### School Board Approval

This plan is pending approval by the Escambia County School Board.

### SIP Authority and Template

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing.

This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. A corollary at the district level is the District Improvement and Assistance Plan (DIAP), designed to help district leadership make the necessary connections between school and district goals in order to align resources. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

### Part I: Current School Status

Part I organizes the current status of the school around five domains inspired by the 5Essentials framework: Supportive Environment, Family and Community Involvement, Effective Leadership, Public and Collaborative Teaching, and Ambitious Instruction and Learning. Questions regarding the school’s Multi-Tiered System of Supports have been embedded throughout this part to demonstrate how data is used by stakeholders to understand the needs of all students and allocate appropriate resources in proportion to those needs.

### Part II: Needs Assessment

Part II requires the school to review performance and early warning systems data in order to develop strategic goals and associated data targets (i.e., “SMART goals”) for the coming school year in context of the school’s greatest strengths and needs. An online tool was developed, which includes data visualizations and processing questions to support problem identification, problem analysis and strategic goal formulation.

### Part III: 8-Step Planning and Problem Solving for Implementation

Part III enables the school to develop implementation plans for its highest-priority goals. With the overview of the current state of the school in mind and the strategic goals identified through the needs assessment, the planning team engages in a facilitated planning and problem-solving process, through which they

- Define strategic goals and establish targets to be reached by successfully achieving the goals (Step 1)
- Identify barriers that could hinder achieving those goals and resources that could be used to eliminate or reduce barriers (Step 2)
- Select high-priority barriers they want to address initially (Step 3)
- Design implementation and monitoring plans for strategies to resolve selected barriers (Steps 4-7)
- Determine how they will monitor progress toward each goal (Step 8)

### Appendices

The following appendices, automatically-generated from content entered in Part III, are included in this document:

- Appendix 1 is a timeline of all action steps and monitoring activities
- Appendix 2 is an outline of all professional development opportunities and technical assistance items
- Appendix 3 is a report of the budget needed to implement the strategies

## Differentiated Accountability

Florida's Differentiated Accountability (DA) system, established in [section 1008.33, Florida Statutes](#), is a statewide network of strategic support, differentiated by need according to performance data, provided to districts and schools in order to improve leadership capacity, teacher efficacy, and student outcomes. Through a data-driven planning and problem-solving process, DA field teams collaborate with district leadership to design, implement, and refine strategic goals and action plans that are documented in the SIP.

### DA Regions

Florida's DA network is divided into four geographical regions, each served by a field team led by a regional executive director (RED).

### DA Categories

At the start of each academic year, traditional schools are classified for DA support in two categories based on the most recent school grades data available. Descriptions of each DA category along with the state support and interventions provided are set forth by [Rule 6A-1.099811, Florida Administrative Code](#):

- **Not in DA** - A school with a current school grade of A, B, or C; charter schools; and ungraded schools.
- **Targeted Support and Improvement** - A school with a current school grade of an initial D.
- **Comprehensive Support and Improvement** - A school with a current school grade of F or two consecutive grades of D, or a high school with a graduation rate of 67 percent or less in the most recent data release.

### DA Turnaround Status

Additionally, Comprehensive Support and Improvement schools have a turnaround status of "Implementing," based on a school's grades history, including the current school grade:

- Implementing - A school with a status of "Implementing" requires the district to submit a turnaround plan to the State Board of Education for approval and implementation. A school remains in "Implementing" status until its school grade improves to a C or higher.

## I. Part I: Current School Status

### A. Supportive Environment

#### 1. School Mission and Vision

##### a. Provide the school's mission statement.

The mission of Brentwood Elementary is to ensure that every student has the self-confidence, desire, knowledge, and skills needed to lead a responsible and satisfied life.

##### b. Provide the school's vision statement.

In keeping with our district's vision to be a place where students want to learn, teachers want to teach, parents want to send their children, and employees want to work:

It is the desire of Brentwood Faculty and Staff that we capture the heart and mind of students, parents, and our community, by creating an excellent learning environment for all. We strive to promote love of learning through the use of: Cutting-edge teaching and learning tools, encouragement of good citizenship, and providing problem-solving opportunities so that students will flourish in tomorrow's technology infused world.

#### 2. School Environment

##### a. Describe the process by which the school learns about students' cultures and builds relationships between teachers and students.

Parent surveys, student surveys, and getting to know you activities in the classroom. We are a capturing kids' heart (CKH) model school where emphasis is placed on relationship building and collectively deciding on rules in the classroom for how each person wants to be treated and plans to treat others. Each class develops a social contract to be upheld through out the year. Our school is also a Positive Behavior Support (PBS) school and emphasis is placed on good choices made daily.

##### b. Describe how the school creates an environment where students feel safe and respected before, during and after school.

We are a Positive Behavior Support PBS school that emphasizes a positive, safe, learning environment for all. We provide no-bully training for teachers and staff and for all students. Parents are provided information regarding the anonymous reporting site through the district. We monitor student behavior closely at school and on the bus. We provide progressive discipline consequences to those that breach the safe environment. During this school year, teachers will implement the Sanford Harmony program for all students. This is a character curriculum to further improve student environment and behavior toward one another. The Sanford Harmony program provides an opportunity for teachers to teach social skills and appropriate behaviors to students.

School premises is monitored by a security system that requires a special code to enter the building during non-school hours.

District personnel often do campus checks to ensure safety of entire campus.

Gates surround the school campus which stay locked to ensure that only authorized personnel can be on the premises.

Raptor system is used for sign-in process to ensure all visitors are safe to be on campus. Office staff is trained to check ID and blue card (Focus) information to ensure that the right people are allowed contact with individual students.

Volunteers are scanned and approved by a district employee and trained on what their appropriate responsibilities and activities can be on campus regarding contact with students.

Safety Drills are shared in teacher handbook and practiced routinely with students.

Administration has open door policy for students, teachers, and parents to communicate any issues and concerns.

Procedures are shared and practiced with faculty, staff, students, and parents.

Staff members are assigned to duty stations carefully around the school to monitor students to ensure safety.

A parent handbook was provided to outline these procedures as well.

**c. Describe the schoolwide behavioral system in place that aids in minimizing distractions to keep students engaged during instructional time. This may include, but is not limited to, established protocols for disciplinary incidents, clear behavioral expectations, and training for school personnel to ensure the system is fairly and consistently enforced.**

We are a Positive Behavior Support PBS school that emphasizes a positive, safe, learning environment for all. We provide no-bully training for teachers and staff and for all students. Parents are provided information regarding the anonymous reporting site through the district. We monitor student behavior closely at school and on the bus. We provide progressive discipline consequences to those that breach the safe environment. We reward positive choices through bucket tickets and opportunities to earn individual rewards as well as class rewards such as attending PBS celebrations. Learning Earnings will also be utilized by all teachers and staff to reward students for good choices. Students walk through the students' rights and responsibility handbook in their classroom with their teacher to ensure they understand the expectations and know what their rights are. This handbook is sent home for student/family reference. Students sign a form stating they have read and understand their rights and responsibilities. The behavior coach and guidance counselor do follow up checks with students and classrooms regarding expectations to ensure all students understand.

Raptor system is used for sign-in process to ensure all visitors are safe to be on campus. Office staff is trained to check ID and blue card(Focus) information to ensure that the right people are allowed contact with individual students. Teachers are provided a PBS notebook that includes disciplinary guidelines and adjudication guides from the district. We follow in-house plan for consequences for students that misbehave. We encourage parent/teacher communication as a number one defense against poor behavior. Teachers will conference in person or through phone calls. Teachers will monitor minor infractions in the online RTI:B program to help track behaviors and analyze data to further improve our discipline plan and prevent issues as they are identified. This will also help the identification process for students that need to be entered into the RTI/MTSS process for behavior. The behavior coach and guidance counselor will meet with students that are struggling with behavior at the tier II and tier III level of RTI/MTSSB.

**d. Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.**

We have one full-time counselor on staff at Brentwood and a counselor one day a week from Lakeview. Students have access at all times to the counselor for individual and small group sessions as the need arises. Counselors work with individuals or small groups to deal with loss of loved ones, dealing with divorce, anger management, deescalation strategies, and organizational skills. Students that are in the MTSS process for behavior are provided interventions and opportunities for check-in and check-out assignments where an adult is assigned to see them each day to encourage them and follow-up with their success for the day. Students in MTSS for behavior will be assigned to either the behavior coach or guidance for more intensive counseling sessions on appropriate behavior choices and deescalation strategies. Students are also referred to outside counseling such as Lakeview for more intensive one on one counseling.

**Strategy: Weekend Program**

**Minutes added to school year: 1,080**

Students will meet with Military members for a period of six weeks: each Saturday from 9:00-12:00 for individualized student needs based on their data.

**Strategy Rationale**

Faculty and staff will be working collaboratively to plan, analyze data, and build knowledge of teaching pedagogy and research based strategies to implement in the classroom. The additional assistance from the Military members on focused areas of need will assist students in understanding core content material.

**Strategy Purpose(s)**

- Core Academic Instruction

**Person(s) responsible for monitoring implementation of the strategy**

Sewell, Jennifer, jsewell@ecsdf.us

**Data that is or will be collected and how it is analyzed to determine effectiveness of the strategy**

Students who attend Saturday Scholars data will be monitored to analyze the effects of the additional time/instruction spent in each core content area. Teachers will keep data binders that will include all assessment data and documentation of lesson plans for small groups based on data.
