School Board Approval

This plan is pending approval by the Volusia County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <u>www.floridacims.org.</u>

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Proficiency of students with disabilities in Math and ELA. Two ESE teachers quit in October and students were with permanent substitutes for the remainder of the year. This led to a deficiency in our core math and ELA standards.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Our Asian population's proficiency in ELA decreased by 14%. However the average was still a 71. This is due to a decrease in our Asian population.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

The state science average increased by 1% while ours decreased by 2%. This shows a gap in our science achievement. Teachers were adhering to the suggested rigor level within each standard.

Which data component showed the most improvement? What new actions did your school take in this area?

Social Studies showed a growth of 7% from the previous year. Students who were not proficient were identified based on district scores and participated in a remediation course.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

Attendance

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 1. 8th grade Science achievement
- 2. Students with a disability proficiency in Math
- 3. Students with a disability proficiency in ELA
- 4.
- 5.

Part III: Planning for Improvement

Areas of Focus:

#1	
Title	Students proficiency for SWD
Rationale	Less than 1/3 of students with disabilities are proficient
State the measurable outcome the school plans to achieve	Increase ELA proficiency from 30% to 40%
Person responsible for monitoring outcome	Amanda Wiles (anwiles@volusia.k12.fl.us)
Evidence-based Strategy	Teacher to student feedback
Rationale for Evidence- based Strategy	According to John Hattie (Visible Learning for Teachers), If students receive direct feedback on their writing they will become more successful in their abilities as well as self evaluation.
Action Step	
Description	 Professional development - ELA PLC - effective feedback in writing Have teachers review info and develop action plan with Academic Coach/ district curriculum specialist Plan needs for each grade level Have teachers implement Monitor through walk throughs Review results every 2 weeks in PLC meetings Adjust as needed

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).

Part IV: Title I Requirements

Additional Title I Requirements

This section must be completed if the school is implementing a Title I, Part A schoolwide program and opts to use the Schoolwide Improvement Plan to satisfy the requirements of the schoolwide program plan, as outlined in the Every Student Succeeds Act, Public Law No. 114-95, § 1114(b). This section is not required for non-Title I schools.

Describe how the school plans to build positive relationships with parents, families, and other community stakeholders to fulfill the school's mission and support the needs of students.

n/a

PFEP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

n/a

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

n/a

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

n/a

Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

n/a

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.
