School Board Approval

This plan is pending approval by the Sarasota County School Board.

SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F or a monitoring status of "Former F" (see page 4). For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the Florida Department of Education's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

At the start of each academic year, traditional schools are classified for DA support in three categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- Not in DA – currently A, B, or C and not Monitoring Only; charter schools; ungraded schools
- Monitoring Only – currently A, B, or C that improved from a previous grade of F
- Focus – currently D
- Priority – currently F

DA Turnaround and Monitoring Statuses

Additionally, schools in DA may be subject to a turnaround status of "Planning" or "Implementing" or a monitoring status of "Former F." These statuses are based on a school's grades history, including the current school grade:

- Former F - A school with a status of "Former F" requires the department to monitor the implementation of strategies and progress toward the goals outlined in the school improvement plan for three years following the school's improvement from a grade of F to a C or higher.
- Planning - A school with a status of "Planning" requires the district to engage stakeholders in the development of a turnaround option plan to be implemented in the following year should the school grade not improve to a C or higher.
- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

I. Part I: Current School Status

A. Supportive Environment

1. School Mission and Vision

a. Provide the school's mission statement.

Wilkinson Elementary School believes that all children are entitled to a safe and stimulating environment, which will enable them to grow emotionally, intellectually, and physically. We will tailor the education of every student so that each child will excel!

b. Provide the school's vision statement.

Wilkinson Elementary School will strive to ensure that all learners in our school community develop knowledge, personal skills, self-esteem, positive attitudes, and values necessary to meet the challenges of an ever changing world.

2. School Environment

a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

Wilkinson has a very diverse student population. Our current school population includes over fifteen nationalities. We pride ourselves on creating inclusive environments that embrace and celebrate diversity. We have implemented many strategies and activities to address and meet the diverse needs of our learners. Our ESOL team provides several activities and opportunities throughout the year for parents and families to engage in school activities. These include: ESOL Parent Information Nights, Parent Engagement, International Celebration, Curriculum Night, Title I Information Night, Literacy Night, Science Fair Nights, Math Family Night, and individual parent conferences as needed. We have also embraced restorative strategies to help build relationships between teachers and students.

b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

Wilkinson Elementary has built a safe and respectful environment through the ongoing implementation of our Positive Behavior Support program. A consistent plan is in place school-wide ensuring that students and staff know and understand the expectations. Positive behavior expectations are reviewed on the morning news regularly and used throughout the campus.

Staff members are assigned arrival and dismissal duties to maximize supervision for student safety. Teachers greet students at their classroom door, welcoming students to school and creating an atmosphere of respect. Students can share any concerns with the Guidance Counselor or other support staff when needs arise.

c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.

During pre-planning week, all staff were given a handbook of the PBS expectations and plan. We school-wide expectations: Be polite. Be respectful. Be responsible. Be safe. Be an active learner. We have a PBS committee that meets monthly to analyze data, establish weekly and monthly celebrations and communicate PBS to their grade level teams members.

A Behavior Support Team has been established. This team works on Social Skills, PBS Expectations and is also available for intervention and crisis response. Restorative Strategies and Crisis Prevention Interventions are utilized when appropriate in both ESE and regular education classrooms. The Guidance Counselor is providing classroom guidance lessons focused on appropriate behavior. Behavior lessons are shared with teachers and also presented on the morning news weekly by the Behavior Support Team. All grade level teams determine classroom rules and consequences. Additionally, a "Behavior Communication Process" has been implemented to ensure that parents are being informed of any behavior concerns when a county referral is not yet warranted.

d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

Students have many options for emotional support. Students identified with IEPs and BIPs receive daily or weekly services with our school Guidance Counselor, Behavior Specialist, and/or Intervention Teacher. Daily social skills are provided by the Behavior Specialist for all students identified with social-emotional needs. Students with BIPs that are in the mainstream general educational classes are serviced regularly by the Behavior Support Teacher. The school Guidance Counselor works with several outside mental health agencies to provide in-school mental health counseling. The school Guidance Counselor is also working with classroom teachers to implement restorative strategies within the classroom.

3. Early Warning Systems

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(B)(ii)(III), (b)(1)(B)(iii)(I), and (b)(1)(I).

a. Describe the school's early warning system and provide a list of the early warning indicators used in the system.

The School Wide Support Team (SWST) meets weekly to problem solve regarding the early warning indicators. Interventions are developed to address concerns related to academics, behavior and attendance. Progress with Tier II and Tier III interventions are monitored regularly and the interventions are modified as needed. Communication with the family occurs throughout the process.

b. Provide the following data related to the school's early warning system

1. The number of students by grade level that exhibit each early warning indicator:

c. Describe all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system.

All Wilkinson staff members have been trained in the MTSS process. Grade level teams meet weekly to discuss student performance data. Data chats are held every 6-8 weeks to review student performance and identify trends. Interventions are created at SWST meetings to best meet the needs of students. Progress and results are reviewed regularly and interventions are modified as needed. The Administrative Team also meets weekly to problem solve and address areas of need. Team members work directly with teachers and small groups of students as needed.

Title I schools use the Parent Involvement Plan (PIP) to meet the requirements of 20 U.S.C. Â§ 6314(b)(1)(F).

a. Will the school use its PIP to satisfy this question?

Yes

1. PIP Link

The school completes a Parental Involvement Plan (PFEP), which is accessible through the Continuous Improvement Management System (CIMS) at <https://www.floridacims.org/documents/313965>.

2. Description

A PIP has been uploaded for this school or district - see the link above.

2. Describe the process by which the school builds and sustains partnerships with the local community for the purpose of securing and utilizing resources to support the school and student achievement.

Wilkinson Elementary has reestablished a Business and Community Partner program through a coordinator on staff. Administration works together with the coordinator to support existing partnerships while establishing new relationships within our community. The Business Partner Coordinator maintains a record of all partnerships and ensures that the school recognizes partnerships as outlined in our Business and Community Partnership brochure. Such recognition can include: acknowledgement in newsletters, listing on our website, car loop banners, etc. All Faiths Food Bank partners with our school to provide our families with a food pantry twice monthly and has recently added one Saturday monthly. Additionally, our Volunteer Coordinator has been recruiting new volunteers and mentors to come work with students. This includes senior citizens, community members and students from Suncoast Polytechnic High School.

1. Describe the roles and responsibilities of the members, including how they serve as instructional leaders and practice shared decision making.

The School Leadership Team, comprised of a leader from each grade level team and specials as well as ESE and Support Team representatives, has regularly scheduled meetings with Administration on Mondays. During these meetings school wide instructional goals are reviewed. The team uses an on-going problem solving and reflection practice to identify root causes for students' academic performance year-to-year and identify specific interventions designed to address the students' needs. Members are also given an opportunity to make decisions regarding capital outlay needs, professional development offerings and instructional practices in the school.

In addition to the weekly meeting, each member of the School Leadership Team facilitates collaborative planning meetings regularly to gather and disseminate information regarding student achievement and plan instructional strategies to accomplish goals and help every child succeed. Team leaders document team discussion topics on the CPT Action Plans to enhance student learning and ensure these notes are shared with Administration and, as appropriate, with other key leaders in the school.

2. Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

School leadership meets regularly and consults with school and district personnel (School Psychologist and Home School Liaison) to identify and track students at-risk both academically and behaviorally through the MTSS process. Leigh Michalajko leads this team comprised of other school-based support personnel and classroom teachers. The team uses a systematic problem-solving approach for Tier II and Tier III strategies/interventions to close the achievement gap for small groups or individual students and for those students who may need a more direct explicit approach for positive behavior support. The team works with the students' teacher(s) to implement the strategy/intervention. The team sets a timeline to review how the strategy worked based on student data. The team also attends grade level collaborative planning meetings to discuss students and instructional strategies that may increase student achievement.

Title I is a federally funded program designed to address the academic needs of low performing students in schools with a high percentage of economically disadvantaged students and to assist them in meeting the state's high standards, particularly in the areas of reading, writing, science, and mathematics. Title one funds are used throughout the school year to provide after school tutoring for students identified on the district/state progress monitoring list. Title I funds are also used to provide professional development to staff to increase use of instructional best practices, such as accountable talk and building academic vocabulary. Title I funds are used for Parent Engagement Events in which teachers provide data, training and materials to parents in order to further support students.

Supplemental services and materials are provided to improve the academic achievement and language acquisition of immigrant and English Language Learner students throughout the district. The ESOL Liaison works with the district to ensure implementation of appropriate programs on campus.

b. Development of this school improvement plan

The SAC committee reviews student achievement data from 2015-16 and discusses goals for the year based on the data. Areas of improvement are identified and discussed. The finalized SIP is

presented to the SAC Committee in October of 2016 and the SAC committee then assists in the on-going evaluation of the SIP throughout the 2016-17 school year

c. Preparation of the school's annual budget and plan

The school's input into the annual budget (personnel) is determined midway through the year in a meeting with district leadership discussing historical projections of student enrollment. When both school and district reach agreement on the projected enrollment, a personnel budget is created at the district level. Based upon generated FTE, a discretionary general fund, instructional materials, capital equipment/maintenance, and SAC budget (if applicable) are developed at the district level. These are reviewed with school leadership and SAC when available.

2. Describe the use of school improvement funds allocated last year, including the amount budgeted for each project.

Students grades 1-5 will receive a student planner/agenda book to use for planning, homework, and parent student communication. Kindergarten received School to Home communication folders. The amount used was \$2300.

3. Verify that the school is in compliance with section 1001.452, Florida Statutes, regarding the establishment requirements and duties of the SAC.

The Literacy Leadership team continues to focus on the implementation of Florida Standards specifically close reading, analyzing various texts, lexile ranges, and vertical alignment. School wide

events focused on literacy include Reading Counts, Parent Engagement, Literacy Night and International Night. The Literacy Leadership Team is working to secure volunteers and mentors who will serve as Reading Partners with selected students. The team monitors the use of the district Reading Program and ensures that materials and resources are available for targeted small group instruction. Administration promotes literacy regularly through Principal Luncheons with book talks.

D. Public and Collaborative Teaching

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(D).

1. Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction.

The Instructional Bargaining Contract requires that one common planning time per week is scheduled as a Professional Learning Community (PLC). Teams are made up of the grade level teachers as well as support staff. CPT meetings encourage positive working relationships as the teachers plan, analyze student data and work samples, and develop and share differentiated strategies and interventions. School Administration participates in six PLCs working with each grade level and department. A survey will be conducted at the end of the 2016-17 school year to determine the value of these six meetings and whether to continue this practice.

2. Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school.

Partnering new staff with veteran teachers through the SCIP program
School-based Professional Development to strengthen teacher skills
Collaborative Team Planning to ensure teacher support
Administrators will observe and give teacher feedback using the Teacher Evaluation System (TES).
Recently hired instructional staff all are highly effective teachers as documented by their evaluations and references. They were selected by a team representative of the open positions.

3. Describe the school's teacher mentoring program, including the rationale for pairings and planned mentoring activities.

The Sarasota County School Board provides a comprehensive mentoring program for all first year teachers working in Sarasota County Schools. Each teacher is paired with a certified mentor who has specific training in the Sarasota County School District's PRIDE Evaluation system.

Wilkinson Elementary ensures that SCIP mentoring activities are completed by new staff members with the support of his/her mentor. Documentation is presented to administration as evidence of completion of this program. Currently, we have five new staff members that are paired with mentors. We have assigned mentors based on level alike programs in order to provide a high level of support for our new staff members.

In addition to the SCIP program for new hires to Sarasota, we have five experienced staff who are new to Wilkinson. Each of these teachers has been paired with a mentor to assist with acclimation to the program, plant and people at Wilkinson.

E. Ambitious Instruction and Learning

1. Instructional Programs and Strategies

a. Instructional Programs

1. Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards.

We provide district adopted ELA and math programs that align with Florida State Standards. Also, we are using a computer based instructional program, i-Ready, that is aligned with Florida State Standards. In addition to the Reading and Math Series, the district provides instructional focus guides that provide FSA materials and strategies that teachers can utilize to ensure the Florida State Standards are being met. The district and school site offers up-to-date, on-going professional development on utilizing the adopted curriculum to meet the Florida Standards. Wilkinson staff will continue to focus on Math Instruction and Accountable Talk/Precise Vocabulary in Collaborative Planning Teams this year.

b. Instructional Strategies

1. Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments.

Teachers are given rubrics and student data (iREADY Reading and Math and classrooms assessments) that help to determine instructional groupings. Once students are identified in a group, progress is monitored and groupings are flexible. Teachers differentiate instruction and provide tiered remediation to address the skill deficits. Teachers use student data folders to track learning progress. Student data is used throughout the school year to monitor students who may be in need of more intensive assistance/instruction through the Multi-Tiered Support System (MTSS). Student data sheets are completed and monitored by the Administration along with the instructional support team.

2. Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:

Strategy: After School Program

Minutes added to school year: 3,840

Select First, Second and Third grade students, who are identified with specific deficits through the progress monitor system, will partake in an after school system program in which selected teachers will utilize computer assisted and direct instruction to address the specific skill deficits. The program will be repeated in the Spring for Fourth and Fifth Grade students.

Strategy Rationale

The students are provided with intensive, additional, small group instruction based on their specific skill deficit. Research has shown that this additional instruction is vital for success and mastery of standards.

2. Student Transition and Readiness

a. PreK-12 Transition

The school's response to this question may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(G).

1. Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

In the spring of each year, Wilkinson has a Kindergarten Roundup which allows preschoolers and their families an opportunity to visit the school. Parents receive information about the school's policies and procedures. At this time, parents meet with the kindergarten teachers and the school administrators. District staff participates to assist in kindergarten registration and to answer questions about student transition to kindergarten.

The school offers tours to students and parents which includes a visit to classrooms.

A "Meet the Teacher" Event is held the Thursday before school begins. This event offers students and families an opportunity to meet the teacher and explore the classroom.

Wilkinson staff participate in articulation meetings with local middle schools. This ensures a smooth transition for exiting fifth graders.

b. College and Career Readiness

1. Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

2. Identify the career and technical education programs available to students and industry certifications that may be earned through those respective programs.

3. Describe efforts the school has taken to integrate career and technical education with academic courses (e.g., industrial biotechnology) to support student achievement.

4. Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the [High School Feedback Report](#), as required by section 1008.37(4), Florida Statutes.
