The 2014-15 school grades serve as informational baseline data that schools can use to improve in future years.

School Board Approval

This plan is pending approval by the Dade County School Board.

SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing.

This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

At the start of each academic year, traditional schools are classified for DA support in two categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- **Not in DA** - A school with a current school grade of A, B, or C; charter schools; and ungraded schools.
- **Targeted Support and Improvement** - A school with a current school grade of an initial D.
- **Comprehensive Support and Improvement** - A school with a current school grade of F or two consecutive grades of D, or a high school with a graduation rate of 67 percent or less in the most recent data release.

DA Turnaround Status

Additionally, Comprehensive Support and Improvement schools have a turnaround status of "Implementing," based on a school's grades history, including the current school grade:

- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

I. Part I: Current School Status

A. Supportive Environment

1. School Mission and Vision

a. Provide the school's mission statement.

We are committed to building a community of creative and analytical thinkers through rigorous and relevant academic choices and diverse educational opportunities designed to prepare our students to meet the demands of our ever-changing world.

b. Provide the school's vision statement.

We will empower our students to become confident, self-directed, life-long learners, and proactive members of society.

2. School Environment

a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

The leadership team at Hialeah-Miami Lakes has brought a vision of high academic standards and academic excellence to the school and community. As a school, we are committed to building a community of creative and analytical thinkers through relevant academic choices and diverse educational opportunities designed to prepare our students to meet the demands of our ever-changing world. In the past four years, the school has experienced a significant increase in the number of students participating in advanced academics. We have made it a personal mission to increase the number of AP and Dual Enrollment courses offered at Hialeah-Miami Lakes. In the last four years Hialeah-Miami Lakes, increased the number of Dual Enrollment classes through Florida International University from three to fifteen. Our goal is to expose our students to as many college level opportunities as possible, helping to prepare our students for post-secondary success. Dynamic instruction throughout the curriculum focuses on both leadership and problem-solving abilities. With access to the latest technology and individualized educational plans students build confidence and simultaneously foster a desire to be life-long learners. Students learning in a myriad of ways with exposure to a variety of instructional approaches allot opportunities for students to construct meaningful context to support their learning. A student's learning potential is enhanced by positive relationships and mutual respect among and between students and staff. Opportunities for college tours and field trips continue to perpetuate student curiosity and their thirst for knowledge. Additionally, Hialeah-Miami Lakes is home to three magnet programs and AP Capstone. The rigor and expectations of the magnet programs augment the student's experience and ultimately prepares them to be competitive in a 21st century workforce. iPrep at Hialeah-Miami Lakes is an innovative program designed to integrate technology into every area of the learning environment, including curriculum delivery and collaboration. The implementation of the iPrep magnet included a complete renovation of our third floor, which transformed the area into a state-of-the-art technological, educational facility equipped with smart boards and Mac-book Airs for every student. The program was awarded a magnet school of distinction for two consecutive years in 2015-2016 and 2016-2017 award by Magnet schools of America. Augmenting the school environment our Digital Media and Entrepreneurship magnet also saw massive renovations in our former Culinary Arts room to include up-to-date technology, furniture and collaborative rooms for student work and exploration.

b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

Hialeah-Miami Lakes creates and maintains a safe and respected environment by implementing The Code of Student Conduct and Promoting and Maintaining a Safe Learning Environment School Board Policy 6Gx13-5D-108. Hialeah-Miami Lakes builds upon each student's potential for learning and fosters positive interpersonal relationships through personal, academic, civic, and occupational adequacies in order to become effective and productive citizens. Hialeah-Miami Lakes personnel are trained and equipped with the skill sets and knowledge needed to respond to critical incidents or other related emergencies that may arise in the school or community by implementing the Critical Incident Response Plan developed for the school.

c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.

Hialeah-Miami Lakes aligns its school-wide behavioral system with the Multi-tiered System of Support and procedures using corrective strategies outlined in the Code of Student Conduct shared with staff during the Opening of Schools and students on the first day of school . Hialeah-Miami Lakes established a progressive discipline protocol to deal with disciplinary incidents that arise in order to set forth clear behavioral expectations among teachers, students, and parents. Hialeah-Miami Lakes Administrative Progressive Discipline Plan is available on the school's website and is provided to teachers to ensure fairness and equity among disciplinary incidents.

d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

The emotional safety of students at Hialeah-Miami Lakes will be addressed by array of personnel and programs. All students are able to seek the services of the TRUST Specialist upon request as well as schedule an appointment with their Student Service Guidance Counselor during school hours. Providing additional support through the Health/Driver Education classes are Switchboard of Miami/ Project Wise and Abriendo Puertas. A working relationship is also maintained with community agencies such as MC USA that serve the emotional needs of our students through the TRUST Program in Student Services. Student with IEP's in the ESE program are supported by the EBD Clinician and Art Therapist.

3. Early Warning Systems

The school's response to this section may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(7)(A)(i) and (b)(7)(A)(iii)(III).

a. Describe the school's early warning system and provide a list of the early warning indicators used in the system.

Hialeah-Miami Lakes Senior High uses Early Warning Systems when determining our at-risk student population by addressing attendance, suspensions, course failure and standardized assessments. Student Services progress monitors students using Student Pupil Progression Plan.

b. Provide the following data related to the school's early warning system

1. The number of students by grade level that exhibit each early warning indicator:

B. Family and Community Engagement

The school's response to this section may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(2) and (b)(7)(A)(iii)(I).

1. Describe how the school works at building positive relationships with families to increase involvement, including efforts to communicate the school's mission and vision, and keep parents informed of their child's progress.

a. Will the school use its Title I Parent and Family Engagement Policy (PFEP) to satisfy this question?

No

1. PFEP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

2. Description

Hialeah-Miami Lakes Senior High School will build positive relationships with families through the use of Open House, Pathway Meetings, and Community Involvement Specialist.

2. Describe the process by which the school builds and sustains partnerships with the local community for the purpose of securing and utilizing resources to support the school and student achievement.

Hialeah-Miami Lakes Senior High School builds and sustains partnerships with local community agencies through Dade Partners in order to establish a cooperative agreement between the school and business professionals, civic groups, and government agencies to bring resources together to improve student achievement and enhance educational programs within our school. Through the Educational Excellence School Advisory Council (EESAC), Dade Partners, such as Florida International University, Sherilyn Lukas, Dual Enrollment Advisor and Miami Dade College, Sophie Pisoneros, Pre College Advisor are encouraged to participate in monthly meetings to ensure all stakeholders are involved with the decisions making process that impacts student achievement.

C. Effective Leadership

1. School Leadership Team

a. Membership

Identify the name, email address and position title for each member of the school leadership team.:

Name	Title
Garcia, Lisa	Principal
Vinas, Barbara	Assistant Principal
Robinson, Felicia	Assistant Principal
Ramirez, Juan	Assistant Principal

b. Duties

1. Describe the roles and responsibilities of the members, including how they serve as instructional leaders and practice shared decision making.

Lisa Garcia, Principal; Juan Ramirez, Assistant Principal, Felicia Robinson, Assistant Principal, and Barbara Viñas, Assistant Principal will schedule and facilitate regular Instructional Leadership meetings to follow up on action steps and allocate resources for intervention. In addition to the school administrators and the school Leadership Team will include the following members will carry out the planning of the school improvement and strategic planning for student achievement.

- Sandra Ortiz , Students with Disability Chair
- Odalys Acosta, Student Services Department Chair
- Monica Hurter, Art Therapist
- Odalys Acosta, TRUST Counselor
- Erika Baltar, Social Worker
- Victor Astacio, Psychologist
- Marissa Machado, iPrep Lead Teacher
- Elena Sanchez, ELA Department Chair
- Anne Knight, Reading Coach

- Robert Mayrovitz, Science Department Chair
- Shenita Hunt, Fine Arts Department Chair
- Richard Silberman, Activities Director
- Michael Phillips, IT Administrator
- Yenelin Cabañas, ELL Department Chair
- Michelle Simon, Social Studies Department Chair
- David Ruiz, CTE Department Chair

Selected members of the Instructional Leadership Team will conduct regular meetings to evaluate intervention efforts for students by subject, grade, intervention, or other logical organization. In addition to those selected other teachers will be involved when needed to provide information or revise efforts.

2. Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

The Instructional Leadership Team is strategically integrated in order to support the administration through a process of problem solving as issues and concerns arise through an ongoing, systematic examination of available data with the goal of impacting student achievement, school safety, school culture, literacy, attendance, student social/emotional well-being, and prevention of student failure through early intervention. It is anticipated that this will be a 3-year process of building the foundation and incorporating systems of support into the culture of each school.

1. Leadership Team leadership is vital, therefore, in building our team we have considered the following:

- Administrator(s) who will ensure commitment and allocate resources;
- Teacher(s), Department Chairs and Coaches who share the common goal of improving instruction for all students; and
- Team members who will work to build staff support, internal capacity, and sustainability over time.

2. The school's Leadership Team will include additional personnel as resources to the team, based on specific problems or concerns as warranted, such as:

- School reading, math, science, and behavior specialists
- Special education personnel
- School guidance counselor
- School psychologist
- School social worker
- Member of advisory group
- Community stakeholders

The Instructional Leadership Team will use data and Early Warning Systems to identify the school's needs and resources that will impact student achievement and Early Warning Systems. Using state and district assessments, strategic planning and monitoring will take place in order to evaluate the core instructional practices and behavioral methodologies embedded within the instructional framework. Differentiated Instruction and interventions will be provided to any student not showing adequate gains in state and/or district assessments through a push-in/push-out model, after-school tutoring, and Saturday School. Intensive instructional and/or behavioral interventions will be provided with the goal of increasing an individual student's rate of progress academically and/or behaviorally.

There will be an ongoing evaluation method established for services at each tier to monitor the effectiveness of meeting school goals and student growth as measured by benchmark and progress monitoring data.

Instructional Coaches are used during common planning to unpack the Florida Standards effectively and build capacity among teachers through systematic coaching cycles.

b. Instructional Strategies

1. Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments.

In order to meet the diverse needs of students, state and district assessment data is used to differentiate instruction and progress monitor students based on their academic needs. Through Common Planning, data is used to differentiate instruction in order to increase, remediate, and enrich student performance.

2. Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:

Strategy: Extended School Day

Minutes added to school year: 1,920

Students will have the opportunity to participate in the following:

After-School Tutoring: Students will receive additional instruction in Math, to assist them in passing state required assessments

ELL Tutoring: Students will receive additional instruction in core subjects as Reading, Math, to assist them in passing state required assessments.

Saturday School-Tutoring Academy Students will receive additional instruction in core subjects as Reading, Math, Writing, Biology, U.S History, and SAT/ACT practice to assist them in passing state required assessments.

Strategy Rationale

Provide students will opportunities for students to attain proficiency on State Assessments

Strategy Purpose(s)

- Core Academic Instruction
- Enrichment

Person(s) responsible for monitoring implementation of the strategy

Garcia, Lisa, lisagarcia@dadeschools.net

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

Data is collected through Mid-Year assessments, curriculum based assessments, and Topic Assessments to monitor and ensure students are making progress on targeted and tested item specifications on each assessment.

2. Student Transition and Readiness

a. PreK-12 Transition

The school's response to this question may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(7)(A)(iii)(V).

1. Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

Hialeah Miami Lakes Senior High School supports the incoming cohorts by hosting an annual Feeder Pattern Showcase and articulation meetings. This allows for all instructional leaders to align the student's needs to the Pupil Progression Plan. Post Secondary Education is promoted among all grade levels through grade-level meetings presented by the CAP Advisor. Additionally, College Tours and College Fairs are supported to bring awareness on requirements needed to attend such institutions.

b. College and Career Readiness

1. Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

Hialeah-Miami Lakes Senior High School by way of Smaller Learning Communities (SLC) program awards discretionary grants to local educational agencies (LEAs) to support the implementation of SLCs and activities to improve student academic achievement in large public high schools with enrollments of 1,000 or more students. SLCs include structures such as freshman academies, multi-grade academies organized around career interests or other themes, "houses" in which small groups of students remain together throughout high school, and autonomous schools-within-a-school, as well as personalization strategies, such as student advisories, family advocate systems, and mentoring programs.

2. Identify the career and technical education programs available to students and industry certifications that may be earned through those respective programs.

Hialeah-Miami Lakes Senior High School set the foundation of all efforts to improve high school students' transition to postsecondary education and/or careers with an applied and integrated curriculum that connects academic and vocational learning. The Smaller Learning Communities at Hialeah-Miami Lakes Senior High are the following: Visual and Performing Arts Academy (Art, Band, Choir, and Piano); Business Academy (Business Management & Law, Entrepreneurship, Computer Skills, and Web Design); Communications Academy (Newspaper, TV Production, and Yearbook). Students select their academy through the assistance of the student services department and begin to take coursework in the area of interest. Moreover, this curriculum concept, supported by appropriate instruction and assessment, is designed to raise students' academic and vocational skills. It enables students to succeed either in securing higher paying and satisfying employment after high school or in having a general career focus when continuing their education in college or technical school. Students acquire a broader, more in-depth understanding of academic material and apply what they learn to real-life situations, better preparing them to succeed in whatever endeavor they choose after high school.

3. Describe efforts the school has taken to integrate career and technical education with academic courses (e.g., industrial biotechnology) to support student achievement.

Career and Technical Courses are offered to our students through our Digital Media Technology and Entrepreneurship classes. It enables students to succeed either in securing higher paying and satisfying employment after high school or in having a general career focus when continuing their education in college or technical school. Students acquire a broader, more in-depth understanding of academic material and apply what they learn to real-life situations, better preparing them to succeed in whatever endeavor they choose after high school.

4. Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the [High School Feedback Report](#), as required by section 1008.37(4), Florida Statutes.

In best preparing students for the public post-secondary level, Dual Enrollment and AP courses are offered in most disciplines. Students are challenged and expected to maintain a rigorous level of academic achievement parallel to that of a post secondary education. In addition, our college and

career readiness classes prepare students for the PERT and allow them to fulfill the examination requirement, while in high school.

II. Needs Assessment

The school's completion of this part may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(6).

A. Problem Identification

1. Data to Support Problem Identification

b. Data Uploads

Data uploads are not required by the Florida Department of Education but are offered as a tool for the needs assessment. In this section, the school may upload files of locally available data charts and graphs being used as evidence of need.

The following documents were submitted as evidence for this section:

No files were uploaded

2. Problem Identification Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the points of strength and areas of need that have been identified in the data.

B. Problem Analysis Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the underlying "why" or root causes for the areas of need identified in the data, as determined by situational awareness of, and research conducted by, the stakeholders involved in the needs assessment.

C. Strategic Goals

School Improvement Goals

The following key is intended to help readers understand how the sections of this document correspond to the steps of the 8-step planning and problem-solving framework used in the School Improvement Plan. The Quick Key numbers can help registered users go directly to the point of entry for any given goal, barrier and strategy within the online survey.

Action Plan for Improvement

For each strategy selected in the plan to reduce a targeted barrier to a strategic goal, this section lists the rationale for that strategy (i.e., why the school believes it will reduce the barrier) and the action steps that have been identified as necessary to implementing the strategy, including details such as the point person, timing and duration, and evidence of completion. At the end of each set of action steps is the plan for monitoring the implementation and effectiveness of the respective strategy.
