School Board Approval

This plan was approved by the Duval County School Board on 10/1/2019.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

School Board Approval

This plan was approved by the Duval County School Board on 10/1/2019.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at https://www.floridaCIMS.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Engaging students in a 21st century, virtual learning environment for a lifetime of success.

Provide the school's vision statement.

"Onward Online - Students succeeding in Their World."

School Leadership Team

Membership

Identify the name, email address and position title for each member of the school leadership team:

Name	Title	Job Duties and Responsibilities
Ertel, Mark	Principal	
Elkins, Dawn	Assistant Principal	

Early Warning Systems

Current Year

The number of students by grade level that exhibit each early warning indicator listed:

Indicator		Grade Level													
maicator	K	1	2	3	4	5	6	7	8	9	10	11	12	Total	
Number of students enrolled	12	5	4	5	5	6	17	14	19	19	26	28	25	185	
Attendance below 90 percent	0	0	0	1	0	0	2	0	1	0	2	0	4	10	
One or more suspensions	0	0	0	0	0	0	0	0	0	0	0	0	0

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

5th grade Math showed the lowest performance of all subgroups. Our curriculum provider had a new product that did not function properly. Although the content was aligned to State Standards, the accessibility was limited and caused many students to miss critical components of instruction.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Grade 7 Math showed the greatest decline from the prior year. However, our score is ranked 13 of 50 total schools that received a score in our district, which is the top 26% of our district. Individual Student Data reflects the following:

3 of 22 students scored Level 1

1 student did not earn a score

We will continue to focus on instruction in content standards. We will continue to offer help to identified students through tutoring and ramp up sessions differentiated as needed for individual students.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

School data is pending the State's approval of a school grade waiver. Once received, the State will post the data to the system.

Which data component showed the most improvement? What new actions did your school take in this area?

ELA Achievement and ELA Learning Gains both showed the largest improvement with 10 and 12 point gains respectively. ELA Achievement is also 8 points higher than the state average. Our ELA department implemented a series of Boot Camp sessions designed to differentiate instruction for our lowest performing students in their areas of greatest need.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

The school-wide AAIT (Academic and Attendance Intervention Team) will follow established protocols of the AAIT process and monitor all students, including EWS students and all others, as well.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 1. Increase the percent of students tested from 92% to 95%.
- 2. Increase Math Achievement from 54% to 62% to match the state average.
- 3. Increase Math Learning Gains from 44% to 57% to match the district average.
- 4. Earn Social Studies Achievement points at district average or higher.
- 5. Maintain ELA Achievement; not dropping below the state or district average.

Part III: Planning for Improvement

Areas of Focus:	
#1	
Title	Increase percent of students tested from 92% to 95%.
Rationale	The percent tested needs to equate to a minimum of 95% in order to earn a School Grade.
State the measurable outcome the school plans to achieve	95% of eligible students tested.
Person responsible for monitoring outcome	Mark Ertel (ertelm@duvalschools.org)
Evidence-based Strategy	Using multiple means of communication and verification of enrollment status, and required assessments.
Rationale for Evidence-based Strategy	This strategy allows for the most means of communication and explanation of requirements to the highest number of stakeholders.
Action Step	
Description	 Identification of appropriate students to receive communications. Conduct notifications via telephone, email and messaging systems at appropriate intervals throughout the testing season.
Person Responsible	Mark Ertel (ertelm@duvalschools.org)

#2	
Title	Increase Math achievement from 54% to 62%.
Rationale	Math achievement needs to equal or exceed the State average.
State the measurable outcome the school plans to achieve	The school plans to achieve 62% proficiency in Math.
Person responsible for monitoring outcome	Mark Ertel (ertelm@duvalschools.org)
Evidence-based Strategy	Teachers will conduct tutoring and ramp up sessions for all students who fall below level 3 at appropriate intervals, increasing in frequency throughout the school year.
Rationale for Evidence- based Strategy	In the 18-19 school year, the majority of students who were low performing and attended the sessions, performed at higher proficiency than in prior years.
Action Step	
Description	 Offer differentiated tutoring/instructional sessions for all struggling students in both physical and virtual environments. Plan boot camp/ramp up sessions for high impact instruction as needed for small groups of students Conduct boot camp/ramp up sessions to coincide with the testing season. Offer incentives for student participation to encourage students to attend.
Person Responsible	Mark Ertel (ertelm@duvalschools.org)
#3	
#3 Title	Increase Math Learning Gains from 44% to 57% to match the district average.
Title	average.
Title Rationale State the measurable outcome the school plans	average. Math Learning Gains need to equal or exceed the district average.
Title Rationale State the measurable outcome the school plans to achieve Person responsible for	average. Math Learning Gains need to equal or exceed the district average. The school plans to increase Learning Gains to 57% in Math.
Title Rationale State the measurable outcome the school plans to achieve Person responsible for monitoring outcome	average. Math Learning Gains need to equal or exceed the district average. The school plans to increase Learning Gains to 57% in Math. Mark Ertel (ertelm@duvalschools.org) Teachers will conduct tutoring and ramp up sessions for all students who fall below level 3 at appropriate intervals, increasing in frequency throughout
Title Rationale State the measurable outcome the school plans to achieve Person responsible for monitoring outcome Evidence-based Strategy Rationale for Evidence-	Math Learning Gains need to equal or exceed the district average. The school plans to increase Learning Gains to 57% in Math. Mark Ertel (ertelm@duvalschools.org) Teachers will conduct tutoring and ramp up sessions for all students who fall below level 3 at appropriate intervals, increasing in frequency throughout the school year. In the 18-19 school year, the majority of students who were low performing and attended the sessions, performed at higher proficiency than in prior
Title Rationale State the measurable outcome the school plans to achieve Person responsible for monitoring outcome Evidence-based Strategy Rationale for Evidence-based Strategy	Math Learning Gains need to equal or exceed the district average. The school plans to increase Learning Gains to 57% in Math. Mark Ertel (ertelm@duvalschools.org) Teachers will conduct tutoring and ramp up sessions for all students who fall below level 3 at appropriate intervals, increasing in frequency throughout the school year. In the 18-19 school year, the majority of students who were low performing and attended the sessions, performed at higher proficiency than in prior

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

•	III.A.	Areas of Focus: Increase percent of students tested from 92% to 95%.	\$0.00
2	III.A.	Areas of Focus: Increase Math achievement from 54% to 62%.	\$0.00
**	III.A.	Areas of Focus: Increase Math Learning Gains from 44% to 57% to match the district average.	\$0.00
		Total:	\$0.00
