This plan is pending approval by the Osceola County School Board.

SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F or a monitoring status of "Former F" (see page 4). For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the Florida Department of Education's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

At the start of each academic year, traditional schools are classified for DA support in three categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- Not in DA – currently A, B, or C and not Monitoring Only; charter schools; ungraded schools
- Monitoring Only – currently A, B, or C that improved from a previous grade of F
- Focus – currently D
- Priority – currently F

DA Turnaround and Monitoring Statuses

Additionally, schools in DA may be subject to a turnaround status of "Planning" or "Implementing" or a monitoring status of "Former F." These statuses are based on a school's grades history, including the current school grade:

- Former F - A school with a status of "Former F" requires the department to monitor the implementation of strategies and progress toward the goals outlined in the school improvement plan for three years following the school's improvement from a grade of F to a C or higher.
- Planning - A school with a status of "Planning" requires the district to engage stakeholders in the development of a turnaround option plan to be implemented in the following year should the school grade not improve to a C or higher.
- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

I. Part I: Current School Status

A. Supportive Environment

1. School Mission and Vision

a. Provide the school's mission statement.

Challenging every individual to reach their full potential.

b. Provide the school's vision statement.

Our vision is to create a learning-focused culture wherein all stakeholders accept personal responsibility for the learning of every child.

2. School Environment

a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

Here at Deerwood, we will continue to build a positive relationship between teachers, students, and parents. Teachers are strongly encouraged to call parents to celebrate positive behavior and/or academic success. Furthermore, teachers are encouraged to write positive referrals weekly. When a student receives a positive referral, they are called to the office by the administration. Administration then speaks with the student about their success and contacts the student's parent or guardian. To celebrate the diverse cultures represented here at Deerwood, we will have various celebrations of culture throughout this year including a Hispanic Heritage Celebration and a Multi-cultural Fair.

Students will annually receive a survey that will provide the school with information about students' perception of the state of the school's culture and climate. Results will then be reviewed by staff, and we will take actions to support all of our diverse learners going forward.

b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

Deerwood has a very diverse student population. We are continuing to work diligently to stress customer service to all stakeholders to demonstrate respect to all. We will help students to feel respected by having a positive behavioral referral program. Furthermore, by adopting a growth mindset, we will look at discipline concerns as opportunities for students to learn and improve. We will have behavioral support and social/emotional support provided by our guidance counselor. We will follow Osceola County School's anti-bullying procedures and process to ensure that students feel respected by their peers. Our school resource officer will provide additional security and support to our students and staff.

To continue to create a safe environment, the students, parents and teachers will be given a survey where they will be allowed to express how safe and respected they feel and what they suggest can be done by the school to improve that environment.

c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.

The school is initiating the implementation of a proactive and positive approach to classroom management developed by Dr. Randy Sprick, CHAMPS. Staff will teach desired behaviors throughout the school and reinforce their display. Throughout the 2016-2017 school year, we will begin to transition to being a PBIS school, and we will have full PBIS implementation for 2017-2018.

d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

At Deerwood, we provide individual and group counseling and mentoring sessions to targeted groups to help them be successful. Furthermore, our guidance counselor, school psychologists, and social worker help support all of our learners to ensure that the social-emotional needs of the students are met. The administrative team is also available to all students to help support their social-emotional needs.

However, we continually seek to find new, or improved ways of partnering with parents to help our students become successful. Please review our school's PIP for more information regarding parental involvement.

2. Describe the process by which the school builds and sustains partnerships with the local community for the purpose of securing and utilizing resources to support the school and student achievement.

The school has a liaison that works directly with our community to build partnerships. The liaison goes out to the community and meets with community/business leaders and works on developing the partnership. The school has also teamed up with the Title I department to develop a stronger relationship and presence with our parents, and all of the families in the Poinciana community, through our Title I Community Resource Center.

If a student is not making adequate growth, the teacher is expected to remain in contact with the parents/guardians of the child, track student data utilizing i-Ready data and common formative assessments, offer appropriate interventions, and track the effectiveness of those interventions.

2. Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. We utilize, per county recommendation, i-Ready. This program will enable us to track the effectiveness of core instruction, as well as, the impact of specific data-based intervention strategies. This program provides diagnostic information that allows us to focus on the needs of specific students, as well as, specific groups of students. The data collected will drive our core instruction and our MTSS interventions.

Title I, Part A

To ensure students requiring additional remediation are assisted; extended learning opportunities, such as before and /or after school programs, and/or Saturday and/or summer school, are offered. E. Ambitious Instruction and Learning

1. Instructional Programs and Strategies

a. Instructional Programs

1. Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards.

Core instructional programs are provided and vetted by the Osceola County Schools. Other curricular materials are reviewed by our leadership team to make sure they are aligned to Florida Standards.

b. Instructional Strategies

1. Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments.

The entire school is assessed at the beginning of they year in reading and math to obtain baseline data using i-Ready. From baseline data and teacher input, students are grouped in sections of need. Depending on how much support a student may need is how differentiation is developed for each classroom. Students who fall under Tier 3 intervention in reading may need a more comprehensive intervention which is provided by a certified teacher while support staff monitors the other children

and provide Tier 1 and 2 support as needed. Students are reassessed monthly or bi-weekly depending on the type of support they are receiving.

2. Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:
