The 2014-15 school grades serve as informational baseline data that schools can use to improve in future years.

### School Board Approval

This plan is pending approval by the Polk County School Board.

### SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing.

This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

### Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

### Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

### Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

### Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

## Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

### DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

### DA Categories

At the start of each academic year, traditional schools are classified for DA support in two categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- **Not in DA** - A school with a current school grade of A, B, or C; charter schools; and ungraded schools.
- **Targeted Support and Improvement** - A school with a current school grade of an initial D.
- **Comprehensive Support and Improvement** - A school with a current school grade of F or two consecutive grades of D, or a high school with a graduation rate of 67 percent or less in the most recent data release.

### DA Turnaround Status

Additionally, Comprehensive Support and Improvement schools have a turnaround status of "Implementing," based on a school's grades history, including the current school grade:

- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

## I. Part I: Current School Status

### A. Supportive Environment

#### 1. School Mission and Vision

##### a. Provide the school's mission statement.

The mission of Spook Hill Elementary is to create a parent friendly school that ensures quality learning takes place by establishing a challenging, nurturing, and continually improving environment.

##### b. Provide the school's vision statement.

Our vision of Spook Hill Elementary students, staff, parents, and community is to create a learning environment where active participants inspire each student to reach his/her maximum potential.

#### 2. School Environment

##### a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

As a Title One School, every attempt is made to conduct at least one parent conference for every student throughout the year to ensure a better understanding of what is happening inside the home. Family nights are planned throughout the year in an effort to promote family and community involvement. Spook Hill Elementary staff also works with community groups including churches, social organizations, and our school's social worker to connect with students and families in their home environments.

##### b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

Spook Hill Elementary is a Positive Behavior Intervention Support School which emphasizes the use of preventative teaching and reinforcement based strategies. Established school-wide expectations are continuously taught and reinforced with all students throughout the year. In addition, students meeting or exceeding expectations are positively reinforced through specific, positive praise, and incentives.

School-wide safety plans are developed and communicated to all staff each year. Student supervision is provided from 7:30 - 3:30 each day, unless extenuating circumstances warrant extensions. To ensure adequate supervision, teachers and support staff are assigned to specific duty schedules before, during, and after school to ensure students are monitored at all times.

District wide bullying prevention lessons are taught at the beginning of each year. Students and parents

are also encouraged to report cases of bullying through a bullying box, online reporting system or in person. Each reported case is taken seriously and followed up on.

In addition, we have a school resource officer assigned through the Lake Wales Police Department that provides support and assistance as needed.

##### c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.

The PBIS team implements an on-going plan of action each year. Professional development is provided to teachers as the onset of each school to review/reinforce school-wide systems and expectations. School-wide and classroom expectations are explicitly taught through the first weeks of

school and reinforced throughout the year. Classroom rules are developed from the school-wide expectations and CHAMPS is implemented to teach and reinforce expectations.

Teachers follow the discipline flowchart located within the PBIS manual. This chart provides a step by step guide on how to address behavioral issues in and out of the classroom.

Minor behavioral issues are managed by the classroom and special area teachers. On the first offense, the student receives a verbal warning and redirection. The expectation is reinforced with a replacement behavior. Beginning with the 2nd offense for the same behavior, the teacher begins documentation using the Minor Behavior Tracking Form and provides an appropriate intervention strategy. Problem-solving team meetings are scheduled as needed to discuss students needing additional assistance/reinforcement. Repeated offenses deemed minor in nature, may result in a disciplinary office referral after appropriate interventions have proven ineffective. In addition, any major violation of the code of conduct warrants an immediate office referral. All office disciplinary referrals are processed according to the district code of conduct.

To encourage positive behavior, teachers award up to 5 points a day for displaying the school-wide expectations. Students earning 80% of the possible points throughout the week are rewarded with a Fun Friday activity with the classroom teacher. Students earning 80% of the possible points throughout a given month are rewarded with an appropriate grade level activity. School-wide quarterly awards are provided for students earning 80% of possible points within a quarter. Business sponsors assist with covering the costs.

Students also earn Gold Tickets for demonstrating school-wide expectations. Each teacher identifies a minimum of (2) students per week to receive a Gold Ticket. These tickets are then placed in a basket and weekly drawings of the tickets are conducted to honor these students with small prizes.

**d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.**

Spook Hill employs a full time behavioral interventionist to provide behavioral support to teachers and students. Students in need of additional support are referred to the PBIS/MTSS team for an appropriate tier 2/3 intervention. Check-in/Check-out is one tier 2 strategy utilized throughout the school. With this strategy, staff members volunteer to mentor these students to provide stability and create positive relationships. Our guidance counselor also provides individual and group counseling sessions on an as needed basis. Additionally, mental health counseling is available to qualifying students.

### 3. Early Warning Systems

The school's response to this section may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(7)(A)(i) and (b)(7)(A)(iii)(III).

**a. Describe the school's early warning system and provide a list of the early warning indicators used in the system.**

Using the data within Performance Matters, staff members are able to track students' state assessment data, ESE/504/ELL/Lunch status, attendance record, out-of-school suspensions as well as overage students and retention status.

The early warning chart below reflects EOY data from 2016-2017. Data for course failure reflects the number of students retained for current year.

**b. Provide the following data related to the school's early warning system**

**1. The number of students by grade level that exhibit each early warning indicator:**

Indicator	Grade Level													Total
	K	1	2	3	4	5	6	7	8	9	10	11	12	
Attendance below 90 percent	28	17	24	18	8	17	0	0	0	0	0	0	0	112
One or more suspensions	16	2	8	9	13	15	0	0	0	0	0	0	0	63
Course failure in ELA or Math	1	0	4	15	0	0	0	0	0	0	0	0	0	20
Level 1 on statewide assessment	0	0	0	44	33	46	0	0	0	0	0	0	0	123

**The number of students identified by the system as exhibiting two or more early warning indicators:**

Indicator	Grade Level													Total
	K	1	2	3	4	5	6	7	8	9	10	11	12	
Students exhibiting two or more indicators	3	0	3	18	14	16	0	0	0	0	0	0	0	54

**c. Describe all intervention strategies employed by the school to improve the academic performance of students identified by the early warning system.**

The master schedule supports a staggered schedule for Reading Power Hour to provide maximum literacy support for K-5 students. During this time, students receive intensive intervention from classroom teachers, ESE Support teachers, ESOL paraprofessional, AmeriCorps tutors, and/or paraprofessionals.

Teachers record and analyze data using a school-wide online data reporting system and participate in weekly grade level planning and data analysis for the purpose of aligning curriculum and instruction with students' needs. In addition, this system is used to record and track tier/2/3 MTSS interventions and data for ESE referral.

After school tutoring is provided to all students evidencing low performance on grade level standards.

Students are recognized for their attendance quarterly and for their behavior daily, weekly, monthly, and quarterly. The school's guidance counselor and social worker track student attendance data and conduct attendance meetings/hearings with parents of truant students in an effort of improving attendance and increasing student performance.

The PBIS team analyzes behavioral data monthly for the purpose of identifying students in need of additional support. In addition, the behavioral interventionist meets with grade levels monthly to discuss/address behavioral concerns and provides support with intervention strategies. Check-in/Check-out is provided to students in need of mentorships, and problem-solving team meetings are held for students needing tier 2/3 support.

Extracurricular activities and field trip experiences are also used as an incentive.

**B. Family and Community Engagement**

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

**2. Description**

**2. Describe the process by which the school builds and sustains partnerships with the local community for the purpose of securing and utilizing resources to support the school and student achievement.**

Spook Hill creates partnerships through local businesses by hosting volunteer orientation and encouraging volunteers within our classrooms. We also elicit monetary partnerships between businesses and classrooms so that classroom teachers can purchase additional classroom supplies or curriculum. Also, business partnerships help support our PBIS system with rewards for students meeting school-wide expectations. Local churches and civic organizations provide student supplies, monetary, and in kind donations to support the school's needs.

## **b. Instructional Strategies**

### ***1. Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments.***

School data is reviewed and disaggregated throughout the year. Data chats are held by administration, instructional coaches, and teachers to discuss individualized classroom goals/strategies. Intensive Interventions are based on student needs and are provided in the areas of reading and math. Special attention is placed on accommodations and modifications based on ELL/ESE/504/IEP goals. The master schedule supports an additional hour of reading instruction deemed Reading Power Hour where students receive tiered instruction in foundational reading skills. Gifted students are also pulled during Reading Power Hour to receive small group instruction through instruction delivered by our schools alpha teacher. ESOL and ESE students are provided interventions through the use of an ESOL paraprofessional, and ESE Inclusion teachers. Our Speech/Language students are also provided instruction/therapy through the school's speech pathologist. The use of the Reading Wonders program allows for differentiation to occur within the lesson on different levels. There are leveled readers and opportunities for students to use other modalities of learning to show and tell about what they have learned. The school also uses Rosetta Stone for our ESL students to learn English at their individual speed. We also have the opportunity to use our paraprofessionals to work with small groups indicate by the teacher who may need either some review or some higher level thinking opportunities.

### ***2. Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:***

**Strategy: After School Program**

We also offer the following enrichment opportunities for our students: National Elementary Honor Society, Casper News Network, patrols, academic team, archery club, chorus, strings and art club. These students will be able to grow academically, socially, and learn new skills through these programs.

**Strategy Rationale**

Using data, the school pinpoints areas of strengths/weakness and based on those strengths/weaknesses provide key remediation and/or enrichment opportunities. Students are chosen by their academic strengths/weaknesses and sometimes by their behavioral goals. Informal and formal assessment outcomes are also used for the selection of student participation.

**Strategy Purpose(s)**

- Core Academic Instruction
- Enrichment

**Person(s) responsible for monitoring implementation of the strategy**

**Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy**

STAR Reading & Math, Istation Reading & Math, Reading Wonders weekly assessments, Go Math BOY, MOY, EOY assessments, and math and science benchmark assessments: All data will be analyzed to determine individual students' progress towards mastery of the Florida Standards.

## 2. Student Transition and Readiness

### a. PreK-12 Transition

The school's response to this question may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(7)(A)(iii)(V).

**1. Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.**

At the onset of each new school year, pre-school teachers meet with each parent, tour the school, review the individual student's IEP, and review classroom expectations.

Spook Hill assists preschool children in transition from early childhood programs to elementary programs by hosting a kindergarten round-up each spring. At this time, parents and students are afforded the opportunity to visit active kindergarten classrooms, tour the school, complete registration information and ask questions.

Kindergarten teachers help their student's transition into Spook Hill Elementary by teaching lessons relating to rules, procedures and expectations. Parents are given materials to assist them in transitioning their child to kindergarten. As a method of evaluating the overall success of the transition from Preschool to Kindergarten, Kindergarten students are given the FLKRS test within the first 30 days of school to provide teachers, as well as other key personnel, valuable indicators of academic

readiness and needs. PS/RTI strategies will be used to assist Kindergarten students who score low on the Florida Kindergarten Readiness Screener (FLKRS) and/or district assessments.

An open Orientation is held each August for all grade levels for the purpose of meeting new teachers, touring the school, receiving supply lists, buying necessary school uniforms, receiving information regarding bus transportation, and other relevant information.

In the spring, all fifth grade students are afforded an opportunity to meet with representatives from the two local middle schools to learn about their respective special programs and select course offerings. Additionally, all fifth grade students are invited to participate in the district-wide WE3 Expo in November of each year to learn about the special schools and programs offerings throughout the district.
