standards, and district adopted material to create a grade level academic plan. Through individual and collaborative planning, teachers use backwards design and standards tracking to ensure standards are being met through the use of adopted materials and programs. Common planning times encourage grade level collaborative planning and implementation of the core instructional programs. Grade level instructional plans have been reviewed by administration and the reading specialist for fidelity to Florida Standards.

b. Instructional Strategies

1. Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments.

Diplomat is in it's third year as a Quality school. Each classroom uses data walls to monitor academic progress, as well as data binders for each child to monitor individual academic progress. During PLC meetings, teachers share and analyze data to plan instruction to help meet each student's needs. Teachers will use an intervention time - PASS (Promoting Academic Success for Students) time - to

implement the instructional plan, driven by the data presented/discussed at PLC meetings to differentiate instruction. Students in the MTSS process receive targeted instruction based on their needs identified by the classroom teacher and agreed upon by the MTSS team and the parent. In addition, professional development opportunities promote use of Kagan, thinking maps, and other methodology for differentiation.

2. Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:

Strategy: Extended School Day

Minutes added to school year: 1,160

Free afterschool tutoring will be offered to students struggling in mathematics. Tutoring will be offered two days a week for one hour with instruction provided by certified personnel.

Strategy Rationale

Students will achieve higher academic success through the increased instruction in basic mathematics skills.

Strategy Purpose(s)

- Core Academic Instruction

Person(s) responsible for monitoring implementation of the strategy

Wilcken, Jennifer, jenniferkw@leeschools.net

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

Student scores in STAR Math as well as classroom assessments will be monitored quarterly to determine student needs and to assess the effectiveness of the afterschool instruction.

Strategy: Before School Program

Minutes added to school year: 300

Kagan Instructional Strategies

Strategy Rationale

Cooperative learning promotes student engagement and increase academic achievement when used effectively.

Strategy Purpose(s)

- Teacher collaboration, planning and professional development

Person(s) responsible for monitoring implementation of the strategy

Wilcken, Jennifer, jenniferkw@leeschools.net

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

Lesson Plans, team meeting minutes and walkthroughs will determine use and effectiveness of strategies.

Strategy: After School Program

Minutes added to school year: 580

Free after school tutoring will be offered to students struggling in reading. Tutoring will be offered one day a week for one hour with instruction provided by certified personnel.

Strategy Rationale

Students will achieve higher academic success through the increased instruction in reading and vocabulary.

Strategy Purpose(s)

- Core Academic Instruction

Person(s) responsible for monitoring implementation of the strategy

Vertrees, Mara, marakv@leeschools.net

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

STAR Reading progress monitoring will be used to review the effectiveness of the program.

Strategy: Before School Program

Minutes added to school year: 580

Math Superstars identifies students with strong math skills and coaches them to extend their knowledge and abilities.

Strategy Rationale

Proficient students who have a love of math should be encouraged to reach even higher and given an opportunity to work above grade level.

2. Student Transition and Readiness

a. PreK-12 Transition

The school's response to this question may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(G).

1. Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

Kindergarten orientation programs are held each spring. Orientation assists families and students with transition by introducing the families to the school and the school culture. Parents are able to

speak with Kindergarten teachers and receive information about dress code, supplies and other basic school procedures.

Open House, which is held the week before school begins, further acquaints parents and children, of all grade levels with the school and allows them to meet their teachers before the first day of school.

Students previously identified as in need of ESE services are appropriately scheduled and IEPs are reviewed by staff and school/parent meetings held.

Fifth grade classes are departmentalized by reading/social studies and math/science to acquaint students with the practice of changing classroom and multiple teachers. Families of outgoing fifth graders are encouraged to attend open houses at middle schools of their choosing.

b. College and Career Readiness

1. Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

2. Identify the career and technical education programs available to students and industry certifications that may be earned through those respective programs.

3. Describe efforts the school has taken to integrate career and technical education with academic courses (e.g., industrial biotechnology) to support student achievement.

4. Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the [High School Feedback Report](#), as required by section 1008.37(4), Florida Statutes.

II. Needs Assessment

The school's completion of this section may satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(A).

A. Problem Identification

1. Data to Support Problem Identification

b. Data Uploads

Data uploads are not required by the Florida Department of Education but are offered as a tool for the needs assessment. In this section, the school may upload files of locally available data charts and graphs being used as evidence of need.

The following documents were submitted as evidence for this section:

No files were uploaded

2. Problem Identification Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the points of strength and areas of need that have been identified in the data.

B. Problem Analysis Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the underlying "why" or root causes for the areas of need identified in the data, as determined by situational awareness of, and research conducted by, the stakeholders involved in the needs assessment.

C. Strategic Goals

School Improvement Goals

The following key is intended to help readers understand how the sections of this document correspond to the steps of the 8-step planning and problem-solving framework used in the School Improvement Plan. The Quick Key numbers can help registered users go directly to the point of entry for any given goal, barrier and strategy within the online survey.
