School Board Approval

This plan is pending approval by the Dade County School Board.

SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F or a monitoring status of "Former F" (see page 4). For all other schools, the district may use a template of its choosing. All districts must submit annual assurances that their plans meet statutory requirements.

This document was prepared by school and district leadership using the Florida Department of Education's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

At the start of each academic year, traditional schools are classified for DA support in three categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- Not in DA – currently A, B, or C and not Monitoring Only; charter schools; ungraded schools
- Monitoring Only – currently A, B, or C that improved from a previous grade of F
- Focus – currently D
- Priority – currently F

DA Turnaround and Monitoring Statuses

Additionally, schools in DA may be subject to a turnaround status of "Planning" or "Implementing" or a monitoring status of "Former F." These statuses are based on a school's grades history, including the current school grade:

- Former F - A school with a status of "Former F" requires the department to monitor the implementation of strategies and progress toward the goals outlined in the school improvement plan for three years following the school's improvement from a grade of F to a C or higher.
- Planning - A school with a status of "Planning" requires the district to engage stakeholders in the development of a turnaround option plan to be implemented in the following year should the school grade not improve to a C or higher.
- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

Bel-Aire Elementary School, with the combined efforts of the family and community, envisions our students as confident, caring, well-educated individuals who will become active, successful and productive members of society.

Bel-Aire Elementary has the distinct pleasure of offering an enrichment based Gifted Program, whereas the students participate in project-based learning. Our school has participated in the Fairchild Challenge and been the recipient of several awards for this effort. Bel-Aire offers the Cambridge program as well to selected students in Kindergarten through second grade. Over the past four years, Bel-Aire Elementary has offered programs such as Art Enrichment and Drum Line. Each year students from Bel-Aire Elementary have the privilege to enter into magnet programs throughout the South Region.

Bel-Aire Elementary School students are rewarded through motivational incentives such as "Pit Passes" for perfect attendance, Math Racing Challenges, giveaways for students who are "On Their Way to Achieving Proficiency", and students caught doing the right thing.

b. Provide the school's vision statement.

Bel-Aire Elementary School is committed to safety and excellence.

2. School Environment

a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

At Bel-Aire Elementary School students and staff are encouraged to build positive relationships through enrichment programs and team building activities. Teachers meet on a weekly basis, to connect and discuss strategies and activities to help connect with students and offer support both emotionally and educationally.

b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

At the beginning of the school year, teachers conducted "ice-breakers" to make students feel more at ease within the classrooms. The administrative team and counselor show the students that they have support and a safe learning environment through classroom visits and daily walkthroughs. Parents have been advised that there is a Code of Student Conduct in place and is used district wide to ensure the safety of their children. Students are reminded to report any issues that may arise to a trusted adult. Staff advises and discusses with students the importance of reporting bullying/harassment issues to an administration, counselor, and/or teacher.

c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.

Bel-Aire Elementary's schoolwide behavioral system aligns with a positive and proactive approach to behavior which aids in minimizing distractions during instructional time. At Bel-Aire the Code of Student Conduct is followed. Teachers review and share the Code of Student Conduct with the students in order to ensure a clear understanding of the levels of behaviors and the consequences. The school-wide behavior plan is designed to meet the needs of the students across all subgroups. Teachers/staff members are expected to follow the school-wide discipline plan. The consequences for the students includes giving verbal warnings, phone calls to parent/guardians, detentions, referral to the guidance counselor and finally referral to an administrator.

d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

The school counselor works closely with the teachers and the administration keeping them abreast of various issues that arise with students. The school's social worker and psychologist are consulted and assist with ensuring the social-emotional needs of the students. Periodically, outside services are suggested as needed by the school's based leadership team.

The Leadership Team will use the Problem Solving process to set Tier 1 goals and monitor academic and behavioral data to evaluate progress towards those goals biweekly by:

1. Holding regular team meetings where problem solving is the sole focus.
2. Using the four step problem solving process as the basis for goal setting, planning, and program evaluation during all team meetings that focus on increasing student achievement or behavioral success.
3. Determining how we will know if students have made expected levels of progress towards proficiency.

The school improvement plan (SIP) summarizes the school's academic and behavioral goals for the year and describes the school's plan to meet those goals. The specific supports and actions needed to implement the SIP strategies will be closely examined, planned, and monitored on the MTSS Tier 1 worksheets completed monthly. The MTSS Problem-Solving process is used to first carry out, monitor, and adjust (if necessary), the supports that are defined in the SIP. Annual goals are translated into progress monitoring (3 times per year) and ongoing progress monitoring measures (once per month) that can reliably track progress on a schedule based on student need across Tiers. Tier 2 support will be provided to students who have not met proficiency and/or who are at risk of not meeting proficiency.

Finally, MTSS End of Year Tier 1 problem solving evaluates the SIP efforts and dictates strategies for the next year's SIP. At this time, previous years trend data across grade levels is used to examine impact grades for support focus or prevention/early intervention efforts. While the SIP plan does not focus on the primary (untested) grades, the MTSS leadership team extends the intent of the SIP to kindergarten, first, and second grades as they contribute extensively to later grades performance and student engagement.

Title I, Part A

Services are provided to ensure students requiring additional remediation are assisted through extended learning opportunities (Extended Day School, after-school programs, Saturday Academy and/or summer school for Rising second graders and retained third graders). 1. Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction.

Teachers are provided with common grade level planning time by grade levels to collaborate regularly, problem solve, share best teaching practices, evaluate implementation, make decisions, and practice new processes and skills. The Leadership team also facilitates the process of building consensus, increasing infrastructure, and making decisions about new implementations across the curriculum. Teachers also meet weekly with their Transformational Literacy and Math Coach to ensure instruction is driven by data.

2. Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school.

1. Principal will have regular meetings for new teachers.
2. Assistant Principal will partner a new teacher with veteran staff.
3. Principal and Assistant Principal will recruit interns from the University of Miami and Florida International University as they complete their program.

3. Describe the school's teacher mentoring program, including the rationale for pairings and planned mentoring activities.

At this time there aren't any teachers who will be in the Teacher Mentoring Program. However, the school's teacher mentoring program/plan would:

- Have the mentor and mentee meet bi-weekly in a professional learning community to discuss organization skills, behavior management and curriculum.
- Time will be allotted for feedback and planning.

E. Ambitious Instruction and Learning

1. Instructional Programs and Strategies

a. Instructional Programs

1. Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards.

Bel-Aire Elementary provides opportunities for teachers to unpack the standards to plan and discuss reading, writing, science and math curriculum that aligns to the standards. Administration ensures that the curriculum is aligned with the new Florida Standards through the implementation of the District's Pacing Guides. The Leadership Team monitors the programs and materials used by daily walk throughs, lesson plans and formal observations. Collaborative/Common Grade Level planning sessions are offered throughout the week whereby teachers meet an plan with the Transformational Coaches.

Professional Development opportunities are made available when necessary. Opportunities to collaborate through grade level planning and/or during after school Professional Development gives all staff members opportunities to develop a deeper understanding of the new standards along with core instructional resources.

b. Instructional Strategies

1. Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments.

The Literacy Leadership Team at Bel-Aire Elementary school will meet weekly. The Literacy Leadership Team will analyze the data and look for data trends. A Grade Level Planning schedule makes coaches available to the teachers to plan. Coaches and teachers are using the District Pacing Guides, reviewing data, grouping students based on their needs, developing differentiated instruction plans and sharing best practice strategies. Data is used to adjust the delivery of curriculum and instruction to meet the specific needs of the students and drives decisions regarding targeted professional development and implement interventions.

Additionally, the following programs are available to assist students who are having difficulties attaining proficiency:

- Wonder Works
- iReady
- myONReader
- Reflex

- Discovery Education
- Think Central
- GIZMOS
- Title III ELL Tutoring

2. Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:

Strategy: Extended School Day

Minutes added to school year: 2,520

After-School tutoring, Title III tutoring services for ELL students.
Minutes—After-School Tutoring an additional 120 minutes a week.
Students who are ELL in 3rd, 4th and 5th grade will be offered the opportunity of attending the Title III tutoring program. The students will have an additional 120 minutes of learning a week.

Strategy Rationale

Tutoring will be made available to all ELL students in grades 2nd-5th in order to give them additional support in Reading and Mathematics.

Strategy Purpose(s)

- Teacher collaboration, planning and professional development

Person(s) responsible for monitoring implementation of the strategy

Oliu, Yolanda, pr0261@dadeschools.net

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

Data will be collected through mini-assessments---by tutoring group. The data will be analyzed to determine the effectiveness of the additional support implemented.

2. Student Transition and Readiness

a. PreK-12 Transition

The school's response to this question may be used to satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(G).

1. Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

At Bel-Aire Elementary the families of preschool children transitioning into kindergarten programs are provided assistance during the school's Kindergarten Meet & Greet, held annually in the spring. At this meeting, parents are provided an overview of the school and the facility, provided immunization and health information, and provided registration information. Children are given an opportunity to meet the teachers and experience various kindergarten activities. Families of preschool handicap children are provided transition assistance through the school's ESE department. The school works with the district by providing readiness diagnostic assessments for students from Head Start and VPK programs outside the school. Students are administered the VPK Readiness Assessment and the beginning of the school and exit assessment at the end of the school. Kindergarten registration will begin in May and connect-ed messages will be made to the parents, flyers will be sent home with the students making them aware of the dates and the registration requirements.

b. College and Career Readiness

1. Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

NA

2. Identify the career and technical education programs available to students and industry certifications that may be earned through those respective programs.

NA

3. Describe efforts the school has taken to integrate career and technical education with academic courses (e.g., industrial biotechnology) to support student achievement.

NA

4. Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the [High School Feedback Report](#), as required by section 1008.37(4), Florida Statutes.

II. Needs Assessment

The school's completion of this section may satisfy the requirements of 20 U.S.C. Â§ 6314(b)(1)(A).

A. Problem Identification

1. Data to Support Problem Identification

b. Data Uploads

Data uploads are not required by the Florida Department of Education but are offered as a tool for the needs assessment. In this section, the school may upload files of locally available data charts and graphs being used as evidence of need.

The following documents were submitted as evidence for this section:

No files were uploaded

2. Problem Identification Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the points of strength and areas of need that have been identified in the data.

This school year Bel-Aire Elementary School's status has changed to that of Lowest 300. With this status, the school has become an Extended Day School with an uninterrupted hour of Reading Interventions. With this said, the school's area of most need is reading. The school did make gains in the area of mathematics.

B. Problem Analysis Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the underlying "why" or root causes for the areas of need identified in the data, as determined by situational awareness of, and research conducted by, the stakeholders involved in the needs assessment.

Students in grades three through five demonstrate limited skills in prerequisite reading skills. This in turn affects their reading fluency and ultimately their comprehension.
