The 2014-15 school grades serve as informational baseline data that schools can use to improve in future years.

### School Board Approval

This plan is pending approval by the Marion County School Board.

### SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing.

This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

### Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

### Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

### Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

### Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

## Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

### DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

### DA Categories

At the start of each academic year, traditional schools are classified for DA support in two categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- **Not in DA** - A school with a current school grade of A, B, or C; charter schools; and ungraded schools.
- **Targeted Support and Improvement** - A school with a current school grade of an initial D.
- **Comprehensive Support and Improvement** - A school with a current school grade of F or two consecutive grades of D, or a high school with a graduation rate of 67 percent or less in the most recent data release.

### DA Turnaround Status

Additionally, Comprehensive Support and Improvement schools have a turnaround status of "Implementing," based on a school's grades history, including the current school grade:

- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

## I. Part I: Current School Status

### A. Supportive Environment

#### 1. School Mission and Vision

##### a. Provide the school's mission statement.

Wyomina Park Elementary strives for excellence!

##### b. Provide the school's vision statement.

Wyomina Park Elementary is a safe school where all children prepare for their future, community involvement is encouraged and achievement is celebrated.

#### 2. School Environment

##### a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

Cultural beliefs and customs are shared with the staff through the school's morning show announcements and master calendar. Teachers celebrate a variety of cultures throughout the school year through the use of academic and non-academic activities, some of which involve children sharing their experiences.

##### b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

Various staff members are strategically placed at entrance and exit points in the morning and afternoon to watch children come to and leave school.

Members of the administrative team are placed in specific "high-traffic" areas to monitor students during the arrival and dismissal periods.

No child is allowed to walk by his or herself during the course of the day.

The administrative team takes a very active role when any type of danger or threat is posed to the student body. The staff has been trained to actively look for printed badges or name tags on unfamiliar personnel. That unfamiliar person is asked to go directly to the front office and sign in. If the person refuses, the front office is notified immediately.

The morning show emphasizes the right to learn and feel safe on a daily basis.

Code Yellow and Red alerts are practiced four times a year, instead of the mandatory one time practice in order for the students and staff to be better prepared.

##### c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.

Wyomina Park is a PBS school. Protocol is reviewed during preplanning week and systematically followed by the Deans. Use of PBIS currency is encouraged by teacher signatures on currency and drawings for prizes. School wide expectations are posted for classrooms, hallways, buses, cafeteria, restrooms and carline. The school also utilizes the MTSS protocol when needed for Tier II and Tier III students.

##### d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

The Leadership team reviews students who demonstrate a need for counseling and mentoring on a weekly basis. Students are placed into small counseling groups according to need. Some students require a check-in/check-out process throughout the day (for mentoring or a part of a specific behavior plan). Specific members of the staff are utilized for the check-in/check-out process based on the relationship they have with the student(s). At risk students participate in a mentoring program championed by the Guidance Counselor. Those students are chosen based on MTSS identification, Tier 2 or Tier 3, in academics and behavior. The students in Tier 3 for behavior are also enrolled in the Second Steps program.

### 3. Early Warning Systems

The school's response to this section may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(7)(A)(i) and (b)(7)(A)(iii)(III).

#### a. Describe the school's early warning system and provide a list of the early warning indicators used in the system.

The district provides access to Unify which helps aggregate data targeted for specific students. This data is discussed weekly at the school's Leadership Team meeting. Students are tracked to determine improvements. If no improvement, parent contact is made to schedule a meeting with the Guidance Counselor and Social Worker and if needed, Administration.

#### b. Provide the following data related to the school's early warning system

##### 1. The number of students by grade level that exhibit each early warning indicator:

Indicator	Grade Level													Total
	K	1	2	3	4	5	6	7	8	9	10	11	12

Students exhibiting two or more indicators	0	2	5	16	12	11	0	0	0	0	0	0	0	46

#### c. Describe all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system.

- Weekly monitoring to determine if issue is improving or getting worse
- MTSS is organized to maximize the amount of groups, keeping the numbers of students in each group 6 or less
- Leadership team meets weekly to continually monitor students in need
- Title I Paraprofessionals progress monitor weekly using a systematic approach

Title I, Part A

Wyomina Park Elementary has several programs that coordinate with other state and federal dollars available and integrate federal and state programs so that the school can meet state and NCLB requirements.

Specifically:

Title I Part A - Provides funding for additional paraprofessionals needed to work with at-risk students as well as staff development and parent involvement.

Title I, Part C- Migrant

Title I – Part C – Migrant Program: District funds are used to purchase:

- School supplies,
- Fund a Migrant Liaison that works with schools and families to identify students and provide need referrals for families who meet the federal eligibility to participate in the program.

Title II – Part A: - District provides staff development activities to improve basic educational programs

and to assist administrators and teachers in meeting highly qualified status.

Title II – Part D: - District receives supplemental funds for improving their basic education programs through the purchase of small equipment to supplement education programs and technology in classrooms which will increase the instructional strategies

provided to students and in addition, for instructional software that will enhance literacy and math skills of struggling students and early childhood students

Dropout prevention and academic intervention are funded through the Florida Education Finance Program (FEFP) and Supplemental Academic Instruction categorical funds. School districts have flexibility in how SAI funds may be expended as long as dollars are used to help students gain at least a year of knowledge for each year in school and to prevent students from being left behind. Supplemental instruction strategies may include, but are not limited to modified curriculum, intensified reading instruction, after school instruction, tutoring, mentoring, class size reduction, and extended school year intensive skills development during summer school.

District receives funds for programs such as Red Ribbon Week and Bullying Prevention that support prevention of violence in and around the school and that prevent the illegal use of alcohol, tobacco, drugs and foster a safe, drug free learning environment that supports student achievement.

Florida Department of Agriculture and Consumer Services offers a grant to schools in the State of Florida. There is an application process to determine eligibility. Through the statewide application process for The Fresh Fruit and Vegetable Program only the schools with the highest Free/Reduced percentages were chosen. For the 2012-2013 school year Wyomina Park Elementary is one of two hundred and thirty schools statewide to be chosen and one of only six schools in Marion County.

### D. Public and Collaborative Teaching

The school's responses to this section may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(7)(A)(iii)(IV).

#### **1. Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction.**

The 2017-2018 master schedule was revised to provide teachers time to meet as grade levels weekly for planning, understanding standards, and analyzing data to make instructional decisions with the greatest impact for each student. Faculty meetings will be utilized to provide quality professional development, examine highly effective teaching strategies, and align them with the teacher evaluation rubric. Teachers will also analyze school wide data during their faculty meetings to continue the mission of Wyomina Park Elementary.

#### **2. Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school.**

The Principal and Assistant Principal recruit current employees who have completed education programs and exhibit the desired qualities, post positions on district on-line Job Board, and partner new teachers with veteran staff.

#### **3. Describe the school's teacher mentoring program, including the rationale for pairings and planned mentoring activities.**

Beginning teachers are paired with an experienced teacher as a mentor for their first year. These partnerships are made with teachers in their grade level or ones with experience in the beginning teacher's grade level. Logs are kept to ensure the beginning teacher is supported at the school level. The district also has a program developed to support and train the beginning teacher through regular professional development both face to face and online, as well as support with both the mentor and the new teacher.

Weekly grade level teams meet to discuss issues and concerns facing the grade level. They share ideas for lesson planning and best practices. Throughout the school year grade level teams meet for targeted staff development days and support each other in meeting the needs of the students in their classroom. During classroom observations by the school administrators, teachers who are struggling with instructional practices are paired with a teacher who has demonstrated the ability to meet student needs. Additional classroom observations are made with follow up meetings with either the principal or assistant principal to discuss the instructional practices and whether or not improvement is being made.

## **E. Ambitious Instruction and Learning**

### **1. Instructional Programs and Strategies**

#### **a. Instructional Programs**

***1. Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards.***

Instructional materials are decided by the state and the district uses teams of teachers and administrators to review materials using a rubric to decide the materials to be purchased. Professional development in the form of collaborative teams is offered for teachers to review, plan, and reflect on the standards within teaching Units, and lessons.

#### **b. Instructional Strategies**

***1. Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments.***

The Principal and Assistant Principal meet weekly with each grade level. This time is reserved to discuss student data, understand the Florida Standards and how to ensure the students are mastering through effective instructional strategies. It is a time to develop strategies for effective instruction as well as reflect on lessons taught. Our teachers and paraprofessionals focus on small group differentiated instruction to ensure individual needs are being met. Students in Tier 2 or Tier 3 are instructed utilizing research based district required programs to ensure they are remediated back to grade level.

***2. Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:***

**Strategy:** Extended School Day

**Minutes added to school year:** 7,200

We will have 2 MTSS blocks each day, 45 minutes each, so support kids in Tier 2 and Tier 3 reading and math, as well as provide opportunities for enrichment.

**Strategy Rationale**

More time spent in small group intervention will increase the number of proficient students.

**Strategy Purpose(s)**

- Core Academic Instruction
- Enrichment
- Teacher collaboration, planning and professional development

**Person(s) responsible for monitoring implementation of the strategy**

Baxley, Joy, joy.baxley@marion.k12.fl.us

**Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy**

iReady diagnostic and growth monitoring data will be used to determine the effectiveness of the interventions.

STAGGER START is a district initiative to assist students in transitioning into local elementary schools. One half of the class per day attend school the first two days giving staff the opportunity to administer assessments, to develop one-on-one relationships with students and to eliminate anxiety is the primary focus of STAGGER START. FLKRS are tools used to determine readiness needs. Florida's Voluntary Pre-K, Headstart, and Hippy (Home Instruction for Parents of Preschool Youngsters) are programs currently implemented throughout the district to assist preschoolers with early literacy skills. The DRA, or Diagnostic Reading Assessment will also be used to determine which skills need strengthening. Ongoing communication is provided to parents regarding these programs. Federal and state funding is used to provide programs for our preschool children.

### b. College and Career Readiness

**1. Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.**

College and Career Readiness: Marion County Public Schools implements standards provided by the state that are set to prepare students for success and make them competitive in the global workplace. ## Action Plan for Improvement

*For each strategy selected in the plan to reduce a targeted barrier to a strategic goal, this section lists the rationale for that strategy (i.e., why the school believes it will reduce the barrier) and the action steps that have been identified as necessary to implementing the strategy, including details such as the point person, timing and duration, and evidence of completion. At the end of each set of action steps is the plan for monitoring the implementation and effectiveness of the respective strategy.*
