

Alachua County Public Schools

Eastside High School

2016-17 Schoolwide Improvement Plan

Eastside High School

1201 SE 43RD ST, Gainesville, FL 32641

<https://www.sbac.edu/eastside>

School Demographics

School Type and Grades Served (per MSID File)	2015-16 Title I School	2015-16 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)
High School 9-12	No	51%
Primary Service Type (per MSID File)	Charter School	2018-19 Minority Rate (Reported as Non-white on Survey 2)
K-12 General Education	No	74%

School Grades History

Year	2015-16	2014-15	2013-14	2012-13
Grade	C	A*	A	

**Informational Baseline School Grade*

Note: The school grades calculation was revised substantially for the 2014-15 school year to implement statutory changes made by the 2014 Legislature and incorporate the new Florida Standards Assessments. The 2014-15 school grades serve as informational baseline data that schools can use to improve in future years.

School Board Approval

This plan was approved by the Alachua County School Board on 10/18/2016.

SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F or a monitoring status of "Former F" (see page 4). For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the Florida Department of Education's school improvement planning web application located at <https://www.floridacims.org>.

Table of Contents

Purpose and Outline of the SIP	4
Differentiated Accountability	5
Current School Status	6
Supportive Environment	6
Family and Community Engagement	9
Effective Leadership	11
Public and Collaborative Teaching	14
Ambitious Instruction and Learning	15
8-Step Planning and Problem Solving Implementation	22
Goals Summary	22
Goals Detail	22
Action Plan for Improvement	34
Appendix 1: Implementation Timeline	62
Appendix 2: Professional Development and Technical Assistance Outlines	65
Professional Development Opportunities	65
Technical Assistance Items	79
Appendix 3: Budget to Support Goals	79

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

At the start of each academic year, traditional schools are classified for DA support in three categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- Not in DA – currently A, B, or C and not Monitoring Only; charter schools; ungraded schools
- Monitoring Only – currently A, B, or C that improved from a previous grade of F
- Focus – currently D
- Priority – currently F

DA Turnaround and Monitoring Statuses

Additionally, schools in DA may be subject to a turnaround status of "Planning" or "Implementing" or a monitoring status of "Former F." These statuses are based on a school's grades history, including the current school grade:

- Former F - A school with a status of "Former F" requires the department to monitor the implementation of strategies and progress toward the goals outlined in the school improvement plan for three years following the school's improvement from a grade of F to a C or higher.
- Planning - A school with a status of "Planning" requires the district to engage stakeholders in the development of a turnaround option plan to be implemented in the following year should the school grade not improve to a C or higher.
- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

2016-17 DA Category and Statuses for Eastside High School

DA Region and RED	DA Category and Turnaround Status
Northeast - Cassandra Brusca	Not In DA - N/A

I. Part I: Current School Status

A. Supportive Environment

1. School Mission and Vision

a. Provide the school's mission statement.

Eastside High School strives to promote the balance and connectedness of practical skills, critical thinking, academic excellence, and ethical standards. The school will promote student achievement of short-term and long-term goals through specific programs including relevant technology training, vocational programs, rigorous academics and cultural awareness. To achieve these goals, each student must develop purposefulness, professionalism, and self-discipline.

We Are...

R-Respectful

A-Accountable

M-Motivated

b. Provide the school's vision statement.

Beliefs:

Eastside High School will provide a safe and organized learning and working environment.

Success is measured by more than grades, college acceptances, and future careers; we have a larger purpose.

Students and staff should pursue ethical interactions in the quest for knowledge.

2. School Environment

a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

Teachers and staff members seek opportunities to learn about their students and build relationships by engaging in discussions with students and supporting their interests. Book studies that raise cultural awareness of students will be conducted with faculty (The Motivated Student, Teaching with Poverty in Mind). Faculty and staff members also participate in home visits and mentor individual students. The principal has invited local church pastors to visit and participate in school events and become mentors to students. School staff members share information with local churches regarding upcoming events and important information that can be shared with their members. Some staff members attend the same churches as many of our students. Administrators and counselors visited a local housing community to meet with parents and partnered with the manager of the development to provide assistance to students. In addition, the 9th grade pre IB team hosts an annual International Day which enables students to share food, dance, and traditions from various cultures around the world, particularly those that reflect the cultural backgrounds of many of our students. Also, teachers and staff learn about students through informal discussions in classroom activities and on field trips and through mentoring. The principal surveys students as to the family backgrounds and has flags from countries that represent all the nationalities of students who attend EHS. There are also a number of student clubs that raise awareness of various cultures such as the Muslim Awareness Club, Indian Cultural Club, and the Hispanic and Filipino Club. These clubs will also be profiled on the morning news so the club members can reach a school wide audience and share information about themselves and their clubs' activities. An administrator and teachers have also attended training

offered by the UF Lastinger Center on how to reach African American male students and will share that information with the rest of the staff. Staff members also sponsor clubs and teams and learn about students through informal interactions. The staff will also engage in an activity using photographs to determine if there are any students who are not known well by at least one adult on this campus. Students show support of teachers during teacher appreciation week by writing notes, making signs, and giving out gifts. The Summer Bridge Program enables students and teachers to interact in a small group setting. Students and teachers engage in hands-on activities and team building and go on whole day field trips. They get to know each other through shared learning experiences.

b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

Eastside High School participates in PBIS, and students receive recognition and rewards for positive behaviors. To ensure student safety, an after school dean patrols campus, two full-time resource officers are assigned to the school, a full-time security guard monitors visitors to campus, and multiple cameras are deployed throughout campus to discourage theft and misbehavior. Student-produced public service announcements focus on anti-theft precautions. Students also enjoy gathering in the media center at lunch and before school to talk to their friends, play chess, do homework and work on projects. Administrators and counselors all have an open-door policy and will meet with students to hear about their needs and concerns. The guidance counselors provide grade level assemblies to address the general issues of bullying and dating violence to raise awareness of these issues. The administration and deans held grade level assemblies to discuss school policies and to promote the need to set goals and to work towards accomplishing those goals. To celebrate student successes, the administrators and counselors host honor roll ice cream parties, and departments select students of the month, whose photos and names are posted outside the main office. Students also participate in focus groups with the principal and respond to SAC surveys to air the concerns which are then addressed by school staff and the SAC. Administrators, deans, and school resource officers maintain a visible presence throughout the school on a daily basis. The principal will also meet regularly with the Student Advisory Council to get input from student representatives regarding students' needs and concerns.

c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.

Through the school-wide implementation of PBIS, students can earn "Ram Bucks" which students can use to enter into drawings for weekly prizes. Three full-time deans enforce school rules, and one dean works primarily with 9th graders to assist in the students' transition to high school. Posters throughout the school remind students of district dress code, and the district student code of conduct is the basis for disciplinary actions.

Referrals to guidance counselors or PALs can be made in lieu of discipline referrals, and teachers have received extensive training in high yield strategies to maintain student engagement in academic activities to prevent students from being off-task in the classroom. Implementation of block scheduling for 9th grade major program reduces the amount of time those students are changing classes. We will also reestablish the school discipline committee to review school policies and procedures and provide training for all teachers and staff on policies and implementation.

d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

Guidance counselors maintain an open-door policy so students may see any counselor if their assigned counselor is unavailable. PALs counselors are available and maintain an office at the school

site, and a school psychologist is on campus twice a week. Referrals to outside counseling services are utilized for individual and/or family counseling. Gotcha Back Mentoring Program is a school based program which recruits community members to act as mentors to students who are referred to the program by teachers, counselors, and administrators. The Backpack4Kids program provides students and their families with food and other items on a weekly basis, and counselors work closely with the district contact person for homeless services to provide additional support for those students. The Student Services Team, which consists of counselors, administrators, deans, school resource officers, school psychologist, and ESE staff meets twice a month to discuss students of concern and determine what services would be helpful for those students. Counselors have also established small support groups for students based on their needs (self-esteem, stress, anger management) A school psychologist is at EHS twice a week to provide more counseling and testing as needed. In addition, an additional guidance counselor has been added to the staff to act as a graduation counselor. This counselor provides additional support for at-risk seniors to ensure that they are offered every opportunity to graduate with their cohort. Also, students can participate in organized intramurals during their lunch periods. They can interact with students from all programs while being physically active.

3. Early Warning Systems

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(B)(ii)(III), (b)(1)(B)(iii)(I), and (b)(1)(I).

a. Describe the school's early warning system and provide a list of the early warning indicators used in the system.

Attendance below 90 percent, regardless of whether absence is excused or a result of out-of-school suspension

One or more suspensions, whether in school or out of school

Course failure in English Language Arts or mathematics

A Level 1 score on the statewide, standardized assessments in English Language Arts or mathematics

b. Provide the following data related to the school's early warning system

1. The number of students by grade level that exhibit each early warning indicator:

Indicator	Grade Level														Total
	K	1	2	3	4	5	6	7	8	9	10	11	12		
Attendance below 90 percent	0	0	0	0	0	0	0	0	0	30	28	38	39	135	
One or more suspensions	0	0	0	0	0	0	0	0	0	42	55	61	37	195	
Course failure in ELA or Math	0	0	0	0	0	0	0	0	0	46	59	49	52	206	
Level 1 on statewide assessment	0	0	0	0	0	0	0	0	0	104	130	79	41	354	
	0	0	0	0	0	0	0	0	0	0	0	0	0		

The number of students identified by the system as exhibiting two or more early warning indicators:

Indicator	Grade Level														Total
	K	1	2	3	4	5	6	7	8	9	10	11	12		
Students exhibiting two or more indicators	0	0	0	0	0	0	0	0	0	45	77	63	42	227	

c. Describe all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system.

1. Student services team meets twice a month to discuss students of concern. The team consists of administrators, guidance counselors, school psychologist, school resource officers, and ESE staff
2. EPT's are scheduled as soon as a student receives two discipline referrals or is identified as possibly failing a course
3. IEP and 504 accommodations are monitored and plans are updated as needed
4. Manifestations are held for any ESE student approaching 10 days of suspension
5. District truancy officer is contacted and makes home visits for students in 9th and 10th grade who are chronically absent
6. PALs counselors provide additional support and counseling for students who are recommended by guidance counselors
7. Food4Kids program-provides backpacks filled with food for needy students and their families on a weekly basis
8. After school tutoring is available to all students four days a week
9. Credit Retrieval program and Adult Education courses are available to all students who are credit deficient
10. Credit deficient students can transfer to Mycroschool or Siatech to regain credits and then return to Eastside
11. Teachers and staff members volunteer to mentor students one-on-one
12. Interdisciplinary teams meet monthly to discuss student issues
13. Teachers provide before school/after school and lunch time tutoring
14. Data chats among teachers and administrators include discussions regarding targeted students
15. Graduation counselor works with at-risk seniors to assist them in making up credits and passing required testing for graduation
16. On campus after school ACT/SAT Prep class provides targeted strategies to prepare students for the college entrance exams. Concordant scores may be used to meet graduation requirements.

B. Family and Community Engagement

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(B)(iii)(I)(aa).

1. Describe how the school works at building positive relationships with families to increase involvement, including efforts to communicate the school's mission and vision, and keep parents informed of their child's progress.

Title I schools use the Parent Involvement Plan (PIP) to meet the requirements of 20 U.S.C. Â§ 6314(b)(1)(F).

a. Will the school use its PIP to satisfy this question?

No

1. PIP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

2. Description

Eastside strives to increase parent involvement, targeting parents of major program students in particular. The PTA holds membership drives at Open House and 9th grade orientation. Administrators and counselors hold evening meetings to talk to parents about general information and graduation requirements. Counselors also hold evening meetings with parents of students who are at-risk of not graduating. Administrators and counselors visit local neighborhoods to meet with parents and students who might not have transportation to come to school. Eastside will also partner with feeder middle schools and elementary schools to include representatives from all grade levels in visits to local neighborhoods. Messages are sent out through a phone home and email system, and parent portal gives parents/guardians access to students' grades and attendance records. The school maintains a website which is updated on a daily basis, and each teacher and club sponsor has a website with information for students and parents. The School Advisory Council utilizes both an online and paper survey to get feedback from as many parents as possible. Parents and community

members are also invited to serve on the SAC and the Culinary Magnet Program Board, and the City of Gainesville established the Parent Emissaries program which trains parents to mentor other parents. The principal works with pastors in the Eastside Faith Based Community Network to reach out to their congregations so that students in their churches can be recognized for academic achievements, members will be encouraged to mentor students, pastors will make announcements regarding upcoming events and state test dates, parents will be encouraged to participate in their child's education, and congregations will be asked to help with donations and advocate for Eastside within the community. Parents are invited to College Goal Sunday as well as an evening time to fill out FAFSA with the help of guidance counselors and volunteers from UF.

-

2. Describe the process by which the school builds and sustains partnerships with the local community for the purpose of securing and utilizing resources to support the school and student achievement.

Business and community partners support the school by donating food and snacks for various occasions. Sonic also donates milk shakes for the teachers and staff each semester. In addition, teachers utilize Find It and Fund It, which allows people to contribute to teachers' online wish lists. Local businesses have also donated used furniture and computers, which were given to students. The city recreation department provided temporary bleachers for a home football game. Businesses that make donations to the school are able to display banners on campus in recognition of their support and their partnership with Eastside.

Our PTA is extremely involved in supporting the school staff by providing breakfasts for teachers and raising money to fund teacher classroom projects and for the renovation of the media center. They also invite guest speakers to discuss topics such as graduation requirements and the college application process. Parents are invited to College Goal Sunday as well as an evening time to fill out FAFSA with the help of guidance counselors and volunteers from UF.

Our culinary arts students are very involved with community based projects and provide meals and service to community based fund raising projects such as Noche de Gala. They also prepare and serve Thanksgiving meals for homeless shelters.

Our student clubs are involved with many community-based activities such as Relay for Life, Breast Cancer Awareness, and March of Dimes,

The EHS Alumni Association conducts an annual appeal and raises money for the school. The UF Medical School donated 60 Mac computers which we distributed to students. The principal has also established a relationship with the Eastside Faith Based Community Network, comprised of pastors and their congregations, to enlist their support for our school and our students.

Eastside also partners with UF and Santa Fe College who provide guest speakers and venues for field trips. SFC sponsors the PASS and CROP programs and they support Eastside's efforts to provide information about college through the Eastside School to College Pipeline program. Also, Eastside will explore the opportunity to get more students enrolled in an online course from SFC that will help prepare them for post-secondary education.

GRU has donated tablets to students who will attend college and provide parents with information regarding affordable internet rates.

GRU is exploring a partnership with Eastside High School (GRU Power Academy) to offer CTE programs leading to industry certification

C. Effective Leadership

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(H).

1. School Leadership Team

a. Membership

Identify the name, email address and position title for each member of the school leadership team.:

Name	Title
Andrew, Shane	Principal
Turnage, Adele	Assistant Principal
Brown, Lindsey	School Counselor
Edwards, Anntwanique	Assistant Principal
Minniefield, Pam	Teacher, ESE
DeNunzio, Billie	Teacher, Career/Technical
Olver, Melissa	Teacher, K-12
Williams, Leroy	Assistant Principal
Allen, Jon	Teacher, K-12
Auerbach, Meg	Teacher, K-12
Coleman-Hayes, Lizabeth	Teacher, K-12
Neslon, Juanita	Teacher, K-12
Demps, Darrius	Teacher, K-12

b. Duties

1. Describe the roles and responsibilities of the members, including how they serve as instructional leaders and practice shared decision making.

The RTI team will meet on a bi monthly basis to analyze data such as discipline referrals, grades, attendance, FCAT, FSA, FAIR, TABE scores, and grades of students. At the IT1 level, the teacher will meet with parents to discuss concerns and determine solutions and desired outcomes. At IT2, additional team members will determine what additional interventions are needed such as intensive classes. At IT3, the team may determine the need for additional services on the BIP or AIP such as extended time to complete assignments, pullout for small group instruction, use of Khan Academy, credit retrieval options, after school tutoring and/or, behavior counseling. At the TI4 level, students may need to be considered for ESE services such as special diploma options, resource or self-contained classes. The Rtl team seeks input from feeder schools and holds transition meetings for ESE students who are moving into the 9th grade.

2. Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

The Rtl/MTSS team consists of school based administrators, deans, guidance counselors, school nurse, school psychologist, team leaders, dept chairs and school resource officers. A school based Data Review Team collects and analyzes progress measures for all students beginning at Tier 1. The RTI/EPT designs

strategies and monitors individual progress for students in the higher risk populations

- Perkins Grant funds used to establish computer labs for computer education courses
- Culinary Arts magnet program funded through vocational money
- Federal, state and district funding is used to provide a variety of funding for ESE students
- Homeless students qualify to attend EHS through McKinney Vento
- SAI funding is used for additional staffing allocations not provided through district funds
- Principal and CTE district representative are exploring the possibility of adding another CTE program in partnership with GRU

2. School Advisory Council (SAC)

a. Membership

Identify the name and stakeholder group for each member of the SAC.:

Name	Stakeholder Group
Shane Andrew	Principal
Maria Zelaya	Teacher
Carol Faas	Teacher
Coral Antony	Teacher
Mike Griffis	Parent
Elizabeth Washington	Parent
Saundra Scrivener	Education Support Employee
Diane Payne	Education Support Employee
Chen Liu	Business/Community
Tarcha Rentz	Business/Community
Dr. Jeff Smith	Business/Community
Dejean Cain	Business/Community
Amanda Otto	Teacher
Lewis Rhodes	Parent
Teresa Strawder	Parent
Nike Akinyode	Teacher
Gretchen Von Mering	Parent
Zhihui Fang	Parent
Rev. Kevin Thorpe	Business/Community
Alisha Williams	Teacher
Praveen Pathak	Parent
Quinten Eyman	Parent
Gretchen von Mering	Parent
Josephine Brown	Education Support Employee
Norinda Yancey	Business/Community
Dr. Freeman Gallman	Business/Community
Amber Gillette	Student

b. Duties

1. Provide a description of the SAC's involvement with the following activities, as required by section 1001.452(2), Florida Statutes

a. Evaluation of last year's school improvement plan

The SAC reviews the previous year's SIP and discusses areas for improvement in light of test results, graduation data, and other data. Also, the SAC discusses new educational initiatives and state and federal guidelines that impact the school's stakeholders. The SAC aligns the SIP to meet all of the requirements for graduation, teacher certification, testing, attendance and discipline guidelines.

b. Development of this school improvement plan

The SAC reviews FCAT, EOC, IB and AP results as well as student data on discipline and attendance. The SAC also receives feedback from parents, students and staff through surveys. All of this information is used in developing the school improvement plan. The principal provides additional information regarding district, state and federal initiatives which impact our school. The SAC considers all of this data when making decisions and reviewing the SIP.

c. Preparation of the school's annual budget and plan

The principal reviews the budget and expenditures from the previous year and shares the projected budget for the current school year. The SAC reviews and prioritizes the school's needs and allocates funds and resources to meet those needs.

2. Describe the use of school improvement funds allocated last year, including the amount budgeted for each project.

1. Fund additional positions (dean, TOK, CAS, AP coordinator) \$81,000
2. College Application boot camp-help seniors fill out college applications \$120
3. Stipends for TOK trips- \$2500
4. Provide additional course sections in order to meet class size limits \$177,000
5. Provide paraprofessionals to support instruction in 10-12th grade intensive reading classes \$25000
6. Offer after school tutoring and have a para professional organize and maintain the program \$9000
7. Fund teacher mini grant proposals \$12000
8. Purchase textbooks for AP and IB courses \$30000
9. Parent Programs \$500
10. Major Program/IB community building \$1000
11. Positive Behavioral InterventionSupport \$500
12. Professional Development \$5000
13. AP and IB conferences/trainings \$4000
14. Provide funding for media center supplies \$500
15. Provide financial incentives for teachers who pursue an obtain the reading endorsement \$4500
16. Provide an after school dean to monitor the campus \$3000
17. Provide support for Robotics Program \$5000
18. Provide funding for media center renovations/furniture \$5000
19. Purchase new projector for auditorium \$4000

3. Verify that the school is in compliance with section 1001.452, Florida Statutes, regarding the establishment requirements and duties of the SAC.

Yes

a. If the school is not in compliance, describe the measures being implemented to meet SAC requirements.

3. Literacy Leadership Team (LLT)

a. Membership

Identify the name and position title for each member of the school-based LLT or similar group, if applicable.:

Name	Title
Andrew, Shane	Principal
Turnage, Adele	Assistant Principal
Brown, Lindsey	School Counselor
DeNunzio, Billie	Teacher, Career/Technical
Demps, Darrius	Teacher, K-12
Olver, Melissa	Teacher, K-12
Lacy, Amanda	Teacher, K-12
Vaknin, Amy	Teacher, K-12
Johnson, Kecia	Instructional Media
Auerbach, Meg	Teacher, K-12
Williams, Leroy	Assistant Principal
Minniefield, Pam	Teacher, ESE

b. Duties

1. Describe how the LLT or similar group promotes literacy within the school, if applicable.

1. All teachers will incorporate the literacy or math anchor standards as appropriate within their coursework and will develop a minimum of 6 FSA lesson plans. Teachers will collect data and monitor progress of their lowest performing students.
2. All teachers will incorporate writing assessments and use the FSA 10 point rubric to score student work
3. All teachers will participate in job-embedded PLC focusing on FSA standards
4. District based reading coach will provide support for the implementation of literacy strategies
5. Provide College Words of the Week on the school news on a daily basis
6. ACT/SAT Tutoring is offered after school and during lunch
7. ACT Prep and Khan Academy SAT review is incorporated into the 11th and 12th grade intensive reading class

D. Public and Collaborative Teaching

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(D).

1. Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction.

Eastside High School teachers will all participate in job- embedded professional learning communities. Departments and teams meet on a monthly basis, and IB teachers meet weekly during lunch. In addition, the leadership team comprised of department and team leaders meets on a monthly basis with the administration to discuss issues and problem-solve. Also, the leaders bring back topics to their departments and teams for further discussion. All staff members will participate in lesson study. Teachers will also have the opportunity to engage in instructional rounds and learn from each others' practices

2. Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school.

1. meet regularly with assigned administrator
2. interview process with team or department members
3. school based staff development
4. support of mentors/on site staff members
5. solicit input from current staff members
6. utilize district personnel office to locate highly qualified teachers
7. The principal and district superintendent for personnel worked together to develop a means for EHS to attract and hire minority teachers. The most significant element of this plan is to afford Eastside a preferential early hiring period beginning in the spring of 2014. Under this plan, the principal will be allotted two weeks to interview and make job offers to minority candidates before the regular interview and hiring period opens for the rest of the district. This will give preference to Eastside to identify and hire minority teachers without competition from other secondary schools in the district.
8. Other elements of the minority recruitment plan include networking through teacher alumni of HBCs such as Bethune-Cookman, FAMU, and Tennessee State University, networking with churches and other community organizations, targeting paraprofessionals who are employed with Alachua County Public Schools, screen and recruit substitute teachers interested in a teaching career, participate in all local recruitment fairs, Chamber of Commerce, and Florida Works, and network with Future Educators of America and PreCollegiate Club sponsors in local high schools.
9. Beginning teachers will have the opportunity to conduct classroom observations of other teachers on campus and discuss their observations with administrators and district mentor

3. Describe the school's teacher mentoring program, including the rationale for pairings and planned mentoring activities.

The district provides mentor teachers for all first year teachers. They have been trained to work with beginning teachers and visit the school on a weekly basis. The mentors observe the beginning teachers in their classes and provide support and assistance with instructional delivery and lesson plan development. The mentors also provide assistance in classroom management techniques. In addition, beginning teachers attend a variety of district-level workshops, and Eastside provides monthly training for new teachers in Florida standards. Department chairs serve as school-based mentors and provide assistance to new teachers in a variety of areas including sharing high yield strategies, offering teaching resources, helping with gradebook set up, and gathering of supplies.

The assistant principals have been trained in the Lastinger Coaching Model and will provide support for new teachers on an individual and voluntary basis.

E. Ambitious Instruction and Learning

1. Instructional Programs and Strategies

a. Instructional Programs

1. Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards.

1. Department chairpersons meet regularly with district supervisors to receive trainings/updates on Florida standards. Chairpersons meet with department members on a monthly basis to discuss curriculum alignment to the standards.
2. District personnel provide training for all teachers in their curriculum area.
3. District based literacy coach provides review, training and support for literacy standards embedded in all curriculum areas.
4. District personnel will provide training and support in areas such as technology, content-area literacy strategies, and differentiation
5. Textbooks are adopted according to state guidelines

6. Administrators review lesson plans and conduct classroom snapshots
7. Each department has written its own academic improvement plan which includes standards and assessments

b. Instructional Strategies

1. Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments.

1. Students in 9th grade major program who are level 1 or 2 on the FCAT receive 80 minutes of instruction daily in language arts and intensive reading.
2. Students in 10-12th grade who are level 1 or 2 on FCAT reading receive a 50 minute intensive reading class on a daily basis. In addition, para professionals are used to assist the reading teachers with pull-out instruction and small group remediation.
3. Students with Disabilities on standard diploma may be enrolled in a learning strategies class, and co-teaching is utilized in world history. Also, students will have the opportunity to take academic courses in classes with smaller enrollments.
4. Students with severe cognitive disabilities will use access points for modified instruction in their classes.
5. Students with IEP's and 504 plans receive accommodations
6. Summer review sessions are offered to students who need to retake the Alg I EOC
7. After school tutoring is available for all students in all subject areas
8. After school tutoring is available for the reading portion of the ACT
9. Teachers provide differentiation through instructional delivery, tasks/products, and learning environments

2. Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:

Strategy: Extended School Day

Minutes added to school year: 6,000

The after school program provides students the opportunity to work with peers and teachers in a variety of subject areas. They can receive homework help or use computers to work on projects or do research. Math teachers are available for tutoring before and after school and by appointment to provide specific assistance with math coursework. In addition, we offer specific remediation for students who have not passed the FSA ELA reading or the Alg I EOC. Students may also make up credits through Adult Ed or the Credit Retrieval Option Program.

Students may also attend a math only after school help session staffed by student volunteers. Students can be referred to the after school tutoring session or may self refer.

Experimental Science/Robotics and the media center workspace will provide opportunities for students to participate in hands-on STEAM activities to increase proficiencies in these areas.

Strategy Rationale

Students can receive more individual support in targeted areas of need. Also, students who have the opportunity to make up credits in a different setting are then able to graduate with their cohort.

Strategy Purpose(s)

- Core Academic Instruction

Person(s) responsible for monitoring implementation of the strategy

Edwards, Anntwanique, edwardad@gm.sbac.edu

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

Teachers review data from FCAT, Alg EOC, FSA's and student GPA's for the students who attend after school tutoring to determine if this intervention has been successful. Administrators and guidance counselors also monitor student credit hours to ensure that they are on track to graduate with 24 credits.

Strategy: After School Program

Minutes added to school year: 6,000

ACT and SAT Prep

Strategy Rationale

Students who receive the concordant scores on the ACT or SAT can use those scores to meet graduation requirements

Strategy Purpose(s)

- Enrichment

Person(s) responsible for monitoring implementation of the strategy

Edwards, Anntwanique, edwardad@gm.sbac.edu

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

ACT and SAT test scores, FSA ELA scores, FCAT reading scores

Strategy: Extended School Day

Minutes added to school year: 9,000

Enrichment opportunities are offered in zero period for students to take additional courses that could not fit their schedule on a six period day. These courses are
APMicroeconomics and Govt (AP course choices will rotate on a yearly basis)
Vocal Ensemble
Marching Band
Naval ROTC

Strategy Rationale

Students have added opportunities to enroll in classes that would not fit in their schedule. These are enrichment opportunities and do not replace core academic courses that students need to take during the school day.

By rotating AP courses, students will not miss the opportunity for any elective AP course.

Strategy Purpose(s)

- Enrichment

Person(s) responsible for monitoring implementation of the strategy

Turnage, Adele, turnagas@gm.sbac.edu

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

Attendance is taken daily

Grades are posted

Students can earn additional credits for zero period classes

2. Student Transition and Readiness

a. PreK-12 Transition

The school's response to this question may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(G).

1. Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

Incoming 9th graders:

1. The block schedule on the 9th grade allows students to earn 8 credits rather than 6, but students only have four classes at one time.
2. One building on campus is set aside primarily for use for 9th grade classes, and all 9th grade major program students have the same lunch period.
3. Summer bridge programs
4. Vertical planning with middle school teachers and among grade level teachers on school campus

Graduating Seniors

1. Counselors work closely with seniors to make sure they are on track to graduate
2. Counselors discuss post high school graduation plans with each senior
3. Seniors are provided transportation to and from visits to the local community college to learn about their options
4. College Application Boot Camp is offered in the summer to give seniors the opportunity to learn about financial aid and the college application process. English teachers and guidance counselors assist students with their college essays.
5. High school athletes are registered with NCAA to ensure that they are in compliance for athletic scholarships and eligibility
6. Teachers and staff mentor individual high school seniors who are credit deficient and/or have not passed all the required state tests
7. Eastside serves as a test site for the ACT and SAT to give students a comfortable environment for testing
8. Students are given career exploration opportunities throughout their high school career.
9. The guidance counselors help students register for financial aid and hold workshops for parents in the evenings and on a Sunday (College Goal Sunday).
10. Students can participate in PASS, CAP and College Reach Out Programs through SFC

b. College and Career Readiness

1. Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

Students entering the 12th grade were given the opportunity to attend a "College Application Boot Camp" Guest speakers provided information on how to get into selective colleges, and teachers and counselors worked with students on how to write a college essay, complete college applications and learn about financial aid. In addition, counselors meet with students at all grade levels to discuss course selection, high school planning and post high school opportunities. Counselors, teachers, and administrators provide guidance for individual students as they make course selections and actively recruit students for honors and AP courses. Representatives from various colleges, the local community college, and people from a variety of vocations come to school to provide information to students about their areas of expertise. Seniors are taken to the community college to learn about opportunities, and some students go on college tours arranged by the guidance department. The school will also provide a ACT review class on campus. The school has partnered with UF Gates Millenium scholars who will mentor current students who qualify to apply for the scholarship. Also, the UF Scholarship House is providing tutors and mentors to African American male students to encourage successful completion of high school and transition to college. Counselors visit students in every grade level and provide information on graduation requirements, testing, college awareness,

and career awareness. Various groups such as Diamonds, and "I Gotcha Back" take students on college visits, and the guidance department maintains a Career and College Resource Center in the media center. The guidance department also arranges for college representatives to visit campus, and SFC hosts a college expo. Also, juniors and seniors have the opportunity to dual enroll at Santa Fe College and the University of Florida.

2. Identify the career and technical education programs available to students and industry certifications that may be earned through those respective programs.

Students have the opportunity to take business education courses, art, ROTC, culinary arts, driver's education, and computer courses. Eastside has also increased course offerings in computer programming. Students will be able to earn industry certifications through the culinary arts and hospitality courses, digital information technology, and digital design. Students can also take courses at the AP level in computer science principles and computer science A. Students in culinary arts and computer programming will have the opportunity to participate in summer internships and can also earn industry certification through their coursework. Also, Eastside High school is exploring the possibility of offering additional career and technical education courses in conjunction with GRU. Students will also have the opportunity to participate in a robotics class and an after school robotics club.

3. Describe efforts the school has taken to integrate career and technical education with academic courses (e.g., industrial biotechnology) to support student achievement.

The Culinary Arts program incorporates math, writing, public speaking and literacy strategies within its curriculum. Real-world experiences allow students to apply what they learn in a variety of settings. Computer programing students also utilize their mathematical skills on a daily basis.

4. Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the [High School Feedback Report](#), as required by section 1008.37(4), Florida Statutes.

1. Enroll students in Math for College Readiness course
2. Enroll students in Eng 4: College Prep if they are not enrolled in Honors or AP English in their senior year
3. Increase enrollment in AP courses
4. Increase percentage of minority students who pass AP exams and earn college credit
5. Provide a block schedule for 9th grade major program students so they may earn additional credits prior to high school graduation
6. Provide free ACT review sessions on campus
7. Provide a summer program to assist students with the college application process
8. Provide tutoring and mentoring in conjunction with the UF Scholarship House
9. Partner with Santa Fe College to initiate the PASS program for college transition
10. Work closely with Santa Fe College counselors to monitor progress of dual enrollment students
11. Increase enrollment of underrepresented minorities in the IB program by actively recruiting from current students and middle school students
12. Give all 11th graders the opportunity to take the ACT during the school day
13. Provide PSAT to students in grades 9-11 to identify students who would be successful in AP courses
14. Enroll students in an online college study skills course through SFC

II. Needs Assessment

The school's completion of this section may satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(A).

A. Problem Identification

1. Data to Support Problem Identification

b. Data Uploads

Data uploads are not required by the Florida Department of Education but are offered as a tool for the needs assessment. In this section, the school may upload files of locally available data charts and graphs being used as evidence of need.

The following documents were submitted as evidence for this section:

No files were uploaded

2. Problem Identification Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the points of strength and areas of need that have been identified in the data.

B. Problem Analysis Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the underlying "why" or root causes for the areas of need identified in the data, as determined by situational awareness of, and research conducted by, the stakeholders involved in the needs assessment.

C. Strategic Goals

School Improvement Goals

The following key is intended to help readers understand how the sections of this document correspond to the steps of the 8-step planning and problem-solving framework used in the School Improvement Plan. The Quick Key numbers can help registered users go directly to the point of entry for any given goal, barrier and strategy within the online survey.

Problem Solving Key

G = Goal

B =
Barrier

S = Strategy

 = Problem Solving Step  S123456 = Quick Key

Strategic Goals Summary

- G1.** To increase enrollment in World Languages courses
- G2.** To consistently achieve AP passing rates of 60% or higher and strive to outperform the relevant AP national averages for that year's AP exams in social studies To align Eastside's AP social studies program and course offerings with the College Board's Equity and Access Policy Statement and to increase awareness of EHS's AP course offerings among prospective students
- G3.** To achieve a 100% graduation rate
- G4.** To increase percentage of students who pass the US History EOC
- G5.** To increase ELA and literacy proficiency among identified subgroups
- G6.** To increase percentage of students who pass the Alg I EOC, Geometry EOC, and Algebra II EOC EHS will have an Alg I FSA passing rate of at least 37%
- G7.** To increase student performance on the Biology EOC
- G8.** To increase the number of underrepresented minorities in AP STEM courses
- G9.** To increase number of industry certifications earned by students in CTE courses
- G10.** To decrease the number of students who receive disciplinary referrals
- G11.** To ensure that all students feel safe, appreciated and welcome at our school

Strategic Goals Detail

For each strategic goal, this section lists the associated targets (i.e., "SMART goals"), targeted barriers to achieving the goal, resources available to help reduce or eliminate the barriers, and the plan for monitoring progress toward the goal.

G1. To increase enrollment in World Languages courses 1a

G085134

Targets Supported 1b

Indicator	Annual Target
School Grade - Percentage of Points Earned	

Targeted Barriers to Achieving the Goal 3

- middle schools do not offer French so students do not often choose French to study in high school students who are level 1 or level 2 readers struggle with the study of a second language

Resources Available to Help Reduce or Eliminate the Barriers 2

- district level support middle school involvement high school world language teachers

Plan to Monitor Progress Toward G1. 8

High school teachers and district supervisor will meet with middle schools to reach out to students to encourage enrollment in French-both IB and MP

Person Responsible

Darius Demps

Schedule

Quarterly, from 9/2/2016 to 6/16/2017

Evidence of Completion

% of students who pass the the IB language B exams and the AP exams % of students who earn two years of credit in world language number of students who enroll in a third year of world language

G2. To consistently achieve AP passing rates of 60% or higher and strive to outperform the relevant AP national averages for that year's AP exams in social studies To align Eastside's AP social studies program and course offerings with the College Board's Equity and Access Policy Statement and to increase awareness of EHS's AP course offerings among prospective students **1a**

G085135

Targets Supported **1b**

Indicator	Annual Target
College Readiness Reading	60.0

Targeted Barriers to Achieving the Goal **3**

- Major program AP students and prospective students often face the following challenges: lack of understanding of AP program and its components, opportunities, benefits, and expectations low reading proficiency lack of confidence, motivation, and stamina when faced with rigorous academic course work behavior, attendance, and daily preparedness issues learned helplessness

Resources Available to Help Reduce or Eliminate the Barriers **2**

- AP course guides AP exam data AP released exams AP Practice Questions Professional Learning Communities Florida Partnership with College Board AP workshops AP reader trainings

Plan to Monitor Progress Toward G2. **8**

Formative assessments in AP courses
Lesson plans reflecting strategies/AP style questions
notes from department and PLC meetings

Person Responsible

Juanita Neslon

Schedule

Monthly, from 9/5/2016 to 6/2/2017

Evidence of Completion

AP results on score reports AP instructional planning reports attendance at workshops lesson plans

G3. To achieve a 100% graduation rate 1a

G085136

Targets Supported 1b

Indicator	Annual Target
4-Year Grad Rate (At-Risk)	100.0

Targeted Barriers to Achieving the Goal 3

- Seniors lack enough credits to graduate in 4 years Poor attendance among at-risk students At risk seniors have difficulty passing required state assessments At risk seniors have a higher incidence of discipline referrals resulting in in school and out of school suspension Students enter Eastside for the first time as seniors and not on track to graduate

Resources Available to Help Reduce or Eliminate the Barriers 2

- Additional guidance counselor hired to act as graduation coach After school tutoring in ACT and SAT prep Santa Fe College PASS and CROP faculty and staff mentors for at-risk seniors Khan Academy online resources block schedule for 9th graders provides additional credits eSchool labs and daytime credit retrieval program after school credit retrieval program funding from SAC for ACT registrations scholarship newsletters provide ACT and SAT at Eastside PALS Guidance interns provide additional support

Plan to Monitor Progress Toward G3. 8

Graduation rates for at risk seniors
GPA's
test scores
credits earned

Person Responsible

Shane Andrew

Schedule

Monthly, from 9/5/2016 to 6/5/2017

Evidence of Completion

Graduation rates for 2016 credits earned final withdrawal codes for seniors

G4. To increase percentage of students who pass the US History EOC 1a

G085137

Targets Supported 1b

Indicator	Annual Target
U.S. History EOC Pass	56.0

Targeted Barriers to Achieving the Goal 3

- Lack of foundational literacy skills (reading far below grade level) Vocabulary deficiency Lack of academic stamina, confidence, and motivation Limited access to technology at home Poor attendance Behavioral issues

Resources Available to Help Reduce or Eliminate the Barriers 2

- District pacing guide fsassessments.org AIMS textbook

Plan to Monitor Progress Toward G4. 8

AIMS will be used for progress monitoring
Monthly data chats regarding targeted students
Incorporation of higher order activities and assessments in grades 9 and 10 mirroring test specifications for US History as evidenced by lesson plans, assessments given
Teacher collaboration
US History PLC

Person Responsible

Juanita Neslon

Schedule

Monthly, from 9/5/2016 to 6/5/2017

Evidence of Completion

AIMS results Lesson plans Classroom snapshots PLC meetings/minutes

G5. To increase ELA and literacy proficiency among identified subgroups 1a

G085138

Targets Supported 1b

Indicator	Annual Target
AMO Reading - All Students	77.0

Targeted Barriers to Achieving the Goal 3

- 1. High mobility rate 2. Attendance problem 3. Lack of reading materials outside of school 4 .Difficulty comprehending grade level texts 5. Lack of academic mindset including stamina, positive attitude, and perserverance 6. Digital divide exists among groups of students

Resources Available to Help Reduce or Eliminate the Barriers 2

- district literacy coach newly adopted textbooks and accompanying online text resources New York Upfront Magazine with aligned Common Core text response questions Khan Academy Readtheory.com Prep Factory Readworks.org LDC-Literacy Design Center includes lexile options for text to allow for differentiated instruction Support from athletic coaches and club sponsors

Plan to Monitor Progress Toward G5. 8

Students will take the AIMS

ELA data from previous year will be reviewed;

Teachers will collect data and compare results throughout the year measuring student mastery of ELA standards

Literacy and writing will be incorporated in all curriculum areas

Person Responsible

Meg Auerbach

Schedule

Monthly, from 9/5/2016 to 6/5/2017

Evidence of Completion

FSA results Graduation rate Attendance rate Classroom snapshots Lesson plans reflecting Florida standards Data collected by teachers for Florida standards ACT/SAT scores for concordant scores

G6. To increase percentage of students who pass the Alg I EOC, Geometry EOC, and Algebra II EOC EHS will have an Alg I FSA passing rate of at least 37% **1a**

 G085139

Targets Supported **1b**

Indicator	Annual Target
AMO Math - All Students	76.0

Targeted Barriers to Achieving the Goal **3**

- Students may have issues with word problem format of the EOC due to weak reading skills They may have weak basic skills and a lack of experience with the application of basic and new math skills Students are dependent on calculators Poor attendance Lack of academic motivation Limited Access to technology outside of school Nutritional deficiencies Lack of support at home/poor time management skills Behavior issues at school that interfere with learning

Resources Available to Help Reduce or Eliminate the Barriers **2**

- fsassessments.org cpalms.org Algebra Nation district pacing guides for Algebra and Geometry District math supervisor math texts/workbooks PTA minigrants SAC minigrants Khan Academy

Plan to Monitor Progress Toward G6. **8**

- Use of AIMS in Alg and Geometry and Alg II
- Monitor attendance and discipline referrals to ensure that students are in class

Person Responsible

Lizabeth Coleman-Hayes

Schedule

Monthly, from 9/5/2016 to 6/5/2017

Evidence of Completion

Alg I EOC results Geo EOC results Alg II EOC results AIMS results Completion of Alg Nation modules/Math Nation Test Yourself Tools

G7. To increase student performance on the Biology EOC 1a

G085140

Targets Supported 1b

Indicator	Annual Target
Bio I EOC Pass	75.0

Targeted Barriers to Achieving the Goal 3

- Many students have difficulty reading science text due to the specialized vocabulary and dense presentation of ideas and scientific concepts. Many students have difficulty reading and understanding data, graphs, figures and tables. Students who are unfamiliar with statistics have difficulty understanding the relevance of scientific information Lack of access to technology outside of school

Resources Available to Help Reduce or Eliminate the Barriers 2

- Teacher expertise Lab equipment Reading guides that go along with textbook Outside articles PTA/SAC minigrants to purchase materials District pacing guide District science coordinator District resources UF Science professors

Plan to Monitor Progress Toward G7. 8

Biology AIMS results
Data collection on teacher made assessments
Classroom snapshots
Lesson plans, monthly data chats with administrators
Florida Focus pre and post quizzes

Person Responsible

Jon Allen

Schedule

Monthly, from 9/5/2016 to 6/5/2017

Evidence of Completion

Biology EOC results AIMS results will show growth

G8. To increase the number of underrepresented minorities in AP STEM courses 1a

 G085141

Targets Supported 1b

Indicator	Annual Target
College Readiness Reading	82.0

Targeted Barriers to Achieving the Goal 3

- Students are not identified early enough to complete prerequisites for AP STEM courses Some students lack competency in reading comprehension, constructive writing, communication, and math

Resources Available to Help Reduce or Eliminate the Barriers 2

- PTA funds SAC funds College Board grants/workshops PSAT scores

Plan to Monitor Progress Toward G8. 8

Enrollment in AP Stem classes

Person Responsible

Adele Turnage

Schedule

Semiannually, from 9/5/2016 to 6/23/2017

Evidence of Completion

AP scores for underrepresented minorities in STEM classes

G9. To increase number of industry certifications earned by students in CTE courses 1a

G085142

Targets Supported 1b

Indicator	Annual Target
4-Year Grad Rate (Standard Diploma)	95.0

Targeted Barriers to Achieving the Goal 3

- six period day lack of funding access to technology outside of school students lack room in their schedules for CTE course offerings due to online requirement, IB diploma requirements students choose academic electives rather than CTE electives Level 1 readers need to be enrolled in a reading class instead of a CTE elective

Resources Available to Help Reduce or Eliminate the Barriers 2

- District Career and Technical Education staff Perkins grants Santa Fe College Community members/local businesses Culinary arts facility Local computer companies/programmers

Plan to Monitor Progress Toward G9. 8

determine if units allow for additional programs to be added

Person Responsible

Shane Andrew

Schedule

Semiannually, from 9/5/2016 to 6/5/2017

Evidence of Completion

Master schedule which includes CTE courses

G10. To decrease the number of students who receive disciplinary referrals 1a

G085143

Targets Supported 1b

Indicator	Annual Target
4-Year Grad Rate (Standard Diploma)	95.0

Targeted Barriers to Achieving the Goal 3

- students lack training and knowledge of how to handle personal interactions students lack supervision/knowledge of how to use social media

Resources Available to Help Reduce or Eliminate the Barriers 2

- Deans Administrators Guidance Counselors School resource officers Mentors PBS Reichert House PACE School Psychologist School Staffing Specialist District Behavior Specialist

Plan to Monitor Progress Toward G10. 8

examine monthly discipline reports
examine monthly attendance reports

Person Responsible

Leroy Williams

Schedule

Biweekly, from 9/5/2016 to 6/5/2017

Evidence of Completion

decrease in students who receive discipline referrals increase in student attendance PBIS recognition

G11. To ensure that all students feel safe, appreciated and welcome at our school 1a

G085144

Targets Supported 1b

Indicator	Annual Target
4-Year Grad Rate (Standard Diploma)	95.0

Targeted Barriers to Achieving the Goal 3

- students in the major program and the IB program do not interact in meaningful ways during the school day all students do not report feeling safe, appreciated and welcome at our school

Resources Available to Help Reduce or Eliminate the Barriers 2

- PTA funding SAC funding District resources Community resources-River Phoenix Foundation guidance counselors PALS counselors guidance interns school resource officers Faculty and Staff Food 4 Kids program Graduation counselor

Plan to Monitor Progress Toward G11. 8

Focus Group notes
Feedback on grade level activities

Person Responsible

Anntwanique Edwards

Schedule

Semiannually, from 9/5/2016 to 6/5/2017

Evidence of Completion

Surveys Eastside Bucket List activities completed

Action Plan for Improvement

For each strategy selected in the plan to reduce a targeted barrier to a strategic goal, this section lists the rationale for that strategy (i.e., why the school believes it will reduce the barrier) and the action steps that have been identified as necessary to implementing the strategy, including details such as the point person, timing and duration, and evidence of completion. At the end of each set of action steps is the plan for monitoring the implementation and effectiveness of the respective strategy.

Problem Solving Key

G = Goal **B** = Barrier **S** = Strategy

1 = Problem Solving Step  **S123456** = Quick Key

G1. To increase enrollment in World Languages courses **1**

 **G085134**

G1.B1 middle schools do not offer French so students do not often choose French to study in high school students who are level 1 or level 2 readers struggle with the study of a second language **2**

 **B226450**

G1.B1.S1 meet with representatives from feeder schools to encourage participation in French meet with 8th grade students from feeder schools identify students and advise them to take a third year of a world language **4**

 **S238879**

Strategy Rationale

students who study a world language improve their skills in their primary language, are exposed to other cultures and viewpoints and are better prepared for colleges and careers

Action Step(s) Missing for Goal #1, Barrier #1, Strategy #1
Complete one or more action steps for this Strategy or de-select it

G2. To consistently achieve AP passing rates of 60% or higher and strive to outperform the relevant AP national averages for that year's AP exams in social studies To align Eastside's AP social studies program and course offerings with the College Board's Equity and Access Policy Statement and to increase awareness of EHS's AP course offerings among prospective students 1

 G085135

G2.B1 Major program AP students and prospective students often face the following challenges: lack of understanding of AP program and its components, opportunities, benefits, and expectations low reading proficiency lack of confidence, motivation, and stamina when faced with rigorous academic course work behavior, attendance, and daily preparedness issues learned helplessness 2

 B226451

G2.B1.S1 Readiness- Use summer programs to set academic foundations and ease the transition to AP Better communicate the benefits and expectations of AP to all MAP students and parents Explicitly link social studies content across grade levels 1. posters and fliers communicating various AP offerings 2. Vertical planning by MAP teachers-use AP style questions, cue words, prompts and terminology 3. MAP teachers stay abreast of AP curriculum changes and adapt high yield strategies that maintain alignment with AP's dynamic curriculum 4. Preview ideas and content from other AP courses that MAP students will be expected to take 5. Use formative and summative assessments throughout MAP courses to monitor successful comprehension, identify deficiencies and remediation needs and to measure overall progress in increasing readiness for upcoming MAP courses at higher grade levels Rigor and Standards 1. Set clear and achievable goals for student performance 2. Keep teachers updated with the latest information regarding AP 3. Use problems that look and feel like the problems on the test and incorporate these into daily lessons so students become increasingly familiar with AP's format and level of difficulty Strategic Use of Data 1. All schools receive the following data and MAP teachers should evaluate this data and discuss ways to consistently achieve score improvements AP score report by student cumulative roster for all students rosters of all students by exam AP Potential 2. PLCs among MAP teachers should review school wide data and test scores in order to not only improve scores but to increase access to AP courses Student and Family Support 1. provide tutoring and after school help and make MAP students explicitly aware of this help; encourage them to take advantage of it 2. continue summer programs for incoming MAP students and their parents 3. recognize the accomplishments of AP students to help raise academic expectations and standards, improve morale, attract new students to AP, publicize the school and the program to the community at large Formative Assessment 1. Use vertical planning to develop formative assessments that serve to provide feedback for teachers to modify subsequent learning activities and experiences; to identify and remediate group or individual deficiencies; to move focus away from achieving grades and onto learning process in order to increase self-efficacy and reduce negative impact of extrinsic motivation; to improve students' metacognitive awareness of how they learn 2. Frequent ongoing assessment allows both for fine-tuning of instruction and student focus on progress 3. Using formative assessments helps develop greater relevance, choice, and format for students as they learn content and provides greater opportunities for differentiation Differentiation Remediation-recommending students for after school tutoring and following up with the students and/or tutors. MAP teachers available before, during and after school, and at lunch as needed Reteaching-require test corrections and have students reflect on missed questions. Review commonly missed questions together as a class for greater understanding and mastery. Provide opportunities for test and quiz retake with limitations/structure Enrichment-tie in current events (election2016) as real world examples. Incorporate research projects (historical investigations0 the reinforce historical thinking skills (Think Like a Historian Stanford University Graphic Organizer) Professional development-teachers attend necessary workshops prior to preplanning to gain insight into expectations and structure of their course. Necessary resources for development are accessible and if necessary paid for by grant AP workshops and PLC's help both new and veteran teachers Encourage qualified MAP teachers to become AP readers Vertical Planning- Department wide-greater communication regarding scope and sequence of courses to establish consistency. Departmental communication of student performance/ achievement in order to ensure appropriate student placement MAP teacher PLCs foster content integration and help in refining the sequence of instruction Consistent monthly meetings among MAP teachers help maintain support systems for faculty, and they provide clear and timely feedback on MAP student progress Include and integrate feeder middle schools into the overall vertical team strategy to better articulate AP's expectations, define clear paths to success for teachers and students, and calibrate instruction in a dynamic interschool approach that puts student access and success at the forefront 4

 S238880

Strategy Rationale

At risk minority students will benefit from enrollment in AP courses and can be successful with the proper support

Action Step 1 5

Monthly department meetings will be held to create social studies focus goals relating to improving literacy and writing skills that can be incorporated into the EHS focus lesson. Monthly dept meetings, cross departmental planning and vertical training will occur. Monthly PLC meetings among MAP teachers help keep them focused on the school's goals and provide timely feedback to all levels of the vertical planning team. MAP teachers will use the AP exam scores and AP instructional planning report to monitor progress and identify areas that need adjustment to better serve our students. MAP teachers will develop a common analytical skillset and overall social studies fluency and literacy that serves students throughout their studies at EHS and the university level

Vertical planning and integration will also be discussed at department meetings..Incorporate Understanding by Design and Flipped Classrooms

Person Responsible

Juanita Neslon

Schedule

Monthly, from 9/1/2015 to 5/2/2016

Evidence of Completion

AP planning reports teacher made tests/quizzes AP potential reports Previous AP score reports AP guidelines for each course

Plan to Monitor Fidelity of Implementation of G2.B1.S1 6

Examine formative assessments in classes
Monthly data chats with administrators
Notes from dept meetings and PLC meetings

Person Responsible

Katy Zara Smith

Schedule

Monthly, from 9/1/2015 to 5/2/2016

Evidence of Completion

Lesson plans, teacher made assessments, results on formative assessments, AP scores, enrollment in AP courses, attendance at AP trainings

Plan to Monitor Effectiveness of Implementation of G2.B1.S1 7

Examine enrollment in AP courses

Track AP scores-how many students score at each score point

Decrease in the number of students who make a 1 on AP exams

Person Responsible

Juanita Neslon

Schedule

Monthly, from 9/1/2016 to 6/9/2017

Evidence of Completion

AP score reports for each course AP potential report AP instructional planning report grades in AP courses attendance rate in AP courses Performance on released exams used for practice

G3. To achieve a 100% graduation rate 1

 G085136

G3.B1 Seniors lack enough credits to graduate in 4 years Poor attendance among at-risk students At risk seniors have difficulty passing required state assessments At risk seniors have a higher incidence of discipline referrals resulting in in school and out of school suspension Students enter Eastside for the first time as seniors and not on track to graduate 2

 B226452

G3.B1.S1 Each at risk senior will have a mentor to provide support for specific needs Graduation coach will monitor progress of at risk seniors IB guidance counselor will work with IB seniors to provide specific support After school tutoring in ACT and SAT for seniors who need the concordant score Multiple assessments in FSA's and ACTs to give students several opportunities to get the required scores PERT testing for concordant scores on the Alg I EOC College representatives will visit campus and speak to seniors to give them opportunities to learn about options Students and parents will receive assistance in filling out the FAFSA Students will sign up for Bright Futures with the help of their guidance counselors Presentations regarding college and financial aid will be presented to parents College Application Boot Camp for rising seniors to work on college applications prior to the start of their senior year Differentiated Instruction workshop will be provided to teachers to ensure that students get the classroom supports they need Add an elective in leadership skills for seniors Pair seniors with internship programs in their area of interest Provide a variety of electives that can lead to careers 4

 S238881

Strategy Rationale

In order to achieve a 100% graduation rate, each senior must receive individualized support and resources to achieve that goal

Action Step 1 5

The graduation counselor will monitor the progress of at risk seniors as they work to complete all of their requirements

Person Responsible

Amy Vaknin

Schedule

Monthly, from 9/5/2016 to 6/5/2017

Evidence of Completion

Graduation rate data for all students Graduation rate data for at risk seniors

Plan to Monitor Fidelity of Implementation of G3.B1.S1 6

Student Services Meetings-monitor progress of at risk seniors

Person Responsible

Amy Vaknin

Schedule

Monthly, from 9/1/2015 to 6/1/2016

Evidence of Completion

Passing scores on state retakes Passing scores on ACT or SAT Attendance rates for at risk seniors Discipline records for at risk seniors Credits made up in Credit Retrieval Program Progress report grades, 9 weeks grades, and semester grades

Plan to Monitor Effectiveness of Implementation of G3.B1.S1 7

Discussion of individual at risk seniors

Person Responsible

Amy Vaknin

Schedule

Monthly, from 9/1/2015 to 6/1/2016

Evidence of Completion

Attendance data Credits earned GPA's test scores discipline records

G4. To increase percentage of students who pass the US History EOC 1

 G085137

G4.B1 Lack of foundational literacy skills (reading far below grade level) Vocabulary deficiency Lack of academic stamina, confidence, and motivation Limited access to technology at home Poor attendance Behavioral issues 2

 B226453

G4.B1.S1 Curriculum-teaching standards while focusing on depth, not breadth. Use a common vocabulary that can be used throughout all social studies courses. Use vertical planning to ensure that common standards/themes/skills are being taught throughout all social studies courses (historical thinking skills). Reinforce US history curriculum in 9th and 10th grade courses so students have greater context and prior knowledge Instruction-Gradual release model. Develop and implement engaging lessons by using strategies (Kagan, cooperative learning, Marzano) to increase student achievement. Work to improve medial literacy by incorporating visual images such as pictures, maps, charts, and graphs as a high percentage of state assessment questions require inference and extrapolation relating to such images. Introduce and incorporate challenging vocabulary. Review test taking strategies (how do you answer questions you don't know) and have students practice rewriting the question so they understand it. Create a supportive academic atmosphere that encourages growth and progress Standards-follow district pacing guide, consult fsassessments.org to check on updates. Translate standards into student friendly learning objectives. Stick to pacing guides as AIMS will test that material that teachers are expected to cover Test Item Specifications-use problems that look and feel like the problems on the test, include more average and challenging questions. Incorporate these into daily lessons so students become increasingly familiar with the format and level of difficulty (build academic stamina). Use practice test questions and exams released by FLDOE (particularly for US Hist). Check FLDOE often for newly released samples Assessment-use mini assessments form CPALMS or secondary social studies site, daily quizzes, chapter tests. Assess level of mastery. Analyze results form AIMS test to identify gaps in student's knowledge or areas of weakness. Differentiation- Remediation-recommend students for after school tutoring and follow up with students/tutors. Social studies teachers will be accessible before and after school and during lunch as needed Reteaching-require test corrections and have students reflect on missed questions. Review commonly missed questions together as a class for greater understanding and mastery. Provide opportunities for test and quiz retakes with limitations/structure Enrichment-Tie in current events (Election 2016) as real world examples. Incorporate research projects (historical investigations) that reinforce historical thinking skills (Think Like a Historian-Stanford University graphic organizer 4

 S238883

Strategy Rationale

Focusing on the standards and literacy skills will improve student performance in class as well as on the EOC

Action Step 1 5

All social studies teachers will participate in PLC's
Participate in monthly data chats with administrators regarding focus lessons
Attend workshops during preplanning to gain insight into expectations and structure of their courses
Participate in vertical planning-have greater communication regarding scope and sequence of courses to establish consistency.
Communicate within the department regarding student performance and achievement in order to ensure appropriate placement
Communicate with English teachers regarding coverage of particular topics and writing skills.
Integrate and relate subject matter with other disciplines
Monitor student progress on AIMS for US History
Create monthly social studies focus goals relating to improving literacy and writing skills that can be incorporated into EHS focus lessons
US History and World History teachers will attend school based literacy trainings
AP US History and AP Micro/Govt teachers will attend AP trainings
Each department will write their own academic improvement plan including vertical articulation of skills and knowledge to be covered at each grade level

Person Responsible

Katy Zara Smith

Schedule

Monthly, from 9/1/2015 to 5/31/2016

Evidence of Completion

G5. To increase ELA and literacy proficiency among identified subgroups **1**

 G085138

G5.B1 1. High mobility rate 2. Attendance problem 3. Lack of reading materials outside of school 4
.Difficulty comprehending grade level texts 5. Lack of academic mindset including stamina, positive attitude,
and perserverance 6. Digital divide exists among groups of students **2**

 B226454

G5.B1.S1 Curriculum-The ELA Scope and Sequence will be used for instruction Teachers will use data to inform instruction (AIMS). Teachers will use research based practices such as graphic organizers, discussions, and writing based on text dependent questions and higher level thinking questions. The ELA department will write its own academic improvement plan including vertical articulation of skills and knowledge to be mastered at each grade level Teachers will implement the Literacy Design Collaboration Model as a school wide approach to integrating reading and writing in the content area. Standards-ELA standards will be used daily, as well as those identified in the quarterly unit for the Scope and Sequence ELA standards will be posted on the board daily along with objectives in student friendly language Standards based instruction will involve 1. using grade level text (varying in complexity) and requiring students to cite significant textual evidence to support a thesis or prompt 2. Assessments requiring students to focus on major characters from a work of literature who exhibit evidence of change throughout the reading 3. Assessments requiring students to study vocabulary, text structure, and cultural experiences in a work 4. responding to multitudes of text based writing prompts 5. Incorporate ELA self-assessment Essay Checklist into English classes and possibly into content classes where writing is involved. Share this rubric with the faculty Test Item Specifications-Lessons will refer to the following ELA standards when making assessments 1. Text Types and purposes-production and distribution of writing, research to build and present knowledge, range of writing, language conventions, knowledge of language, vocabulary acquisition and use 2. Writing-informative/explanatory, opinion/argumentative Vertical Planning-teachers will work together to develop lessons and provide scaffolding from one year to the next. The following strategies will be used 1. close reading 2. teacher modeling of process 3. examination of student samples Vertical Planning to increase readiness of MP students for AP classes in Language and Literature 1. Devote more time to common vertical planning (and possibly during the summer through a grant) between 9th and 10th grade MP teachers and MP AP Lang and Lit teachers 2. Develop a written progression plan 3. Provide after school prep for MP AP tests Interdisciplinary Involvement 1. Create and implement a common language for vocabulary instruction with a focus on Greek/Latin prefixes, suffixes, roots, and word analysis strategies 2. Create and implement a common language for reading instruction through shared annotation/CIS framework 3. Create and implement a common language for writing instruction through PLC's Technology-teachers will give technology enhanced assessments at least once a 9 weeks. Question types on assessments will include but are not limited to Hot Text, Multiple Choice, Open Response, Multi Select, Drag and Drop, and Writing Prompts Provide students with more time in the computer labs Assessments Formative-quizzes, vocabulary, short open ended responses, exit cards Summative-projects, portfolios, research, AIMS, essay writing, semester exams Continue to purchase a computer program through the English dept that lets students practice multiple choice ELA style questions on a computer Utilize Khan Academy and other free test prep programs on the internet Differentiation- Remediation-diagnostic testing, formative assessments, AIMS, close reading strategies, CIS, effective questioning with graduated levels of complexity (literal, inferential, and evaluative), guided reading, independent choice reading, process writing (pre writing strategies, first draft, revision, editing, final copy, publishing), note-taking, outlining, rubrics, essays Reteaching-flexible grouping to reteach specific standards/skills, TAPS, adjustable assignments, curriculum compacting, progress monitoring via checklists, running record, portfolios, data chats, student conferences, Enrichment-ability grouping, authentic problem solving, independent studies, compacting, mentoring, open-ended assignments, tiered assignments Offer a creative writing elective Professional Development-teachers will work collaboratively in focus lesson and professional development groups to develop lessons that utilize close reading, annotating and writing strategies, Effective strategies will also be discussed and practiced during professional development (CIS training with district literacy coach) 4

 S238884

Strategy Rationale

Students must attend regularly and receive rigorous instruction in order to be prepared for ELA assessments and post high school experiences

Action Step 1 5

Classroom walkthroughs
Monitor lesson plans
Assign homeroom mentors
Hire paraprofessionals
Provide after school tutoring
Teachers will coordinate with media specialists to provide students with a variety of reading materials

Person Responsible

Shane Andrew

Schedule

Monthly, from 9/5/2016 to 6/5/2017

Evidence of Completion

AIMS, FSA

Plan to Monitor Fidelity of Implementation of G5.B1.S1 6

AIMS, monthly focus lessons, student writing samples, classroom snapshots

Person Responsible

Shane Andrew

Schedule

Monthly, from 9/1/2016 to 6/1/2017

Evidence of Completion

FSA reading scores

Plan to Monitor Effectiveness of Implementation of G5.B1.S1 7

Classroom walkthroughs

Person Responsible

Adele Turnage

Schedule

Monthly, from 9/1/2016 to 6/9/2017

Evidence of Completion

FSA reading scores

G6. To increase percentage of students who pass the Alg I EOC, Geometry EOC, and Algebra II EOC EHS will have an Alg I FSA passing rate of at least 37% **1**

 G085139

G6.B1 Students may have issues with word problem format of the EOC due to weak reading skills They may have weak basic skills and a lack of experience with the application of basic and new math skills Students are dependent on calculators Poor attendance Lack of academic motivation Limited Access to technology outside of school Nutritional deficiencies Lack of support at home/poor time management skills Behavior issues at school that interfere with learning **2**

 B226455

G6.B1.S1 Curriculum-teach standards while supplementing district adopted textbook with algebra nation, personal math trainer from texts, Pearson Realize, Hawaii test item bank. The math department will write its own academic improvement plan including vertical articulation of skills and knowledge to be mastered at each grade level. Instruction-Gradual release model, Project Based Learning, develop and implement engaging lessons by using strategies (Kagan, Cooperative Learning, Marzano) to increase student achievement. Give students non-calculator based assignments and assessments Standards-Incorporate district pacing guide while periodically consulting to check on updates. Translate standards into student friendly learning objectives Test Item Specifications-use problems that look and feel like the problems on the test (Algebra Nation). Monitor for test-item specifications Assessment-use mini assessments from CPALMS or secondary math site, daily quizzes, chapter tests, GRM monitoring. Assess level of mastery. Analyze results from AIMS test to identify gaps in the students' learning Differentiation 1. Remediation-recommend students for after school tutoring and follow up with student/tutors. Math teachers will be accessible before and after school and at lunch 2. Reteach-use intensive math time in algebra I on the block. Use built in review days from pacing guide as days for reteaching skills which have been identified through formative assessments. Provide opportunities for test and quiz retakes with limitations/structure 3. Enrichment-Use PMT from text. Use higher level thinking problems (context specific, real life examples) from supplemental resources (illuminations, graphing stories, discovering geometry) **4**

 S238885

Strategy Rationale

9th grade students will have more uninterrupted time for support and hands-on practice during the school day. Students who pass the algebra I EOC as ninth graders will be able to stay on track for their math sequence rather than have to be in remedial math classes during the school year.

Instructional changes will ensure that students are mastering the concepts in math and that instruction is aligned to the standards. Teachers will use assessments to determine which students need support as well as enrichment.

Action Step 1 5

Use high yield strategies in math classes
Provide Alg I EOC tutoring for students who need retakes
Incorporate math anchor standards into all math classes
Provide real world applications of math
Block classes for 9th graders in algebra I, algebra I honors and geometry honors
Attend workshops/trainings throughout the year
All math teachers will participate in PLC's
Attend focus lesson trainings provided by district math supervisor
Engage in vertical planning-math teachers will reflect on student results and communicate regarding student performance and achievement
Collaborate with science teachers to provide cross curricular instruction regarding shared topics
Provide opportunities for students to read and write in math class about math

Person Responsible

G7. To increase student performance on the Biology EOC 1

 G085140

G7.B1 Many students have difficulty reading science text due to the specialized vocabulary and dense presentation of ideas and scientific concepts. Many students have difficulty reading and understanding data, graphs, figures and tables. Students who are unfamiliar with statistics have difficulty understanding the relevance of scientific information Lack of access to technology outside of school 2

 B226456

G7.B1.S1 Curriculum-Move to alternative grading scheme in major program. One teacher will use both Standards Based Grading and Project Based Learning with approximately 75 major program students in biology Make the standards accessible and relevant to students to improve their grasp of important concepts The science department will write their own academic improvement plan including vertical articulation of skills and knowledge to be mastered at each grade level. Teachers will help students increase background knowledge by pushing for cross-curricular use of science-based articles as part of the text based reading that occurs in other classes. This will be introduced at grade level team meetings. The science department will also explore alternative course tracks such as Integrated Science 1, 2 and 3 for SWD Engage students by covering topics in an order that shows their relatedness particularly when eliminating topics that will not be tested Building a good story as the students explore biology helps them to understand that all topics are connected Instruction-incorporate more hands on activities for the more difficult topics can help low performing students be successful as well as provide differentiated instruction for Kinesthetic learners Standards-focus on NGSSS as well as the ELA Florida standards for Science Test Item Specifications-incorporate the available test specs into the assessments, both formative and summative. Test specs will be used to familiarize students with potential "test-like" questions Assessment-use of pre and post tests, use of test item specs, available practice tests/online materials. AIMS for Biology Differentiation Remediation-use formative assessments to identify students who need remediation in small groups on a daily basis Reteaching-use data from formative assessments, set a benchmark % to determine need for reteaching. Provide a science teacher for after school tutoring. Use the AIMS to identify which topics need to be retaught and which students need to attend tutoring. If students are not proficient in a standard, they would be required to attend after school tutoring to work with a science teacher Enrichment-Students who have demonstrated a master of a standard will be given opportunities to expand further on that benchmark. This can be done during reteaching/remediation for struggling students 4

 S238886

Strategy Rationale

Increasing the rigor in science classes will assist students in preparing for STEM courses and careers.

Action Step 1 **5**

Teachers will use AIMS to generate data for progress monitoring
Teachers will receive training on how to integrate technology
Teachers will receive training on student motivation (book study opportunity as well)
Vertical teams within the science department will meet regularly
Science teachers will communicate with other teachers and support staff regarding interdisciplinary units, shared knowledge of students and behavior strategies
Participate in PLC's
Attend trainings at the school level on literacy instruction within the science classroom
Science teachers will meet with other subject area teachers to offer cross curricular insight

Person Responsible

G8. To increase the number of underrepresented minorities in AP STEM courses **1**

 G085141

G8.B1 Students are not identified early enough to complete prerequisites for AP STEM courses Some students lack competency in reading comprehension, constructive writing, communication, and math **2**

 B226457

G8.B1.S1 1. Provide the PSAT to all students in grades 9-11 2. Use PSAT predictor reports to identify students for AP Stem courses. 3. Accelerate students in math by giving them 2 math classes in their sophomore year 4. Continue to offer AP Computer Science 5. Actively recruit underrepresented minority students to the IB program 6. Restructure curriculum to provide AP courses to students after 9th grade- AP Human Geography deferred to 10th grade and AP Env Science deferred to 11th grade 7. Provide summer bridge programs to provide enrichment and support to prepare students for rigorous courses 8. Provide extra academic and social support to students 9. AP Vertical Planning and training will be conducted with middle school teachers in core subject areas 10. Continue and expand partnership with College Board to provide training for teachers **4**

 S238887

Strategy Rationale

Underrepresented minority students should be identified earlier in their academic careers and counseled into taking more rigorous courses. They need additional preparation and support so that they can be successful in these courses.

Action Step 1 **5**

Select students in honors courses and register them for PSAT

Use PSAT reports to identify potential AP students

Offer more AP courses

Identify students from robotics class and coding club who can enroll in AP Stem courses

Person Responsible

Adele Turnage

Schedule

Annually, from 9/5/2016 to 6/5/2017

Evidence of Completion

Registration/Rosters for AP classes

Plan to Monitor Fidelity of Implementation of G8.B1.S1 6

Monitor registration for PSAT
Review rosters for AP courses

Person Responsible

Schedule

Semiannually, from 8/24/2015 to 6/1/2016

Evidence of Completion

Credits earned in AP courses

G9. To increase number of industry certifications earned by students in CTE courses 1

 G085142

G9.B1 six period day lack of funding access to technology outside of school students lack room in their schedules for CTE course offerings due to online requirement, IB diploma requirements students choose academic electives rather than CTE electives Level 1 readers need to be enrolled in a reading class instead of a CTE elective 2

 B226458

G9.B1.S1 1. Meet with Career and Technical district staff members 2. Provide students with opportunities to take industry certification exams 3. Offer program in computer programming 4. Vertical planning among computer education teachers 4

 S238888

Strategy Rationale

Students should graduate from high school prepared to enter STEM fields.

Action Step 1 5

Current CTE teacher will receive additional training
Provide scheduling options so that beginning students can work with students in upper level programming classes
Provide students with opportunities to take CTE exams in computers and culinary arts

Person Responsible

Adele Turnage

Schedule

Semiannually, from 9/1/2015 to 5/31/2016

Evidence of Completion

Meeting notes Registration for course 1 and course 2 in computer programming-procedural programming, web programmng Scores on certification exams

Plan to Monitor Fidelity of Implementation of G9.B1.S1 6

monitor growth of student population to qualify for additional units
monitor enrollment in computer programming courses

Person Responsible

Shane Andrew

Schedule

On 6/5/2017

Evidence of Completion

unit allocations master schedule

Plan to Monitor Effectiveness of Implementation of G9.B1.S1 7

review student registration in CTE courses
review student completion of procedural programming, web programming
review industry certification earned by students

Person Responsible

Adele Turnage

Schedule

Annually, from 9/5/2016 to 6/5/2017

Evidence of Completion

determination of most relevant CTE courses to offer passing scores on industry certification exams

G10. To decrease the number of students who receive disciplinary referrals **1**

 G085143

G10.B1 students lack training and knowledge of how to handle personal interactions students lack supervision/knowledge of how to use social media **2**

 B226459

G10.B1.S1 1. Provide funding for additional dean 2. Expand implementation of PBS to include modeling of positive behavior 3. Assign homeroom mentors 4. Deliver anti-bullying programs 5. Use resource officers to present consequences of cyber bullying 6. Assign students mentors through "I Gotcha Back" Mentoring Program 7. Increase use of security cameras 8. Student Services Team will meet twice a month to monitor students of concern 9. District ESE behavioral specialist will work with teachers on implementing appropriate classroom management techniques 10. Provide more hall monitoring 11. Earlier intervention with teams and guidance for at risk students 12. Teach lessons on tolerance 13. Make ISD more meaningful by teaching restorative justice practices 14. Have ISD students write what they would do differently in terms of appropriate behavior 15. Encourage more MP representation in SGA **4**

 S238889

Strategy Rationale

Students who are in class rather than out on suspension are more likely to graduate from high school in four years.

Action Step 1 **5**

SAC funds will be used for additional dean position
APA will provide lesson plans for PBS
Guidance presentations

Person Responsible

Shane Andrew

Schedule

Semiannually, from 9/5/2016 to 6/5/2017

Evidence of Completion

Decrease in students who receive referrals

Plan to Monitor Fidelity of Implementation of G10.B1.S1 6

Monitor student behavior reports

Person Responsible

Leroy Williams

Schedule

Monthly, from 9/5/2016 to 6/5/2017

Evidence of Completion

decrease in student discipline referrals increase in class attendance

Plan to Monitor Effectiveness of Implementation of G10.B1.S1 7

examine monthly discipline reports

Person Responsible

Leroy Williams

Schedule

Monthly, from 9/5/2016 to 6/5/2017

Evidence of Completion

decrease in number of students receiving discipline referrals increase in student attendance

G11. To ensure that all students feel safe, appreciated and welcome at our school **1**

 G085144

G11.B1 students in the major program and the IB program do not interact in meaningful ways during the school day all students do not report feeling safe, appreciated and welcome at our school **2**

 B226460

G11.B1.S1 Photo activity-determine which students are not well-known to at least one adult on campus Guidance counselors meet with students in the mall area during lunch to answer questions Utilize the River Phoenix Foundation to assist with anti-bullying campaign Organize meaningful, grade-level activities and dialogue among all major program and IB students Establish a Pep Squad to go to under-attended sporting events Investigate establishment of Link Squad to match student leaders with younger students Explore use of technology in international/national/statewide communication with other students Actively recruit underrepresented minorities to the IB program by contacting them in middle school Counselors and Administrators will meet with parents in neighborhoods to reach out to parents Graduation counselor will work with at-risk students to provide them with additional support Establish student focus groups to meet with principal or outside educator to discuss issues/student concerns and responses on surveys in greater detail Guidance counselors meet with students in small groups and as individuals Refer students to Gotcha Back Mentoring Program Student Services Team meets twice a month to discuss students of concern and recommendations Use district survey results to develop action plan Student Govt leaders will develop a bucket list to increase student participation in school activities and foster school spirit Interim surveys will monitor student-teacher relationships and feelings of belonging **4**

 S238891

Strategy Rationale

Students who feel safe and accepted are more likely to be engaged in school activities and to be successful in academic settings.

Action Step 1 **5**

Grade level students will interact in meaningful ways throughout the year
Student focus groups will meet with the principal or his designee to discuss issues of concerns to students
Faculty will address results of student survey regarding school climate

Person Responsible

Shane Andrew

Schedule

Monthly, from 9/1/2016 to 6/1/2017

Evidence of Completion

V. Professional Development Opportunities

Professional development opportunities identified in the SIP as action steps to achieve the school's goals.

G2. To consistently achieve AP passing rates of 60% or higher and strive to outperform the relevant AP national averages for that year's AP exams in social studies To align Eastside's AP social studies program and course offerings with the College Board's Equity and Access Policy Statement and to increase awareness of EHS's AP course offerings among prospective students

G2.B1 Major program AP students and prospective students often face the following challenges: lack of understanding of AP program and its components, opportunities, benefits, and expectations low reading proficiency lack of confidence, motivation, and stamina when faced with rigorous academic course work behavior, attendance, and daily preparedness issues learned helplessness

G2.B1.S1 Readiness- Use summer programs to set academic foundations and ease the transition to AP. Better communicate the benefits and expectations of AP to all MAP students and parents. Explicitly link social studies content across grade levels. 1. Posters and fliers communicating various AP offerings. 2. Vertical planning by MAP teachers-use AP style questions, cue words, prompts and terminology. 3. MAP teachers stay abreast of AP curriculum changes and adapt high yield strategies that maintain alignment with AP's dynamic curriculum. 4. Preview ideas and content from other AP courses that MAP students will be expected to take. 5. Use formative and summative assessments throughout MAP courses to monitor successful comprehension, identify deficiencies and remediation needs and to measure overall progress in increasing readiness for upcoming MAP courses at higher grade levels.

Rigor and Standards

1. Set clear and achievable goals for student performance. 2. Keep teachers updated with the latest information regarding AP. 3. Use problems that look and feel like the problems on the test and incorporate these into daily lessons so students become increasingly familiar with AP's format and level of difficulty.

Strategic Use of Data

1. All schools receive the following data and MAP teachers should evaluate this data and discuss ways to consistently achieve score improvements.

AP score report by student cumulative roster for all students rosters of all students by exam AP Potential.

2. PLCs among MAP teachers should review school wide data and test scores in order to not only improve scores but to increase access to AP courses.

Student and Family Support

1. Provide tutoring and after school help and make MAP students explicitly aware of this help; encourage them to take advantage of it. 2. Continue summer programs for incoming MAP students and their parents. 3. Recognize the accomplishments of AP students to help raise academic expectations and standards, improve morale, attract new students to AP, publicize the school and the program to the community at large.

Formative Assessment

1. Use vertical planning to develop formative assessments that serve to provide feedback for teachers to modify subsequent learning activities and experiences; to identify and remediate group or individual deficiencies; to move focus away from achieving grades and onto learning process in order to increase self-efficacy and reduce negative impact of extrinsic motivation; to improve students' metacognitive awareness of how they learn. 2. Frequent ongoing assessment allows both for fine-tuning of instruction and student focus on progress. 3. Using formative assessments helps develop greater relevance, choice, and format for students as they learn content and provides greater opportunities for differentiation.

Differentiation

Remediation-recommending students for after school tutoring and following up with the students and/or tutors. MAP teachers available before, during and after school, and at lunch as needed.

Reteaching-require test corrections and have students reflect on missed questions. Review commonly missed questions together as a class for greater understanding and mastery. Provide opportunities for test and quiz retake with limitations/structure.

Enrichment-tie in current events (election 2016) as real world examples. Incorporate research projects (historical investigations) to reinforce historical thinking skills (Think Like a Historian Stanford University Graphic Organizer).

Professional development-teachers attend necessary workshops prior to preplanning to gain insight into expectations and structure of their course. Necessary resources for development are accessible and if necessary paid for by grant.

AP workshops and PLC's help both new and veteran teachers. Encourage qualified MAP teachers to become AP readers.

Vertical Planning- Department wide-greater communication regarding scope and sequence of courses to establish consistency. Departmental communication of student performance/achievement in order to ensure appropriate student placement.

MAP teacher PLCs foster content integration and help in refining the sequence of instruction.

Consistent monthly meetings among MAP teachers help maintain support systems for faculty, and they provide clear and timely feedback on MAP student progress.

Include and integrate feeder middle schools into the overall vertical team strategy to better articulate AP's expectations, define clear paths to success for teachers and students, and calibrate instruction in a dynamic interschool approach that puts student access and success at the forefront.

PD Opportunity 1

Monthly department meetings will be held to create social studies focus goals relating to improving literacy and writing skills that can be incorporated into the EHS focus lesson. Monthly dept meetings, cross departmental planning and vertical training will occur. Monthly PLC meetings among MAP

teachers help keep them focused on the school's goals and provide timely feedback to all levels of the vertical planning team. MAP teachers will use the AP exam scores and AP instructional planning report to monitor progress and identify areas that need adjustment to better serve our students. MAP teachers will develop a common analytical skillset and overall social studies fluency and literacy that serves students throughout their studies at EHS and the university level Vertical planning and integration will also be discussed at department meetings..Incorporate Understanding by Design and Flipped Classrooms

Facilitator

Stephanie Tate-Florida Partnership

Participants

major program AP teachers

Schedule

Monthly, from 9/1/2015 to 5/2/2016

G3. To achieve a 100% graduation rate

G3.B1 Seniors lack enough credits to graduate in 4 years Poor attendance among at-risk students At risk seniors have difficulty passing required state assessments At risk seniors have a higher incidence of discipline referrals resulting in in school and out of school suspension Students enter Eastside for the first time as seniors and not on track to graduate

G3.B1.S1 Each at risk senior will have a mentor to provide support for specific needs Graduation coach will monitor progress of at risk seniors IB guidance counselor will work with IB seniors to provide specific support After school tutoring in ACT and SAT for seniors who need the concordant score Multiple assessments in FSA's and ACTs to give students several opportunities to get the required scores PERT testing for concordant scores on the Alg I EOC College representatives will visit campus and speak to seniors to give them opportunities to learn about options Students and parents will receive assistance in filling out the FAFSA Students will sign up for Bright Futures with the help of their guidance counselors Presentations regarding college and financial aid will be presented to parents College Application Boot Camp for rising seniors to work on college applications prior to the start of their senior year Differentiated Instruction workshop will be provided to teachers to ensure that students get the classroom supports they need Add an elective in leadership skills for seniors Pair seniors with internship programs in their area of interest Provide a variety of electives that can lead to careers

PD Opportunity 1

The graduation counselor will monitor the progress of at risk seniors as they work to complete all of their requirements

Facilitator

Participants

major program teachers teachers from feeder middle schools

Schedule

Monthly, from 9/5/2016 to 6/5/2017

G4. To increase percentage of students who pass the US History EOC

G4.B1 Lack of foundational literacy skills (reading far below grade level) Vocabulary deficiency Lack of academic stamina, confidence, and motivation Limited access to technology at home Poor attendance Behavioral issues

G4.B1.S1 Curriculum-teaching standards while focusing on depth, not breadth. Use a common vocabulary that can be used throughout all social studies courses. Use vertical planning to ensure that common standards/themes/skills are being taught throughout all social studies courses (historical thinking skills). Reinforce US history curriculum in 9th and 10th grade courses so students have greater context and prior knowledge Instruction-Gradual release model. Develop and implement engaging lessons by using strategies (Kagan, cooperative learning, Marzano) to increase student achievement. Work to improve medial literacy by incorporating visual images such as pictures, maps, charts, and graphs as a high percentage of state assessment questions require inference and extrapolation relating to such images. Introduce and incorporate challenging vocabulary. Review test taking strategies (how do you answer questions you don't know) and have students practice rewriting the question so they understand it. Create a supportive academic atmosphere that encourages growth and progress Standards-follow district pacing guide, consult fsassessments.org to check on updates. Translate standards into student friendly learning objectives. Stick to pacing guides as AIMS will test that material that teachers are expected to cover Test Item Specifications-use problems that look and feel like the problems on the test, include more average and challenging questions. Incorporate these into daily lessons so students become increasingly familiar with the format and level of difficulty (build academic stamina). Use practice test questions and exams released by FLDOE (particularly for US Hist). Check FLDOE often for newly released samples Assessment-use mini assessments form CPALMS or secondary social studies site, daily quizzes, chapter tests. Assess level of mastery. Analyze results form AIMS test to identify gaps in student's knowledge or areas of weakness. Differentiation- Remediation-recommend students for after school tutoring and follow up with students/tutors. Social studies teachers will be accessible before and after school and during lunch as needed Reteaching-require test corrections and have students reflect on missed questions. Review commonly missed questions together as a class for greater understanding and mastery. Provide opportunities for test and quiz retakes with limitations/structure Enrichment-Tie in current events (Election 2016) as real world examples. Incorporate research projects (historical investigations) that reinforce historical thinking skills (Think Like a Historian-Stanford University graphic organizer

PD Opportunity 1

All social studies teachers will participate in PLC's Participate in monthly data chats with administrators regarding focus lessons Attend workshops during preplanning to gain insight into expectations and structure of their courses Participate in vertical planning-have greater communication regarding scope and sequence of courses to establish consistency. Communicate within the department regarding student performance and achievement in order to ensure appropriate placement Communicate with English teachers regarding coverage of particular topics and writing skills. Integrate and relate subject matter with other disciplines Monitor student progress on AIMS for US History Create monthly social studies focus goals relating to improving literacy and writing skills that can be incorporated into EHS focus lessons US History and World Hlstory teachers will attend school based literacy trainings AP US History and AP Micro/Govt teachers will attend AP trainings Each department will write their own academic improvement plan including vertical articulation of skills and knowledge to be covered at each grade level

Facilitator

Katy Zara Smith Melissa Pratto

Participants

Major Program social studies teachers

Schedule

Monthly, from 9/1/2015 to 5/31/2016

G5. To increase ELA and literacy proficiency among identified subgroups

G5.B1 1. High mobility rate 2. Attendance problem 3. Lack of reading materials outside of school 4. Difficulty comprehending grade level texts 5. Lack of academic mindset including stamina, positive attitude, and perseverance 6. Digital divide exists among groups of students

G5.B1.S1 Curriculum-The ELA Scope and Sequence will be used for instruction Teachers will use data to inform instruction (AIMS). Teachers will use research based practices such as graphic organizers, discussions, and writing based on text dependent questions and higher level thinking questions. The ELA department will write its own academic improvement plan including vertical articulation of skills and knowledge to be mastered at each grade level Teachers will implement the Literacy Design Collaboration Model as a school wide approach to integrating reading and writing in the content area. Standards-ELA standards will be used daily, as well as those identified in the quarterly unit for the Scope and Sequence ELA standards will be posted on the board daily along with objectives in student friendly language Standards based instruction will involve 1. using grade level text (varying in complexity) and requiring students to cite significant textual evidence to support a thesis or prompt 2. Assessments requiring students to focus on major characters from a work of literature who exhibit evidence of change throughout the reading 3. Assessments requiring students to study vocabulary, text structure, and cultural experiences in a work 4. responding to multitudes of text based writing prompts 5. Incorporate ELA self-assessment Essay Checklist into English classes and possibly into content classes where writing is involved. Share this rubric with the faculty Test Item Specifications-Lessons will refer to the following ELA standards when making assessments 1. Text Types and purposes-production and distribution of writing, research to build and present knowledge, range of writing, language conventions, knowledge of language, vocabulary acquisition and use 2. Writing-informative/explanatory, opinion/argumentative Vertical Planning-teachers will work together to develop lessons and provide scaffolding from one year to the next. The following strategies will be used 1. close reading 2. teacher modeling of process 3. examination of student samples Vertical Planning to increase readiness of MP students for AP classes in Language and Literature 1. Devote more time to common vertical planning (and possibly during the summer through a grant) between 9th and 10th grade MP teachers and MP AP Lang and Lit teachers 2. Develop a written progression plan 3. Provide after school prep for MP AP tests Interdisciplinary Involvement 1. Create and implement a common language for vocabulary instruction with a focus on Greek/Latin prefixes, suffixes, roots, and word analysis strategies 2. Create and implement a common language for reading instruction through shared annotation/CIS framework 3. Create and implement a common language for writing instruction through PLC's Technology-teachers will give technology enhanced assessments at least once a 9 weeks. Question types on assessments will include but are not limited to Hot Text, Multiple Choice, Open Response, Multi Select, Drag and Drop, and Writing Prompts Provide students with more time in the computer labs Assessments Formative-quizzes, vocabulary, short open ended responses, exit cards Summative-projects, portfolios, research, AIMS, essay writing, semester exams Continue to purchase a computer program through the English dept that lets students practice multiple choice ELA style questions on a computer Utilize Khan Academy and other free test prep programs on the internet Differentiation- Remediation-diagnostic testing, formative assessments, AIMS, close reading strategies, CIS, effective questioning with graduated levels of complexity (literal, inferential, and evaluative), guided reading, independent choice reading, process writing (pre writing strategies, first draft, revision, editing, final copy, publishing), note-taking, outlining, rubrics, essays Reteaching-flexible grouping to reteach specific standards/skills, TAPS, adjustable assignments, curriculum compacting, progress monitoring via checklists, running record, portfolios, data chats, student conferences, Enrichment-ability grouping, authentic problem solving, independent studies, compacting, mentoring, open-ended assignments, tiered assignments Offer a creative writing elective Professional Development-teachers will work collaboratively in focus lesson and professional development groups to develop lessons that utilize close reading, annotating and writing strategies, Effective strategies will also be discussed and practiced during professional development (CIS training with district literacy coach)

PD Opportunity 1

Classroom walkthroughs Monitor lesson plans Assign homeroom mentors Hire paraprofessionals
Provide after school tutoring Teachers will coordinate with media specialists to provide students with
a variety of reading materials

Facilitator

Participants

All faculty will participate in Professional Learning Communities -focus on collaboration and
development of common core lesson plans -data collection and analysis -monitor lowest performing
students and/or students in the lowest quartile -social studies and biology teachers will receive
training in reading in the content area -social studies teachers will receive training in DBQ -
teachers will receive training on how to use the FSA scoring rubric -vertical planning among
English teachers

Schedule

Monthly, from 9/5/2016 to 6/5/2017

G6. To increase percentage of students who pass the Alg I EOC, Geometry EOC, and Algebra II EOC EHS will have an Alg I FSA passing rate of at least 37%

G6.B1 Students may have issues with word problem format of the EOC due to weak reading skills They may have weak basic skills and a lack of experience with the application of basic and new math skills Students are dependent on calculators Poor attendance Lack of academic motivation Limited Access to technology outside of school Nutritional deficiencies Lack of support at home/poor time management skills Behavior issues at school that interfere with learning

G6.B1.S1 Curriculum-teach standards while supplementing district adopted textbook with algebra nation, personal math trainer from texts, Pearson Realize, Hawaii test item bank. The math department will write its own academic improvement plan including vertical articulation of skills and knowledge to be mastered at each grade level. Instruction-Gradual release model, Project Based Learning, develop and implement engaging lessons by using strategies (Kagan, Cooperative Learning, Marzano) to increase student achievement. Give students non-calculator based assignments and assessments Standards-Incorporate district pacing guide while periodically consulting to check on updates. Translate standards into student friendly learning objectives Test Item Specifications-use problems that look and feel like the problems on the test (Algebra Nation). Monitor for test-item specifications Assessment-use mini assessments from CPALMS or secondary math site, daily quizzes, chapter tests, GRM monitoring. Assess level of mastery. Analyze results from AIMS test to identify gaps in the students' learning Differentiation 1. Remediation-recommend students for after school tutoring and follow up with student/tutors. Math teachers will be accessible before and after school and at lunch 2. Reteach-use intensive math time in algebra I on the block. Use built in review days from pacing guide as days for reteaching skills which have been identified through formative assessments. Provide opportunities for test and quiz retakes with limitations/structure 3. Enrichment-Use PMT from text. Use higher level thinking problems (context specific, real life examples) from supplemental resources (illuminations, graphing stories, discovering geometry)

PD Opportunity 1

Use high yield strategies in math classes Provide Alg I EOC tutoring for students who need retakes Incorporate math anchor standards into all math classes Provide real world applications of math Block classes for 9th graders in algebra I, algebra I honors and geometry honors Attend workshops/trainings throughout the year All math teachers will participate in PLC's Attend focus lesson trainings provided by district math supervisor Engage in vertical planning-math teachers will reflect on student results and communicate regarding student performance and achievement Collaborate with science teachers to provide cross curricular instruction regarding shared topics Provide opportunities for students to read and write in math class about math

Facilitator

Derrick Frazier Matt McConn

Participants

math department/algebra 1 teachers

Schedule

Monthly, from 9/1/2016 to 6/9/2017

G7. To increase student performance on the Biology EOC

G7.B1 Many students have difficulty reading science text due to the specialized vocabulary and dense presentation of ideas and scientific concepts. Many students have difficulty reading and understanding data, graphs, figures and tables. Students who are unfamiliar with statistics have difficulty understanding the relevance of scientific information Lack of access to technology outside of school

G7.B1.S1 Curriculum-Move to alternative grading scheme in major program. One teacher will use both Standards Based Grading and Project Based Learning with approximately 75 major program students in biology Make the standards accessible and relevant to students to improve their grasp of important concepts The science department will write their own academic improvement plan including vertical articulation of skills and knowledge to be mastered at each grade level. Teachers will help students increase background knowledge by pushing for cross-curricular use of science-based articles as part of the text based reading that occurs in other classes. This will be introduced at grade level team meetings. The science department will also explore alternative course tracks such as Integrated Science 1, 2 and 3 for SWD Engage students by covering topics in an order that shows their relatedness particularly when eliminating topics that will not be tested Building a good story as the students explore biology helps them to understand that all topics are connected Instruction-incorporate more hands on activities for the more difficult topics can help low performing students be successful as well as provide differentiated instruction for Kinesthetic learners Standards-focus on NGSSS as well as the ELA Florida standards for Science Test Item Specifications-incorporate the available test specs into the assessments, both formative and summative. Test specs will be used to familiarize students with potential "test-like" questions Assessment-use of pre and post tests, use of test item specs, available practice tests/online materials. AIMS for Biology Differentiation Remediation-use formative assessments to identify students who need remediation in small groups on a daily basis Reteaching-use data from formative assessments, set a benchmark % to determine need for reteaching. Provide a science teacher for after school tutoring. Use the AIMS to identify which topics need to be retaught and which students need to attend tutoring. If students are not proficient in a standard, they would be required to attend after school tutoring to work with a science teacher Enrichment-Students who have demonstrated a master of a standard will be given opportunities to expand further on that benchmark. This can be done during reteaching/remediation for struggling students

PD Opportunity 1

Teachers will use AIMS to generate data for progress monitoring Teachers will receive training on how to integrate technology Teachers will receive training on student motivation (book study opportunity as well) Vertical teams within the science department will meet regularly Science teachers will communicate with other teachers and support staff regarding interdisciplinary units, shared knowledge of students and behavior strategies Participate in PLC's Attend trainings at the school level on literacy instruction within the science classroom Science teachers will meet with other subject area teachers to offer cross curricular insight

Facilitator

Jon Allen

Participants

Biology teachers will attend training on reading and writing in the content area

Schedule

Monthly, from 9/1/2016 to 6/1/2017

G8. To increase the number of underrepresented minorities in AP STEM courses

G8.B1 Students are not identified early enough to complete prerequisites for AP STEM courses Some students lack competency in reading comprehension, constructive writing, communication, and math

G8.B1.S1 1. Provide the PSAT to all students in grades 9-11 2. Use PSAT predictor reports to identify students for AP Stem courses. 3. Accelerate students in math by giving them 2 math classes in their sophomore year 4. Continue to offer AP Computer Science 5. Actively recruit underrepresented minority students to the IB program 6. Restructure curriculum to provide AP courses to students after 9th grade- AP Human Geography deferred to 10th grade and AP Env Science deferred to 11th grade 7. Provide summer bridge programs to provide enrichment and support to prepare students for rigorous courses 8. Provide extra academic and social support to students 9. AP Vertical Planning and training will be conducted with middle school teachers in core subject areas 10. Continue and expand partnership with College Board to provide training for teachers

PD Opportunity 1

Select students in honors courses and register them for PSAT Use PSAT reports to identify potential AP students Offer more AP courses Identify students from robotics class and coding club who can enroll in AP Stem courses

Facilitator

Stephanie Tate, Florida Partnership College Board

Participants

9th and 10th major program honors teachers, MP AP teachers, middle school core academic teachers

Schedule

Annually, from 9/5/2016 to 6/5/2017

G9. To increase number of industry certifications earned by students in CTE courses

G9.B1 six period day lack of funding access to technology outside of school students lack room in their schedules for CTE course offerings due to online requirement, IB diploma requirements students choose academic electives rather than CTE electives Level 1 readers need to be enrolled in a reading class instead of a CTE elective

G9.B1.S1 1. Meet with Career and Technical district staff members 2. Provide students with opportunities to take industry certification exams 3. Offer program in computer programming 4. Vertical planning among computer education teachers

PD Opportunity 1

Current CTE teacher will receive additional training Provide scheduling options so that beginning students can work with students in upper level programming classes Provide students with opportunities to take CTE exams in computers and culinary arts

Facilitator

CTE district personnel

Participants

CTE teachers will receive training to be certified in computer programming

Schedule

Semiannually, from 9/1/2015 to 5/31/2016

G11. To ensure that all students feel safe, appreciated and welcome at our school

G11.B1 students in the major program and the IB program do not interact in meaningful ways during the school day all students do not report feeling safe, appreciated and welcome at our school

G11.B1.S1 Photo activity-determine which students are not well-known to at least one adult on campus
