SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F or a monitoring status of "Former F" (see page 4). For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the Florida Department of Education's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

At the start of each academic year, traditional schools are classified for DA support in three categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- Not in DA – currently A, B, or C and not Monitoring Only; charter schools; ungraded schools
- Monitoring Only – currently A, B, or C that improved from a previous grade of F
- Focus – currently D
- Priority – currently F

DA Turnaround and Monitoring Statuses

Additionally, schools in DA may be subject to a turnaround status of "Planning" or "Implementing" or a monitoring status of "Former F." These statuses are based on a school's grades history, including the current school grade:

- Former F - A school with a status of "Former F" requires the department to monitor the implementation of strategies and progress toward the goals outlined in the school improvement plan for three years following the school's improvement from a grade of F to a C or higher.
- Planning - A school with a status of "Planning" requires the district to engage stakeholders in the development of a turnaround option plan to be implemented in the following year should the school grade not improve to a C or higher.
- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

I. Part I: Current School Status

A. Supportive Environment

1. School Mission and Vision

a. Provide the school's mission statement.

This program contracts with the Lake County Public schools to provide educational and/or therapeutic services to children who are unable to function in the traditional classrooms. Services at LAKE Academy include individual, group and psychosocial rehabilitation. Treatment/behavior modification is evidence based and strives to promote appropriate behavior necessary for long-term success in school. We believe that creating a therapeutic environment in which students feel supported and emotionally safe increases the opportunities for achieving treatment goals and a successful return to public school.

b. Provide the school's vision statement.

Bringing Hope to Life

2. School Environment

a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

We have a diverse campus of students that come from diverse communities. Culture is learned through discussions that are integrated into the school curriculum throughout subject areas. This is especially true during times of social rehabilitation discussions and groups, and projects given in various subjects. Through these interactions, rapport is built with the teachers and students. Interactions during behavioral interventions and redirection afford opportunities to further expand upon those relationships. It is during these occurrences that students often divulge information about their cultural and family values and beliefs. These therapeutic interventions foster the relationships between staff and students.

b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

Staff encourage open communication with the students throughout the school day especially related to their emotional needs. During these communications if an issue related to bullying, threats, or other unsafe situations are exposed they are addressed immediately with the students. Students that have a therapist are also afforded the opportunity to have them present during the conversation. It is during these times that plans are developed to ensure the safety of student by addressing their safety concerns. The student or situation that has made the student feel unsafe is addressed directly and immediately. Students with therapists are afforded the opportunity to process the concerns further with the therapist.

As a global precaution for safety, students are checked daily with a metal detector and by hand. This includes checking their socks and shoes. Students found with any contraband are removed to another area and appropriate authorities are notified (if needed). Discovering contraband leads to a secondary search of the person and sometimes the school bus they have arrived on.

c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.

The school had a schoolwide behavioral plan implement throughout the school outlining the expected behaviors and documenting inappropriate behaviors. Within the scope of the behavior plan is the Positive Behavioral Support System. Student earn points during the day for exhibiting appropriate behaviors at predetermined times during the day. Integrated into the school bell system, an 2-3 second bell goes off during the day and staff mark whether the student has earned his point for that period. At the end of the day these points are calculated and added to their bank. The bank can then be used to purchase items from the school store on Friday.

The three areas addressed in the PBS System are respect, responsibility, and safety. Each of these categories are outlined on the behavioral points log along with the respective behaviors that fall under them. Indicated also is the consequences for these behaviors including not earning points for that period, being taken off level, or losing a level(s). Students are informed every year of the behavioral system and staff are retrained on this during preplanning week. Staff are also trained during this time on behavior intervention procedures and de-escalation techniques.

d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

We serve three distinct client bases within the school. The special day program serves students that are here for intensive behavioral and emotional needs. They are assigned a therapist that provides a both individual and group counseling to the students and are available during crisis situations that occur on campus. A psychosocial rehabilitation counselor (PSR) provides group training in the form of social and life skills. In the classroom the students have access to staff that provide support in crisis situations and are afforded LEAPS training. Psychiatric services are offered at the school for medication management and initial evaluations.

The alternative education and alternative disciplinary program students are afforded a referral to the Children's Clinical On-site Services (CCOS) that provides therapy services to the students. These services can also follow the student back to their zone school to assist with transition; this can be used for special day when they return to their zone school as well. Case management is another service offered to students with mental health challenges. The referral is made through the school or therapist for students identified as needing more oversight and parents that need additional support for the student. Services are coordinated through the case manager. For more severe needs, the CAT program offers direct psychiatric services to the student along with intensive oversight to prevent students from being placed in a more restrictive environment.

3. Early Warning Systems

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(B)(ii)(III), (b)(1)(B)(iii)(I), and (b)(1)(I).

a. Describe the school's early warning system and provide a list of the early warning indicators used in the system.

Attendance is pulled and reviewed on a monthly basis to identify students that have 5 or more cumulative unexcused absences. Truancy meetings are held with the parents regarding this along with the school social worker. Once the third meeting has been held the social worker again speaks with the parents and, at times, conducts a home visit. If there continues to be a truancy issue with the identified students she pursues court action (TIC).

Suspensions are only completed in our Alternative Disciplinary Program (ADP) and parents are contacted. Students that have 2 or more suspensions will have meetings held with the parents and MTSS can be pursued if there are behavioral or academic concerns. Parent meetings are documented and data is collected, and interventions are implemented based on problem solving meetings. MTSS is continued along the continuum until identified effective interventions or

identification is discovered.

Scholastic assessment are completed quarterly and this combined with other summative and formative assessments assists teachers identifying struggling students. Using this information teachers target students that are struggling through active feedback and instructional modification. In doing this, differentiation is employed for continued student academic success and prevents continued academic failure.

- Attendance below 90 percent
- Course failure in ELA or mathematics
- One or more suspensions, whether in school or out of school
- A level 1 score on the statewide, standardized assessments in ELA or mathematics.

b. Provide the following data related to the school's early warning system

1. The number of students by grade level that exhibit each early warning indicator:

Indicator	Grade Level													Total
	K	1	2	3	4	5	6	7	8	9	10	11	12	
Attendance below 90 percent	0	0	1	3	1	3	5	10	8	4	4	1	0	40
One or more suspensions	0	0	0	0	0	0	7	11	3	0	0	0	0	21
Course failure in ELA or Math	0	0	1	6	1	0	0	3	3	3	2	1	0	20
Level 1 on statewide assessment	0	0	0	7	2	1	12	10	14	2	4	0	0	52

The number of students identified by the system as exhibiting two or more early warning indicators:

Indicator	Grade Level														Total
	K	1	2	3	4	5	6	7	8	9	10	11	12		
Students exhibiting two or more indicators	0	0	0	6	1	0	7	10	8	3	4	1	0	40	

c. Describe all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system.

Student identified as having deficiencies in reading are provided intensive reading for 90 minutes in the morning. In their core curriculum differentiated instruction is provided using the Gradual Release of Responsibility Model. During this process teachers can continue to conduct formative assessments to ensure understanding of the information and proper completion of academic assignments. Elementary and middle school students can utilize Achieve3000 will be used this year to help student gain reading levels. This is web-based program that differentiates instruction based on student's reading ability.

Mathematics follows this same principal and students are afforded individual academic practice using IXL.Com. Through this program teachers can assign students mathematics skills in their areas of deficits and build upon their strengths. Students also can use Destination Success software to have critical instruction in deficient areas. Teachers can assign lessons and student can use these to better understand the concepts. Through the formative and summative assessments on IXL.com teachers can better monitor progress.

At the core of the academic issues are the behavioral interventions. Schoolwide PBS system is used as an award for successful behavioral management in the classroom. Students can then use the points earned to purchase items in the school store. This same management system affords students

more academic time and success by teaching the behavioral components needed for academic success including listening, concentrating, sitting, and practicing appropriate social interactions with students and staff. Social skills are learned through group therapy and PSR groups. LEAPS provides direct instruction of the appropriate social skills.

B. Family and Community Engagement

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(B)(iii)(I)(aa).

1. Describe how the school works at building positive relationships with families to increase involvement, including efforts to communicate the school's mission and vision, and keep parents informed of their child's progress.

Title I schools use the Parent Involvement Plan (PIP) to meet the requirements of 20 U.S.C. Â§ 6314(b)(1)(F).

a. Will the school use its PIP to satisfy this question?

No

1. PIP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

2. Description

A large portion of the parental population within the special day school, alternative disciplinary program and alternative education program are not involved with the students. We have targeted parents through parents night and offering resource fairs and parent lunches in an attempt to get the parents to come to the school and get involved with their students. These have yielded low turnout percentages for the events despite the staff offering incentives for the students for having their parents attended. In years past there have been some decent turn outs but in recent years it has been more challenging to get parental involvement.

2. Describe the process by which the school builds and sustains partnerships with the local community for the purpose of securing and utilizing resources to support the school and student achievement.

Throughout the school year resources are sought through written and verbal communication to community leaders. These are sought for participation in career fairs and educational presentations. It is during these events that students, teachers, and administration make essential community links for the at-risk prevention and intervention. As each interaction is successful, more and more communication between agencies occur. For instance, it took 3 years to get the LCSO Mounted Patrol to bring their horses out to the school during extended school year. After their first presentation the perception of the students changed and they offered to return whenever we wanted.

In years past, just reaching out to a new agency even for one student. Through breaking the perception of the school and students, community members are more open to provided support to the students. Efforts are being made to get more community involvement by seeking out funding sources including grants to solidify community partnership.

C. Effective Leadership

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(H).

1. School Leadership Team

a. Membership

Identify the name, email address and position title for each member of the school leadership team.:

Name	Title
Chieffallo, Chad	Principal
Mongiovi, Benedetto	Assistant Principal
Martin, Scartlett	Assistant Principal

b. Duties

1. Describe the roles and responsibilities of the members, including how they serve as instructional leaders and practice shared decision making.

The administrator of the school is the final filter for students needing additional supports and is a direct support the staff as an advisor for behavioral issues. Administrator has several years of experience in the mental health and behavioral field and offers advice to staff in dealing with behaviors. Paperwork is brought to him and is reviewed before the meeting with the district and parents. In addition, he develops additional forms for the staff as needed for behavioral data collection and has provided training to the teachers and behavioral techs on behavioral modification and support in the classroom. Ensuring maintenance of the school contracts and finding additional supports for the staff is also an essential duties. This includes finding and offering training opportunities for the staff and administrative personnel.

Benedetto Mongiovi, Assistant Administrator, holds degrees in the human services and educational field and has experience working in a private school and last year at LAKE Academy. He is an active member of the Army and is currently an reserve officer. He has a drive to work with this population and brings a background of financial savvy to the organization. His innate ability to work with this population along with financial fortitude allows him to complete the same responsibilities on campus in absence of the administrator. He is also the go to individual for technical support and works with the IT department on ensuring readiness of the campus for testing.

Scarlett Martin, Assistant Administrator, has previous experience in the mental health and education fields. She has a Masters Degree in Guidance and Counseling and hold certification in this area along with a degree in Mental Health Counseling. Her expertise will help to reduce the restraints and train staff on appropriate interventions and interactions. Completion of the Behavioral Analyst certification coursework will additional help her in this arena.

2. Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

Staff collect data through the behavioral daily points log. This information is then transposed onto the monthly graphs for level and daily points. This data is utilized to track intervention effectiveness, known changes in medications, or other personal changes when targeting a student for intervention. When collecting data for someone under Tier III interventions this is translated onto the appropriate forms and graphs for the school district.

Teachers are divided into teams of three and are assigned students under who are under Rtl or MTSS. Information is collected by the team and the teams meet to discuss the progress of the students and to ensure that data and paperwork is being completed. This is used to determine whether the FBA/BIP has to be modified for the students needs. Any information that is gathered by the staff from the parents is included in these discussions such as psychosocial factors, mental health issues, health problems, and other dynamics that may be interfering with the student's progress.

The same process is used for academic interventions. The progress of the student is tracked differently through assessments completed online or through formative assessments completed by the teacher. Summative assessments such as the Scholastic are also tracked for reading gains or losses. If the behavioral issues are directly related to the performance of the student or are a trigger for students' adverse behaviors then behavioral data is tracked for improvements or regressions.

Any student identified as needing further supports is then referred to Exceptional Student Education department for discussions about asking for further testing. Parents are invited to these meetings and data is reviewed to determine if the next step is needed. If not, further interventions are attempted and if agreed upon with the parents appropriate testing is requested by the school. Testing is then completed and a final meeting is held to determine eligibility.

PBS was started a few years ago as a school-wide intervention process. This has aided significantly with behavioral and academic issues with students. School store is used by students once per week to buy things with their points and the bell is built into the school bell system so that staff know when to give the points to students for Respect, Responsibility, and Safety. These have also been integrated into the school-wide behavioral monitoring system.

Title I Part D funding will be used to purchase additional equipment and supplies to supplement the existing materials already attained. Technology integrated will be a primary focus with dollars supporting online programs such as Achieve3000 and working towards Smart Board installation and use.

2. School Advisory Council (SAC)

a. Membership

Identify the name and stakeholder group for each member of the SAC.:

Name	Stakeholder Group
Dr. Charles Mojock	Business/Community
Tim Morris	Business/Community
Mike Sleaford	Business/Community
Jon Cherry	Business/Community
Claire Hedgcock	Business/Community
Jennifer Hill	Business/Community
Paul Johns	Student
Marion McNair	Business/Community
Frank Pelot	Business/Community
Dr. Cece Rivers	Business/Community
Jon Rivers	Business/Community
Jessie Smith	Business/Community
Lee Strawhun	Business/Community
Jill Baird	Business/Community
Chad Chieffallo	Principal

b. Duties

1. Provide a description of the SAC's involvement with the following activities, as required by section 1001.452(2), Florida Statutes

a. Evaluation of last year's school improvement plan

The SAC reviewed the SIP and gave suggestions for improvement.

b. Development of this school improvement plan

NA

c. Preparation of the school's annual budget and plan

SAC's involvement in this area was to help decide where the funds budgeted would best serve our student population.

2. Describe the use of school improvement funds allocated last year, including the amount budgeted for each project.

We have allocated a total of \$75,000 to be used for the purchase of new equipment for the students, such as Reading and Writing materials, as well as new supplies to support our PBS School Store. Funds were allocated for the addition of two new rooms to aid the expansion of the therapeutic and educational environment.. Portion of the money was used for the purchasing of new furniture and building beautification including painting, floor maintenance and repairs.

3. Verify that the school is in compliance with section 1001.452, Florida Statutes, regarding the establishment requirements and duties of the SAC.

Yes

a. If the school is not in compliance, describe the measures being implemented to meet SAC requirements.

3. Literacy Leadership Team (LLT)

a. Membership

Identify the name and position title for each member of the school-based LLT or similar group, if applicable.:

Name	Title
Chieffallo, Chad	Principal
Mongiovi, Benedetto	Assistant Principal
Martin, Scartlett	Assistant Principal

b. Duties

1. Describe how the LLT or similar group promotes literacy within the school, if applicable.

Major initiatives will be:

1. Increased reading fluency and comprehension.
2. Increase percentage of students reading at grade level.
3. Increase number of 3rd graders reading at grade level.
4. Increase parental involvement in supplemental reading at home.
5. Increase evidence-based resources for classroom teachers.

D. Public and Collaborative Teaching

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(D).

1. Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction.

Round-ups are conducted in the mornings to discuss any areas of concerns or issues that may arise during the day. Staff are encourage to use integrated curriculum and professional learning communities across classrooms, subject areas, and grade levels. This is also incorporated in the behavioral programming within the school. Teachers, behavioral techs, and administration work collaboratively in addressing behavioral issues. Staff with better rapport with certain students are sought to address them when in behavioral crisis. Administration will speak with students and walk throughout the campus to assess, assist, and intervene with active behavioral issues. From this a culture of cooperation and collaboration is formed.

2. Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school.

Lake Academy uses various methods of recruitment for these teachers including advertising and word of mouth through LCSB. Our main focus is on staff development from within to ensure that we have the needed teachers in the right positions, who are highly qualified in their subject areas.

3. Describe the school's teacher mentoring program, including the rationale for pairings and planned mentoring activities.

New teachers are paired with a seasoned teacher to aid in the transition into the classroom. Professional Learning Communities have been developed to assist with feedback and offer support. Teachers visit classrooms and offer support and feedback to the new teacher along with the administrators. New teachers visit the other classrooms to view interactions and educational standards that have to be met.

E. Ambitious Instruction and Learning

1. Instructional Programs and Strategies

a. Instructional Programs

1. Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards.

Teachers have access to CPalms and the Lake County School Boards blueprints, course descriptions, and academice materials. Identfyng the course expectations, teachers align the instructional materials with the blue prints of the school district. Lesson plans through CPalms are utilized or modified to incorporate other state standards in preparation for the ELA and MAFS standardized asssestsments. Through the use of adopted curriculum and support materials, teachers develop instructional plans to gear students toward academic success. Through alignment with the course description and district blue prints, teachers ensure that standards are addressed through instruction.

b. Instructional Strategies

1. Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments.

Student identified as having deficiencies in reading are provided intensive reading for 90 minutes in the morning. In their core curriculum differentiated instruction is provided using the Gradual Release of Responsibility Model. During this process teachers can continue to conduct formative assessments to ensure understanding of the information and proper completion of academic assignments.

Elementary and middle school students can utilize Achieve 3000 reading program for additional reading support and beginning this year teachers will begin instructing students using SRA materials for those on Access Points Curriculum.

Mathematics follows this same principal and students are afforded individual academic practice using IXL.Com. Through this program teachers can assign students mathematics skills in their areas of deficits and build upon their strengths. Students also can use Destination Success software to have critical instruction in deficient areas. Teachers can assign lessons and student can use these to better understand the concepts. Through the formative and summative assessments on IXL.com teachers can better monitor progress.

At the core of the academic issues are the behavioral interventions. School wide PBS system is used as an award for successful behavioral management in the classroom. Students can then use the points earned to purchase items in the school store. This same management system affords students more academic time and success by teaching the behavioral components needed for academic success including listening, concentrating, sitting, and practicing appropriate social interactions with students and staff. Social skills are learned through group therapy and PSR groups. LEAPS/ Child Safety Matters provides direct instruction of the appropriate social skills.

2. Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:

Strategy: Summer Program

Minutes added to school year: 4,326

Students can attend summer school to allow for additional support for 12 days. Interactive activities, one on one support, and hands-on participation allows for students to make some learning gains in reading and mathematics.

Strategy Rationale

This environment allows for a smaller setting outside of the school year for students to focus on deficiencies through fun, interactive means. Included within this is community involvement to support and affirm community relations within the school's community. Learning summer safety that can carry throughout the school year along with supporting and encouraging english and mathematics literacy affords and integrated educational environment.

Strategy Purpose(s)

- Core Academic Instruction
- Enrichment
- Teacher collaboration, planning and professional development

Person(s) responsible for monitoring implementation of the strategy

Martin, Scartlett, smartin@lsbc.net

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

Teachers monitor students daily to determine if learning gains are being met through formative assessments. This then directs the additional instruction and support for the next day.

2. Student Transition and Readiness

a. PreK-12 Transition

The school's response to this question may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(G).

1. Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

Being a highly transitional environment the ability to be highly effective in grade level progression is difficult. Within the context of intragrade level development students are exposed to a multitude of education tools and assessment to promote educational and academic growth in preparation for grade promotion. Being we are a K-12 school environment, students that are maintained in our environment over the course of academic progress benefit from the professional learning communities and collaborative learning environments between academic levels. Teachers for the subsequent years remain the same so students have the same educational staff for as many as 3-4 years, affording them the opportunity to progress based on the summative and formative assessments of the staff. Transitioning from one academic environment to another is easily done as teachers have been in communication and have worked with the students in behavioral setting allowing for a smoother transition. Students are prepared for the next level because the academic expectations for the teachers are aligned. For the middle and high school students, the same teachers rotate to the classrooms and students have transitional skills built in from the previous year.

b. College and Career Readiness

1. Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

Educational meeting are held on each student to determine their schedule of courses.

2. Identify the career and technical education programs available to students and industry certifications that may be earned through those respective programs.

Special day school and alternative placements drives the need for social rehabilitation and self management both of which are critical skills when preparing for college and career. Addressing these issues through academic and social skills development with the LEAPS/ Children Safety Matters program and prep courses allows for teachers to assist students with identifying areas of improvement. Through the implementation of these programs, direct instruction, and dialogue students are learning vital skills to make them college and career ready.

Teachers are also incorporating the technological aspects of college and career prep in assignments to prepare students for the return to their zone schools, technological training, and college courses. Completing PowerPoint documentations, internet searches, data collection and analysis, writing research supported papers, and learning formatting procedures along with using vital software prepare students for academic and career success.

3. Describe efforts the school has taken to integrate career and technical education with academic courses (e.g., industrial biotechnology) to support student achievement.

Students are provided access to information regarding vocational and secondary educational options. These options are based on the student performance ability and academic progress. Information is provided on meeting these standards so that students may attend various educational alternatives including Job Corps, LAKE Tech, and other independent educational service providers.

4. Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the [High School Feedback Report](#), as required by section 1008.37(4), Florida Statutes.

Data from the high schood feedback report is not available for LAKE Academy.

II. Needs Assessment

The school's completion of this section may satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(A).

A. Problem Identification

1. Data to Support Problem Identification

b. Data Uploads

Data uploads are not required by the Florida Department of Education but are offered as a tool for the needs assessment. In this section, the school may upload files of locally available data charts and graphs being used as evidence of need.

The following documents were submitted as evidence for this section:

No files were uploaded

2. Problem Identification Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the points of strength and areas of need that have been identified in the data.

Throughout the year formative and summative assessments are completed through the use of Scholastic, Brigance, ELA and MAFS testing. This information has revealed significant inadequacies in all academic areas especially reading and math. Student behavioral issues have interfered with academic progress and this is reflected in their performance in the class and on performance based testing. These have reviewed many students having 3-4 years of deficits in reading fluency and comprehension and mathematical computations.

B. Problem Analysis Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the underlying "why" or root causes for the areas of need identified in the data, as determined by situational awareness of, and research conducted by, the stakeholders involved in the needs assessment.

The school is highly transient in nature and large portion of students are not here from year to year. Secondly, students have academic deficits from their zone schools due to their behavioral issue. This combined with the learning disabilities and mental health components impact students ability effectively focus on learning thereby influencing retention of materials. The end result are students that have not completed their learning objectives from previous years and are unable to maintain normal academic pace.

C. Strategic Goals

School Improvement Goals

The following key is intended to help readers understand how the sections of this document correspond to the steps of the 8-step planning and problem-solving framework used in the School Improvement Plan. The Quick Key numbers can help registered users go directly to the point of entry for any given goal, barrier and strategy within the online survey.

Problem Solving Key

G = Goal

B =
Barrier

S = Strategy

1 = Problem Solving Step  **S123456** = Quick Key

Strategic Goals Summary

- G1.** There will be 10 or less incidents involving violence leading to the use of safety procedures and /or police involvement.
- G2.** There will be 10 or less reported incidents of bullying during the school year.
- G3.** Thirty-Five percent of elementary students (K-5) will master science concepts with 70 % accuracy as outlined by the district curriculum map and pace guides.
- G4.** Forty percent of middle school students will master science concepts with 70% accuracy as outlined in the district curriculum map and pacing guide.
- G5.** Thirty percent of students designated to take the FAA will making learning gains in reading by end of the school year.
- G6.** Twenty-Five percent of Biology EOC student will mastery required concepts as outlined in the district curriculum map and pacing guide with 70% accuracy.
- G7.** Thirty percent of students designated to take the FAA will show learning gains in math by the end of the school year.
- G8.** Forty percent of students will read at or above grade level by the end of the school year.
- G9.** Thirty-Five percent of elementary and middle school students will demonstrate grade level mathematics performance by the end of the school year.
- G10.** Thirty-Five percent of students in the Algebra I and Geometry courses will demonstrate proficiency by the end of their course in the designated subject matter.

Strategic Goals Detail

For each strategic goal, this section lists the associated targets (i.e., "SMART goals"), targeted barriers to achieving the goal, resources available to help reduce or eliminate the barriers, and the plan for monitoring progress toward the goal.

G1. There will be 10 or less incidents involving violence leading to the use of safety procedures and /or police involvement. 1a

G086792

Targets Supported 1b

Indicator	Annual Target
Discipline incidents	10.0

Targeted Barriers to Achieving the Goal 3

- High proportion of the students are sent to the school due to violent behaviors at their zone schools. The probability of violence in the school are dramatically increased due to these circumstances and environmental make-up.

Resources Available to Help Reduce or Eliminate the Barriers 2

- LEAPS This program teaches the appropriate social skills including conflict resolution and anger management that in combination with the PSR groups allow for students to learn appropriate ways to address and deal with anger and frustration. As a result students are less likely to respond in the negative fashion to request and provocation.
- Leesburg Police Department The community resource officer for this department and her sergeant have met with the school and have joined forces to work toward community and school safety. Information from the department about students will be shared to help ensure the safety of the school and maintain officer professionalism during their interactions with students. They have committed to rebuild the relationship between the school and police department along with assisting in early intervention with the younger student population.
- Individual Therapy (Special Day with Parental Approval) Students will be provided individual therapy in special day program. This will aid them in learning better coping skills, address past trauma, and work through current familial and individual issues to reduce aggressive responses. From this better communication, self-soothing techniques, and coping skills are learned.
- PSR Groups Students take part in PSR Groups in the special day program to address daily living skills, anger management issues, coping skills, communication skills, etc. to better learn how to work with others. This assist in learning appropriate responses to agitation, anger, and frustration along with communicating emotions and needs.

School Climate Survey - Student	10.0

Targeted Barriers to Achieving the Goal 3

- School is a behavioral-focused environment where students are sent for an inability to control their anger and frustrations. Large portion of the students have high comorbidity with both mental health and educational diagnosis making learning appropriate social skill increasingly difficult due to the high volume of disruptive events and provoking actions of others. Much of this is a manifestation of their mental health and home environment where the possibility for effective change is limited.

Resources Available to Help Reduce or Eliminate the Barriers 2

- LEAPS Online social skills program geared toward students that have difficulty with controlling and understanding their emotions. Lessons can be addressed as a group during periods of the day or can be fixated on one student at a time to work on personal growth. Lessons have been found to be effective is working with this type of student base.
- Therapeutic Services Individual and group therapeutic services are offered to the special day school population. Issues related to their mental illness are addressed along with conflict resolution can be addressed. Student can learn to work together and have the ability to verbalize their concerns with relation to their home life and educational environment. Goals are set with a proactive approach to addressing social and emotional issues.

 G086794

Targets Supported **1b**

Indicator	Annual Target
FCAT 2.0 Science Proficiency	35.0

Targeted Barriers to Achieving the Goal **3**

- Attendance Rate Many students come with poor attendance that interferes with the academic performance and learning. Students miss high rates of days or arrive late to school that compromises their ability to learn.
- Behavioral and Mental Health Complications A large percentage of the student population are dual diagnosed with educational and mental health problems. Lack of mental health maintenance or manifestation of the mental health disorder leads to lack of comprehension of lessons due behavioral and ability to attain to work. Mood swings, aggression, property destruction, threats, and verbal outbursts interfere with the educational environment of others and the individual education of the individual when they are in crisis.

Resources Available to Help Reduce or Eliminate the Barriers **2**

- Discovery Education Online resource for science that offers videos, articles, and interactive tools to support science learning and make it hands on. Videos allow for the information to come to life and offers opportunity for the teacher to summaries information and stop and ask questions. It also affords for formative assessments to be conducted through questioning and feedback.
- Discovery Knowledge Eyewitness Videos Provided detailed information about the subject matter and offers videos of the actual events discussed (e.g. volcanoes). Information can then be discussed and questions are used to determine learning gains and understanding.
- Weekly Reader Supplemental magazine that offers information and articles on various topics. These can be used for individual assignments and small group instruction. It is a modern media format and allows students to learn by reading and answering questions built into the material and those posed by the teacher.

Plan to Monitor Progress Toward G3. **8**

Unit test will be conducted following the pacing guide. Units will be revisited and modified assignments will then be given.

Formative assessments in class assignments through verbal feedback and questioning and through classwork conducted daily.

- Glencoe Reading Essentials Includes: 1. Textbook 2. Chapter Resources Practice Pages 3. Blueprints for Success A comprehensive curriculum that supports the curriculum map and pacing guide. It incorporates next generation sunshine state standards into all portions. This material can be used to conduct whole group, small group, and individualized instruction. It also provides support for the common core standards in reading and math.
- Eye Witness Videos Accounts of real events related to the subject matter being presented. Students are able to watch the events, take notes, and teacher and ascertain through formative assessment student progress and understanding. This information then can be used to determined the direction of the next lecture.
- Neos Computer based interactive tool that allows students to individual respond to a group question through the Know-It application, for test to be given, and differentiated questions to be asked. Teacher places the quizzes and questions in and information is uploaded to the main computer. Know-It offers immediate feedback the teacher on the individual and percentage of students that got the information correct.
- Discovery Education Access to modules and videos related to the information that is being presented in the classroom. Affords students to ability to work independently or as a small or whole group. Differentiation of materials allows for the student to access information on their own or with teacher assignment. The specificity of the programming allows further understanding and in-depth research.

Plan to Monitor Progress Toward G4. 8

Targeted Barriers to Achieving the Goal 3

- Lack of Parental Involvement Parental support especially for reading in the home decrease chance of meeting objective. Materials sent home with the parents may not be used by them to support students reading objectives.
- Transient Rate of Students There is a high transient rate for students. They return to zone schools and come back within various periods of time. Students moving in from outside state or coming from the zone schools may come in just prior to testing or towards the end of the school years.
- Attendance Rate Many students come with poor attendance that interferes with the academic performance and learning. Students miss high rates of days or arrive late to school that compromises their ability to learn or participate in the 90 minutes of reading in the morning.

Resources Available to Help Reduce or Eliminate the Barriers 2

- Achieve3000 Web Based Differentiated Reading Program that allows students and teachers to select preferred reading materials based on a particular subject matter and lexile level. Program automatically adjusts students reading level based on performance and integrates other programs, subject matter and games to keep the student's interest.
- Hooked on Phonics Reading program that teaches alphabetic and word recognition, sounds, blends, picture to word identification and progresses from beginner to intermediate to on level reading. It uses visual and auditory contexts to aid in comprehension and understanding
- Neos Computer based interactive tool that allows students to individual respond to a group question through the Know-It application, for test to be given, and differentiated questions to be asked. Action Plan for Improvement

For each strategy selected in the plan to reduce a targeted barrier to a strategic goal, this section lists the rationale for that strategy (i.e., why the school believes it will reduce the barrier) and the action steps that have been identified as necessary to implementing the strategy, including details such as the point person, timing and duration, and evidence of completion. At the end of each set of action steps is the plan for monitoring the implementation and effectiveness of the respective strategy.

G1.B1 High proportion of the students are sent to the school due to violent behaviors at their zone schools. The probability of violence in the school are dramatically increased due to these circumstances and environmental make-up. **2**

 **B230722**

G1.B1.S1 Students in all classrooms will receive LEAPS or PSR counseling to address appropriate social skills development 30-45 minutes per day **4**

 **S243413**

Strategy Rationale

Intervening with students in a preventative vs. reactive means will reduce the violent encounters by addressing the appropriate ways to deal with conflict resolution and anger management. This also will include information on peer pressure, substance abuse, and risky behaviors all of which contribute to violent behaviors in the school system.

Action Step 1 **5**

Students will receive 30-45 minutes of LEAPs or PSR counseling per day

Person Responsible

Evidence of Completion

Decrease in the number of incident reports involving these circumstances.

G1.B1.S2 Students in the Special Day program will receive individual counseling one time per week **4**

 S243414

Strategy Rationale

Individual counseling allows for individual and family issues to be addressed while instructing on coping skills and anger management techniques. This will prevent the escalation of emotions that lead to violent or aggressive behaviors.

Action Step 1 **5**

Students will receive individual or family counseling once per week.

 B230723

G2.B1.S1 Psychoeducational training for the students in relation to their emotional states and mental health awareness. 4

 S243415

Strategy Rationale

As students become more aware of their own emotions in relation to their mental illness and environmental factors, they will better learn how to control their responses and reduce the possibility of provocation, reducing the incidents of documented bullying.

Action Step 1 5

Completion of LEAPS Lessons during the day

Person Responsible

 G086794

G3.B2 Attendance Rate Many students come with poor attendance that interferes with the academic performance and learning. Students miss high rates of days or arrive late to school that compromises their ability to learn. 2

 B230725

G3.B2.S1 Monthly monitoring of student attendance. 4

 S243416

Strategy Rationale

By addressing individual attendance early and frequently, student are losing less educational time and have the ability to stabilize behaviors that are preventing academic performance.

Action Step 1 5

Download attendance for students with greater than three absences in the last month.

Person Responsible

Scartlett Martin

Schedule

Monthly, from 8/10/2016 to 6/30/2017

Evidence of Completion

Action Step 1 **5**

Review of the PBS System and behavioral level system

Person Responsible

Scartlett Martin

Schedule

Daily, from 8/10/2016 to 6/30/2017

Evidence of Completion

Documentation of the training.

Action Step 2 **5**

Observed daily interactions of staff with students and review of behavioral data and restraints.

Person Responsible

Scartlett Martin

Schedule

Weekly, from 8/10/2016 to 6/30/2017

Evidence of Completion

Documentation of observation of classrooms and entering restraints and incidents reports in proper databases.

Plan to Monitor Fidelity of Implementation of G3.B3.S1 6

Documentation of observations and monitoring of monthly behavioral data and restraints.

Person Responsible

Scartlett Martin

Schedule

Monthly, from 8/10/2016 to 6/30/2017

Evidence of Completion

Documentation that the review of the data was completed by the administrator.

Plan to Monitor Effectiveness of Implementation of G3.B3.S1 7

Review of the incident reports, restraints, and daily points logs for increases and decreases in behaviors.

Person Responsible

Scartlett Martin

Schedule

Monthly, from 8/10/2016 to 6/30/2017

Evidence of Completion

Information being entered into DOE database along with daily points logs and number of incident reports being completed and turned into administration.

G3.B3.S2 Increased staff knowledge of mental health and behavioral management. 4

 S243418

Strategy Rationale

Learning about the multitude of mental health disorders that they work with in the classroom allows for staff to properly intervene with the students with evidence-based practices. Understanding the conditions reduces the need for physical intervention and assists in building the rapport necessary for academic success.

Action Step 1 5

Review relevant literature with staff related to various mental health conditions

Person Responsible

Scartlett Martin

Schedule

Monthly, from 8/10/2016 to 6/30/2017

Evidence of Completion

Documentation of meeting with teachers and techs.

Plan to Monitor Fidelity of Implementation of G3.B3.S2 6

Assign staff articles to read and review with them during individual or group meetings.

Person Responsible

Scartlett Martin

Schedule

Monthly, from 8/10/2016 to 6/30/2017

Evidence of Completion

Meeting documentation showing that the meetings have occurred and the information was reviewed.

Plan to Monitor Effectiveness of Implementation of G3.B3.S2 7

Monitoring the number of behavioral incidents involving the use of calming time or physical restraint.

Person Responsible

Scartlett Martin

Schedule

Monthly, from 8/10/2016 to 6/30/2017

Evidence of Completion

Decrease in the number of incident reports and calming time logs would indicate the success of the training.

G4. Forty percent of middle school students will master science concepts with 70% accuracy as outlined in the district curriculum map and pacing guide. 1

 G086795

G4.B2 Attendance Rate Many students come with poor attendance that interferes with the academic performance and learning. Students miss high rates of days or arrive late to school that compromises their ability to learn. 2

 B230729
