### SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing.

This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

### Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

### Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

### Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

### Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

## Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

### DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

### DA Categories

At the start of each academic year, traditional schools are classified for DA support in two categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- **Not in DA** - A school with a current school grade of A, B, or C; charter schools; and ungraded schools.
- **Targeted Support and Improvement** - A school with a current school grade of an initial D.
- **Comprehensive Support and Improvement** - A school with a current school grade of F or two consecutive grades of D, or a high school with a graduation rate of 67 percent or less in the most recent data release.

### DA Turnaround Status

Additionally, Comprehensive Support and Improvement schools have a turnaround status of "Implementing," based on a school's grades history, including the current school grade:

- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

## I. Part I: Current School Status

### A. Supportive Environment

#### 1. School Mission and Vision

##### a. Provide the school's mission statement.

Foster relationships with community partners in order to provide wrap-around services to successfully meet the diverse needs of EAOP students

##### b. Provide the school's vision statement.

We strive to find this common ground and assist with eradicating the school house to jail house pipeline, which is so prevalent in our communities through innovation, opportunity and access.

#### 2. School Environment

##### a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

Student teacher relationships are built by dialogues with teachers, students and their guardian(s). At the S3C centers, the process starts during the interview process where background inquiries are made, learning habits are learned, and potential obstacles are discussed openly in an effort to accommodate the student's needs and expectation. In the classroom, teachers start the day with a morning meeting to go over information, recent successes, and motivate students to meet their course completion goals. Teachers also meet often with students to discuss academic and personal issues. A TRUST counselor visits the sites weekly and a school psychologist is on call for teachers should they feel a student needs to speak to someone about a sensitive matter. Students benefit from the various support networks provided by education and program personnel. This helps build a family like environment in the classroom that fosters trust and mutual respect.

##### b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

High-performance relationships are fostered by all staff members with students to create an environment where students feel safe and respected by every adult they encounter before, during and after school. Moreover, each site implements protocols for arrival, dismissal and movement throughout the building in which they are situated where students never go unsupervised by an adult staff member.

##### c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.

As a requirement to entering the S3C program, an EAOP staff member sits with students and their guardian(s) to explicitly review the district Code of Student Conduct as well as site-specific guidelines and procedures for expected classroom behaviors and disciplinary incidents.

##### d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

EAOP has a team of full time-counselors who meet the needs of every student, often providing face to face contact on a weekly basis. Students are mentored daily by teachers on a one to one basis for academic needs and in small groups by teacher and subject area. School psychologists are also on

call should a teacher observe the need and a school social worker works directly with teachers to provide home visitations and give aid to the family of students in need of food, utilities, and county services.

### 3. Early Warning Systems

The school's response to this section may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(7)(A)(i) and (b)(7)(A)(iii)(III).

#### a. Describe the school's early warning system and provide a list of the early warning indicators used in the system.

Our program is a collaboration of various education settings under the Educational Alternative Outreach Program (EAOP, 13-8017). As such, EWS data is not specific to S3C students, but all students under EAOP. However, all students enrolled in the S3C program must meet the requirement of course failure in ELA or Math.

#### b. Provide the following data related to the school's early warning system

##### 1. The number of students by grade level that exhibit each early warning indicator:

Indicator	Grade Level													Total
	K	1	2	3	4	5	6	7	8	9	10	11	12	
Attendance below 90 percent	0	0	0	0	0	0	0	0	0	0	0	0	0	
One or more suspensions	0	0	0	0	0	0	0	0	0	0	0	0	0	
Course failure in ELA or Math	0	0	0	5	1	2	1	7	16	1	3	1	2	39
Level 1 on statewide assessment	0	0	0	8	7	8	4	22	44	12	22	22	13	162

##### The number of students identified by the system as exhibiting two or more early warning indicators:

Indicator	Grade Level														Total
	K	1	2	3	4	5	6	7	8	9	10	11	12		
Students exhibiting two or more indicators	0	0	0	8	8	7	5	22	47	5	5	16	9	132	

#### c. Describe all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system.

- Attendance: Various intervention strategies such as behavior recognition programs, field trips and special lunch days are used as incentives to improve student attendance. However, a call is placed to the student's home after a three consecutive days absence. If contact with a caregiver is not made, a home visit is conducted by our school social worker to investigate the matter and provide assistance if needed.
- Suspension: All efforts are made to prevent disciplinary incidents through behavior management protocols and counseling. As a last resort, students are referred to the Student Success Center as an alternative to outdoor suspension.
- Course failure in ELA or Math and/or Level 1 on statewide assessments: Students receive remediation through enrollment in an intensive reading and/or math course where research-based instructional materials are used to supplement the core curriculum. The purpose of the program is to provide students with the opportunity to recoup through credit recovery.

## Action Plan for Improvement

For each strategy selected in the plan to reduce a targeted barrier to a strategic goal, this section lists the rationale for that strategy (i.e., why the school believes it will reduce the barrier) and the action steps that have been identified as necessary to implementing the strategy, including details such as the point person, timing and duration, and evidence of completion. At the end of each set of action steps is the plan for monitoring the implementation and effectiveness of the respective strategy.
