The 2014-15 school grades serve as informational baseline data that schools can use to improve in future years.

School Board Approval

This plan is pending approval by the Escambia County School Board.

SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F or a monitoring status of "Former F" (see page 4). For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the Florida Department of Education's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

At the start of each academic year, traditional schools are classified for DA support in three categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- Not in DA – currently A, B, or C and not Monitoring Only; charter schools; ungraded schools
- Monitoring Only – currently A, B, or C that improved from a previous grade of F
- Focus – currently D
- Priority – currently F

DA Turnaround and Monitoring Statuses

Additionally, schools in DA may be subject to a turnaround status of "Planning" or "Implementing" or a monitoring status of "Former F." These statuses are based on a school's grades history, including the current school grade:

- Former F - A school with a status of "Former F" requires the department to monitor the implementation of strategies and progress toward the goals outlined in the school improvement plan for three years following the school's improvement from a grade of F to a C or higher.
- Planning - A school with a status of "Planning" requires the district to engage stakeholders in the development of a turnaround option plan to be implemented in the following year should the school grade not improve to a C or higher.
- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

Title I, Part A: Services and monies (total allocations: \$177,776) are provided to ensure students requiring additional remediation. The district coordinates with Title II, Title III, in ensuring staff development needs are provided. School allocation is spent for part time technology coordinator, technology and staff development materials.

Title I, Part C: Services for migrant children are provided by the district level Title 1 office. After thorough checking of the Migrant Student Information Exchange system and our local Student Data Base, we have determined that there are 4 migrant students at Pleasant Grove Elementary School.

Title I, Part D: Services to neglected and delinquent students are provided by various district-operated programs. These services are overseen by the Title I office. Our school does not serve Title I, Part D students.

Title II: Professional development is offered at both the school and district levels. Please see the Problem Solving section under Expected Improvements for specific professional development activities (in-service education).

Title III: Services for English Language Learners (ELL) are provided as required by law. Several ESOL centers are provided at various key locations in the district. Students who do not attend centrally located school-based sites attend their zoned school where ESOL endorsed teachers provide services. All teachers who serve ELL identified students have ESOL endorsement on their teaching certificate. Our school is not an ESOL center, however, we serve 4 ELL students.

D. Public and Collaborative Teaching

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(D).

1. Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction.

Each grade level is provided a common planning daily. This allows time for teachers to discuss effective teaching strategies and data mining. The administrative staff meets monthly with each grade level to review data and teaching strategies and needs. Teachers are also encouraged to observe other teachers during their planning to receive ideas of effective teaching. The admin may schedule these observations or teachers may do so.

2. Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school.

New teachers meet regularly with Principal. New teachers are partnered with veteran teachers/staff to assist through the year. Experienced teachers are hired by Principal and Assistant Principal prior to the start of school. Administration ensures teachers hired are certified in area in which they are to teach. For 1st year teachers, Escambia County School District has a START Mentoring program in which teachers are assigned certified mentors to assist and evaluate their first years.

3. Describe the school's teacher mentoring program, including the rationale for pairings and planned mentoring activities.

A new teacher to the school will receive a mentor based on grade level. If a Special Area teacher is hired, then another Special Area teacher is assigned as a mentor. These mentors help new teachers become familiar with policies and practices at school. New 1st year teachers are assigned a START mentor by the district.

E. Ambitious Instruction and Learning

1. Instructional Programs and Strategies

a. Instructional Programs

1. Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards.

The Escambia School District follows and teaches the Florida Standards to students. Curriculum purchased is aligned to these standards. Pacing guides are established for teachers to ensure that standards are taught during the school year.

b. Instructional Strategies

1. Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments.

Discovery Ed is administered three/four times a year. After each assessment, teachers and admin review data. With DE, teachers are able to drill down to specific benchmarks/standards not mastered and can differentiate their instruction to match these needs. With progress monitoring, teachers create ability groups in order to meet individual needs of students during small group instruction.

2. Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:

Strategy: After School Program

Minutes added to school year: 384,000

Students attending the Military after-school program will participate in STEM activities focusing on Math and Science. Each group will rotate through four sessions weekly addressing Math, Science, and technology.

Strategy Rationale

By offering this enrichment time for students in grades 3-5, student learning gains and proficiency levels will increase from the previous year.

2. Student Transition and Readiness

a. PreK-12 Transition

The school's response to this question may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(G).

1. Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

Pleasant Grove does not have a Title 1 Pre-K Program. Voluntary Pre-K students in Escambia County are served by private providers through the Escambia County Readiness Coalition and the Escambia County School District at selected locations.

Children that are enrolled in local preschools, such as Head Start, are given the opportunity to come and visit our kindergarten classrooms. Our Kindergarten teachers take their own time prior to school starting to screen the new students entering kindergarten. This is a time when the child can get to know the teacher, see the classroom, and become familiar with their surroundings. Parents appreciate the opportunity to visit the school, meet the teacher, and find out needed information. The children are noticeably more comfortable the first day of school and seem to take on all the changes with ease.

Flyers are sent out in the Spring to assist parents in preparing their child for Kindergarten.

Many of our Kindergarten students this year have not had Pre-K experiences. This means that our Kindergarten teachers have to back up their curriculum to meet the needs of these students coming in to our Kindergarten classrooms. Our teachers do an outstanding job of transitioning preschool children into our public education system.

b. College and Career Readiness

1. Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

Not applicable

2. Identify the career and technical education programs available to students and industry certifications that may be earned through those respective programs.

Not applicable

3. Describe efforts the school has taken to integrate career and technical education with academic courses (e.g., industrial biotechnology) to support student achievement.

Not applicable

4. Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the [High School Feedback Report](#), as required by section 1008.37(4), Florida Statutes.

Not applicable
