School Board Approval

This plan is pending approval by the Okeechobee County School Board.

SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing.

This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

At the start of each academic year, traditional schools are classified for DA support in two categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- **Not in DA** - A school with a current school grade of A, B, or C; charter schools; and ungraded schools.
- **Targeted Support and Improvement** - A school with a current school grade of an initial D.
- **Comprehensive Support and Improvement** - A school with a current school grade of F or two consecutive grades of D, or a high school with a graduation rate of 67 percent or less in the most recent data release.

DA Turnaround Status

Additionally, Comprehensive Support and Improvement schools have a turnaround status of "Implementing," based on a school's grades history, including the current school grade:

- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

I. Part I: Current School Status

A. Supportive Environment

1. School Mission and Vision

a. Provide the school's mission statement.

In Partnership with all stakeholders, Okeechobee High School aspires to:

Encourage Perseverance
Foster Respect
Expect Integrity
Demonstrate Dependability
Instill Ethics

to create a global community of life-long learners.

b. Provide the school's vision statement.

Excellence through P.R.I.D.E. (Perseverance, Respect, Integrity, Dependability, and Ethics.)

2. School Environment

a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

Mentoring occurs through 3rd hour classes. These teachers focus on grades and attendance patterns to build talking points about the importance of academics and attendance in future endeavors. Students involved in school activities will have someone "looking out" for them. This 3rd hour "mentor group" will ensure that ALL students have someone checking in with them.

This year students and staff are working to define "The Brahman Way". This will define our expectations and culture for how Brahmans handle themselves and move forward. Staff gave thoughts during pre-plan week. Students gave input during 3rd hour discussions and via email directly to administration. These lists will eventually be transformed into declarative statements. Parents will also have input via newsletters.

b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

Students know they have a voice. Each student personally receives an email from the Principal asking various culture related questions. This serves two purposes: it increases communication and provides an honest forum for student feedback about the processes of the school.

The daily announcements are another avenue for the Administration to communicate the message of "Together We Are Brahmans". There is always a positive thought of the day and the majority of the messages are about supporting others and Moving Forward as a school family. Current issues, on or off-campus can be addressed. Parents also have access to these announcements via YouTube and Parent Newsletters sent each Sunday.

c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.

Major and minor discipline infractions are governed by the District Code of Conduct. At OHS, major infractions are dictated by the consequences established in the Code of Conduct. Minor infractions are dealt with in a proactive manner. If a pattern of negative behavior develops, teachers are the front-line defense to eliminate negative patterns. Communication is vital. Teachers communicate with the student, parents, and any available advocates (counselors, coaches, mentors) on campus. If the pattern continues, the Dean of Students will be involved to discuss the pattern. Academic focus is a priority of the conversations with the Dean. This meeting will result in a plan for future disciplinary incidents. Continuations of negative behavior pattern(s) will result in progressive discipline consequences, starting with Administrative Counseling and potentially ending with Out-of School Suspension and/or requesting Alternative Placement.

School behavior expectations are reviewed with staff and students at the beginning of the year and refreshers are periodically included in the Brahman Bulletin which is emailed each week. School-wide patterns of behavior and reminders can be sent via the Bulletin.

d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

OHS will provide an atmosphere conducive to learning. We focus on the cognitive, emotional, behavioral, and social needs of students. The use of a structured, data-based problem-solving is utilized to make instructional decisions to implement a multi-tiered system of supports. This is achieved through accurately identifying problems and goals, analyzing data and generating and confirming hypotheses about why the students are not yet demonstrating the desired skill, designing, supporting and implementing academic interventions and behavioral supports, and using student-centered data to evaluate MTSS. Contracted services are utilized when needed. The Check and Connect program will pair students with on-campus adult mentors to provide assistance with various needs. Friends for Life program will pair students with students with disabilities to provide relationship building opportunities. The Renaissance Club is a student led group that works on culture building activities to get more students involved in campus life. Peer Counseling courses provide academically successful students the opportunity to mentor and tutor in classes comprised of students who struggle academically.

Students have access to our Guidance Department at all times. The Counselors have access to School District and Community-based resources for students with a specific need. Students with special needs, homeless students, Migrant students, and other documented groups also have a catalog of services for support.

3. Early Warning Systems

The school's response to this section may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(7)(A)(i) and (b)(7)(A)(iii)(III).

a. Describe the school's early warning system and provide a list of the early warning indicators used in the system.

Attendance: we follow the District Attendance policy. 3rd hour teachers monitor attendance and document notification and students approaching 9 unexcused absences. Excuse notes are turned in to 3rd hour teacher.

Discipline: We follow progressive discipline and communication is a vital piece. Students are counseled on academics and choices. Code of Conduct is followed for major infractions.

Drop-out Risk: Graduation coach and Guidance works to identify students in danger of dropping out.

Credit Retrieval: Plato program is used to retrieve credit and repair GPA's

Intensive Reading: Level 1 and Level 2 FSA ELA students are provided a reading class to prepare for re-takes and focus on concordant scores via SAT/ACT

Intensive Math: Level 1 and Level 2 FSA Alg. 1 students are provided a math class to prepare for re-takes and focus on concordant scores via SAT/ACT and PERT.

b. Provide the following data related to the school's early warning system

1. The number of students by grade level that exhibit each early warning indicator:

Indicator	Grade Level													Total
	K	1	2	3	4	5	6	7	8	9	10	11	12	
Attendance below 90 percent	0	0	0	0	0	0	0	0	0	0	0	0	0	
One or more suspensions	0	0	0	0	0	0	0	0	0	0	0	0	0	
Course failure in ELA or Math	0	0	0	0	0	0	0	0	0	0	0	0	0	
Level 1 on statewide assessment	0	0	0	0	0	0	0	0	0	0	0	0	0	

The number of students identified by the system as exhibiting two or more early warning indicators:

Indicator	Grade Level													Total
	K	1	2	3	4	5	6	7	8	9	10	11	12	
Students exhibiting two or more indicators	0	0	0	0	0	0	0	0	0	0	0	0	0	

c. Describe all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system.

Attendance: we follow the District Attendance policy. OHS works in conjunction with the Director of Student Services to break the pattern of non-attendance with our OHS students. Teachers, 3rd hour mentors, Guidance Counselors, and Attendance secretary monitor and maintain data.

Students with continues discipline are counseled and tracked through Guidance and the Dean's office. Academics is the focus and negative patterns of behavior are addressed. Parents are involved in conferences and decisions related to disciplinary actions. Mentoring, behavior plans, and programs like Check and Connect are used for students in need.

OHS uses Plato for credit retrieval purposes. Students can work during the school-day, after-school, and during the summer to catch up with credits and their cohort, if necessary. Plato courses are recommended by Guidance and sent to the Lead Teacher of Credit retrieval. This person monitors completion of course work and reports completed credit back to Guidance for updating in database.

Level 1 students are monitored through ELA courses. Progress is also monitored via FAIR testing administered three times a year. KHAN Academy is used school-wide, 25 minutes a week, for improved SAT scores which can also be used as concordant scores for the FSA ELA graduation requirement.

B. Family and Community Engagement

The school's response to this section may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(2) and (b)(7)(A)(iii)(I).

1. Describe how the school works at building positive relationships with families to increase involvement, including efforts to communicate the school's mission and vision, and keep parents informed of their child's progress.

a. Will the school use its Title I Parent and Family Engagement Policy (PFEP) to satisfy this question?

No

1. PFEP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

2. Description

We work to get parents on-campus or on-line for communication purposes. We have 2 Open Houses at the beginning of the year. Each class (10th, 11th, 12th) has a Parent Information Night to discuss academics and expectations toward graduation. The Arts (Band and Drama) and Athletic programs are other ways we get parents on campus to display the works of our students. Banquets, awards nights, and scholarships nights are year-end events that draw parents to campus.

On-line access is provided through Skyward, the School District's Student Information Database. our OHS Website, and information also is posted on Facebook and Twitter with the hashtag #GoBrahmans.

2. Describe the process by which the school builds and sustains partnerships with the local community for the purpose of securing and utilizing resources to support the school and student achievement.

Our school is inviting to the public:

Open Houses at the beginning of the year: one for incoming 10th graders and one for every student 10-12.

Parent Information Nights are held for each grade

Financial Aid Night for 12th grade parents

Each week a Parent Newsletter is sent to each parent with an email in Skyward. It is also shared via Facebook and the OHS School Website.

Extra-Curricular Events such as Athletics, Band and Drama are well attended by parents and community members.

Our local community consistently supports the students. In 2016-17, over \$660,000 was provided in local scholarships to OHS seniors.

The School Improvement plan mirror the FLDOE accountability system for high school grading to ensure all stockholders are aware of the requirements and accountability system in place to evaluate the school. If our OHS students can master the Florida Standards, gain acceleration through Advanced Placement courses, Dual Enrollment courses, Career and Technical Education Certifications, and walk across the state at Graduation, we have accomplished our goals. All OHS staff has a piece in moving our campus forward.

Any new initiative will go through the process of evaluation by the School Leadership Team and PRIDE before dissemination to OHS staff and students.

Reading in all content areas is priority. The Literacy Coach aides in strategies to promote reading in the content areas. The Media Specialist searches for ways for teachers to incorporate the library and digital materials into lessons. School-wide announcements focus on reading and highlighting reading across campus. WICOR strategies will be modeled and reinforced school-wide.

D. Public and Collaborative Teaching

The school's responses to this section may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(7)(A)(iii)(IV).

1. Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction.

Teachers meet with subject area groups every two weeks. These meetings consist of content discussions, what is going well, and what does the group need support with. This information is documented and shared with Administration. Logistics of events are shared with this group via Department Heads. These meetings build cohesion with the group.

PLC's are scheduled twice a month to assist teachers with PD. These meetings are focused on strategies and useful tools. PLC's are scheduled through planning period which allows for a cross-section of the faculty to visits with others. Teachers can share what is going on in their content with teachers from other areas.

Leadership groups, such as PRIDE, can be joined by all staff. This group meets during the summer and periodically through-out the year and serves as a guide for recommending initiative for moving students and the school forward. Any staff member on campus can join and feel they have a voice in the focus of the school.

2. Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school.

The school works with the Director of Human Resources in an effort to recruit develop and retain highly qualified, certified-in-field, effective teachers. The school district supports the endeavor by having an online application forum. Additionally, the school uses Teachers-Teachers.com to locate and recruit highly qualified, certified-in-field, effective teachers. The school encourages all current teachers to achieve and maintain the status of highly qualified and certified-in-field teacher.

The district draws upon several resources to recruit new teachers. Administrators attend recruitment fairs both locally and out of state. Openings are advertised on social media. Networking and online job boards are also utilized. Recruitment incentives are available to current employees. Individual school site recruitment is handled by the administrator.

Each new teacher to the district is placed with a mentor who helps the new teacher to develop the skills necessary to become effective in the classroom.

3. Describe the school's teacher mentoring program, including the rationale for pairings and planned mentoring activities.

The school's mentoring program is a district-wide mentoring initiative. District mentors are trained and assigned teachers throughout the district based off of level- elementary or secondary. Teams of mentors are responsible for teams of mentees. Mentor teams are responsible for providing after-school PD on a monthly basis. In addition, each school is assigned a POST facilitator. (Project ONE Support Team) These facilitators are responsible for providing school-based leadership professional development after school on a monthly basis as well. These two forms of support provide support at the classroom, school, and district level for all of our new educators. The rationale for this way of work is wanting to provide "professional development insulation" for our new teachers with a collective team approach to working together. The hope is this team-based work will sustain the support and assistance needed to retain teachers.

E. Ambitious Instruction and Learning

1. Instructional Programs and Strategies

a. Instructional Programs

1. Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards.

The Okeechobee County School District reviews, selects, adopts, and implements high quality instructional materials aligned to the Florida Standards. The process of curriculum selection and/or development and implementation at OCSD is done in coordination with the Heartland Educational Consortium. OCSD's Instructional Services department and school leadership teams conduct an ongoing review of the curriculum and instructional materials implemented in each course in order to ensure alignment with the Florida Standards.

b. Instructional Strategies

1. Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments.

All student achievement data is evaluated for scheduling purposes. All OHS students will have 25 minutes a week to enrich through Khan Academy SAT preparation. All achievement levels can be impacted through Khan.

EOC data is used for placement in Algebra 1, Geometry, and Algebra 2. Study Island and Algebra Nation program is used to individualized instruction.

Interim Assessment data will be used in Biology and US History to progress monitor. These interim assessments are common and used each 9 weeks and semester to gauge progress towards standards.

FSA ELA data is used to identify students in need of interventions to ensure meeting Graduation requirements. Level 1 and Level 2 students are monitored via ELA grades. Level 1 students are monitored further through English classes with FAIR

Concordant score data is collected from sources such as SAT, ACT, and PERT for progress monitoring.

2. Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:

3. Describe efforts the school has taken to integrate career and technical education with academic courses (e.g., industrial biotechnology) to support student achievement.

Several initiatives and programs have been established to foster a college-going culture and to support and assist administrators, teachers, students and families as they work toward achieving college readiness for all students. Some of the programs include:

The SAT School Day test administration which allows the opportunity for students to take the SAT on their own school campus during a school day to remove barriers to Saturday testing.

Career Fairs are held at the middle school and high school levels to promote career awareness

College Day Fairs are held annually at the high school level.

The AVID (Advancement Via Individual Determination) program which promotes student self-management and personal responsibility for academic success through an elective AVID course that includes instruction in college readiness topics and strategies.

The high school seniors dress in Caps and Gowns and visit elementary schools to promote the idea of staying in school to graduate.

Guidance services work with schools to inform and support students and parents in graduation and college readiness goals.

The promotion of Advanced Placement and Dual Enrollment classes for students to earn college credit during high school.

Business advisory councils participate in Career-Tech courses and are guest speakers to the classes.

Local community provides over six hundred thousand dollars in scholarships to the graduating seniors.

4. Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the [High School Feedback Report](#), as required by section 1008.37(4), Florida Statutes.

Emphasis on all students taking the PERT test

Students in grades 9-12 will devote each week thirty minutes to work on SAT practices skills through KAHN Academy.

Counselors conduct classroom guidance and individual counseling sessions with students

Meetings held with parents to discuss with parents their role in assisting students with being college ready

Hiring a graduation coach for the secondary level.
