School Board Approval

This plan is pending approval by the Dade County School Board.

SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing.

This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

At the start of each academic year, traditional schools are classified for DA support in two categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- **Not in DA** - A school with a current school grade of A, B, or C; charter schools; and ungraded schools.
- **Targeted Support and Improvement** - A school with a current school grade of an initial D.
- **Comprehensive Support and Improvement** - A school with a current school grade of F or two consecutive grades of D, or a high school with a graduation rate of 67 percent or less in the most recent data release.

DA Turnaround Status

Additionally, Comprehensive Support and Improvement schools have a turnaround status of "Implementing," based on a school's grades history, including the current school grade:

- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

A safe learning environment is created through providing our students with an open line of communication with all administrators, teachers and the counselors. Students are provided individual

and/or group counseling and conflict resolution strategies when a conflict occurs. Students are supervised during arrival and dismissal from school. All students are placed in the cafeteria until they are picked up by the classroom teachers. Students are also escorted to the restrooms. Students are engaged in the collection and interpretation of their data and are fully aware of their academic and behavior goals. Students are also constantly recognized for displaying appropriate behavior. The Values Matter initiative will continue to be implemented by the School Counselor and Success Coach. This initiative focuses on the District's nine core values as the foundation of behavioral expectations for students.

Outside agencies are also utilized when there is a need beyond the developmental services the school counselor provides. The Success Coach will support students by actively engaging in the elimination of social and emotional barriers inhibiting student success. Services will be provided to selected students based on Early Warning Indicators.

Vision and hearing screenings are also administered at the school to assess if students are experiencing any visual or hearing deficiencies which may affect their academic and social-emotional progress.

The staff in this class assists pre-school children to make the transition into our elementary school program through the implementation of a Pre-School Transition Plan. Funds are used to provide extended support through a full-time highly qualified teacher and paraprofessional. This will assist with providing young children with a variety of meaningful learning experiences in environments that give them opportunities to create knowledge through initiatives shared with supportive adults. A "Transition to Kindergarten" program takes place in May and June annually. This program invites nearby Pre-K facilities and parents of Pre-K students to visit the school and participate in kindergarten classroom activities, school tours and meet classroom teachers in order to ensure a smooth transition for Pre-K students and their parents.

At Dr. Robert B. Ingram Elementary School, all incoming Kindergarten students are assessed on FLKRS which is used to determine Kindergarten readiness in Reading and Mathematics during the

first 30 days. The assessment assists the school in ascertaining individual and group needs and assists in the development of robust instructional/intervention programs. Data will be used to plan academic and social/emotional instruction for all students who may need intervention beyond core instruction.

Screening tools will be re-administered mid-year and at the end of the year in order to determine student learning gains and needs for changes to the instructional/intervention programs.

Students transitioning to middle school have the opportunity to visit the feeder pattern school to learn about the campus and program offerings.
