### School Board Approval

This plan is pending approval by the Dade County School Board.

### SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing.

This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

### Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

### Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

### Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

### Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

## Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

### DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

### DA Categories

At the start of each academic year, traditional schools are classified for DA support in two categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- **Not in DA** - A school with a current school grade of A, B, or C; charter schools; and ungraded schools.
- **Targeted Support and Improvement** - A school with a current school grade of an initial D.
- **Comprehensive Support and Improvement** - A school with a current school grade of F or two consecutive grades of D, or a high school with a graduation rate of 67 percent or less in the most recent data release.

### DA Turnaround Status

Additionally, Comprehensive Support and Improvement schools have a turnaround status of "Implementing," based on a school's grades history, including the current school grade:

- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

The school's responses to this section may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(7)(A)(iii)(IV).

##### **1. Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction.**

The Leadership Literacy Team (LLT) meets monthly to collaborate and plan professional development that aligns with the school's goals and fosters collaborative planning and instruction allowing for student achievement with the Florida State Standards (FSS). In addition, the LLT meets with teachers to implement evidence-based strategies discussed during LLT planning meetings to ensure teachers plan and deliver effective instruction.

##### **2. Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school.**

The following strategies will be supervised by the administrative team.

1. Networking with other schools to recruit personnel
2. Placement of student classroom observers and interns
3. Regular meetings with new teachers
4. Participation in the Mentoring and Induction for New Teachers (MINT) Program

**3. Describe the school's teacher mentoring program, including the rationale for pairings and planned mentoring activities.**

The mentee will be paired with a mentor within their academic department. A mentor teacher occupies a leadership role in the school such as a department chair, grade-level chair, reading coach, mathematics coach, National Board Certified Teacher, and/or a MINT certified site-based mentor.

The mentor and mentee will meet bi-weekly to discuss evidence-based and data-driven strategies for each domain. The mentor is given release time to observe the mentee and provide feedback and coaching.

## **E. Ambitious Instruction and Learning**

### **1. Instructional Programs and Strategies**

#### **a. Instructional Programs**

***1. Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards.***

Administration meets consistently with the Core Instructional Leaders to collaborate and plan professional development activities that align to the Florida State Standards (FSS). Faculty members participate in professional learning activities which focus on curriculum alignment, evidence-based instructional strategies, District Pacing Guides and data analysis.

#### **b. Instructional Strategies**

***1. Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments.***

Faculty participate in professional learning activities which focus on curriculum alignment, instructional strategies, District Pacing Guides and data analysis. Departments analyze assessment data to determine additional instructional supports needed by students. Teachers re-teach and present mini-lessons after analyzing data. Students in need of further support will be offered after-school tutoring in order to meet the diverse needs of students.

***2. Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:***

**Strategy:** Extended School Day

**Minutes added to school year:** 4,320

After-school tutoring for students in the English Language Learner (ELL) program will be offered twice a week over a 12 week span in order to assist in preparation for ELA. Crunch-time tutoring initiatives will take place throughout the year after school, as needed. Honor societies will offer tutoring for students in need of remediation or instruction.

**Strategy Rationale**

Differentiating instructional models will ensure the needs of our diverse population of students is met.

**Strategy Purpose(s)**

- Teacher collaboration, planning and professional development

**Person(s) responsible for monitoring implementation of the strategy**

Valero, Alina, 250327@dadeschools.net

**Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy**

Teacher-created tests and mini-assessments, Interim Assessments, Student Data Chats through core departments.

## 2. Student Transition and Readiness

### a. PreK-12 Transition

The school's response to this question may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(7)(A)(iii)(V).

**1. Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.**

N/A

### b. College and Career Readiness

**1. Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.**

Secondary School Reform has allowed high schools to make elective combinations that promote career planning. Students discuss their potential career interests with their teachers and counselors and are then exposed to the available Academy options that may be of interest to them. Through this discussion and choice selection, students' course of study becomes meaningful.

**2. Identify the career and technical education programs available to students and industry certifications that may be earned through those respective programs.**

Students are encouraged to take elective courses that are aligned within an area of interest that may be relevant to the students' future study. Additionally, core content departments are encouraged to work interdisciplinary with electives and vocational courses in order for students to see the relationship together. This will be done through the infusion of project-based instruction.

**3. Describe efforts the school has taken to integrate career and technical education with academic courses (e.g., industrial biotechnology) to support student achievement.**

Miami Springs Senior High School's (MSSH) graduates completing a post-secondary curriculum has increased steadily. A post-secondary curriculum includes four Language Arts courses, at least three to four Mathematics courses, three to four science courses and the three required social studies courses. Additionally dual enrollment courses are encouraged. MSSH also encourages students to participate in Advanced Placement/Dual Enrollment and Cambridge Courses beginning in the ninth grade with World History and Language Arts..

The graduation data shows 80.0% of our students receive a diploma. Our Student Services department will continue to meet with senior students three times during the school year. This will ensure that senior students are monitoring their GPA and increasing the possibility for scholarships, such as the Bright Futures. Our College Assistance Program (CAP) Counselor invites colleges and universities to come to the school and meet with students that are potential candidates to attend their schools. Also, our CAP will continue to work with students on compiling Financial Aid information and researching of scholarships for students. Administrative team will meet with at risk students to offer support as needed.

**4. Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the [High School Feedback Report](#), as required by section 1008.37(4), Florida Statutes.**

When comparing our district to others across the state we are well ahead of the average as we continue to offer remedial study opportunities for our students and encourage them to take the SAT, ACT and PERT. In addition, MSSH offers Cambridge, AP and Dual Enrollment (off-campus) courses to further challenge our students. All 10th grade students this year will participate in the PSAT and we will use the results to aid in identifying students abilities for future course placement.

## II. Needs Assessment
