School Board Approval

This plan is pending approval by the Polk County School Board.

SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing.

This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

DA Categories

At the start of each academic year, traditional schools are classified for DA support in two categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- **Not in DA** - A school with a current school grade of A, B, or C; charter schools; and ungraded schools.
- **Targeted Support and Improvement** - A school with a current school grade of an initial D.
- **Comprehensive Support and Improvement** - A school with a current school grade of F or two consecutive grades of D, or a high school with a graduation rate of 67 percent or less in the most recent data release.

DA Turnaround Status

Additionally, Comprehensive Support and Improvement schools have a turnaround status of "Implementing," based on a school's grades history, including the current school grade:

- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

I. Part I: Current School Status

A. Supportive Environment

1. School Mission and Vision

a. Provide the school's mission statement.

Dundee Elementary Academy aims to develop influential citizens who are globally aware, internationally minded, and have a passion for life long learning. We work as a highly qualified staff that works collaboratively with all stakeholders to provide inquiry based instruction in a safe and supportive environment.

b. Provide the school's vision statement.

Dundee Elementary Academy is preparing students to excel in a global society!

2. School Environment

a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

The teachers review each students' cumulative folder and meet with ESOL and ESE staff to determine modifications and accommodations. Parents were invited to Orientation where they met with their children's teachers. The parents and students participated in a STEM activity together and teachers were able to see how the students participated with adults and other students. There is a Title I Open House in September for parents to attend to meet with teachers. There are four parent conferences during the year. The first conference is teacher-led and the other three are student-led. Information about students' work is shared with parents. After-school clubs are available for students to interact with teachers in fun learning activities.

b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

An opening assembly was held by the principal and assistant principal to go over expectations with regards to safety, bullying and other school issues.
All rooms are kept locked and all employees wear their badges at school.
Bullying lessons are taught to each grade level. There is an anonymous bully box for students to use.
When going to a location outside of the classroom, students walk in pairs.
Red Ribbon Week stresses the importance of not using drugs or becoming involved with anyone using drugs or alcohol.
The Hearth Program assists students who are homeless by supporting the students and their families.
CHAMPS is used to create a positive and supportive learning environment.

c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.

The PBIS plan is in place for all students. The data leadership team meets monthly to go over discipline data. There are personal development expectations and study habits. Each classroom has a school-wide discipline plan and parents are notified through the agenda. All minor infractions are recorded in the agenda as a "Request for Parent Support" and all major infractions are handled by administration according to the Polk County Code of Conduct. Behavior and responsibility reports are

signed by parents at the end of each week.

Monthly rewards are given to students for compliance with the discipline plan using CHAMPS.

Behavior probation is used for tier 2 which includes assigning a mentor that meets with the students weekly to check on their behavior.

d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

The guidance counselor and school psychologist visited each classroom to introduce themselves to the students and describe the kind of assistance that they provide. The guidance counselor is available to students and parents when needed. In addition, should a student be placed on behavior probation, they meet with the guidance counselor once a week for a check in and check out.

3. Early Warning Systems

The school's response to this section may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(7)(A)(i) and (b)(7)(A)(iii)(III).

2. Describe the process by which the school builds and sustains partnerships with the local community for the purpose of securing and utilizing resources to support the school and student achievement.

Dundee Elementary Staff secured the resources from the local community by making face to face contact with Business Partners and Community groups.

The Adopt A Class program was initiated so that business partners could adopt the class of their choice by choosing to donate money or materials. This program can be sustained by recognizing the business partners and community members in our newsletters and on the school marquee.

A partnership was established with the Dundee Public Library and our First Grade classrooms. Our students and teachers visited the library for a story and activity that supported their current unit of study. We will continue with this program this year.

Kindergarten has a mapping unit where they go to different business partners to learn about their business.

A Business Partner/Community Member orientation was held in the early fall to orientate our partners on ways to help our school and the community.

The reading coach works with teachers to understand the reading standard and develop sound instructional practices to teach the standards. The team meets on Thursdays to discuss a variety of data including, but not limited to, circulation, AR, reading data, and state testing data.

D. Public and Collaborative Teaching

The school's responses to this section may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(7)(A)(iii)(IV).

1. Describe the school's strategies to encourage positive working relationships between teachers, including collaborative planning and instruction.

Administration has provided teachers with 100 minutes a day for planning purposes. Four of the Five days are directed planning with coaches, administration, and IB coordinator. Teachers meet on Tuesdays and Wednesday for lesson planning, Thursday for data, and Friday for IB units. Teachers are required to use a pre-planning form to gather thoughts, ideas, and resources prior to planning. This allows them to use the time together to actually plan the lessons. It also gives the coaches and administration time to help with misconceptions about the standard.

2. Describe the school's strategies to recruit, develop and retain highly qualified, certified-in-field, effective teachers to the school.

Dundee Elementary provides teacher mentoring for new teachers by providing support and guidance from the curriculum coaches and administration. Teachers that are in their 1st or 2nd year of teaching will be provided a district mentor teacher to work with them. Additionally, new teachers participate in the Teacher Induction Program orientation provided by the district. We have also paired new teachers with an IB expert at the school to help support them as they learn IB.

E. Ambitious Instruction and Learning

1. Instructional Programs and Strategies

a. Instructional Programs

1. Describe how the school ensures its core instructional programs and materials are aligned to Florida's standards.

Teachers use a preplanning form to help them understand the scope and sequence of the standards being taught. This helps teachers know what to teach. During planning sessions, teachers collaborate to determine the best method to teach the content. Teachers start with the end in mind by first determining how students will be assessed, creating or locating an assessment that matches the standard, and then developing lessons that lead students to the standard. Administration and coaches review lesson plans and attend planning meetings to help ensure that task, test, and teaching align to the standard.

b. Instructional Strategies

1. Describe how the school uses data to provide and differentiate instruction to meet the diverse needs of students. Provide examples of how instruction is modified or supplemented to assist students having difficulty attaining the proficient or advanced level on state assessments.

Teachers examine test data weekly. They are looking for trends across grade level and in their own classes. Once those determinations have been made teachers either reteach a concept or set aside time in small groups to remediate or excel students. Teachers use 30 minutes per day to close large gaps in reading.

2. Provide the following information for each strategy the school uses to increase the amount and quality of learning time and help enrich and accelerate the curriculum:

Strategy: Summer Program

Minutes added to school year: 288

Students that are not on grade level will be required to attend either Power Up which is offered by the county or they can complete a summer learning packet which is based on their reading level. Students are required to bring in their completed notebook throughout the summer to show that they are working toward reaching grade level.

2. Student Transition and Readiness

a. PreK-12 Transition

The school's response to this question may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(7)(A)(iii)(V).

1. Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

Dundee Elementary has both a regular and an ESE Pre-K program on campus. The PreK teacher is invited to attend all professional learning opportunities at DEA so that she is able to align her curriculum with that of DEA. Also, Pre-K students attend specials that last few weeks of school and eat in the lunchroom so that they have experiences in a typical school setting. This allows for a smoother transition with incoming kindergarten students.

Dundee Elementary will conduct a Kindergarten Round-up called Up and Coming Inquirers in April to register new students. During this Round-up incoming students will be provided with math manipulatives, reading workbooks, and other items to prepare students for school success.

STAR Early Literacy will be administered at the beginning of the school year.

Dundee Elementary invites the East Coast Migrant School students, staff and families to visit Dundee Elementary several times a year.

We articulate with community preschool programs in Dundee to help them better prepare their students

Kindergarten Readiness Workshops are held in the spring to assist parents in preparing their children for kindergarten.

b. College and Career Readiness

1. Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

2. Identify the career and technical education programs available to students and industry certifications that may be earned through those respective programs.

3. Describe efforts the school has taken to integrate career and technical education with academic courses (e.g., industrial biotechnology) to support student achievement.

4. Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the [High School Feedback Report](#), as required by section 1008.37(4), Florida Statutes.

II. Needs Assessment

The school's completion of this part may address the requirements of ESSA, P.L. No. 114-95, Â§ 1114(b)(6).

A. Problem Identification

1. Data to Support Problem Identification

b. Data Uploads

Data uploads are not required by the Florida Department of Education but are offered as a tool for the needs assessment. In this section, the school may upload files of locally available data charts and graphs being used as evidence of need.

The following documents were submitted as evidence for this section:

No files were uploaded

2. Problem Identification Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the points of strength and areas of need that have been identified in the data.

Points of Strength

1. Continue working on identified SIP goal.
2. Overall proficiency in ELA and math, students performing on or above grade level.
3. Continue using IB model and training for staff.
4. Continue teaching Wednesdays PD focus on reading workshop and calendar math.

Opportunities for Improvement

1. Look at lowest quartile data starting in kindergarten instead of 3rd grade.
2. Use STAR early literacy and STAR reading on schedule.
3. Reduce the gap for ELL and SWD in ELA and math if the data is showing this is a need.
4. Increase teacher retention
5. Supportive environment goal
6. Documentation of running records data

B. Problem Analysis Summary

This section is not required by the Florida Department of Education but is provided as an opportunity for the school to summarize the underlying "why" or root causes for the areas of need identified in the data, as determined by situational awareness of, and research conducted by, the stakeholders involved in the needs assessment.

1. If we begin identifying the LQ K-4 (instead of waiting until 3rd grade) then our students will make gains in both ELA and math.
2. If we test students during the testing window, we can use the data to progress monitor and differentiate instruction to meet the needs of the learners.
3. If we continue collaborative transdisciplinary planning using the standards and teaching Wednesdays (including ESE and ELL), then we will retain teachers and increase teacher effectiveness.
4. If we use the data from performance matters with teachers to assess the standards being taught, they will use it to make instructional decisions for their students.

C. Strategic Goals
