### School Board Approval

This plan was approved by the Marion County School Board on 1/24/2017.

### SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F or a monitoring status of "Former F" (see page 4). For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the Florida Department of Education's school improvement planning web application located at <https://www.floridacims.org>.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

### Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

### Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

### Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

### Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

## Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

### DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

### DA Categories

At the start of each academic year, traditional schools are classified for DA support in three categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- Not in DA – currently A, B, or C and not Monitoring Only; charter schools; ungraded schools
- Monitoring Only – currently A, B, or C that improved from a previous grade of F
- Focus – currently D
- Priority – currently F

### DA Turnaround and Monitoring Statuses

Additionally, schools in DA may be subject to a turnaround status of "Planning" or "Implementing" or a monitoring status of "Former F." These statuses are based on a school's grades history, including the current school grade:

- Former F - A school with a status of "Former F" requires the department to monitor the implementation of strategies and progress toward the goals outlined in the school improvement plan for three years following the school's improvement from a grade of F to a C or higher.
- Planning - A school with a status of "Planning" requires the district to engage stakeholders in the development of a turnaround option plan to be implemented in the following year should the school grade not improve to a C or higher.
- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

## I. Part I: Current School Status

### A. Supportive Environment

#### 1. School Mission and Vision

##### a. Provide the school's mission statement.

Every child is capable of learning and has the potential to become a responsible, contributing adult member of society. Based upon this belief, it is the mission of Greenway Elementary to maintain a challenging curriculum with high expectations for all students to achieve their personal best, thus preparing them to develop into lifelong learners and problem solvers.

An effective instructional program that allows for optimal progress for each student regardless of developmental or cognitive level must support the aforementioned curriculum, and must be presented in a secure, comfortable, well-maintained and organized school environment where all members of the school community feel nurtured and welcomed.

##### b. Provide the school's vision statement.

Greenway Elementary will provide an educational environment where each individual of the school community is valued, respected, and encouraged to reach their fullest potential as a productive citizen.

#### 2. School Environment

##### a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

Greenway values parent input regarding students' strengths, weaknesses, needs, and personal cultures. We constantly inquire asking parents for feedback and input regarding how we can best meet the needs of their child. Greenway is in the business of building relationships with both students and parents or guardians knowing that these relationships can have a positive impact of our students. In addition, teachers are actively building positive relationships with their students through personal interactions, such as showing interest in a student's activities within the school day and outside the school day, ensuring that students are making good choices regarding behavior and commitment to academics and showing a consistent desire to provide engaging instruction.

##### b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

Our number one priority is safety. We begin with creating a safe arrival and dismissal process. Parents are notified in writing on or procedures for keeping their children safe during the time of arriving on campus and exiting our school campus. In addition to our high security fencing, classroom doors are kept locked for added safety. Students are provided opportunity to participate in practice drills for fire, code yellow, code red, and tornado drills. Students are rewarded for following school rules with Gator Bucks which is part of our positive reward system. Student respect can be noted in many areas of the campus. Respect is first observed as teachers greet students at the door as they enter the classroom. One of our three school-wide expectations includes to be respectful - to each other and we embrace the idea toward our students and student to student. All adults on campus have 2 "Respect Bucks" each month to give to a student that demonstrates respect. Then, each month there is a special event that the recipient is afforded an opportunity to attend or participate. The Kindness Revolution is part of our school culture so that students are recognized for respect and kindness.

**c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.**

Greenway is proud to be part of the Positive Behavior System (PBS) initiated throughout our District. This is our first line of defense. Administration and teachers are highly encouraged to provide positive feedback with our parents/guardians. These positive phone calls or other communication will provide an added incentive for students to earn this same type of positive communication.

If students are not responding to the positive reinforcement, then teachers are required to document student issues, along with strategies used to change behavior as well as consequences that students have experienced. When adequate consequences are met and behavior is still not acceptable, then the Dean of Students becomes involved with the student and we follow the district student discipline procedures.

**d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.**

Teachers are encouraged to monitor the social-emotional needs of their students. As they become aware of any issues with their students, or others on our staff become aware of needs, the needs are addressed with administration, the leadership team, and/or the guidance counselor. The guidance counselor is trained to work through some of the social-emotional needs of our students. At the point we are not able to adequately meet the needs of the student, we refer the case to our District Problem Solving Team. Through discussion, the students maybe mentored, provided additional or outside counseling, or provided academic support.

### 3. Early Warning Systems

We also conduct a Title I meeting that affords parents the knowledge regarding our Title I status.

Our administration and faculty are regularly making positive contact with parents and guardians so that Greenway has a positive impact in our community. Our school uses the PBS program, Positive Behavior Support, which helps to ensure that our students are rewarding for good and appropriate behavior. Students demonstrating appropriate behavior are often more engaged in learning, therefore increasing our student achievement.

Publix and Wal-Mart in our area support our school and students with school supplies that are donated by the local customers of these stores. These businesses also provide other donations throughout the year. Donations to the school allows us to continue to motivate students to make academic gains.

### D. Public and Collaborative Teaching

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(D).

##### 1. Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction.

Title I funds are used three times a year to provide substitutes so that teachers are afforded the opportunity to collaborate by grade level so that they can plan and share effective teaching strategies. Once a year there is an opportunity for vertical teams to meet and discuss student's needs for the upcoming year.

Through creative scheduling, teachers are given approximately 5 hours of continuous grade level planning every 7 weeks. This allows collaboration and encourages positive working relationships with our teachers. This time is used for unwrapping the standards, looking at data and sharing best practices of instruction.

During trainings and faculty meetings, meetings begin with sharing 5 positive things that might have happened to someone in our group. This encourages our teachers and helps to create positive working relationships.

## **2. Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school.**

Teachers are given support if they are new to teaching, or new to a grade level. Rookie teacher meetings provide an opportunity for new teachers to discuss grade level curriculum/planning, sharing best practices, classroom management, strategies for raising student achievement, data review for differentiated instruction, etc. Reading Coach, Academic Coach, and Administration are available to model instruction and planning for new teachers. Mentee's provide extra support to teachers new to a Grade level.

## **E. Ambitious Instruction and Learning**

### **1. Instructional Programs and Strategies**

#### **a. Instructional Programs**

##### ***1. Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards.***

Our district adopted curriculum in reading and math is aligned to Florida Standards. In addition, our District provides extensive curriculum resources that are aligned to the Florida Standards which is highly suggested that teachers use as a resource. Administration closely monitors classroom instruction to ensure that the core instructional program is aligned to the Florida Standards.

District created assessments are another avenue to ensure that instruction is aligned to Florida Standards.

#### **b. Instructional Strategies**

##### ***1. Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments.***

We use the district endorsed and stated approved Wonders Reading series. This series is aligned to the Florida Standards. Teachers are given copies of the Florida Standards along with District created curriculum maps aligned to the Florida standards.

District provides monthly opportunities for training and staff development in the core curriculum areas. Half days are used for school site training by instructional coaches, STEM Leads, and administration.

As formative assessments or district created assessments are given, teachers are required to analyze the data and determine how instruction should be changed to meet the individual needs of the students.

During classroom instruction, teachers are required to provide differentiated instruction to students that require additional assistance or enhanced learning.

During our iii time, many different levels of remediation and enrichment take place every day for 40 minutes.

**2. Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:**

**Strategy:** Weekend Program

**Minutes added to school year:** 0

Our students are rewarded for reading during the weekend. We have a program called, Weekend Warriors, and our students are eager to read in order to compete for the prizes.

**Strategy Rationale**

The more students read, the better they become at reading, as well as learning the love of reading.

**Strategy Purpose(s)**

- Core Academic Instruction
- Enrichment

**Person(s) responsible for monitoring implementation of the strategy**

Clark, Luann, luann.clark@marion.k12.fl.us

**Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy**

Weekly totals of students reading. Weekly reading assessments, classroom observation, and formative assessments. In addition, FSA and LEOCs will help determine the effectiveness of our reading program.

**2. Student Transition and Readiness**

**a. PreK-12 Transition**

The school's response to this question may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(G).

**1. Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.**

Title I District office provides 2 Title I Pre-K/VPK program on the Greenway campus. All students are fully integrated into the school setting thus helping them transition to Kindergarten. In addition, information is provided to our parents from the Title I Office on the HIPPY (Home Instruction for Parents of Preschool Youngsters) program.

MCPS provides an Exception Student Education Pre-K Program in our District for eligible 3 thru 5 year of age. All students are fully integrated into the school setting which provides help in the transition to Kindergarten. MCPS also provides a Summer VPK Program for eligible Pre-K students. FLKRS and WSS are administered to kindergartners within the first 30 days to evaluate the effectiveness of these our Pre-K programs.

Kindergarten registration begins in April and continues until school begins in the fall. Beginning in April each year, Marion County Public Schools coordinated with Childhood Development Services Inc. and the Early Learning Coalition to assist in the registration of Pre-K students. A school-based, week long, Kindergarten Round Up is planned for the spring and is advertised through community based flyers, letters sent home with current students, and a SkyLert message to the parents. A special orientation is provided to all parents of kindergarten students to give them information regarding school policies and procedures to help orient them to the school. STAGGER START is a district initiative to assist kindergarten students in transitioning into local elementary schools. The primary focus of stagger start is to give the staff the opportunity to administer assessments, including FLKRS, and begin to develop one- on-one relationships with students.

As we begin to move from Elementary to Middle School, during Feeder Pattern meetings we are able to find areas that need to be addressed as students move from elementary to middle school. There is an emphasis on meeting the academic expectations required for 6th grade. Students are often encouraged to be more engaged in learning as the evidence of struggling students will mean the loss of choice for electives in middle school.

## **b. College and Career Readiness**

**1. Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.**

Marion County Public Schools implements standards provided by the state that are set to prepare students for success and make them competitive in the global workplace. Each Florida Standard provides clear expectations for the knowledge and skills students need to master in each grade (K-12) and subject so they will be prepared to succeed in college, careers and life.

**2. Identify the career and technical education programs available to students and industry certifications that may be earned through those respective programs.**

**3. Describe efforts the school has taken to integrate career and technical education with academic courses (e.g., industrial biotechnology) to support student achievement.**

The Florida Standards supports the implementation of the skills and knowledge necessary for success in STEM related experiences. Marion County Public Schools implements the Florida Standards which consist of:

- A curriculum driven by problem-solving, discovery and exploratory learning that requires students to actively engage a situation in order to find its solution.
- Innovative instruction allows students to explore greater depths of all of the subjects by utilizing the skills learned.
- Independent and collaborative research projects embedded in the curricula.
- Collaboration, communication, and critical thinking skills threaded throughout the curricula.
- Real-world, problem-based applications.
- Content rich instruction.

**4. Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the [High School Feedback Report](#), as required by section 1008.37(4), Florida Statutes.**

## **II. Needs Assessment**

The school's completion of this section may satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(A).

### **A. Problem Identification**

#### **1. Data to Support Problem Identification**

### **b. Data Uploads**

Data uploads are not required by the Florida Department of Education but are offered as a tool for the needs assessment. In this section, the school may upload files of locally available data charts and graphs being used as evidence of need.

The following documents were submitted as evidence for this section:

*No files were uploaded*

### **2. Problem Identification Summary**

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the points of strength and areas of need that have been identified in the data.

### **B. Problem Analysis Summary**

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the underlying "why" or root causes for the areas of need identified in the data, as determined by situational awareness of, and research conducted by, the stakeholders involved in the needs assessment.

### **C. Strategic Goals**

## School Improvement Goals

*The following key is intended to help readers understand how the sections of this document correspond to the steps of the 8-step planning and problem-solving framework used in the School Improvement Plan. The Quick Key numbers can help registered users go directly to the point of entry for any given goal, barrier and strategy within the online survey.*

### Problem Solving Key

**G** = Goal

**B** =  
Barrier

**S** = Strategy

 = Problem Solving Step     S123456 = Quick Key

## Strategic Goals Summary

- G1.** If we increase our knowledge of differentiated instruction, then through more effective planning and implementation of rigorous instruction, we will raise student achievement.

## Strategic Goals Detail

*For each strategic goal, this section lists the associated targets (i.e., "SMART goals"), targeted barriers to achieving the goal, resources available to help reduce or eliminate the barriers, and the plan for monitoring progress toward the goal.*

**G1.** If we increase our knowledge of differentiated instruction, then through more effective planning and implementation of rigorous instruction, we will raise student achievement. 1a

G087353

**Targets Supported** 1b

Indicator	Annual Target
Math Gains	59.0
Math Lowest 25% Gains	50.0
FCAT 2.0 Science Proficiency	50.0
ELA/Reading Gains	65.0

**Targeted Barriers to Achieving the Goal** 3

- Bucket #1 Data used for planning/ instruction and student achievement goals needs to improve. Effective Data chats with students would increase student achievement. Our teachers do not share enough data with parents. Lack of knowledge of school and district resources limits effective instruction.
- Bucket #2 Learn to teach/ plan by the standard, not by the textbooks (Wonders as a resource). Teachers need to know how to differentiate the standards and find resources to meet student needs.
- Bucket #3 Organizational scheduling for collaborative planning through differentiated instruction is deficient. Weekly collaboration with peers would improve instruction and student engagement through differentiated instruction. Resistant learners need attention.

## Action Plan for Improvement

For each strategy selected in the plan to reduce a targeted barrier to a strategic goal, this section lists the rationale for that strategy (i.e., why the school believes it will reduce the barrier) and the action steps that have been identified as necessary to implementing the strategy, including details such as the point person, timing and duration, and evidence of completion. At the end of each set of action steps is the plan for monitoring the implementation and effectiveness of the respective strategy.
