Note: The school grades calculation was revised substantially for the 2014-15 school year to implement statutory changes made by the 2014 Legislature and incorporate the new Florida Standards Assessments. The 2014-15 school grades serve as informational baseline data that schools can use to improve in future years.

School Board Approval

This plan is pending approval by the Polk County School Board.

SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F or a monitoring status of "Former F" (see page 4). For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the Florida Department of Education's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

At the start of each academic year, traditional schools are classified for DA support in three categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- Not in DA – currently A, B, or C and not Monitoring Only; charter schools; ungraded schools
- Monitoring Only – currently A, B, or C that improved from a previous grade of F
- Focus – currently D
- Priority – currently F

DA Turnaround and Monitoring Statuses

Additionally, schools in DA may be subject to a turnaround status of "Planning" or "Implementing" or a monitoring status of "Former F." These statuses are based on a school's grades history, including the current school grade:

- Former F - A school with a status of "Former F" requires the department to monitor the implementation of strategies and progress toward the goals outlined in the school improvement plan for three years following the school's improvement from a grade of F to a C or higher.
- Planning - A school with a status of "Planning" requires the district to engage stakeholders in the development of a turnaround option plan to be implemented in the following year should the school grade not improve to a C or higher.
- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

I. Part I: Current School Status

A. Supportive Environment

1. School Mission and Vision

a. Provide the school's mission statement.

As Explorers at Sleepy Hill Elementary, we will implement district curriculum to prepare all students to be full participants in the global community of the future. We will show respect, display healthy attitudes, explore responsibly, and always put safety first.

b. Provide the school's vision statement.

At Sleepy Hill Elementary, it is our vision that a rigorous, relevant curriculum, enhanced by technology that will assure our students achieve skills necessary to succeed academically and become life-long learners. Consistent integration of technology throughout the academic day will promote our students to become self guided explorers of the vast amounts of information available at their fingertips. We will unite parents, faculty and community members to establish an atmosphere of mutual acceptance, ongoing interest in high levels of academic achievement, and a sense of community for all. The realization of this vision will allow our learning community to interface with technology for a more fulfilling exploration of their global world.

2. School Environment

a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

The student population at Sleepy Hill is very diverse and we believe by embracing this diversity we can develop strong relationships between teachers and students. Currently we employ five bilingual teachers and two bilingual ESOL paraeducators which enable us to develop relationships with the students and their families by bridging the communication gap and providing insight to cultural awareness. This year we have also started a new "Boys to Men" mentoring club which will help develop leadership skills and confidence in our minority male students. Staff has also attended training on "Working with Diverse Parents" and "Engaging Families in Student Learning".

b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

Sleepy Hill Elementary School uses a school-wide positive behavioral support system in which positive support procedures are intended for all students and staff across the campus. The aim of this program is to create an environment that supports and reinforces positive behavior, which will lead to more effective time on task. Our school wide expectations are: show respect, healthy attitude, explore responsibly, and safety always. In addition, we are teaching our students the 7 Habits of Highly Effective People as part of our social skills development.

c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.

The Tier 1 Curriculum and resources that will be used at Sleepy Hill to manage student behavior are: Positive Behavior Intervention/Support, The Leader in Me- 7 Habits of Highly Effective People, CHAMPs, and Class Dojo. We believe an effective classroom management plan prevents

misbehavior and is continually refined to help students become increasingly respectful, responsible, motivated and highly engaged in instructional activities.

d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

On site we have a school psychologist and a guidance counselor. In addition, we also have a social worker that specializes in bullying. These individuals, along with the administrative team mentor students throughout the school year. The guidance counselor also works with specific students on social skills and provides counseling with designated students. This year, we have also added a Behavior Interventionist who provides coaching to the teachers on how to establish and implement the Tier 1 behavior initiatives. The Behavior Interventionist also monitors and problem solves routines and procedures to ensure we have a safe and orderly learning environment. The district also provides mental health counseling and assistance with behavior analysts as needed.

3. Early Warning Systems

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(B)(ii)(III), (b)(1)(B)(iii)(I), and (b)(1)(I).

a. Describe the school's early warning system and provide a list of the early warning indicators used in the system.

Sleepy Hill Elementary's leadership team accesses and discusses the Early Warning Bulletin sent out by the district each month. The indicators that we look at are for students that are absent 10% or more of the days enrolled, over-age 2 or more years for the grade level, one or more suspensions, and students who have scored a Level 1 on the statewide, standardized assessments.

b. Provide the following data related to the school's early warning system

1. The number of students by grade level that exhibit each early warning indicator:

Indicator	Grade Level													Total
	K	1	2	3	4	5	6	7	8	9	10	11	12	
Attendance below 90 percent	0	17	12	10	8	6	0	0	0	0	0	0	0	53
One or more suspensions	1	4	7	5	4	12	0	0	0	0	0	0	0	33
Course failure in ELA or Math	0	0	0	0	0	0	0	0	0	0	0	0	0	
Level 1 on statewide assessment	0	0	0	0	0	23	0	0	0	0	0	0	0	23

The number of students identified by the system as exhibiting two or more early warning indicators:

Indicator	Grade Level													Total
	K	1	2	3	4	5	6	7	8	9	10	11	12	
Students exhibiting two or more indicators	0	1	2	3	12	12	0	0	0	0	0	0	0	30

c. Describe all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system.

The Multi-Tiered System of Supports team meets regularly to discuss and plan for students that are identified by the early warning system. These students' data is monitored regularly at the MTSS meetings. Students that are identified by the early warning system for academics are given Tier 2 support and possible Tier 3. Daily differentiated small group instruction occurs in all classroom to help build student skills and improve academic performance.

B. Family and Community Engagement

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(B)(iii)(I)(aa).

1. Describe how the school works at building positive relationships with families to increase involvement, including efforts to communicate the school's mission and vision, and keep parents informed of their child's progress.

Title I schools use the Parent Involvement Plan (PIP) to meet the requirements of 20 U.S.C. Â§ 6314(b)(1)(F).

a. Will the school use its PIP to satisfy this question?

Yes

1. PIP Link

The school completes a Parental Involvement Plan (PFEP), which is accessible through the Continuous Improvement Management System (CIMS) at <https://www.floridacims.org/documents/314271>.

2. Description

A PIP has been uploaded for this school or district - see the link above.

2. Describe the process by which the school builds and sustains partnerships with the local community for the purpose of securing and utilizing resources to support the school and student achievement.

Sleepy Hill Elementary encourages partnerships with all stakeholders. The School Advisory Council welcomes parents, business partners and community members to participate in helping to develop and monitor the School Improvement Plan. The Parent Teacher Organization works to create capacity building activities which encourage parents to become involved in their child's education. Sleepy Hill Elementary also actively seeks partnerships with local businesses to gain support and resources that will enhance the educational opportunities for student achievement.

C. Effective Leadership

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(H).

1. School Leadership Team

a. Membership

Identify the name, email address and position title for each member of the school leadership team.:

Name	Title
Durrance, Melissa	Principal
Kirby, Laura	Assistant Principal
Walton, Melissa	Psychologist
Rudd, Lori	Teacher, K-12
Norquist, Brenda	Teacher, K-12
Jurnigan, Lacey	Instructional Coach
Collins, Daisy	School Counselor
Sweet, Lacey	Instructional Coach

b. Duties

1. Describe the roles and responsibilities of the members, including how they serve as instructional leaders and practice shared decision making.

Leadership team meets weekly to analyze school data and use the information to drive decision making. Data comes from a variety of sources, including progress monitoring data and observations. The principal and assistant principal are primarily responsible for conducting daily classroom walk-throughs. Information from the walk-throughs are used to determine the professional development needed to build capacity within the teachers. Ms. Norquist serves as Reading Interventionists whose primary responsibility is to provide targeted interventions to struggling students using research based strategies. Ms. Rudd is the math coach and her responsibility is to provide the professional development and coaching needed to increase both teacher capacity and student achievement in the area of math. Ms. Jurnigan is the reading coach and her responsibility is to provide the professional development and coaching needed to increase both teacher capacity and student achievement in the area of English Language Arts. Ms. Walton is responsible for gathering and disaggregating school data, especially, identifying and monitoring the bottom 25% to ensure they are making progress. Ms. Collins is our guidance counselor and her role is to assist with determining the best academic course for our students and to monitor their progress through MTSS. Ms. Sweet is our behavior interventionist who is responsible for ensuring that our teachers are providing a safe, orderly, and inclusive learning environment.

2. Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

All instruction and resources are designed to support the teaching of the Florida Standards. The district has created learning maps that outline a pathway in which to teach the standards. Collaborative planning in both reading and math is conducted weekly during which teachers unpack the standards through a process provided by the Dana Center. All resources must align with the Florida Standards. A process of collegial inquiry is used to determine what additional resources may be used, other than the ones provided by the district. This process occurs during the leadership meetings.

2. School Advisory Council (SAC)

a. Membership

Identify the name and stakeholder group for each member of the SAC.:

Name	Stakeholder Group
Brenda Norquist	Teacher
Melissa Durrance	Principal
Karen Irace	Principal
Mark Winchester	Business/Community
Melissa Walton	Education Support Employee
Casey Norquist	Parent
Marielys Garcia	Education Support Employee
Nellie Ocasio	Teacher
	Student
Carelton Pickett	Parent
Rosa Solis	Parent

b. Duties

1. Provide a description of the SAC's involvement with the following activities, as required by section 1001.452(2), Florida Statutes

a. Evaluation of last year's school improvement plan

The SAC reviews the prior year's plan, testing data, and AMO goals for the current school year to evaluate goals and strategies. Suggestions are reviewed and added when appropriate.

b. Development of this school improvement plan

The SAC determines school improvement priorities, assists in the writing of and publicizes the school improvement plan, supports school improvement plan implementation and evaluates the school improvement plan. The committee revisits the plan throughout the year at each meeting to discuss if progress is being made toward the goals.

c. Preparation of the school's annual budget and plan

The SAC decides on expenditure of district lottery funds, school recognition funds, and reviews the school's Title One budget.

2. Describe the use of school improvement funds allocated last year, including the amount budgeted for each project.

The SAC voted to use \$2250 of our \$3404 Parent Involvement Title One funds to purchase an agenda planners for each student to increase home/school communication. They also agreed that the \$1154 remaining funds would be spent on parent night supplies including food and supplies for make and take projects. This year, SAC will help in the decision on how to spend our school recognition money.

3. Verify that the school is in compliance with section 1001.452, Florida Statutes, regarding the establishment requirements and duties of the SAC.

Yes

a. If the school is not in compliance, describe the measures being implemented to meet SAC requirements.

3. Literacy Leadership Team (LLT)

a. Membership

Identify the name and position title for each member of the school-based LLT or similar group, if applicable.:

Name	Title
Durrance, Melissa	Principal
Kirby, Laura	Assistant Principal
Norquist, Brenda	Teacher, K-12
Jurnigan, Lacey	Instructional Coach
Kelley, Bobbi	Instructional Media

b. Duties

1. Describe how the LLT or similar group promotes literacy within the school, if applicable.

The Literacy Leadership team will analyze student reading data in order to make recommendations regarding curriculum, school improvement and training; work collaboratively to discuss issues, pose

solutions and set goals for improvement; create grade level appropriate book study units; help support SIP initiatives including AR implementation; serve as a catalyst for school-wide literacy change that is focused on high yield instructional strategies. The Literacy Leadership team will focus on analyzing student data in order to identify areas of need related to student learning. The LLT will collaboratively plan with teachers to provide solutions, strategies and resources to meet those areas of need.

D. Public and Collaborative Teaching

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(D).

1. Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction.

Every week the teachers meet with either the reading interventionist or the math coach, along with administration to plan collaboratively. Teachers have a common planning time in which to accomplish this. In addition, teachers participate in weekly Professional Learning Communities. The topics of learning for the PLC's is determined by the leadership team after reviewing data. On Tuesdays, professional development is also offered on a variety of topics that were selected by the teachers. These sessions are not mandatory since they occur after school hours.

2. Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school.

All open teaching positions are posted on the district's RHS website. It is important that all new hires to the school be screened carefully to ensure that we are recruiting highly qualified teachers. Newly hired teachers participate in a school based New Teacher Program that meets regularly to discuss procedures specific to the school and the district. New teacher also are provided with a school-based mentor and a district mentor.

3. Describe the school's teacher mentoring program, including the rationale for pairings and planned mentoring activities.

New teachers are paired with an experienced teacher that teaches the same grade level or subject. The teacher mentor will assist the new teacher with becoming acclimated to the Pinnacle, AESOP, FAIR-FS, Improve, and other district technology. The teacher mentor will assist the new teacher with understanding the Florida Standards and developing quality lesson plans. The school based math coach will provide frequent feedback and coaching to the new teachers along with the reading interventionist.

In addition, this year our school has been selected to be a participant in the i3 Mentoring Grant through the New Teacher Center. Three of our brand new teachers will receive mentoring support from a coach from the New Teacher Center for the next two years to ensure that they are successful.

E. Ambitious Instruction and Learning

1. Instructional Programs and Strategies

a. Instructional Programs

1. Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards.

All teaches are required to follow the district learning maps which are comprised of the Florida Standards and to utilize the resources contained in them. Teachers participate in weekly collaborative planning sessions to ensure alignment to the Florida Standards. In addition, in grades 3-5, one reading and one math teacher from each grade level has attended the Dana Center training which is

a professional development designed to train educators on how to read and interpret the Florida Standards. Our curriculum coaches lead our collaborative planning sessions and ensure that lessons are being taught to the full intent of the standard. We also have several teacher leaders that have participated in district training and share professional development and resources with our teachers.

b. Instructional Strategies

1. Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments.

Teachers meet regularly with the MTSS team to participate in problem solving to provide for the early identification and support of students with learning and behavior needs. Learners are provided with instruction and interventions at increasing levels of intensity to accelerate their rate of learning. These services may be provided by a variety of personnel, including general education teachers, special educators, student services personnel, and other specialists. Progress is closely monitored to assess both the learning rate and level of performance of individual students. Educational decisions about the intensity and duration of interventions are based on individual student response to instruction.

2. Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:

Strategy: After School Program

Minutes added to school year: 900

120 extra minutes of instructional time will be added per week during our 8 week after school tutoring program. Students in the 2nd and 3rd grade will be targeted.

Strategy Rationale

According to the 2015 ELA FSA, only 44% of our students are reading at proficiency.

Strategy Purpose(s)

- Core Academic Instruction

Person(s) responsible for monitoring implementation of the strategy

Durrance, Melissa, melissa.durrance@polk-fl.net

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

FAIR-FS will be used to determine effectiveness of the strategy.

2. Student Transition and Readiness

a. PreK-12 Transition

The school's response to this question may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(G).

1. Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

The guidance counselor from the middle schools meet with fifth grade students and parents each spring. During these meetings, parents and students can ask questions about the educational programs offered at the middle school. Students may register for their courses at this time.

b. College and Career Readiness

1. Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

Sleepy Hill Elementary participates in the WE3 Expo which is in support of the Workforce Education program in the district. Fifth grade students participate in the exposition so they can become aware of the academic programs offered by the district which will prepare them to become college and/or career ready.

2. Identify the career and technical education programs available to students and industry certifications that may be earned through those respective programs.

3. Describe efforts the school has taken to integrate career and technical education with academic courses (e.g., industrial biotechnology) to support student achievement.

Sleepy Hill Elementary student participate in quarterly school-wide STEM activities which are aligned with the 5E process. Preparing students to be able to apply skills and knowledge in a cross-curricular manner will help them achieve greater academic success.

4. Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the [High School Feedback Report](#), as required by section 1008.37(4), Florida Statutes.

Students participate in school-wide STEM activities. Students also learn the concepts of close reading in order to be able to apply these skills across content areas.

II. Needs Assessment

The school's completion of this section may satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(A).

A. Problem Identification

1. Data to Support Problem Identification

b. Data Uploads

Data uploads are not required by the Florida Department of Education but are offered as a tool for the needs assessment. In this section, the school may upload files of locally available data charts and graphs being used as evidence of need.

The following documents were submitted as evidence for this section:

No files were uploaded

2. Problem Identification Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the points of strength and areas of need that have been identified in the data.

B. Problem Analysis Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the underlying "why" or root causes for the areas of need identified in the data, as determined by situational awareness of, and research conducted by, the stakeholders involved in the needs assessment.

C. Strategic Goals

School Improvement Goals

The following key is intended to help readers understand how the sections of this document correspond to the steps of the 8-step planning and problem-solving framework used in the School Improvement Plan. The Quick Key numbers can help registered users go directly to the point of entry for any given goal, barrier and strategy within the online survey.

Strategic Goals Summary

- G1.** Increase student proficiency to 60% on the 2017 ELA Florida Standards Assessment by targeting the reporting areas of craft and structure and integration of knowledge and ideas during vertical planning.
- G2.** Teachers will design rigorous and relevant lessons with activities, assignments, and centers that are differentiated and aligned with the standard.
- G3.** In the 2015-2016 school year, 71 students received office discipline referrals. The goal for the 2016-2017 school year is to decrease the number of students who receive ODR by 25% (18 students).

Strategic Goals Detail

For each strategic goal, this section lists the associated targets (i.e., "SMART goals"), targeted barriers to achieving the goal, resources available to help reduce or eliminate the barriers, and the plan for monitoring progress toward the goal.

Action Plan for Improvement

For each strategy selected in the plan to reduce a targeted barrier to a strategic goal, this section lists the rationale for that strategy (i.e., why the school believes it will reduce the barrier) and the action steps that have been identified as necessary to implementing the strategy, including details such as the point person, timing and duration, and evidence of completion. At the end of each set of action steps is the plan for monitoring the implementation and effectiveness of the respective strategy.
