#### **School Board Approval**

This plan is pending approval by the Hernando County School Board.

#### **SIP Authority**

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <a href="https://www.floridaCIMS.org">https://www.floridaCIMS.org</a>.

### **Purpose and Outline of the SIP**

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

### **Assessment & Analysis**

Consider the following reflection prompts as you examine any/all relevant school data sources, including those in CIMS in the pages that follow.

#### Which data component performed the lowest? Is this a trend?

Biology we had 2 students test and they both scored a level 2. No, we cannot determine if it is a trend with only 2 years of data.

#### Which data component showed the greatest decline from prior year?

Geometry EOC had the greatest decline. We went from a 100% pass rate to a 33% pass rate.

## Which data component had the biggest gap when compared to the state average?

Bioligy had the biggest gap with 21 points below the state mean.

## Which data component showed the most improvement? Is this a trend?

Algebra one showed the most improvement, we went from a 50% pass rate to a 100% pass rate.

# Describe the actions or changes that led to the improvement in this area.

We implemented a face to face tutoring session for our struggling students and increased our online tutoring support.
