### School Board Approval

This plan is pending approval by the Polk County School Board.

### SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing.

This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

### Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

### Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

### Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

### Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

## Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

### DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

### DA Categories

At the start of each academic year, traditional schools are classified for DA support in two categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- **Not in DA** - A school with a current school grade of A, B, or C; charter schools; and ungraded schools.
- **Targeted Support and Improvement** - A school with a current school grade of an initial D.
- **Comprehensive Support and Improvement** - A school with a current school grade of F or two consecutive grades of D, or a high school with a graduation rate of 67 percent or less in the most recent data release.

### DA Turnaround Status

Additionally, Comprehensive Support and Improvement schools have a turnaround status of "Implementing," based on a school's grades history, including the current school grade:

- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

## I. Part I: Current School Status

### A. Supportive Environment

#### 1. School Mission and Vision

##### a. Provide the school's mission statement.

Lake Gibson Middle School's mission is to develop successful students by providing experiences through college and career pathways.

##### b. Provide the school's vision statement.

We believe that:

Success - All students can and will learn, no matter what!

Honesty - Honesty is the best policy.

Achievement - Students will achieve by participating in hands on, interactive learning experiences.

Respect - Everyone will treat each other with respect.

Knowledge - Students will gain knowledge through partnerships with school, families and community.

Safety - Our school environment will be safe.

#### 2. School Environment

##### a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

During the first week of school, the morning news show presents lessons on the school culture, school wide expectations, and procedures. Teachers reinforce these lessons by teaching the school wide expectations in their classrooms and build relationships with students. Grade level meetings are also held within the first month of school to inform students of the school culture and expectations.

The school wide expectations are: Being respectful, Initiating kindness, Taking responsibility, and Effective Learning (B.I.T.E).

##### b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

Before school - students have "waiting areas" for specific grade levels. Sixth graders wait in the auditorium, seventh graders wait in the cafeteria and eighth graders wait on the black top. Key adults (such as the grade- level administrators) are present in each of these areas so that students are able to talk with them if a problem arises.

During school - Key adults (teachers are at doors, deans, administration) are around campus during class changes and guidance counselors meet with each student individually throughout the year to ensure each student is doing well and being successful throughout their middle school experience.

After school - adults are stationed around campus to ensure that students are leaving campus in a safe and orderly manner.

##### c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.

Lake Gibson Middle School is a Positive Behavior Intervention Support School. As a part of PBIS, school-wide expectations are in place for all students and staff. These school-wide expectations are taught to all students throughout the first weeks of the school year and throughout the year. In addition, students are rewarded for following the school-wide expectations by receiving "Shark B.I.T.E. tickets".

All discipline incidents are handled progressively according to the PCSB Student Code of Conduct. The Student Code of Conduct is supplemented at the school level by MTSS and a school-wide discipline plan, which includes additional interventions to correct and deter inappropriate behavior.

**d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.**

Lake Gibson Middle School has a "Tier 2" intervention team that meets once per week to discuss the needs of individual students who are having difficulty with behavior and academics. During these meetings, interventions are put in place to meet the needs of individual students. Interventions may include an adult mentor assigned to individual students, group and/or individual counseling sessions with a guidance counselor, or check in/check out, a program designed for students to meet daily goals. Upon reaching stated goals, students receive an incentive of their choice.

### 3. Early Warning Systems

*No files were uploaded*

## **2. Problem Identification Summary**

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the points of strength and areas of need that have been identified in the data.

Based on current state assessment data for the 2016-17 school year, Lake Gibson Middle School made learning gains in the area of Civics and 7th grade Mathematics while students maintained proficiency in 6th grade Mathematics. There will be a focus on improving levels of proficiency and making gains in the areas of ELA, 8th grade Mathematics, and the overall performance of bottom 25%.

## **B. Problem Analysis Summary**

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the underlying "why" or root causes for the areas of need identified in the data, as determined by situational awareness of, and research conducted by, the stakeholders involved in the needs assessment.

Lake Gibson Middle has identified the need to provide a safe and supportive learning environment for all students that fosters student growth and success. The need to improving the school's discipline is due to a lack of inconsistency in implementing PBIS and its discipline plan. In addition each classroom teacher will provide rigorous standards based instruction and use student performance data to provide differentiated instruction in order to support students' academic success as a way of preventing a lack of differentiated instruction and as an intervention to the lack of consistency in quality instruction from class to class. In order to enhance parent involvement, LGMS will improve communication amongst all stakeholders in an effort to assist with student achievement.
