School Board Approval

This plan is pending approval by the Osceola County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part II: Needs Assessment/Analysis

Assessment & Analysis

Consider the following reflection prompts as you examine any/all relevant school data sources, including those in CIMS in the pages that follow.

Which data component performed the lowest? Is this a trend?

Math learning gains for the bottom quartile is our lowest performing area. This area has consistently been low.

Which data component showed the greatest decline from prior year?

Our ELA achievement level is an area we did not grow. While our learning gains increased in ELA, achievement level went down.

Which data component had the biggest gap when compared to the state average?

Math Achievement is 11 points behind the state average.

Which data component showed the most improvement? Is this a trend?

ELA learning gains for the bottom quartile increase 14 points. No. The year before, we had a significant dip.

Describe the actions or changes that led to the improvement in this area.

We had a better focus on interventions for our bottom quartile students and changed instructional strategies with our ESE population.

Part IV: Title I Requirements

Additional Title I Requirements

This section must be completed if the school is implementing a Title I, Part A schoolwide program and opts to use the Pilot SIP to satisfy the requirements of the schoolwide program plan, as outlined in the Every Student Succeeds Act, Public Law No. 114-95, Â§ 1114(b). This section is not required for non-Title I schools.

Describe how the school plans to build positive relationships with parents, families, and other community stakeholders to fulfill the school's mission and support the needs of students.

Our school strives to involve all parents in the planning, review, and improvement of Title I programs and out Parent & Family Engagement Plan. All parents are invited to attend meetings regarding the development of the required plan through flyers, school marquee, and REMIND. Parents are asked for their input on activities and trainings provided by the school. The school uses the notes from the group discussion to guide writing the plan.

PFEP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

The school has three guidance counselors who focuses on the social-emotional needs of students. The counselors will participate in the MTSS process and discuss student needs. The counselors meet with small groups of students, individuals, and families to determine the best services available for the students for Tier 2 and Tier 3 interventions. They lead the mentoring program for at-risk students and also works with our families in transition (FIT) population. The school has a food pantry to supplement family needs for those listed as FIT. The guidance counselors will track progress of students in need through the counselor documentation tab in FOCUS. The counselors will host parent meetings monthly on Saturday mornings to discuss hot topics of middle school students. We will track participation through parent sign in sheets.

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

Parkway participates in vertical articulation with the elementary and high school feeder patterns by allowing teachers to meet and discuss student needs. Administrators at all feeder schools meet to discuss programs and alignments.

Parkway offers a 6th grade Orientation Night in the Spring as well as open house in the Fall.

Parkway administration and Guidance Counselor visit all feeder schools to give an overview of curriculum options.

The high school guidance department also comes to Parkway to register the incoming 9th grade students.

Since Parkway is a Choice International Baccalaureate School, Parkway visits other schools in the county to provide information to parents and students about our programs. There is a direct path for International Baccalaureate students in the district. As IB schools, Gateway High School, Celebration High School, Thacker Avenue Elementary, and Parkway meet quarterly to align the IB programs.

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.
