### SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

### Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

ELA Lowest 25th Percentile

#### Which data component had the biggest gap when compared to the state average?

ELA Achievement

#### Which data component showed the most improvement? Is this a trend?

## Part IV: Title I Requirements

### Additional Title I Requirements

This section must be completed if the school is implementing a Title I, Part A schoolwide program and opts to use the Pilot SIP to satisfy the requirements of the schoolwide program plan, as outlined in the Every Student Succeeds Act, Public Law No. 114-95, Â§ 1114(b). This section is not required for non-Title I schools.

#### **Describe how the school plans to build positive relationships with parents, families, and other community stakeholders to fulfill the school's mission and support the needs of students.**

Increase parental involvement in academic recognition and awards ceremonies and other school related activities (AVID family nights, guidance nights).

Increase parental involvement on our school advisory committee.

Increase attendance at school's annual Night of Stars program

#### **PFEP Link**

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

#### **Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.**

During our advisement period, mentors advocate on their assigned students' behalf. During advisement students and teachers review grades, build relationships and discuss academic issues. Students in 9th grade Leadership class engage in character building discussions using Covey's 7 Habits of Highly Effective Teens and 6 Most Important Decisions curriculum. The APHS MTSS committee works with the school-based leadership team to identify students who meet criteria for MTSS evaluation. MTSS team members coordinate delivery of remedial/supplemental instructional/behavioral interventions, and progress monitor students identified as at risk using our school's early warning system. APHS also has 1:1 mentoring that focus on our at-risk students. Guidance Counselors and outside agencies such as New Horizons and Youth and Family Services provide individual/family counseling to assist students and their families with their individual needs. After school tutoring is available (4 days a week) to all students to get extra support.

#### **Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.**

9th graders transitioning from the middle school are enrolled in a Leadership Class. Instructional objectives for this course include improving students with organizational skills, providing instruction in self advocacy strategies, and to increase student's post-secondary preparedness.

#### **Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs.
