School Board Approval

This plan is pending approval by the Dade County School Board.

SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F or a monitoring status of "Former F" (see page 4). For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the Florida Department of Education's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

At the start of each academic year, traditional schools are classified for DA support in three categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- Not in DA – currently A, B, or C and not Monitoring Only; charter schools; ungraded schools
- Monitoring Only – currently A, B, or C that improved from a previous grade of F
- Focus – currently D
- Priority – currently F

DA Turnaround and Monitoring Statuses

Additionally, schools in DA may be subject to a turnaround status of "Planning" or "Implementing" or a monitoring status of "Former F." These statuses are based on a school's grades history, including the current school grade:

- Former F - A school with a status of "Former F" requires the department to monitor the implementation of strategies and progress toward the goals outlined in the school improvement plan for three years following the school's improvement from a grade of F to a C or higher.
- Planning - A school with a status of "Planning" requires the district to engage stakeholders in the development of a turnaround option plan to be implemented in the following year should the school grade not improve to a C or higher.
- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

I. Part I: Current School Status

A. Supportive Environment

1. School Mission and Vision

a. Provide the school's mission statement.

At Henry H. Filer Middle School, our mission is to enrich the community through a multicultural education experience. This sets the groundwork for high school and prepares students to become productive members of the workforce and of society in an advanced technological age. The school addresses the needs of the whole child, and the school provides a center for community activities.

b. Provide the school's vision statement.

At Henry H. Filer Middle School, our vision is to prepare students to reach their maximum potential. The school's educational community and stakeholders are dedicated to educating students so that they become lifelong learners in a complex and competitive society. We will continue to enrich the community through the development of the academic program and enhancement of technology, with emphasis on character education, so that students become productive citizens.

2. School Environment

a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

At Henry H. Filer Middle School, we begin every school year reviewing the collected data (i.e., school and case management history, classroom and test performance, and so on) on file for every child enrolled at our school. As the year progresses, the school's knowledge base builds as every student participates in class and completes assignments, all which provide opportunities for self-expression and teacher-student relationship building. It is during this year long student-expression and teacher-student relationship building process that a student's cultural, linguistic, academic, and social level of functioning are known, and in turn, creates ties with those most involved in their school life (e.g., peers, teachers, and school staff).

b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

To date, we have two documents that guide our school-wide safety practices: (1) Filer's Security and Attendance Plan and (2) our Critical Incidence Response Plan. The Security and Attendance Plan lays out our day-to-day safety practices, listing an array of information ranging from post assignments, (e.g., morning, between class, and afternoon posts for all security monitors and select staff) to staff lunch duties and practices; all in an effort to create and maintain a safe and respectful learning environment for all on our campus. Our Critical Incidence Response Plan, on the other hand, does not look to lead our day-to-day security practices, but aims to ensure a safe and orderly response in cases of extreme emergency (e.g., assigning posts for police, fire, and triage personnel, and having a system in place for parents if there was a disruption in our transportation services).

c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.

Our behavioral management system at Filer Middle has three tiers: (1) school-wide, (2) classroom/ small group, and (3) individual. Our Tier I behavioral plan begins with our school -wide behavioral

expectations (i.e., A Filer student will be Respectful, Resourceful, Responsible, Ready, and Healthy), which connect directly to each teacher's classroom rules bringing behavioral constancy within the school by creating informed students. We also have a Discipline Plan Checklist that provides the sequenced services students are to receive following inappropriate displays of behaviors (ranging for Student Services teaching sessions to administrator sanctions). Filer's Tier II behavioral plan has two aims: one, to equip teachers to more effectively manage classrooms (i.e., strategies and professional development opportunities); and two, creating small student groups based on similar issues/concerns/needs. Both Tier II aims look to service a smaller, more specific number of students than the broader, Tier I focus. Our Tier III behavioral plan focuses on an individual's need, utilizing a functional assessment of behavior (FAB) to identify the purpose of any given inappropriate behavior, and a behavioral intervention plan (BIP) to replace the target, inappropriate behavior with an appropriate behavioral display.

d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

At Henry H. Filer Middle School, we have a strong Student Services Department and are fortunate to be a Title I school (thus receiving supplemental social and clinical services from the Citrus Health Network, Inc.). The therapeutic effectiveness and combined efforts of our unified staff (i.e., the school counselor, trust counselor, school social worker, private agency therapist, and school psychologist) to meet the varied social-emotional needs of our students is undeniable. In short, they provide all types of counseling and social services, ensuring that the social-emotional needs of our culturally diverse student population are met when needed.

3. Early Warning Systems

a. Describe the school's early warning system and provide a list of the early warning indicators used in the system.

At Henry H. Filer Middle School, the systematic search for the early warning indicators listed below is done by reviewing the Student Case Management (SCM) system, requesting specific Control-D reports, and providing opportunities during all school meetings for staff members to share any student needs requiring additional attention.

1. Describe how the LLT or similar group promotes literacy within the school, if applicable.

The major initiatives of the Literacy Leadership Team for this year are:

- Hold weekly teacher team meetings to discuss students they have in common and to align instruction. These regular meetings will allow for teachers to plan for consistency in instruction across subject areas that will ensure a comprehensive and coordinated literacy program.
- Introduce the implementation of the Common Core Standards in all content areas.
- Increase the use of technology as a medium for literacy. Technology will be used as an instructional tool and to provide support for struggling students.
- Complete an Assessment/Curriculum Decision Tree to demonstrate how assessment data from progress monitoring and other forms of assessment will be used to create capacity of reading knowledge within the school.
- Provide support and resources to content area teachers in building classroom libraries to assist with independent reading practice.
- Writing will be incorporated across the curriculum through the utilization of the CRISS philosophies and principles as well as the utilization of the practices presented in the critical mass professional development (Reading and Writing Standards and Effective Reading in Secondary Classrooms).
- Provide professional development based upon student assessment data, classroom observational data, the professional development listed on the teachers' IPEGS Goal Setting form, and district and state reading requirements that could impact reading instruction at the school.

- Use student assessment data to evaluate the resources needed to meet the needs of teachers and students and include resources in a professional library established for all staff when applicable.

D. Public and Collaborative Teaching

The school's response to this section may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(D).

1. Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction.

This year, teachers have two scheduled common planning sessions a week; two of the many intents being building positive working relationships and sharing effective pedagogical practices. Within these common planning sessions, time is given for differentiated/small-group planning if needed. Also, team building professional development opportunities are/have been scheduled for this 2016-2017 school year, also with the intent to build positive relationships among staff members.

2. Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school.

Individuals interested in obtaining a teaching position at Henry H. Filer will meet with the principal, assistant principal, and department chairperson, in an interview where questions will be asked in relation to the vision and mission of our school and how they relate to these. Additionally, the principal will ensure that the individual is certified in the subject area where they will be assigned.

3. Describe the school's teacher mentoring program, including the rationale for pairings and planned mentoring activities.

Beginning teachers will be paired with veteran teachers who are MINT trained and who will guide them through their first year as an educator. Bi-weekly meetings will take place between both professionals. During these meetings, pacing guides and lesson plans will be reviewed to ensure that both are mirroring each other. There will be an opportunity during these meetings to answer questions that may arise. Once a month, all beginning teachers will meet with the assistant principal over curriculum as well.

E. Ambitious Instruction and Learning

1. Instructional Programs and Strategies

a. Instructional Programs

1. Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards.

Through informal and formal classroom observations, attending our teachers' common planning sessions, and providing professional development opportunities, the administration at Henry H. Filer Middle School works hard to ensure all instruction that takes place is aligned to Florida standards. Also, the District's core instructional programs and accompanying supplemental materials are reviewed prior to being given to the school's for implementation.

b. Instructional Strategies

1. Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments.

Being a data-driven school, Henry H. Filer Middle School collects, analyzes, and acts upon all information provided/assessed. Through informal and formal teacher-administer data chats, as well

as inter-department data desegregation sessions, all stakeholders at Filer Middle make adjustments to their approach at meeting the diverse needs of every student: Teachers create differentiated work stations within their classrooms, Departments/Grade-level Teams divide their resources/materials appropriately based on teacher-classroom need, and Administration redirect service and attention to those individual teachers and/or grade-levels that have data-verified requests for assistance.

2. Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:

Strategy: Before School Program

Minutes added to school year: 24,885

Title III, ELL tutoring is scheduled to begin November 7, 2016 and will be offered to all ELL students in the areas of Language Arts, Mathematics, and Science. These tutoring sessions will take place before and after school, for one hour, Monday - Thursday, until the month of April 6, 2017.

Strategy Rationale

At Henry H. Filer Middle School, where approximately 70% of the entire student body receives some degree of ELL service, providing this supplemental resource/service to this specific student impact would have the greatest impact on school-wide achievement.

Strategy Purpose(s)

- Core Academic Instruction
- Enrichment

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

Data from the Interim Assessments (for the participating ELL students) will be analyzed to determine the instructional effectiveness of the tutoring program. Instruction will then be modified, if needed, to build on areas of strength and address areas of weakness.

2. Student Transition and Readiness

a. PreK-12 Transition

The school's response to this question may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(G).

1. Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

Each year incoming 6th grade students are invited to attend an orientation meeting to gather information on all school policies and procedures. In addition, incoming 6th grades visit the school during the year to receive information on courses and academies available as well as a tour to all students and parents. Outgoing 8th grade students are provided with a trip to their respective senior high schools in order to provide them with the information necessary to transition into high school the following year.

b. College and Career Readiness

1. Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

Through the United States History course, all 8th Grade students complete activities using the Career Cruiser resource guide. It provides self-assessment activities to assist students in thinking about the relationship between personal interests and career goals.

2. Identify the career and technical education programs available to students and industry certifications that may be earned through those respective programs.

Henry H. Filer Middle School offers elective courses in Graphic Arts, Art, Family and Consumer Sciences, Dance, Journalism, and Physical Education. Through these course and the infusion of the Common Core Standards and College Readiness Standards, students are able to make the connection between subject and relevance to their future.

3. Describe efforts the school has taken to integrate career and technical education with academic courses (e.g., industrial biotechnology) to support student achievement.

Students will be exposed to career readiness topics within their electives courses. Furthermore, all 8th grade students will meet with their grade level counselor at least once throughout the school year to discuss high school and college goals as well as provide them with information on how to better prepare themselves for both.

4. Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the [High School Feedback Report](#), as required by section 1008.37(4), Florida Statutes.
