### School Board Approval

This plan is pending approval by the Volusia County School Board.

### SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at

<https://www.floridacims.org>.

### Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## Part I: School Information

### School Mission and Vision

#### Provide the school's mission statement.

PACE provides girls and young women an opportunity for a better future through education, counselling, training and advocacy.

PACE values all girls and young women, believing each one deserves an opportunity to find her voice, achieve her potential and celebrate a life defined by responsibility, dignity, serenity and grace.

#### Provide the school's vision statement.

PACE began in 1985 with one Center in Jacksonville, Florida serving 10 girls. Today PACE includes 19 Centers throughout Florida that serve over 2,000 girls each year and PACE has changed the life trajectory of over 37,000 girls since its inception. PACE began as a community response to the realization that girls involved with the justice system were either being placed in programs designed for boys or placed further into the system for their own protection. There were no effective alternatives. Started by Vicki Burke and guided by the research-based recommendations which called for gender responsive programming, PACE created a new alternative to institutionalization or incarceration for girls.

PACE is now recognized as a national model for reducing recidivism and improving school success, employment and self-sufficiency amongst girls by the Annie E. Casey Foundation, Children's Defense Fund, National Mental Health Association, National Council on Crime and Delinquency, and the Office of Juvenile Justice and Delinquency Prevention.
