Note: The school grades calculation was revised substantially for the 2014-15 school year to implement statutory changes made by the 2014 Legislature and incorporate the new Florida Standards Assessments. The 2014-15 school grades serve as informational baseline data that schools can use to improve in future years.

School Board Approval

This plan is pending approval by the Volusia County School Board.

SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing.

This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

At the start of each academic year, traditional schools are classified for DA support in two categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- **Not in DA** - A school with a current school grade of A, B, or C; charter schools; and ungraded schools.
- **Targeted Support and Improvement** - A school with a current school grade of an initial D.
- **Comprehensive Support and Improvement** - A school with a current school grade of F or two consecutive grades of D, or a high school with a graduation rate of 67 percent or less in the most recent data release.

DA Turnaround Status

Additionally, Comprehensive Support and Improvement schools have a turnaround status of "Implementing," based on a school's grades history, including the current school grade:

- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

I. Part I: Current School Status

A. Supportive Environment

1. School Mission and Vision

a. Provide the school's mission statement.

At Atlantic High School, personal responsibility is an essential component of our curriculum. In order to emphasize and teach personal responsibility, we believe that teachers, students, and parents must clearly understand the role each must play in helping every one of our students to achieve academic success.

b. Provide the school's vision statement.

At Atlantic High School, every person is treated with dignity and respect. We welcome and encourage students, families, staff and community to learn together. Our students develop their unique talents to graduate with the greatest treasure—enthusiasm for life-long learning as responsible, creative citizens.

2. School Environment

a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

Yearly school orientation, induction, mentoring, and student leadership are all critical components in establishing and maintaining positive relationships between teachers and students on campus.

Freshman Orientation is designed to acquaint new students with our campus and with our students leaders. Incoming 9th graders participate in students-lead tours of the campus, work through coordinated ice-breaking activities designed to learn about high school life and establish a rapport with each other and with our student leaders. Students learn about opportunities on campus such as various clubs, sports and volunteerism as well as strategies for success in high school.

All students on campus participate in an induction program during the first week of school to reiterate campus policies, procedures and begin to establish relationships in their new classrooms and with their teachers.

Select students also participate in a mentoring program (Check and Connect) designed to build positive school relationships among students and adults as well as increase attendance and engagement at school.

b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

School leadership along with campus advisors and teachers provide effective monitoring of campus before, during, and after the school day. Through their awareness and visibility, the students have access to adults at all times to express any concerns.

Student Leadership Coalition (SLC) meets monthly to address student concerns and give opportunity for student voice.

Full time school resource deputy available on campus to help with campus supervision and to assist with discipline concerns or safety issues.

Proactive approach to addressing safety issues in advance - these include weekly safety and security updates and reminders for staff and students and communication with families via connect-ed messages and school website.

c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.

Instructional time is a priority and protected by the principal, which is evidenced by the school infrastructure regarding student and parent accountability for absences and tardies, no non-essential announcements, and student misconduct being handled immediately and with minimal interruption to instruction.

Discipline consequences are addressed consistently and by the use of progressive discipline. The discipline office regularly addresses faculty with reminders and ideas to address student behavior. Teachers are encouraged to use options short of referral when appropriate, with the understanding that gross insubordination, disrespect, and actions detrimental to the safety of others should be addressed with referrals. When students are sent out of class for behavior reasons, students are not allowed back in class without proof that they have been addressed. Some of the steps/tools used in the area of discipline are:

- Parent contact
- Parent conference
- Conferencing by discipline staff and our campus Deputy
- Referral to PST (problem solving team)
- Warning letters to students who attend using variances
- Connections to coaches and extracurricular groups
- Referral to DSPC (District Student Placement Committee) for major offenses

d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

The school offers the following programs to promote social and emotional well being:

- Student Mentoring through Check & Connect (targets ESE students who are at-risk)
- Mentoring through daily intervention time
- STAR Club (Main Campus general education students supporting Multi-VE students)
- Suicide Prevention Program
- Bullying Program
- Winners Circle (targets lowest quartile readers)
- Food Brings Hope (targets students identified as homeless or economically disadvantaged to offer support in school, promote school involvement and provide cultural experience)
- At-risk senior mentoring
- "Racing to Read" literacy program (incentive program targeting lowest quartile students)

Mentoring/Power Hour sessions help to stimulate and nurture students. Mentoring is available each day through Power Hour, a daily intervention period. It provides each student an opportunity to build relationships with teachers while receiving academic assistance in any subject. Students are also assigned a mentor academic based on at-risk indicators. They serve as advisers who meet with students regularly and focus on guiding them through their education process. Both types of mentoring services establish rapport and support addressing academic and personal growth while meeting graduation requirements. We also have an established process for identifying students in need of school uniforms and school supplies.

3. Early Warning Systems

The school's response to this section may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(7)(A)(i) and (b)(7)(A)(iii)(III).

a. Describe the school's early warning system and provide a list of the early warning indicators used in the system.

The school regularly accesses the Early Warning System report (i.e., at least quarterly) to identify students needing additional support based on indicators used to predict graduation.

The indicators are as follows:

- Unweighted GPA (at risk if below 2.0)
 - Over age for grade
 - Year-to-date discipline referrals (at risk if 2 or more)
 - Attendance below 90%, regardless of whether absence is excused or due to out- of school suspensions
 - Year to date suspensions (at risk if 1 or more)
 - Number of prior retentions (at risk if 1 or more)
 - Level 1 score on statewide, standardized assessments in English Language Arts or Mathematics
- Students with 3 or more of the aforementioned indicators are identified on the Early Warning System.

b. Provide the following data related to the school's early warning system

1. The number of students by grade level that exhibit each early warning indicator:

Indicator	Grade Level												Total	
	K	1	2	3	4	5	6	7	8	9	10	11		12
Attendance below 90 percent	0	0	0	0	0	0	0	0	0	0	17	13	7	37
One or more suspensions	0	0	0	0	0	0	0	0	0	0	29	13	3	45
Course failure in ELA or Math	0	0	0	0	0	0	0	0	0	0	0	0	0	
Level 1 on statewide assessment	0	0	0	0	0	0	0	0	0	0	0	0	0	
BL: Unweighted GPA (below 2.0)	0	0	0	0	0	0	0	0	0	0	0	0	0	
Qtr1: Unweighted GPA (below 2.0)	0	0	0	0	0	0	0	0	0	0	0	0	0	
Qtr2: Unweighted GPA (below 2.0)	0	0	0	0	0	0	0	0	0	0	0	0	0	
Qtr3: Unweighted GPA (below 2.0)	0	0	0	0	0	0	0	0	0	0	0	0	0	
Qtr4: Unweighted GPA (below 2.0)	0	0	0	0	0	0	0	0	0	0	0	0	0	
Prior year retentions one or more	0	0	0	0	0	0	0	0	0	21	31	23	12	87

The number of students identified by the system as exhibiting two or more early warning indicators:

Indicator	Grade Level														Total
	K	1	2	3	4	5	6	7	8	9	10	11	12		
Students exhibiting two or more indicators	0	0	0	0	0	0	0	0	0	0	50	30	14	94	

c. Describe all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system.

The Early Warning System report is used to track indicators related to on-time graduation. This report is used to identify students in need and to identify school-wide trends which impact the academic performance of students. Indicators that are elevated (e.g., attendance below 90%, patterns of office discipline referrals and suspensions) become the focus of school-wide intervention efforts. These

areas are addressed through school leadership meetings and during Professional Learning Communities in which group data are considered and evidenced-based interventions are developed to address the areas of concern.

For indicators sensitive to behavioral issues(e.g., office discipline referrals and suspensions), interventions are provided directly and indirectly by the Student Services team and are aligned with the tenets of Positive Behavioral Supports. Regular review of the Early Warning System report enables the school team to determine if interventions are successful in addressing areas of concern (i.e., if numbers are not increasing).

For students exhibiting difficulties beyond larger systemic issues being addressed by the school through the EWS, the student is referred to the school's Problem Solving Team (PST) and the parent is invited so that individual interventions can be developed and monitored.

Graduation Assurance Coaches meet regularly with EWS students for data chats, goal setting, and problem solving. Power Hour schedules are created for students, families are communicated with, teachers are notified of intervention needs and student progress is monitored.

EWS student meetings are established for all students with multiple indicators and identified as high-need. These meetings include student, guidance, administration and/or graduation assurance coaches, and parents. During these meetings, additional plans of support are developed including: assignment to school based mentor, academic/attendance contracts, credit retrieval options, and school engagement strategies. Mentors monitor student progress, meet with students one-on-one, and are available to support classroom teachers as needed. Families leave with a folder that includes items such as academic progress, attendance reports, copies of contracts, directions on how to access the district's online gradebook, and community support options.

B. Family and Community Engagement

The school's response to this section may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(2) and (b)(7)(A)(iii)(I).

1. Describe how the school works at building positive relationships with families to increase involvement, including efforts to communicate the school's mission and vision, and keep parents informed of their child's progress.

a. Will the school use its Title I Parent and Family Engagement Policy (PFEP) to satisfy this question?

No

1. PFEP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

2. Description

Atlantic High School has developed a communication and engagement system to build positive relationships with families, communicate the school's mission and vision, and keep parents informed about their child's progress. Regular communications are delivered through multiple modes, and invite family participation and feedback. One key component in this system is a weekly phone message detailing events and opportunities during the upcoming week, which is sent to every Atlantic High School household: parents, faculty, and staff members. This phone message system also provides flexibility to send special reminders to specific sectors of our school population about academic requirements and opportunities for remediation for critical areas like Mathematics, Reading or tutoring after hours. Parents have begun to depend on this weekly communication, and frequently mention their appreciation during interactions with faculty and staff.

Atlantic's web page, www.atlanticsharks.com is another effective way to share mission and vision, current information about the school, along with our school-wide activities calendar which is accessible right on the home page. Many teachers utilize class web pages, Edmodo, wikis, or other forms of electronic communication w/ parents (Remind 101 text service, etc.). Teachers also maintain an on-line grade book (web-based grade and attendance management system) to keep both students and parents informed about progress in their classes.

Atlantic High School has an active PTSA, and has partnered with this outstanding group to host a free dinner at Open House in an effort to increase family attendance at this event. A school expo/showcase during Open House was established to include local community and business partners, school sports, clubs, parent groups (PTSA, SAC) and career academies, allowing students and families to learn more about our school and ways to get involved. A parent grade book assistance workshop is held during Open House to provide families support with accessing and monitoring their students grades and attendance. This year our Open House was a very well-attended event and brought out over 500 students, parents, and other family members to eat, learn, have fun, and interact with many of Atlantic's business and community partners as well as faculty and staff.

Atlantic's PTSA is also instrumental in increasing parent participation, bringing parents, students, and teachers together to collaborate on specific projects, and fundraising to generate needed resources to support the accomplishment of school goals.

Atlantic High School regularly hosts events, meetings, and other activities in the evenings to accommodate parents' busy work schedules. Some examples include:

- PTSA & SAC meetings
- Open House
- Financial Aid Nights
- Freshman Registration Nights
- Freshman Orientation Night
- Summer Orientation
- Academy Showcase

To help improve the performance of struggling students, individual parent conferences are held with the student, parent, counselor, and a member of administration as part of the Student Success (EWS program). During these conferences, the team brainstorms ways to help the parent in supporting their child's success. The Student Success meetings are individually scheduled to accommodate the parent's availability, which has greatly increased parental attendance and participation in this process.

2. Describe the process by which the school builds and sustains partnerships with the local community for the purpose of securing and utilizing resources to support the school and student achievement.

Atlantic High School builds and sustains partnerships with the local community through a coordinated effort led by the Principal, Business Partner Coordinator, Athletic Director, PTSA President, a designated Assistant Principal, and involving all members of Atlantic's faculty and staff. Local businesses and community organizations are invited to enter into business partnerships with the school, in which both parties agree to engage in mutually beneficial activities which enhance the operations of each partner. The school works closely with the PTSA to reach out to the community and obtain needed resources for teachers and students. Club and Group Sponsors, Academy Directors, and Athletic Coaches also play a critical role in building partnerships with community organizations and businesses. Examples include inviting community members to serve on academy advisory boards, come into the classrooms as guest speakers, to serve as judges for in-school competitions, and to participate in numerous school activities including Financial Aid Night, Family Night, Open House, Summer Orientation, and the College and Career Expo.

C. Effective Leadership

1. School Leadership Team

a. Membership

Identify the name, email address and position title for each member of the school leadership team.:

Name	Title
Hinson, Stephen	Principal
Alves, Dawn	Assistant Principal
Dabbe, Melanie	Instructional Coach
Garrett, Veronica	Instructional Coach
Temple, Lawrence	Assistant Principal
Wallace, Robert	Other
Fenwick, Bonnie	Instructional Coach
Leffler, Danielle	Assistant Principal
Howard, Lekita	
Chandler, Al	Assistant Principal

b. Duties

1. Describe the roles and responsibilities of the members, including how they serve as instructional leaders and practice shared decision making.

The school-based leadership team identifies school based needs and resources (both materials and personnel) to determine how best to support students and teachers. Teacher feedback, classroom observations, and student performance data are considered in order to determine priorities and functions of other existing teams (e.g., Problem Solving Team, EWS, Professional Learning Communities, Literacy Leadership Team). As the school's primary instructional leader, the Principal communicates a vision for student achievement and guides the team's work. Each member of the School-Based Leadership Team is representative of other teams (EWS, PLCs, LLT) and serves as a liaison between the SBLT and their respective team. For example, the Instructional Coaches work through PLCs to provide teacher instructional support, professional development, and guide response to data, including the coordination of tiered academic interventions.

2. Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

Personnel: The school has a leadership team consisting of the principal, assistant principals and academic coaches. This leadership team reviews student progress data, develops intervention and remediation strategies, monitors instructional support, provides professional development, and celebrates student success. These leaders work with teachers to ensure student learning.

Instructional resources include a professional learning plan developed and provided by our district and our school's leadership team. Teachers will engage in targeted professional learning based on student data and school need throughout the year. Teachers meet weekly in PLCs to review data, collaborate on curriculum planning and share instructional strategies. Our district and our school are both committed to meeting the needs of our students and maximizing our students' achievement.

Curricular: Our teachers will continue to implement the Florida Instructional Shifts this school year. They will be supported both by our district and our instructional coaches through professional

learning, classroom observation, and feedback. All teachers have the support of our instructional leadership team.

Methodology for coordinating and supplementing funds: Federal and state funds (Title I, Title II, SAI, and FEFP) are allocated to schools by the district according to student need as demonstrated by poverty level and student achievement performance. District and school leadership teams work together to coordinate and integrate federal, state, and local funds, services and programs for the benefit of students. School Improvement funds are awarded to the school based on a per pupil funding formula and distributed via the School Advisory Council through a voting process.

School leadership meets weekly, and SAC meets monthly.

Problem solving activities

The School Improvement Plan is data-driven and focuses on areas of school-based need. The plan is a data-driven framework that seeks to find solutions/resources matched in intensity to student need in academic and behavioral areas. The School Improvement Plan is based on a strategic analysis of data, and identified resources (as identified by the leadership team) are matched to the needs of the students.

School Improvement Grant (SIG) funds will be used for providing teachers extended before/after school time to meet in PLCs for planning and data analysis, as well as professional development opportunities; after school tutoring programs to meet students needs, procuring technology for classroom use, and facilitating vertical alignment with our feeder middle schools. College & Career field studies, setting up academies, additional human resources(intervention teachers, math coach, grad assurance, continuous improvement director). Field study professional learning at the Academies of Nashville.

2. School Advisory Council (SAC)

a. Membership

Identify the name and stakeholder group for each member of the SAC.:

Name	Stakeholder Group
Stephen Hinson	Principal
Don Burnette	Business/Community
James Clements	Teacher
Dawn Alves	Education Support Employee
Sharon Rieder	Parent
Brian Jackson	Parent
Dionne Jackson	Parent
Kelli Foxman	Parent
Grant Foxman	Student

b. Duties

1. Provide a description of the SAC's involvement with the following activities, as required by section 1001.452(2), Florida Statutes

The school's response to this question may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(2).

a. Evaluation of last year's school improvement plan

The Atlantic High School SAC works in conjunction with the School Based Leadership Team (SBLT) to review the previous year's plan and a variety of data points to evaluate the effectiveness of that plan. Principal Hinson and Assistant Principal Alves presents a data overview to the SAC including FSA results, progress monitoring data, climate surveys, and Early Warning System (EWS) data. The SAC provides input and assists the SBLT in identifying areas of priority on which to focus the new plan's goals and strategies (Step Zero).

b. Development of this school improvement plan

Atlantic High School's SAC provides input on the development of the SIP as part of the 8-Step problem solving process, identifying resources and barriers, and developing strategies. Utilizing this input, the SBLT developed a draft SIP and presented it to the SAC for further input and suggestions for revision. Once the SIP is revised, the SAC continues to provide ongoing monitoring of the plan through monthly reviews of data and provides direction for adjustments to the plan as warranted.

c. Preparation of the school's annual budget and plan

The school's annual budget and plan are shared for input and discussion at the first meeting of the SAC each year. Updates on the school's budget, spending, and progress indicators are shared at monthly SAC meetings.

2. Describe the use of school improvement funds allocated last year, including the amount budgeted for each project.

School improvement funds were allocated based on requests submitted by faculty and staff for projects related to support of school improvement goals. Each request is evaluated by the SAC and voted upon for approval.

Expenditure by SAC during 2016-17:

227.88 for chess sets in media center

115.34 for reading and writing aids for ESE ELA classes

106.43 for rhythm instruments for ESE music

151.88 for magazine subscriptions for reading classes, ELL, etc.

250.00 for books for media center

270.00 for sight-reading music books for chorus

Total expenditures: \$ 1121.53

*Set-aside balance carried over to fund substitutes when teachers go to PD: \$ 2488.60

Ending supplies balance carried into 2017-18: \$ 5778.65

3. Verify that the school is in compliance with section 1001.452, Florida Statutes, regarding the establishment requirements and duties of the SAC.

Yes

a. If the school is not in compliance, describe the measures being implemented to meet SAC requirements.

3. Literacy Leadership Team (LLT)

a. Membership

Identify the name and position title for each member of the school-based LLT or similar group, if applicable.:

Name	Title
Alves, Dawn	Assistant Principal
Dabbe, Melanie	Instructional Coach
Smith, Kris	Instructional Media
Garrett, Veronica	Instructional Coach
Hinson, Stephen	Principal
Chandler, Al	Assistant Principal
Leffler, Danielle	Assistant Principal
Temple, Lawrence	Assistant Principal
Howard, Lekita	Other

b. Duties

1. Describe how the LLT or similar group promotes literacy within the school, if applicable.

The school based Literacy Leadership Team (LLT) identifies school based resources (both materials and personnel) to determine the continuum of literacy supports available to students at our school. The LLT meets weekly on Mondays. LLT member responsibilities include: identify areas of need based on classroom observation or student/school data, provide support/PD on literacy strategies, provide support with ongoing data analysis and lesson planning, development of school wide intervention plans, and supervise and support the school-wide literacy initiative and implementation of Florida Standards.

The LLTs main focus is to integrate literacy strategies in all content areas through effective standards-aligned instruction. All professional learning will be in support of this focus area.

The LLT has always been dedicated to providing a variety of literacy-building events throughout the school year. The LLT sponsors our Racing to Read Program and our Winners Circle Victory Lane Program through Daytona International Speedway.

On campus activities that promote literacy:

Monthly poetry slam

Student/staff book club that runs all year long

Special celebration activities: Hispanic Heritage, Banned Books Week, Black History

Student eat lunch daily in the media center to promote access to literature

Media specialist is a part of the statewide Florida Teens Read Committee which helps provide the school with the latest books

Participation in a national program called YALSA's Teens Top Ten which allows students to review pre-published books

Media Center sponsors author visits

D. Public and Collaborative Teaching

The school's responses to this section may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(7)(A)(iii)(IV).

1. Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction.

Common planning, Professional Learning Communities (PLCs), instructional rounds and academic coaching are critical practices to help build positive, collaborative relationships on our campus among teachers.

Common planning allows teachers to participate in weekly PLCs to regularly review formative assessment data, plan for and adjust their instruction accordingly. PLCs are provided with a framework that outlines expectations and guides their collaborative work. When necessary, PLCs make recommendation for students to be reviewed and assisted by the school's Problem-Solving Team (PST). Through the PLC structure, teachers are encouraged and supported to work together to create common assessments, analyze data, develop intervention plans, and plan for quality, standards-aligned instruction. PLCs also allow teachers to regularly engage in a reflective dialogue to deepen shared language and understanding of instructional practices. Action plans created in PLC meetings are submitted weekly to administration for monitoring purposes.

Instructional rounds have been implemented in the math, science and social studies departments as well as our with feeder middles schools in math and science with the goal of vertical planning and alignment. This year, Instructional rounds will expand to reading and language arts, along with our feeder schools. With their peers, participants will engage in classroom observations, debrief findings, identify best practices, and plan for quality instruction collaboratively. Those surveyed have ranked these collaborative learning sessions as highly engaging and having a significant impact on their professional practice resulting in increased student academic achievement.

The use of academic coaches to assist with teacher collaboration and professional development plays a significant part in designing instruction to meet student needs and encouraging the collaborative process. Instructional Reviews, combined with administrative walk throughs and coaching calibrations provide leadership with data to identify areas in which additional follow-up coaching is needed. The leadership team (which includes coaches) meets weekly to talk about what trends are being seen in the classrooms. This process also provides opportunities to identify exemplary teachers for the purposes of videotaping or allowing class visits from peers. The coaches work side by side with teachers to analyze data, develop interventions and increase instructional practice.

2. Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school.

- District Teacher Induction/training program
- School-based new teacher induction program
- School-based mentors for all new teachers
- Peer classroom visits/instructional rounds
- Classroom coaching
- Leadership opportunities through school-based leadership teams
- School-based professional learning based on identified data, teacher need
- Professional learning communities
- Participation in district job fair and recruitment activities
- Teacher recognition programs

3. Describe the school's teacher mentoring program, including the rationale for pairings and planned mentoring activities.

All new/beginning teachers participate in a school-based new teacher induction program.

All new teachers are provided with ongoing support through an identified peer mentor as well as an assistant principal who meets with them weekly. Mentoring activities include grade book training, assistance with daily responsibilities, accessing school data, lesson planning, etc.

Academic coaches within each PLC provide mentoring and support as needed for any new/beginning teachers in that PLC.

New teachers will also participate in peer classroom observations.

E. Ambitious Instruction and Learning

1. Instructional Programs and Strategies

a. Instructional Programs

1. Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards.

All Volusia County public high school programs meet or exceed state requirements. At the secondary level, the district leads teacher teams to create curriculum maps and resources for all grade levels and content areas aligned to the Florida Standards. Additionally, teacher PLC teams create formative and summative assessments to monitor student achievement and plan for remediation of standards. Schools leaders and teachers are given significant and ongoing professional development on the implementation of the standards-aligned curriculum maps, resources, and assessments.

Professional Learning Communities (PLCs), Instructional Rounds, and academic coaching help ensure that instruction is aligned to Florida Standards, well-paced, engaging, and rigorous.

b. Instructional Strategies

1. Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments.

Data from FSA, EOC exams, PERT, district interim assessments, and others as appropriate, is reviewed by teachers, academic coaches, guidance and administration to determine appropriate academic placement for students each school year and throughout the year. This includes placement of students in reading classes to support continued improvement in literacy, placement of students in remedial math courses to build skills for success on EOCs, as well as identifying students for advance courses for enrichment purposes.

Common planning allows teachers to participate in weekly PLCs to regularly review formative and summative assessment data and continuously adjust their instruction accordingly. Assessment data is used to identify groups of students to receive targeted instruction during power hour (intervention time). Students are also identified for after school tutoring and additional targeted classroom support using school data. Teachers, alongside academic coaches, create targeted instructional lessons during PLCs. Students requiring intensive remediation receive additional support from academic coaches, mentors, and graduation assurance personnel. When necessary, PLCs make recommendations for students to be reviewed and assisted by the school's Early Warning System (EWS) team or Problem-Solving Team (PST).

Through a customized, data driven professional learning plan, teachers develop skills for analyzing data, using data for instructional decision making, and designing intervention and remediation plans in the classroom to meet student needs. Instructional Reviews, coaching observations, and administrative walk-throughs, provide leadership with data to identify areas in which additional follow-up coaching is needed. The leadership team (which includes coaches) meets weekly to talk about what trends are being seen in the classrooms. This process also provides opportunities to identify exemplary teachers for the purposes of videotaping or allowing class visits. Instructional coaches

work side by side with teachers to enhance instruction. Coaches diligently complete the coaching cycle to provide maximum support, including the use of specific feedback instruments. The modeling of lessons is common practice on campus.

2. Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:

Strategy: After School Program

Minutes added to school year: 1,800

Targeted students receive Math tutoring once a week, for 60 minutes. Tutoring continues throughout the school year; however, the students who are targeted to receive this assistance vary according to progress monitoring data.

Strategy Rationale

Tutoring can help struggling students to make achievement gains when they are able to receive remediation on core concepts.

Strategy Purpose(s)

- Core Academic Instruction

Person(s) responsible for monitoring implementation of the strategy

Fenwick, Bonnie, bjfenwic@volusia.k12.fl.us

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

Progress monitoring data (including district and classroom assessments) is used to determine the success of individual students, as well as the effectiveness of the strategy as a whole.

Strategy: Extended School Day

Minutes added to school year: 8,640

"Power Hour" is held 4 days per week to provide students additional time within the school day to get extra help, remediate skills, or engage in enrichment opportunities.

Strategy Rationale

Not all students have the resources to stay after school to access tutoring at that time, power hour provides time during the school day for students to get the additional support that they need.

Strategy Purpose(s)

- Core Academic Instruction
- Enrichment

Person(s) responsible for monitoring implementation of the strategy

Hinson, Stephen, schinson@volusia.k12.fl.us

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

Data on power hour attendance and associated academic performance will be reviewed weekly at SLT meetings

Strategy: After School Program

Minutes added to school year: 1,800

Targeted students receive ELA tutoring once a week, for 60 minutes. Tutoring continues throughout the school year; however, the students who are targeted to receive this assistance vary according to progress monitoring data.

Strategy Rationale

We will target students in need of additional support with FSA in ELA reading & writing

Strategy Purpose(s)

- Core Academic Instruction

Person(s) responsible for monitoring implementation of the strategy

Garrett, Veronica, vgarrett@volusia.k12.fl.us

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

Student sign in sheets; classroom assessment data/progress monitoring; student tracking

Strategy: After School Program

Minutes added to school year: 1,440

ACT & SAT test preparation after school program. Student data will be used to target students in need of concordant scores on SAT or ACT for reading. Program is also open to students wishing to build their test prep skills for maximum success on ACT/SAT.

Strategy Rationale

Tutoring can help struggling students to make achievement gains when they are able to receive remediation on targeted, tested concepts.

Strategy Purpose(s)

- Core Academic Instruction
- Enrichment

Person(s) responsible for monitoring implementation of the strategy

Alves, Dawn, dmalves@volusia.k12.fl.us

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

ACT and SAT practice scores will be used to monitor progress.
Furthermore, ACT and SAT exam scores will be analyzed for program effectiveness.

Strategy: After School Program

Minutes added to school year: 0

Professional Learning Communities (PLCs) meet for the purpose of data analysis and response, intervention planning, as well as professional development for 1 hour each week.

Strategy Rationale

PLCs encourage teacher teams to engage in data analysis and problem-solving for the purpose of meeting students' academic needs as a team.

Strategy Purpose(s)

- Teacher collaboration, planning and professional development

Person(s) responsible for monitoring implementation of the strategy

Alves, Dawn, dmalves@volusia.k12.fl.us

Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy

Progress monitoring data (including district and classroom assessments) is used to determine the success of individual students, as well as the effectiveness of the strategy as a whole.

2. Student Transition and Readiness

a. PreK-12 Transition

The school's response to this question may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(7)(A)(iii)(V).

1. Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

The transition between middle and high school is improved with the addition of summer Jumpstart programs to pre-teach requisite skills to struggling students who will take Biology as well as a remediation summer program for Algebra 1.

Yearly school orientation, induction, mentoring, and student leadership are all critical components in establishing and maintaining positive relationships between teachers and students on campus.

Freshman Orientation is designed to acquaint new students with our campus and with our students leaders. Incoming 9th graders participate in students-lead tours of the campus, work through coordinated ice-breaking activities designed to learn about high school life and establish a rapport with each other and with our student leaders. Students learn about opportunities on campus such as various clubs, sports and volunteerism as well as strategies for success in high school.

Incoming freshmen that are identified as needing additional support through our school's EWS report are met with at the beginning of the year to offer an adult to connect with for support needed. These same students are assigned an adult on campus to meet with to help establish a relationship focusing on academic support and school engagement.

Commit to Graduate (C2G) is a school-led program that encourages students in the beginning of their freshmen year commit to graduating on time. In addition, a College & Career Expo is held for juniors and seniors to help them focus on connections between their high school experience and post-secondary goals.

Freshmen learn about high school graduation requirements and strategies to stay on track during a lesson occurring in their AVID or Research classes immediately following the first mid-term grade reporting.

Students are encouraged to visit their teachers during Power Hour to receive academic support including remediation and enrichment.

Students taking the ACT and/or SAT are provided onsite assistance during Power Hour or after school to complete the necessary profile and account information, with financial support as needed. Students are also provided test prep opportunities during the fall and spring.

b. College and Career Readiness

1. Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

School hosts a college and career expo yearly to expose students to post secondary opportunities and establish connections with representatives in the local community that can support them as they transition out of high school.

The school, through our Wall-to-Wall Career Academy Structure, offers career based, hands-on learning opportunities for students. Each of our 9 career academies has an advisory board, made up of community, faculty & business partners. Board members provide input, offer services, & work with instructors to set up internship & other work-based opportunities for students. Academies are articulated with higher learning institutions such as Keiser University, Daytona State College, & Full Sail University, which provide field study opportunities for students to learn more about their programs and institutions.

Representatives from local colleges and Armed Services visit the campus throughout the year to provide students information during lunch time.

Representatives from local colleges and the Armed Services visit the campus several times per year and provide students information during lunch time.

2. Identify the career and technical education programs available to students and industry certifications that may be earned through those respective programs.

A variety of career and technical education programs, through our Career Academies, provide opportunities for students to acquire industry related skills that will guide them along the path to industry certification. The Industry Certification and associated programs available at Atlantic High School are listed below:

Industry Certification Program Name

Adobe Certified Associate (Illustrator) Gaming & Simulation

Adobe Certified Associate (Photoshop) Gaming & Simulation

Adobe Certified Associate (Premier Pro) Digital Video Production

Microsoft Office (Bundle) Digital Information Technology

Small UAS Safety Aeronautics

Private Pilot Aeronautics

Visual Line of Sight Operator Aeronautics

3. Describe efforts the school has taken to integrate career and technical education with academic courses (e.g., industrial biotechnology) to support student achievement.

Career Academies provide the model for integrating career and technical education with the content of core academic courses, providing students valuable opportunities to experience real-world applications of subject matter. Academies incorporate integrated curriculum which includes an exploration of a subject, theme, interest, or career area. Integrated curriculum combines relevant CTE courses with rigorous academic core material in order to break down barriers between subjects and make learning more meaningful. The teachers, at Atlantic, both core and CTE, come together for a 30-hour integrated curriculum professional development in the summer, where the main focus was blending core and CTE through Project Based Learning.

4. Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the [High School Feedback Report](#), as required by section 1008.37(4), Florida Statutes.

Data from the High School Feedback Report is available from 2004 through 2012 at <http://data.fldoe.org/readiness/>

In response to this data, a variety of strategies have been implemented to prepare high school students for the post secondary level. Specific programs and or initiatives that are used at the school and district level:

- Advanced Placement
- AVID
- Wall to Wall Career Academies that include Career and Technical Education Classes and Internships
- Dual Enrollment
- College & Career Expo and Transition Fair
- College Tours and College Rep Visits

- High School Showcase
- PERT Administration and appropriate placement in College Readiness Courses

II. Needs Assessment

The school's completion of this part may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(6).

A. Problem Identification

1. Data to Support Problem Identification

b. Data Uploads

Data uploads are not required by the Florida Department of Education but are offered as a tool for the needs assessment. In this section, the school may upload files of locally available data charts and graphs being used as evidence of need.

The following documents were submitted as evidence for this section:

No files were uploaded

2. Problem Identification Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the points of strength and areas of need that have been identified in the data.

Atlantic experienced a positive trend in ELA data for percent of students meeting with proficiency, lower quartile learning gains, and overall learning gains. There was also a positive trend for math in the areas of percent of students meeting with proficiency, overall learning gains. Atlantic's graduation rate increased 14 percent. While we experienced a positive trend in data overall, we are still falling below the district and state average for 9th grade ELA in text-based writing, and for 10th grade ELA in key ideas and details, craft and structure, and integrating knowledge and ideas. We are also below the district and state average in multiple reporting categories for mathematics. Additionally, we experienced a decrease in college and career acceleration.

B. Problem Analysis Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the underlying "why" or root causes for the areas of need identified in the data, as determined by situational awareness of, and research conducted by, the stakeholders involved in the needs assessment.

C. Strategic Goals

School Improvement Goals

The following key is intended to help readers understand how the sections of this document correspond to the steps of the 8-step planning and problem-solving framework used in the School Improvement Plan. The Quick Key numbers can help registered users go directly to the point of entry for any given goal, barrier and strategy within the online survey.

Strategic Goals Summary

- G1.** If Atlantic High School integrates literacy strategies in all content areas through effective standards-aligned instruction, then student achievement will increase.
- G2.** If we create a systematized process for increasing engagement in learning, then student achievement and graduation rates will increase in all subgroups. [copy]

Strategic Goals Detail

For each strategic goal, this section lists the associated targets (i.e., "SMART goals"), targeted barriers to achieving the goal, resources available to help reduce or eliminate the barriers, and the plan for monitoring progress toward the goal.

Targeted Barriers to Achieving the Goal 3

- Need for greater resource alignment--including personnel, funds, and stakeholder support:
*District: Volume of schools in need *School: Volume of students in need; *District: Ability to establish a presence on all school campuses *School: Ability to establish a presence in all classrooms; *District: Taking time and funds away from all schools to support most struggling schools leads to declines in higher performing schools *School: Taking time and funds away from some students and/or teachers to support most struggling students and/or teachers leads to declines in higher performing students; *District: Policies and practices that hinder flexibility in scheduling, staffing, and budgeting *School: Policies and practices that hinder flexibility in scheduling, staffing, and budgeting; *District: Lack of available technology resources to fulfill needs of schools *School: Lack of available technology resources to fulfill needs of students and teachers; *District: Lack of systematic support for stakeholder engagement in school growth *School: Lack of systematic support for stakeholder engagement in student learning
- Inconsistent instructional quality: *Teacher capacity to design and deliver high-quality, engaging standards-based instruction; *Teacher capacity to design and deliver high-quality, engaging differentiated instruction; *Teacher capacity to design assessments and use assessment data to drive instruction; *Teacher capacity to respond to students' varying school readiness levels (elementary); *Teacher capacity to respond to students with low proficiency levels in literacy and mathematics; *Teacher capacity to use technology resources to meet student needs; *The capacity of instructional leaders to accurately assess and assist with instructional quality;
- Professional Learning: *Lack of replicable and sustainable school-based PD models that incorporate consistent expectations for follow-up, implementation, and evaluation; *Limited opportunities for professional learning; *Inability to monitor fidelity of school-based professional learning opportunities; *Need for greater attention to professional learning opportunities for coaches and intervention teachers; *Inconsistent implementation of Professional Learning Communities; *Inconsistent or limited implementation of Lesson Study

Action Plan for Improvement

For each strategy selected in the plan to reduce a targeted barrier to a strategic goal, this section lists the rationale for that strategy (i.e., why the school believes it will reduce the barrier) and the action steps that have been identified as necessary to implementing the strategy, including details such as the point person, timing and duration, and evidence of completion. At the end of each set of action steps is the plan for monitoring the implementation and effectiveness of the respective strategy.

G2.B2.S1 District Multi-Tiered System of Support: Use data to determine personnel assignments and differentiated levels of support (coaching assignments or number of visits, specialist visits, and liaison visits) 4

S280282

Strategy Rationale

The needs of schools are varied and must be addressed at varying levels. The district's response to each school is customized according to the needs of the school based on hard and soft data gathered through data analysis, instructional reviews, and additional site visits.

Action Step 1 5

Examine data to determine level of need at each school in each subject area using a 4-point rubric; determine initial resource allocation (personnel, time, and money) needed for all schools within the district and assign district liaisons to each school. The district recommendations will be shared with the Community Assessment Team, with the opportunity to provide input.
