### School Board Approval

This plan is pending approval by the Polk County School Board.

### SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F or a monitoring status of "Former F" (see page 4). For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the Florida Department of Education's school improvement planning web application located at <https://www.floridacims.org>.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

### Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

### Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

### Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

### Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

## Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

### DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

### DA Categories

At the start of each academic year, traditional schools are classified for DA support in three categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- Not in DA – currently A, B, or C and not Monitoring Only; charter schools; ungraded schools
- Monitoring Only – currently A, B, or C that improved from a previous grade of F
- Focus – currently D
- Priority – currently F

### DA Turnaround and Monitoring Statuses

Additionally, schools in DA may be subject to a turnaround status of "Planning" or "Implementing" or a monitoring status of "Former F." These statuses are based on a school's grades history, including the current school grade:

- Former F - A school with a status of "Former F" requires the department to monitor the implementation of strategies and progress toward the goals outlined in the school improvement plan for three years following the school's improvement from a grade of F to a C or higher.
- Planning - A school with a status of "Planning" requires the district to engage stakeholders in the development of a turnaround option plan to be implemented in the following year should the school grade not improve to a C or higher.
- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

## I. Part I: Current School Status

### A. Supportive Environment

#### 1. School Mission and Vision

##### a. Provide the school's mission statement.

Cultivating a legacy of lifelong learners

##### b. Provide the school's vision statement.

Kathleen High School is committed to cultivating a legacy of lifelong learners by providing the knowledge and skills needed to be successful, productive citizens. Our students, staff, parents, and community will work together as a family to instill a sense of P.R.I.D.E. in who we are, where we are, and what we are to become.

#### 2. School Environment

##### a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

The school organizes professional development opportunities for teachers and other staff members that focuses on building and cultivating positive relationships with students. Teachers are encouraged to get to know their students - culture, background, learning style, likes and dislikes, etc. School leaders and support staff make student relationships a priority by maintaining high visibility throughout the school day and interacting with students in a positive and supportive way. Various cultures are celebrated throughout the school year with school-wide events and initiatives (e.g. Hispanic Heritage, Black History, etc.). The school also promotes clubs and organizations that are accessible to students of various backgrounds.

##### b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

The school has established a set of expectations entitled PRIDE (Preparedness, Respect, Integrity, Dependability, and Engagement). Through character lessons and daily interactions, the school instills these character traits within the student body. During times when students are out of classrooms, all available staff members are in the hallways monitoring student movement and behavior. This includes all classroom teachers who are expected to be at their doorways greeting their students and monitoring behavior in the public areas. The high visibility of the school's adults create a safe and secure environment. The Principal and/or one of the Assistant Principals makes daily announcements to the student body about expectations for behavior and respect as well as regular communications (email/phone messages) to parents.

##### c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.

All staff are trained at the beginning of the year on behavioral protocols and throughout the year as needed. For each behavioral infraction, there is a progressive discipline that is established. All personnel responsible for handling behavioral issues use the same procedures for imposing consequences so that students are always dealt with fairly and consistently. Teachers are trained on the difference between classroom-managed and office-managed behaviors. For office-managed behaviors, a discipline referral is needed so that information is accurate and firsthand. For students

who are disruptive, teachers call the office to have the student removed from the learning environment so that instructional time is not lost and students can remain engaged. The Principal and Discipline Team meet with the student body by grade level at the beginning of the year and again at the beginning of second semester to review all expectations.

**d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.**

School leadership and guidance provide students with counseling, mentoring, and other opportunities to express themselves so that their social-emotional well being remains intact and healthy.

### 3. Early Warning Systems

School leaders and guidance personnel have 24 access to the EWS for our student population. This information is stored in a digital format online on a secure platform and is updated weekly. Key personnel are responsible for monitoring the list of students who meet one or more of the criteria. After students have been identified, a problem-solving team intervenes to decide upon an appropriate course of action to ensure the students stay on track. Indicators include: grade point average below a 2.0 for the semester, progress of credits earned, attendance below 90%, OSS, more than 2 course failures for the semester, age, 1 or more failures in core courses.

**b. Provide the following data related to the school's early warning system**

**1. The number of students by grade level that exhibit each early warning indicator:**

**c. Describe all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system.**

The guidance department develops an individualized graduation plan for each student. Each counselor, divided by grade level, reviews their student's academic standing each semester and makes adjustments to their individualized plan as needed. Additionally, the academic team reviews grades and progress reports throughout the semester. Counselors hold conferences with students to mentor and coach them if they are falling behind. Parent/teacher/student conferences are scheduled and held where plans are developed to provide additional support to students. Tutoring is available weekly for students. Summer school and other extended learning opportunities are offered to students to improve their academic standing as well. The school has the Success Team organization for students who are at-risk. The purpose of the organization is to provide intense mentoring and monitoring for students to keep them on track and is headed by our Success Coach, Jeffrey Williams. Community volunteer members engage in this process by offering additional tutoring and mentoring. Teachers notify parents and school leaders as soon as there is a sign that a student is slipping.

For example, all science teachers have 1st period planning, all social studies teachers have 2nd period planning, so on and so forth. The leadership team developed a coplanning guide to help guide the conversations that occur during the coplanning sessions. Coplanning is expected at least once per week for each core academic area and is facilitated by a leadership team member. All core teachers (and even elective teachers) participate in an in-depth professional learning community that focused on the Florida Standards. The PLC lasted several weeks and teachers collaborated across like disciplines with school leaders to develop a common understanding of the standards. Each week, teachers, instructional coaches, and school leaders collaborate during common planning time to develop standards-based lessons. Coaches and leaders attend these sessions to help guide the conversations and keep them grounded in the standards. The leadership team developed a co-planning guide that includes several prompts that help shape the conversation around the standards. Furthermore, all leaders are trained to look for evidence of standards-based instruction when performing classroom walk-throughs. Additional measures to ensure alignment

include the implementation of lesson study and group walk-throughs to evaluate the effectiveness of instructional programs (not individual teachers). At the conclusion of these types of walk-throughs, the "data collectors" collaborate with the teachers in a reflective conversation and develop an action plan to increase effectiveness for future standards-based lessons.

## **b. Instructional Strategies**

**1. Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments.**

Teachers are trained on how to use data to inform their instructional decisions. The school has a work day devoted to analyzing progress monitoring data. Teams of teachers work together to analyze the data, identify trends and potential problem areas as well as develop strategies to modify instruction. Through weekly coplanning, teachers share best practices as to how instruction can be differentiated to meet the needs of all learners. Teachers use small group instructions and rotations as well as provide texts/problems to students that are at the appropriate reading or skill level. Students with special needs are provided accommodations and/or modifications to the instruction per their respective IEPs or LEPs, both in the classroom and on high stakes assessments.

**2. Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:**

**Strategy:** Extended School Day

**Minutes added to school year:** 2,200

KHS offers before and after school tutoring sessions to students in Reading, Mathematics, and Science.
