Note: The school grades calculation was revised substantially for the 2014-15 school year to implement statutory changes made by the 2014 Legislature and incorporate the new Florida Standards Assessments. The 2014-15 school grades serve as informational baseline data that schools can use to improve in future years.

School Board Approval

This plan was approved by the Alachua County School Board on 10/17/2017.

SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing.

This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

At the start of each academic year, traditional schools are classified for DA support in two categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- **Not in DA** - A school with a current school grade of A, B, or C; charter schools; and ungraded schools.
- **Targeted Support and Improvement** - A school with a current school grade of an initial D.
- **Comprehensive Support and Improvement** - A school with a current school grade of F or two consecutive grades of D, or a high school with a graduation rate of 67 percent or less in the most recent data release.

DA Turnaround Status

Additionally, Comprehensive Support and Improvement schools have a turnaround status of "Implementing," based on a school's grades history, including the current school grade:

- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

I. Part I: Current School Status

A. Supportive Environment

1. School Mission and Vision

a. Provide the school's mission statement.

The Mission of Glen Springs Elementary School is to academically enrich all of our students and foster social skills to promote successful lifelong learners in a caring, safe environment.

b. Provide the school's vision statement.

The Vision of Glen Springs Elementary is that all students will leave our school with

- the skills needed to be successful citizens
- a strong self-esteem
- high expectations
- respect for others
- and a desire to continue the quest for knowledge

2. School Environment

a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

Our school learns about students' cultures by interacting with students in a meaningful way that helps us to learn about them.

Our school builds relationships between teachers and students through the following:

- Establishing and communicating clear positive expectations
- Enforcing expectations in a positive way
- Providing appropriate feedback
- Correcting students in a constructive way
- Interacting with students to learn more about them
- Showing that we value and care for student through respect

b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

Glen Springs is a Positive Behavior Support school which provides a method to establish and reinforce a positive school culture. Students are taught our school wide behavior expectations (Positive Attitude, Always be Responsible, Work Together, and Show Respect) and positive behavior choices are reinforced through a token economy system.

The school counselor teaches a set of lessons called "Child Safety Matters", which is a curriculum that addresses critical safety issues faced by children including bullying, cyberbullying, and child abuse. This program teaches these topics to children in grades 1-5.

For Kindergarten students the school counselor teaches "Safer, Smarter, Kids" which is a curriculum that empowers children to protect themselves in situations where someone would abuse them

c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.

Positive Behavior Intervention and Support (PBIS) is our school wide management plan. The focus in managing behavior is to teach, recognize, and reinforce the good choices that students demonstrate.

This is done using a token economy where as students receive tickets that they can use to shop with in our school store each Friday morning and/ or save to purchase admission to our nine week events. Teachers are provided a binder that includes social skill activities that they can use in their classroom to build community. PBIS behavior expectations are posted relative to the area of the campus. The acronym P.A.W.S. communicates our school wide expectation: Positive attitude, Always be responsible, Work together, and Show respect. However, we also use the acronym L.U.N.C.H. in the cafeteria to remind students to Listen for directions, Use a quiet voice, Nice friend, Choose only your food, and Hands, feet, and objects to yourself. P.L.A.Y on the playground as a reminder to Play safely, Listen for directions, Always be responsible, and You're a friend. Lastly, the acronym W.A.L.K is posted in the hallways to encourage students to use Whisper voices, Always be responsible, Lines straight, and Keep moving. A committee of teachers across grade levels, staff, and leadership team members meet regularly throughout the year to communicate and collaborate in regards to PBIS. Behavior events are situational in respect to how they are handled with consideration of age, grade, behavior history, and needs of the student. More often than not, the majority of events can be managed by the teacher with a conversation or time out with a partner teacher. Teachers are also strongly encouraged to keep consistent communication with parents for both positive purposes; as well as concerns. However, at times, the student is sent to the Behavior Resource Teacher as a secondary level of support in teaching and reinforcing appropriate replacement behaviors. The Behavior Resource Teacher then follows up with the parent and may choose to schedule a conference with the parent if a pattern of behavior develops. Occasionally, a behavior event occurs that is of an elevated level of severity and in such cases, the Behavior Resource Teacher may choose to assign the student to in-school detention. In-school detention is a proactive response that allows the student to spend the day in the Behavior Resource Teacher's office where he or she will complete his or her academic assignments and participate in social skill building activities based on the target behavior. Out of school suspensions are given much consideration, and are often a last resort consequence.

Throughout the year, the Behavior Resource Teacher collaborates with individual teachers who have classroom management concerns or those in need of support with individual student(s). In addition, behavior management training is provided to faculty and staff throughout the year.

d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

Glen Springs has a full time school counselor who provides classroom counseling lessons to all students at school. Topics of classroom counseling lessons include teaching skills to help students be successful in their academic, career, and social/emotional development as aligned with the American School Counselor Association's National Model. Students are also able to participate in small group counseling with the school counselor. Topics for small group include: social skills, test anxiety, anger management, changing families, academic success and others as need arises. In addition, the school counselor provides individual counseling to students who present a need for this level of social, emotional, and academic support.

3. Early Warning Systems

The school's response to this section may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(7)(A)(i) and (b)(7)(A)(iii)(III).

a. Describe the school's early warning system and provide a list of the early warning indicators used in the system.

- * Monitoring of student daily tardy and attendance reports
- * Frequent communication with teachers, families, and students

* Monthly data chats and participation in grade level meetings

b. Provide the following data related to the school's early warning system

1. The number of students by grade level that exhibit each early warning indicator:

Indicator	Grade Level													Total
	K	1	2	3	4	5	6	7	8	9	10	11	12	
Attendance below 90 percent	0	0	0	1	1	5	0	0	0	0	0	0	0	7
One or more suspensions	0	3	1	1	3	0	0	0	0	0	0	0	0	8
Course failure in ELA or Math	0	3	3	4	1	0	0	0	0	0	0	0	0	11
Level 1 on statewide assessment	0	0	0	21	15	0	0	0	0	0	0	0	0	36

The number of students identified by the system as exhibiting two or more early warning indicators:

Indicator	Grade Level													Total
	K	1	2	3	4	5	6	7	8	9	10	11	12	
Students exhibiting two or more indicators	0	0	0	0	0	0	0	0	0	0	0	0	0	0

c. Describe all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system.

Monitoring of student daily tardy and absentee report:

Daily, the Behavior Resource Teacher reviews a list of students who are tardy or absent to school. This monitoring highlights student trends of attendance. As a means of early intervention, the teacher along with the Behavior Resource Teacher contacts the parent to discuss attendance concerns and how the school can be of support. Included in then conversation is the District and Florida State Statute attendance policy. If student attendance does not improve, a formal Educational Planning Team meeting is held with the parent, teacher, and Behavior Resource Teacher. A formal plan is written and agreed to among the team. Also, the parent is provided information regarding the School Attendance Review Board, and a referral is made by the school, should the parent choose to use the community resource. Attendance continues to be closely monitored and if again fails to improve, a second Educational Planning Team meeting is held to also include the District Truancy Officer. Attendance data is reviewed and the previous plan is updated.

Frequent Communication with teachers, families, and students:

Suspension from school is always given thoughtful consideration in respect to the individual student; as well as, the severity and frequency of current and previous behavior events. Glen Springs Elementary uses a model of Positive Behavior Support strategies and interventions to improve the academic performance and minimize the occurrence of repeated behavior events. These strategies include classroom observations by the Behavior Resource Teacher to identify functions and patterns of inappropriate behavior. The data is used in the design of an individualized behavior plan which includes target behavior and reinforcement of replacement behaviors wither by subject area or interval of time. Included in the plan is a daily goal, which if achieved, earns the student a special reward or time in a preferred activity. Daily check in and out with the Behavior Resource Teacher is also utilized as an approach to build a positive relationship with the stud net; as well as, recognize, reinforce, and maintain open communication with parents as a proactive prepossess before a minor concern becomes major, either academically or behaviorally. To provide additional support, the

teacher often consults with the Behavior Resource Teacher so that together, positive solutions can be presented to the parent.

Monthly data chats and participation in grade level meetings

Leadership team members meet monthly with their assigned grade level(s) and throughout the year as a whole team to analyze and discuss student data collected on diagnostic assessments given throughout the year including STAR Early Literacy, IStation (ISIP) in both English Language Arts and Math; as well as, AIMS quarterly assessments given in English Language Arts, Math, and Science. Student data is recorded within grade level Google documents that tier students based on their academic performance given the stated assessments. This data is used to monitor students' progress and to discuss standard based student learning and instructional practices. This is also an opportunity for teachers to discuss specific concerns regarding those students identified as in greatest need of support. These students are closely monitored within their area(s) of need and a plan of intervention is collaborated upon.

B. Family and Community Engagement

The school's response to this section may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(2) and (b)(7)(A)(iii)(I).

1. Describe how the school works at building positive relationships with families to increase involvement, including efforts to communicate the school's mission and vision, and keep parents informed of their child's progress.

a. Will the school use its Title I Parent and Family Engagement Policy (PFEP) to satisfy this question?

Yes

1. PFEP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

2. Description

Increase parent involvement through implementation of the district and school Parent Improvement Plan.

2. Describe the process by which the school builds and sustains partnerships with the local community for the purpose of securing and utilizing resources to support the school and student achievement.

Glen Springs works with district staff and parent contacts to create partnerships with area businesses and organizations. We meet with representatives from local businesses and organizations to determine the support they can provide, and how we, as a school, can support the business or organization. When businesses or organizations provide goods or services, they are recognized in our website, through school-wide newsletters, parent link calls, or on our marquee.

C. Effective Leadership

1. School Leadership Team

a. Membership

Identify the name, email address and position title for each member of the school leadership team.:

Name	Title
Armstrong, Kelly	Principal
McAlhany, Vicki	Assistant Principal
Armstrong, Amanda	School Counselor
Wright, Marshalee	Dean
Croft, Colleen	Teacher, K-12

b. Duties

1. Describe the roles and responsibilities of the members, including how they serve as instructional leaders and practice shared decision making.

Together, the school leadership team will collaborate to provide instructional leadership and shared decision making.

Principal serves as the instructional leader and practices shared decision making by:

Assessing, evaluating, and monitoring specific and measurable goals for the instructional and learning needs of the school, teachers and students. He practices shared decision making by encouraging faculty and staff members to communicate with the leadership team, work collaboratively to plan meaningful and aligned lessons and activities; as well as, analyze data.

Assistant Principal serves as an instructional leader and practices shared decision making by:

Facilitating professional development learning for teachers that align with our school goals and needs of our students. Additionally, she also provides meaningful and specific evidence based feedback to teachers following informal classroom walk-through and evaluations. Lastly, she serves as a support for content area and grade level teachers in understanding and aligning the standards to instructional practice.

School Counselor serves as a school leader and practices shared decision making by:

Provides Response to Intervention coordination across grade levels, leads and manages student Individual Educational Plans/ 504s and Educational Planning team meetings. Support for content area and grade level teachers in understanding progress monitoring strategies within multiple measures of data collected.

Dean of Students serves as a school leader and practices shared decision making by:

Providing professional development in the area of behavior management and specific targeted interventions based on student needs. She also serves as the school based attendance liaison who is responsible for monitoring student attendance, facilitating educationally planning team meetings as it relates and communicating with the District truancy officer if needed.

Teacher of Title I and Florida Continuous Improvement Model serves as a school leader and

practices shared decision making by: providing remediation to students who, based on state assessment data, are in the lowest quartile in reading and math. She also facilitates data meetings across grade levels to engage in shared discussion about student growth and academic needs; as well as, targeted interventions.

The school leadership team meets each Monday morning to debrief on the previous and upcoming week as it relates to individual student and school needs; as well as, share in the decision making and plan as we move forward throughout the year.

2. Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students

and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

The school problem-solving processes include frequent and structured administrative, leadership and instructional data analysis meetings to review data and make changes in the instructional interventions groups provided by Title 1 teacher tutors and classroom teachers.

Title 1, Part A:

Supplemental reading and math services are provided by Title 1 teachers to targeted students during the school day and in after-school tutoring programs if available. The FCIM coordinator assists teachers with data collection and analysis, and in the development of effective instructional strategies.

Title 1, Part C - Migrant:

A migrant liaison provides services and support to students and parents. The liaison coordinates with Title 1 and other school and district programs to meet the needs of the students and families.

Title 1, Part D:

A migrant liaison provides services and support to students and parents. The liaison coordinates with Title 1 and other school and district programs to meet the needs of the students and families.

Title II:

The district receives supplemental funds for improving basic educational programs through the purchase of technology. The school utilizes these funds through the purchase of technology such as new SmartBoards, Smart Response systems and document cameras. The school also utilizes the expertise of district technology coaches.

Title III:

The school works with the district ESOL representative to coordinate services to improve the education of immigrants and English-language learners. Services that are provided include educational materials such as dictionaries, home-school communication in native languages and instructional services (tutors).

Title X - Homeless:

The school works with the district Homeless Coordinator to provide needed services for student identified as homeless under the McKinney-Vento Act to eliminate barriers to a free and appropriate education.

Supplemental Academic Instruction (SAI):

SAI funds will be combined with district funds to provide third grade teachers.

Violence Prevention Programs:

The school offers non-violence and anti-drug programs, such as Steps to Respect, Peace Works, Too Good for Drugs to all students. In addition, the school participates in Red Ribbon Week in October with school-wide activities. The counselor also teaches the Speak Up and Be Safe program and Safer, Smarter Kids.

Nutrition Programs:

The school follows the district's nutrition program. We also participate in the Food 4 Kids backpack program that provides food each weekend and during school breaks for children who exhibit signs of hunger.

2. School Advisory Council (SAC)

a. Membership

Identify the name and stakeholder group for each member of the SAC.:

Name	Stakeholder Group
Kelly Armstrong	Principal
Meaghan Gullledge	Teacher
Heather Smith	Teacher
Khadija Camps	Parent
Jackelyn Gonzalez	Parent
Nina Spencer	Business/Community
Eva Hope	Teacher
Erin Coolican	Parent
Desiree Santana	Parent
Laurie Denny	Business/Community
Kayla Reddick	Education Support Employee

b. Duties

1. Provide a description of the SAC's involvement with the following activities, as required by section 1001.452(2), Florida Statutes

The school's response to this question may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(2).

a. Evaluation of last year's school improvement plan

Each year, after test scores and school grades are released, the SAC meets to discuss the scores, school grade, and to review the previous School Improvement Plan. At that time, we discuss areas that were addressed and the effectiveness of the plan. The SAC members also provide input regarding strategies and ideas to include in the plan for the upcoming school year.

b. Development of this school improvement plan

The School Advisory Council assists with the review and implementation of the School Improvement Plan. SAC members are asked to provide input about potential goals and strategies to meet those goals. Members help create and distribute the school's climate survey to parents, faculty and staff. After the data is collected the SAC members analyze the data and make recommendations for strategies to address any concerns. Through regularly scheduled meetings, the SAC contributes to the decision-making process of the school, including use of school improvement funds.

c. Preparation of the school's annual budget and plan

Each year, the district finance department provides the school with the budget allocation for the upcoming school year. The executive assistant/bookkeeper presents the budget allocation to the SAC members. She explains how the budget is developed, and how the funds are allocated to each grade level and department in the school and the amounts provided. Once presented, the SAC members have an opportunity to ask questions and provide input about how the fund are distributed in the school. Once the budget is finalized, the SAC votes to approve the school budget. The principal, a representative from the SAC, and a faculty member sign the completed budget and submit it to the district finance department.

2. Describe the use of school improvement funds allocated last year, including the amount budgeted for each project.

The school improvement funds will be used to purchase materials to support the goals of the School Improvement Plan such as Kagan materials, writing journals, additional reading and math materials, manipulatives, and supplemental non-fiction text materials and leveled readers. School improvement funds will also be used to purchase document cameras and other technology to enhance instruction.

3. Verify that the school is in compliance with section 1001.452, Florida Statutes, regarding the establishment requirements and duties of the SAC.

Yes

a. If the school is not in compliance, describe the measures being implemented to meet SAC requirements.

3. Literacy Leadership Team (LLT)

a. Membership

Identify the name and position title for each member of the school-based LLT or similar group, if applicable.:

Name	Title
Armstrong, Amanda	School Counselor
McAlhany, Vicki	Assistant Principal
Armstrong, Kelly	Principal
Croft, Colleen	Teacher, K-12
Shockley, Amy	Instructional Coach

b. Duties

1. Describe how the LLT or similar group promotes literacy within the school, if applicable.

The Literacy Leadership Team promotes literacy within Glen Springs Elementary through teacher professional development which focuses on building students' literary proficiency. Training in close reading strategies or interactive journals encourage multiple opportunities for students to use academic vocabulary and literary skills while reading, writing and engaging in discourse. Teachers will understand that students' reading comprehension and meta-cognition about reading will be rigorously engaged when they use close reading strategies to unpack and respond to various types of text (esp. informational text). Furthermore, literary understanding will increase for our students when teachers incorporate multiple opportunities for writing opinions and arguments that are text-based and information rich. We also build literacy using literacy centers and work stations, performance tasks, reading labs, and our blended learning computer programs.

D. Public and Collaborative Teaching

The school's responses to this section may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(7)(A)(iii)(IV).

1. Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction.

Grade level teams meet weekly to share and discuss information about individual students, curriculum, and/ or that pertains to the grade level as a whole. In the intermediate grades (3-5) content area teachers meet to plan and prepare for instruction based on a curriculum map and with focus on the Florida Standards.

2. Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school.

The Assistant Principal meets with teachers new to Glen Springs during pre-planning and bi-monthly throughout the year to provide support in both classroom management and instructional practice; as well as, to foster collaboration among teachers. Grade level teams meet weekly to share and discuss information about individual students, curriculum, and/or that which pertains to the grade level as a whole. In the intermediate grades (3-5) content area teachers meet to plan and prepare for instruction based on scope and sequence and with focus on the Florida Standards. All new teachers are assigned a district mentor coach during their first year of teaching. In addition, up to five teachers at a time can participate in a coaching cycle with the support of our school based instructional coach.

3. Describe the school's teacher mentoring program, including the rationale for pairings and planned mentoring activities.

The district mentoring program pairs a district mentor with a beginning teacher based on the experience of the mentor. The teacher and mentor meet weekly. The mentor observes and provides feedback to the beginning teacher. The mentor also facilitates cohort meetings for a group of beginning teachers to share and discuss teaching strategies.

E. Ambitious Instruction and Learning

1. Instructional Programs and Strategies

a. Instructional Programs

1. Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards.

Glen Springs Elementary adopted a reading and math series that meets many of the Florida Standards. Additional resources that are used in meeting Florida Standards include FCRR activities, Florida Ready in both ELA and Math, CPALMS, and additional resources and technology based programs provided by the district.

b. Instructional Strategies

1. Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments.

Students served through the exceptional education program receive instruction using a Co-teach model of learning across grade levels. Within the general education classroom, a teacher of exceptional education supports the general education teacher in providing standards based while making accommodations and modification based on the individual needs of the student. Students working above grade level are provided enrichment materials and projects that align with the Florida Standards. CPALMS activities, adaptable computer based programs {IStation, Achieve 3000, and Smarty Ants}; as well, as questioning from Webb's Depth of Knowledge also provide instruction for the various levels. Throughout the year, teachers will also receive professional development training on the principles of the Universal Designs of Learning {UDL}, a practical application of differentiation in the classroom.

2. Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:

Strategy: After School Program

Minutes added to school year: 1,320

Approximately 32 identified students in grades three through five will receive small group (8 students or less), intensive after school tutoring two days a week for one hour each day from October 2017 until April 2018. Students will be instructed using the Achieve 3000 program and CARS/ STARS a research-based reading program that aligns with Common Core State standards.

Strategy Rationale

The students require additional instruction to acquire needed skills in reading and language arts.

Strategy Purpose(s)

- Core Academic Instruction

Person(s) responsible for monitoring implementation of the strategy

Croft, Colleen, croftcl@gm.sbac.edu

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

Data from Instructional Progress Monitoring (IPM) assessments and grade level common assessments will be used to determine the effectiveness of the tutoring program.

Strategy: After School Program

Minutes added to school year: 1,080

Approximately 8-16 identified students in grades 3-5 will meet two days per week for additional math instruction. Students will go to the computer lab one day per week to work on math skills in addition, subtraction, multiplication and division. This will be done using the research-based computer program, I-Station, supported by the district. The other day will be in small group (8 students or less), intensive instruction using Math Triumphs and/or CAMS/STAMS evidence-based math remediation programs.

Strategy Rationale

The students require additional instruction and practice in basic math skills.

Strategy Purpose(s)

- Core Academic Instruction

Person(s) responsible for monitoring implementation of the strategy

Croft, Colleen, croftcl@gm.sbac.edu

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

Data from Instructional Progress Monitoring scores and grade level My Math unit assessments will be used to determine the effectiveness of the intervention, as well as; supplemental IPM with research-based CAMS/STARS program.

Strategy: Extended School Day

Minutes added to school year: 2,160

Title 1 supplemental reading instruction will be provided to selected students in grades one through five using the intervention series (Reading Street - My Sidewalks; CARS/STARS) during teacher directed PE time.

Classroom teachers will meet with small intervention groups at least two time a week for 30 minutes during teacher directed PE time.

Strategy Rationale

The students require additional instruction to acquire needed skills in reading and language arts.

Strategy Purpose(s)

- Core Academic Instruction

Person(s) responsible for monitoring implementation of the strategy

Croft, Colleen, croftcl@gm.sbac.edu

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

Data from reading assessments (AIMS, ISIP) and unit benchmark assessments will be reviewed monthly and updated groups will be formed if needed.

2. Student Transition and Readiness

a. PreK-12 Transition

The school's response to this question may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(7)(A)(iii)(V).

1. Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

The district, through the Voluntary Pre-K (VPK) program, provides an opportunity for every four year old to participate in pre-kindergarten classes to become better prepared for kindergarten.

In May of each year, the school holds "Kindergarten Round-up". This is an informational session, where parents can complete necessary enrollment paperwork, ask questions, and take a tour of the kindergarten classrooms.

Parents may contact the Principal or Assistant Principal for additional information and a tour of the school.

b. College and Career Readiness

1. Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

2. Identify the career and technical education programs available to students and industry certifications that may be earned through those respective programs.

3. Describe efforts the school has taken to integrate career and technical education with academic courses (e.g., industrial biotechnology) to support student achievement.

4. Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the [High School Feedback Report](#), as required by section 1008.37(4), Florida Statutes.

II. Needs Assessment

The school's completion of this part may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(6).

A. Problem Identification

1. Data to Support Problem Identification

b. Data Uploads

Data uploads are not required by the Florida Department of Education but are offered as a tool for the needs assessment. In this section, the school may upload files of locally available data charts and graphs being used as evidence of need.

The following documents were submitted as evidence for this section:

No files were uploaded

2. Problem Identification Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the points of strength and areas of need that have been identified in the data.

B. Problem Analysis Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the underlying "why" or root causes for the areas of need identified in the data, as determined by situational awareness of, and research conducted by, the stakeholders involved in the needs assessment.

C. Strategic Goals

School Improvement Goals

The following key is intended to help readers understand how the sections of this document correspond to the steps of the 8-step planning and problem-solving framework used in the School Improvement Plan. The Quick Key numbers can help registered users go directly to the point of entry for any given goal, barrier and strategy within the online survey.

Problem Solving Key

G = Goal

B =
Barrier

S = Strategy

1 = Problem Solving Step  **S123456** = Quick Key

Strategic Goals Summary

- G1.** The percent of students scoring at proficiency or above in English Language Arts will increase by at least 10 %.
- G2.** The percent of students scoring at proficiency or above in Mathematics will increase by at least 10 %.
- G3.** At least 50% of the lowest quartile will make a year's gain in Mathematics.

Strategic Goals Detail

For each strategic goal, this section lists the associated targets (i.e., "SMART goals"), targeted barriers to achieving the goal, resources available to help reduce or eliminate the barriers, and the plan for monitoring progress toward the goal.

G1. The percent of students scoring at proficiency or above in English Language Arts will increase by at least 10 %. 1a

G095747

Targets Supported 1b

Indicator	Annual Target
FSA ELA Achievement	64.0
FSA Mathematics Achievement	68.0
Math Lowest 25% Gains	50.0

Targeted Barriers to Achieving the Goal 3

- The transition to Florida Standards, and the impact the transition has on the type and complexity of activities.
- Students have deficiencies that cannot be addressed during core block of instruction.
- Limited or restricted intervention resources and time impact the learning environment.

Resources Available to Help Reduce or Eliminate the Barriers 2

- District adopted reading and math series, including intervention materials.
- Title 1 Resources: My Sidewalks, Achieve 3000, Smarty Ants, Calendar Math.
- Florida Ready supplemental instruction in both ELA and Math.
- Adaptable technology based computer programs for both ELA and Math across grade levels K-5 {IStation}
- Title 1 Teacher will be the ELA teacher of record for a heterogeneous group of grade three students.

Action Plan for Improvement

For each strategy selected in the plan to reduce a targeted barrier to a strategic goal, this section lists the rationale for that strategy (i.e., why the school believes it will reduce the barrier) and the action steps that have been identified as necessary to implementing the strategy, including details such as the point person, timing and duration, and evidence of completion. At the end of each set of action steps is the plan for monitoring the implementation and effectiveness of the respective strategy.
