Note: The school grades calculation was revised substantially for the 2014-15 school year to implement statutory changes made by the 2014 Legislature and incorporate the new Florida Standards Assessments. The 2014-15 school grades serve as informational baseline data that schools can use to improve in future years.

School Board Approval

This plan is pending approval by the Polk County School Board.

SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing.

This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at https://www.floridaCIMS.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school's Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., "SMART goals") for the coming school year in context of the school's greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in <u>section 1008.33</u>, <u>Florida Statutes</u>, is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

At the start of each academic year, traditional schools are classified for DA support in two categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by <u>Rule 6A-1.099811</u>, <u>Florida Administrative Code</u>:

- Not in DA A school with a current school grade of A, B, or C; charter schools; and ungraded schools.
- Targeted Support and Improvement A school with a current school grade of an initial D.
- Comprehensive Support and Improvement A school with a current school grade of F or two
 consecutive grades of D, or a high school with a graduation rate of 67 percent or less in the most
 recent data release.

DA Turnaround Status

Additionally, Comprehensive Support and Improvement schools have a turnaround status of "Implementing," based on a school's grades history, including the current school grade:

 Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

I. Part I: Current School Status

A. Supportive Environment

1. School Mission and Vision

a. Provide the school's mission statement.

The Mission Statement of Floral Avenue Elementary is to provide a supportive learning environment for all children to ensure that they become productive, responsible citizens in an ever-changing world.

b. Provide the school's vision statement.

In accomplishing our mission, students at Floral Avenue Elementary will:

- Be punctual, attend school regularly, and come prepared with homework and supplies.
- Follow school rules.
- Work cooperatively with other students.

The curriculum and instruction of the school will:

- Provide rigorous, relevant learning activities based on the Florida Standards.
- Challenge students and nurture creative thinking.
- Provide academic continuity across the grade levels.
- Provide extra assistance for students in need of additional academic support.

Student success will be fostered in a climate in which:

- All adults promote an enriching, comfortable, challenging learning environment.
- Staff members work as a team to continually improve instruction.
- Business partners, volunteers and families work cooperatively for the benefit of all students.

2. School Environment

a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

Our staff begins to learn about the students' cultures by studying the demographics of our student population. Once we know what the make-up of our student body is, it is then that we are able to plan for understanding the cultures that are represented. Our student body consists of 47% Caucasian, 27% Hispanic, and 23% African American members. A common thread that is seen in each of these categories is that of a high poverty level. Our staff participates in book studies and training to understand the cultural practices of individuals and families living in poverty or with a poverty mindset. Our staff uses a variety of techniques to build relationships with our students. It begins at the top. Our administrators learn the name of each of our students and address them by name throughout the year. Our teachers make phone calls to our students' parents at the beginning of the year with the intent of getting to know the parent and sharing something positive with them about their child. Each teacher holds a face to face parent conference for the purpose of learning as much as they can about the student and sharing as much data about the student's progress as possible. All of our teachers meet and greet our students at orientation prior to school opening as well as greeting them daily at the door as they arrive and leave.

b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

Our school fosters a safe and respectful environment where our students feel safe and respected before, during, and after school in a variety of ways. We cultivate school pride through the beauty and cleanliness of our physical plant. The yards and gardens are meticulously manicured while the grounds and buildings are kept immaculately clean from debris and graffiti. This setting promotes

respect and pride. Precisely planned adult supervision throughout the day is a major factor in promoting safety on our campus. The schedules for before school, breakfast, lunch, and afterschool supervision are proactively planned out with possible dangers in mind in order to prevent hazardous situations from happening when our students arrive. Students play a role in school safety as well by serving as patrols. Patrols are stationed throughout the campus to assist supervision and escorting younger students. During school our students are taught the behavioral expectations of being a model citizen. All staff enforces the same school wide expectations in all areas of our campus.

c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.

Our school runs smoothly by using a positive behavior system. Within this system, clear behavioral expectations are set forth and taught from the beginning of the year. Throughout the year, newsletters and email updates are shared with the staff that contain pertinent information from our positive behavior system committee. Assemblies, such as anti-bullying, are held to educate students on how to handle serious issues. High expectations are used in all areas of the school. Positive student behavior is rewarded by staff members noticing and awarding desired behaviors with a bee cut out that is added to a classroom hive. Completed hives earn special treats for the classroom of students. Teachers develop a set of classroom rules with their students that are used to minimize distractions during teaching. In the event that a student is unable to maintain self-control using the classroom plan, an administrator monitors and/or removes the student immediately. Disciplinary incidents outside of the classroom can most often be managed by conferencing with the student and exploring a better set of choices. Parent phone calls are made to inform parents of incidents and to help students understand that parents and the school are working together to promote model student behavior. Severe behavior incidents are dealt with on an individual basis and may require that parents to come to the school for assistance with their child. This year we will also be continuing the implementation of Champs.

d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

Our school ensures that the social-emotional needs of identified students are being met in a number of ways. Our on-site guidance counselor meets with individual students and small groups of students regarding immediate needs. We have a very strong mentoring program in place where we pair a student with a specific need to an adult that is able to volunteer at least one hour a week. During that hour students and mentors often each lunch together, read together, and build lasting relationships as mentors offer needed encouragement. Students who are identified as having a need of food, clothing, or shoes are met with discreetly and on an individual basis. Our school provides extra-curricular opportunities that students can participate in that aide in promoting healthy well rounded citizens. They range from groups that meet weekly such as chess, patrols, chorus, social skills and technology, to opportunities that arise throughout the year such as county level art shows, speech contests, and science expositions.

3. Early Warning Systems

The school's response to this section may address the requirements of ESSA, P.L. No. 114-95, \hat{A} § 1114(b)(7)(A)(i) and (b)(7)(A)(iii)(III).

a. Describe the school's early warning system and provide a list of the early warning indicators used in the system.

Floral Avenue Elementary uses the early warning system provided by our district that identifies students who have been absent 10 days as well as have any suspension days. This report is provided to the school monthly and is analyzed by our Data Leadership team to provide interventions

for at-risk students. We utilize the Genesis, Performance Matters and Pinnacle systems also to provide data for any students scoring a failing grade in English Language Arts or mathematics. Academic interventions are provided for these students that are failing. To monitor students having scored Level 1 on statewide standardized assessments in English Language Arts or mathematics, we utilize Performance Matters. Students that scored Level 1 or 2 are given priority access to additional instruction time during the school day as well as before and after.

b. Provide the following data related to the school's early warning system

1. The number of students by grade level that exhibit each early warning indicator:

Indicator		Grade Level											Total	
		1	2	3	4	5	6	7	8	9	10	11	12	TOtal
Attendance below 90 percent	17	10	7	9	14	16	0	0	0	0	0	0	0	73
One or more suspensions	0	0	0	0	0	5	0	0	0	0	0	0	0	5
Course failure in ELA or Math	2	6	0	0	0	0	0	0	0	0	0	0	0	8
Level 1 on statewide assessment	0	0	0	35	44	31	0	0	0	0	0	0	0	110

The number of students identified by the system as exhibiting two or more early warning indicators:

Indicator		Grade Level									Total			
		1	2	3	4	5	6	7	8	9	10	11	12	Total
Students exhibiting two or more indicators	0	0	0	1	9	2	0	0	0	0	0	0	0	12

c. Describe all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system.

Examples of the intervention strategies employed by Floral Avenue to improve the academic performance of students identified by the early warning system include: staff member assigned to call home if the student is absent more than 2 days, mentor assigned to meet with the student weekly, behavior chart with reward incentives, student assigned to the most highly effective teachers, consequences for discipline infractions that do not involve missing instructional time, tutoring provided during specials and/or before and after school, daily small group instruction with both teachers and para educators, multi-tiered systems of support, high school student volunteers, team meetings, and intensive immediate intervention strategies.

B. Family and Community Engagement

The school's response to this section may address the requirements of ESSA, P.L. No. 114-95, § 1114(b)(2) and (b)(7)(A)(iii)(I).

- 1. Describe how the school works at building positive relationships with families to increase involvement, including efforts to communicate the school's mission and vision, and keep parents informed of their child's progress.
 - a. Will the school use its Title I Parent and Family Engagement Policy (PFEP) to satisfy this question?

Yes

1. PFEP Link

The school completes a Parental Involvement Plan (PFEP), which is accessible through the Continuous Improvement Management System (CIMS) at https://www.floridacims.org/documents/415636.

2. Description

A PIP has been uploaded for this school or district - see the link above.

2. Describe the process by which the school builds and sustains partnerships with the local community for the purpose of securing and utilizing resources to support the school and student achievement.

Our school participates in community events such as the orchestra performance, community parades, Polk Museum of Art, Agrifest, and school plays to provide our students opportunities to participate in learning experiences that they would not have in the school setting. We invite community members such as Bartow Public Library and Gatorland to provide information and practical lessons to our students. We encourage community members to participate in our mentoring program at the school site where a community member would have lunch with a student and provide the student support for school success.

C. Effective Leadership

1. School Leadership Team

a. Membership

Identify the name, email address and position title for each member of the school leadership team.:

Name	Title
Dyer, Sheila	Principal
Ruhl, Tammy	Assistant Principal
Fitzhugh, Laura	Instructional Media
Lynch, Chris	Teacher, K-12
Peterson, Lynn	Teacher, K-12
Roberts, Kelly	Teacher, K-12
Smith, Gail	Teacher, ESE
Eckman, Rebekah	Principal

b. Duties

1. Describe the roles and responsibilities of the members, including how they serve as instructional leaders and practice shared decision making.

The principal chairs the Leadership Team. The Assistant Principal and Literacy Coach provide the data to be analyzed. The Media Specialist provides literacy expertise. The ESE Facilitator shares information about Tier 3 students and those being staffed for ESE services. The Guidance Counselor updates the team on mentoring and MTSS. The classroom teachers share their curriculum expertise and provide model classrooms for other teachers to observe best practices.

2. Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

Title I, Part A Title I, Part A, funds school-wide services to Floral Avenue Elementary. The Title I funds provide supplemental instructional resources and interventions for students with academic achievement needs. This program supports after-school and summer instructional programs, supplemental instructional materials, resource teachers, technology for students, professional

development for the staff, and resources for parents. The district coordinates with Title II and Title III to ensure that staff development needs are addressed accordingly.

Title II Professional development resources are available to all schools through Title II funds. In addition, School Technology Services provide technical support, technology training, and licenses for software programs and web-based access via Title II-D funds as made available.

Title III Title III provides supplemental resources for English Language Learners (ELL) and their teachers in Title I schools, as well as professional learning opportunities for school staff. Title X- Homeless The Hearth program, funded through Title X, provides support for identified

homeless the Hearth program, funded through Title X, provides support for identified homeless students. Title I provides additional support for this program, and many activities implemented by the Hearth program are carried out in cooperation with the Migrant Education Program (MEP) funded through Title I, Part C.

Violence Prevention Programs provide violence and drug prevention programs in order to promote a safe school environment. Examples of violence prevention programs include anti-bullying, gang awareness, gun awareness, etc.

2. School Advisory Council (SAC)

a. Membership

Identify the name and stakeholder group for each member of the SAC.:

Name	Stakeholder Group
Sheila Dyer	Principal
Lynn Peterson	Teacher
Angela Foley	Education Support Employee
Sharonda Rankine	Parent
Lisette Galindo	Education Support Employee
Kelly Carter	Parent
Christie Coe	Parent
Chasity Lanier	Parent
Vanessa Aguirre	Parent
Aisha Miller	Parent
	Student

b. Duties

1. Provide a description of the SAC's involvement with the following activities, as required by section 1001.452(2), Florida Statutes

The school's response to this question may address the requirements of ESSA, P.L. No. 114-95, Â\ 1114(b)(2).

a. Evaluation of last year's school improvement plan

Goals were met in ELA and not met in Math. Strategies were implemented, but goals set in subject areas were not in math. Reading proficiency increase 4%. Learning Gains in Reading increased 9% and Learning Gains for the lowest 25% increased 14%. Math proficiency decreased 8%. Learning Gains in Math decreased 9% and Learning Gains for the lowest 25% in math decreased 2%. Science also decreased 8%.

b. Development of this school improvement plan

The SAC chair assisted with the foundational piece of the school improvement plan. The SAC made recommendations and approved the SIP. The SAC also make recommendations for the budget and

approved the final budget. Floral Avenue Elementary is in compliance with Section 10001.452, F. S., regarding the establishment requirements and duties of the SAC.

c. Preparation of the school's annual budget and plan

The SAC also make recommendations for the budget and approves the final budget.

2. Describe the use of school improvement funds allocated last year, including the amount budgeted for each project.

In June of 2017, lottery funds of \$16 per unweighted FTE we allocated. SAC will be making plans for the allocation of those funds at the first meeting of 17/18.

- 3. Verify that the school is in compliance with section 1001.452, Florida Statutes, regarding the establishment requirements and duties of the SAC.
- a. If the school is not in compliance, describe the measures being implemented to meet SAC requirements.

3. Literacy Leadership Team (LLT)

a. Membership

Identify the name and position title for each member of the school-based LLT or similar group, if applicable.:

Name	Title
Dyer, Sheila	Principal
Ruhl, Tammy	Assistant Principal
Peterson, Lynn	Teacher, K-12
Fitzhugh, Laura	Instructional Media
Smith, Gail	Teacher, ESE
Lynch, Chris	Teacher, K-12
DeJong, Faye	Teacher, K-12

b. Duties

1. Describe how the LLT or similar group promotes literacy within the school, if applicable.

The Literacy Leadership Team will focus meetings on how to improve school/teacher effectiveness and student achievement using the Problem Solving Model.

The Literacy Leadership Team will meet at least once per month (or more frequently as needed) to engage in the following activities:

- Review school-wide, grade level, and teacher data to problem solve needed interventions on a systemic level and identify students meeting/exceeding benchmarks as well as those at moderate or high risk for not meeting benchmarks. This will be done at least three times per year or more frequently if new data is available.
- Help teams of teachers design feasible strategies and interventions for struggling students by collaborating regularly, problem solving, sharing effective practices, evaluating implementation, assist in making decisions for school, teacher, student improvement.
- Focus on improving student achievement outcomes with evidence based interventions implemented with fidelity and frequent progress monitoring.

Intervention teams also foster a sense of collegiality and mutual support among educators, promote the use of evidence-based interventions, and support teachers in carrying out intervention plans.

D. Public and Collaborative Teaching

The school's responses to this section may address the requirements of ESSA, P.L. No. 114-95, § 1114(b)(7)(A)(iii)(IV).

1. Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction.

Our school's master schedule is designed to allow teachers daily collaborative planning time to plan for quality instruction. Team building activities take place at the beginning of the school year and strategically throughout the year at least quarterly. Team members are allowed opportunities to observe in each others' classrooms as well as plan together.

2. Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school.

Our school makes every effort to recruit, develop and retain highly qualified, certified-in-field, effective teachers to complete our instructional staff. We participate in district recruiting events, utilize lists of exceptional applicants sent out by the district, allow college students to intern on our campus, participate in the Bartow High School Future Teachers Academy, assign new teachers to Floral an experienced Floral teacher as a mentor and make every effort to promote a school climate that makes Floral a wonderful place to work.

3. Describe the school's teacher mentoring program, including the rationale for pairings and planned mentoring activities.

Floral Avenue Elementary provides a teacher mentoring program for new and minimally experienced teachers. Teachers are assigned to mentor based on either grade levels in common and/or highly effective strategies. Mentors provide a safe place to ask questions, collaborate on instructional planning, observe high-yield strategies and find encouragement. A new team member luncheon will be held prior to the beginning of the school year and then meetings will be held at least monthly through the fall semester. After that, individual pairs will continue to meet on a more informal basis.

E. Ambitious Instruction and Learning

- 1. Instructional Programs and Strategies
 - a. Instructional Programs
 - 1. Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards.

For our core instructional programs, our school follows the learning schedules designed by our district that are aligned to the Florida Standards. Teachers use only the programs and materials approved by the district as resources to teach the Florida Standards.

b. Instructional Strategies

1. Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments.

Data from state assessments as well as progress monitoring tools are reviewed after each assessment period to plan for differentiated flexible groups. Differentiated instruction and/or assignments are provided with accommodations needed by individuals or small groups of students based on the data from their assessments. Examples of accommodations provided are: extended

time, lower level text, text read to the student, peer study buddy, highlighters for text, smaller amount of questions on a page... Examples of accommodations provided for advanced level students are: higher level texts, alternate assignments on a higher level of thinking, project based learning...

2. Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:

Strategy: Extended School Day

Minutes added to school year: 2,400

Additional instructional time before and after school

Strategy Rationale

At risk students need additional instruction to increase student learning gains.

Strategy Purpose(s)

· Core Academic Instruction

Person(s) responsible for monitoring implementation of the strategy Eckman, Rebekah, rebekah.eckman@polk-fl.net

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

FSA data, STAR data, STAR Early Literacy and/or STAR Math progress monitoring data will be analyzed at each assessment period to determine if gains are being made

2. Student Transition and Readiness

a. PreK-12 Transition

The school's response to this question may address the requirements of ESSA, P.L. No. 114-95, \hat{A} 1114(b)(7)(A)(iii)(V).

1. Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

Floral Avenue partners with area preschools to ensure a smooth pre-kindergarten to kindergarten transition. A teacher liaison shares information with preschool representatives for curriculum alignment. Flyers are sent home with all students at the preschools, as well as with all Floral Avenue students. In addition, Floral Avenue hosts visits from area preschools and holds a spring kindergarten pre-registration/roundup. School funds are used to provide materials for kindergarten transition activities. Our Title I Facilitator visited feeder pre-schools and day care centers to personally invite parents to Kindergarten Round-Up.

During the first few days of school, new kindergarten students take walking field trips to learn about the school and the school rules. During kindergarten family night, the families are invited to visit their child's classroom and learn about classroom expectations and instructional curriculum. Classroom teachers administer state readiness test (FLKRS) within the first thirty days of school. In addition, students are given a teacher-created ongoing assessment three times per year, which evaluates their knowledge base and allows the teacher to plan instruction according to students' needs. The effectiveness of the transition plan will be evaluated by an increase in the number of kindergarten students who enter school at the readiness level as measured by FLKRS.

b. College and Career Readiness

1. Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

Guest speakers are invited to share about careers with students. Students have opportunities to try out possible career paths with jobs on campus such as the TV news show and patrols. Skills needed for vocational and technical programs are integrated through out the content areas with emphasis on skills from areas such as the mathematical practices. Strategies for improving student readiness for postsecondary level are all academic and social skills provided through out the school day.

2. Identify the career and technical education programs available to students and industry certifications that may be earned through those respective programs.

Students have opportunities to try out possible career paths with jobs on campus such as the TV news show and patrols. Skills needed for vocational and technical programs are integrated through out the content areas with emphasis on skills from areas such as the mathematical practices. Strategies for improving student readiness for postsecondary level are all academic and social skills provided through out the school day.

3. Describe efforts the school has taken to integrate career and technical education with academic courses (e.g., industrial biotechnology) to support student achievement.

Guest speakers are invited to share about careers with students. Students have opportunities to try out possible career paths with jobs on campus such as the TV news show and patrols. Skills needed for vocational and technical programs are integrated through out the content areas with emphasis on skills from areas such as the mathematical practices. Strategies for improving student readiness for postsecondary level are all academic and social skills provided through out the school day.

4. Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the <u>High School Feedback Report</u>, as required by section 1008.37(4), Florida Statutes.

II. Needs Assessment

The school's completion of this part may address the requirements of ESSA, P.L. No. 114-95, § 1114(b)(6).

A. Problem Identification

1. Data to Support Problem Identification

b. Data Uploads

Data uploads are not required by the Florida Department of Education but are offered as a tool for the needs assessment. In this section, the school may upload files of locally available data charts and graphs being used as evidence of need.

The following documents were submitted as evidence for this section:

No files were uploaded

2. Problem Identification Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the points of strength and areas of need that have been identified in the data.

Points of strength:

- 1. Reading increased in all 3 areas (proficiency, learning gains, and lowest 25%)
- 2. Double digit gains were made with the lowest 25% of students

Points of weakness:

- 1. Math and Science scores decreased in all 3 areas.
- 2. Excessive absences

B. Problem Analysis Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the underlying "why"Â? or root causes for the areas of need identified in the data, as determined by situational awareness of, and research conducted by, the stakeholders involved in the needs assessment.

- 1. Lack of focus in math planning
- 2. Teachers not understanding how to use data to plan small group instruction and provide re-teaching
- 3. Student motivation and engagement in the upper grade levels

C. Strategic Goals

School Improvement Goals

The following key is intended to help readers understand how the sections of this document correspond to the steps of the 8-step planning and problem-solving framework used in the School Improvement Plan. The Quick Key numbers can help registered users go directly to the point of entry for any given goal, barrier and strategy within the online survey.

Problem Solving Key

G = Goal **B** =

Barrier **S** = Strategy

1 = Problem Solving Step S123456 = Quick Key

Strategic Goals Summary

- G1. If Floral Avenue Elementary provides a supportive environment for the learning needs of all students, then learning gains will increase.
- **G2.** If we use data to inform instruction across all content areas, then student learning gains will increase.
- **G3.** If we differentiate core instruction, we will increase proficiency for ELL and SWD subgroups by 10%.

Strategic Goals Detail

For each strategic goal, this section lists the associated targets (i.e., "SMART goals"), targeted barriers to achieving the goal, resources available to help reduce or eliminate the barriers, and the plan for monitoring progress toward the goal.

G1. If Floral Avenue Elementary provides a supportive environment for the learning needs of all students, then learning gains will increase. 1a

Action Plan for Improvement

For each strategy selected in the plan to reduce a targeted barrier to a strategic goal, this section lists the rationale for that strategy (i.e., why the school believes it will reduce the barrier) and the action steps that have been identified as necessary to implementing the strategy, including details such as the point person, timing and duration, and evidence of completion. At the end of each set of action steps is the plan for monitoring the implementation and effectiveness of the respective strategy.
